Indiana ESP facilities must submit an Annual Performance Report (APR) by **April 1st** of every year, for each calendar year in which the entity has been a member for at least three (3) full months. Membership terms are renewed every four (4) years through submitting your APR. Your APR should be reviewed and signed by a senior manager at your facility prior to submittal. Once signed, e-mail the APR to IDEM at esp@idem.IN.gov. Please do not include any confidential business information in your annual performance report. **Public access laws require IDEM to make the APR publicly available**, which may include posting all portions of your report on the Indiana ESP Web site. SECTION E

ENVIRONMENTAL IMPROVEMENT INITIATIVE RESULTS

Why do we need this information?

Facilities need to share the results of the environmental improvement initiative that was pursued during the reporting period. IDEM needs to report cumulative program reduction results.

What do you need to do?

Reference Section F for "Category" and "Indicator" options to complete this section. Summarize your facility's progress on achieving the initiative you identified in the application or last year's APR. For assistance, please call (800) 988-7901 or email esp@idem.IN.gov.

Initiative #1

Category 1: Reduce NPE's Indicator 1: % of total production	Baseline (indicate measurement unit)	Current (indicate measurement unit)	Cost Savings
Calendar year	2018	2020	
Actual quantity (per year)	39,848 lbs	26,322 lbs	
Production unit (select one)	Earned Labor Hours Production units X Production lbs. Other -- specify (e.g. Gallons, length, etc.)		
Production Quantity	22,797,961	23,832,186	NA
Normalization factor (Current year production ÷ Baseline year production) 1.05			
Normalized quantity (Actual current year quantity - Actual baseline quantity) x Normalization factor -14,202 lbs			
Briefly describe how you achieved improvements for environmental initiative #1 or, if relevant, any circumstances that delayed progress. Results were achieved by researching and replacing NPE surfactants with more environmentally friendly materials where practical.			

Initiative #2

Category 2: Reduce phosphorous in wastewater Indicator 2: lbs discharged	Baseline (indicate measurement unit)	Current (indicate measurement unit)	Cost Savings
Calendar year	2019	2020	
Actual quantity (per year)	1977 lbs	2211 lbs	
Production unit (select one)	Earned Labor Hours Production units Production lbs.		

	Other – specify (e.g. Gallons, length, etc.)		
Production Quantity	21,345,792	23,832,186	NA
Normalization factor (Current year production + Baseline year production) 1.12			
Normalized quantity (Actual current year quantity - Actual baseline quantity) x Normalization factor 262 lbs			
Briefly describe <i>how</i> you achieved improvements for environmental initiative #2 or, if relevant, any circumstances that delayed progress. The pandemic caused a spike in sales of types of product that result in higher phosphorous loading, However, phosphorous as a % of production only increased very slightly.			

SECTION E

ENVIRONMENTAL IMPROVEMENT INITIATIVE RESULTS
CONTINUED

Initiative #3

Category 3: Indicator 3:	Baseline (indicate measurement unit)	Current (indicate measurement unit)	Cost Savings
Calendar year			
Actual quantity (per year)			
Production unit (select one)	Earned Labor Hours Other -- specify (e.g. Gallons, length, etc.)	Production units	Production lbs.
Production Quantity			NA
Normalization factor (Current year production + Baseline year production)			
Normalized quantity (Actual current year quantity - Actual baseline quantity) x Normalization factor			
Briefly describe how you achieved improvements for environmental initiative #3 or, if relevant, any circumstances that delayed progress.			
<p>1. Briefly describe the <i>impacts or wastes</i> eliminated resulting from the environmental initiative(s). If multiple initiatives, please indicate which specifically. For Initiative 1, we reduced use of nonylphenol ethoxylate surfactants, both in actual pounds used and as a percentage of total pounds of product blended during the calendar year. For Initiative 2, phosphorous discharge levels relative to pounds produced were effectively maintained even though the pandemic caused a significant shift in types of product produced and the raw materials required.</p>			
<p>2. Are there other best management practices (BMPs) you can share correlating to your initiative(s)? Madison Chemical operates an on-site biological wastewater treatment system, which mitigates much of the organic material used in the chemical blending process. The facility is designed to prevent any liquid escapes to the environment. All process rinse waters are captured and their ultimate fate (processing in the wastewater system or removal by a qualified third party) are under the complete control of Madison Chemical.</p>			
<p>3. If the objectives and targets associated with the environmental improvement initiative(s) were not attained, please verify continued progress toward the environmental initiative(s). If multiple initiatives, please indicate which specifically. While the Coronavirus pandemic had a negative effect on our ability to reduce phosphorous discharge, we anticipate being able to improve performance in 2021.</p>			
<p>4. Please provide a narrative summary of progress made toward <i>qualitative, significant</i> EMS objectives and targets, if any. Reducing use of NPE surfactants and phosphorous discharged to the city addresses Madison Chemical aspects and impacts relating to hazardous chemical use in production, the potential for chemical release/pollution and hazardous waste management, which improves conditions for the company and the community.</p>			
<p>5. Please list any state, U.S. EPA, or other partnership programs to which you are reporting this data (e.g., Energy Star, Project XL). NPE surfactants became SARA 313 reportable for RY2019 and Madison Chemical duly reported its total use of said surfactants. Phosphorous discharge is monitored internally, though not yet required by our wastewater permit.</p>			
<p>6. Is your entity willing to share the environmental improvement initiative(s) and its best management practices (BMPs) at the ESP Annual Meeting and/or a Partners for Pollution Prevention quarterly meeting or conference? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
