
Table of Contents

Chapter One – Portland Cement Concrete Pavement

Description.....	1-1
Types of Concrete Pavement	1-3
Plain Concrete Pavement	
Plain Concrete Pavement with Joints	
Reinforced Concrete Pavement with Joints	
Continuously Reinforced Concrete Pavement	
Cement Concrete Bridge Approach Pavement	

Chapter Two – Preparation of the Grade

Grade Preparation	2-1
Subgrade	2-1
Subbase.....	2-3

Chapter Three – Concrete Job Control

Materials	3-1
Aggregates	
Portland Cement	
Fly Ash	
Water	
Testing Equipment Calibration.....	3-5
Reference Documents.....	3-6
Safety.....	3-6
Sampling Concrete.....	3-7
Sampling from Concrete Trucks	
Sampling from Grade	
Sampling from Central Mixed Plant	
Testing Concrete.....	3-11
Pressure Method for Air content	
Volumetric Method for Air Content	
Unit Weight and Relative Yield	
Slump	
Making and Curing Test Specimens in the Field	
Flexural Strength	
Water/Cementitious Ratio	
Curing Concrete	3-13
Failed Materials.....	3-14

Chapter Four- Equipment

Concrete Plants	4-1
Central Mix Plant	
Ready-Mix Plant	
Delivery Equipment	4-3
Paving Equipment	4-5
Finishing Machine	
Spreader	
Slip-Form Pavers	
Hand Placement Equipment	
Tining Machine	
Vibrators	
Hand Equipment	4-9
10 Ft Straightedge	
Tining	
Hand-Held Vibrators	
Saws	4-12
Forms	4-12

Chapter 5 – Setting Forms

Form Fitness	5-1
Base Support	5-2
Form Setting	5-2
Grade and Alignments	5-2

Chapter 6 – The Paving Operation

Condition of Grade	6-1
Dowel Bars and Assemblies	6-2
Plant Technician.....	6-4
Mixing Concrete	6-4
Weather Restrictions	6-6
Placing Concrete	6-6
Placement of Reinforcing Steel	6-8
Strike Off, Consolidation, and Finishing	6-9
Floating	
Checking Finish and Surface Corrections	
Tining	
Edging	
Edge Slump	6-14
Permanent Dates and Stations	6-14
Curing	6-16
Wet Burlap	
Wet Straw	
Waterproof Blankets	
Ponding	
Curing Compound	
Protection from Rain	6-18
Removal of Forms	6-18

Chapter 7 – Pavement Joints

Types of Joints	7-2
D-1 Contraction Joints	
Longitudinal Joints	
Transverse Construction Joints	
Terminal Joints	
Expansion Joints	
Retro-fitted Tie Bars	
Sealing Joints	7-10

Chapter 8 – Other Pavement Details and Requirements

Ear Construction	8-1
Pavement Smoothness	8-2
Protection of Pavement	8-3
Opening Pavement to Traffic	8-3
Construction Vehicles	
Non-Construction Vehicles	
Pavement Thickness	8-4
Coring	
Core Measurements	
Deficient Pavement Thickness.....	8-6
PCCP Adjusted Payment	
PCCP Non-Payment	
PCCP Removal	
Method of Measurement and Basis of Payment	8-7

Chapter Nine- Concrete Pavement Patching

Materials	9-1
Concrete Mix Design.....	9-2
Concrete Mix Criteria.....	9-2
Trial Batch Demonstration of CMD.....	9-3
Acceptance.....	9-4
Removal of Concrete.....	9-4
Partial Depth Patches	
Full Depth Patches	
Placement of Patching Materials.....	9-5
Partial Depth Patches	
Full Depth Patches	
Curing.....	9-7
Method of Measurement.....	9-8
Basis of Payment.....	9-8

Chapter 10 – Quality Assurance

Sublots and Lots.....	10-1
Random Sampling.....	10-2
Random Numbers	
Sample Location – Plastic Concrete	
Sample Location – Cores	
Sampling Procedure	
Trial Batch Demonstration.....	10-7
Acceptance Testing.....	10-8
Flexural Strength	
Air Content	
Unit Weight	
Water/Cementitious	
Thickness	
Smoothness	
Pay Factors.....	10-10
Flexural Strength	
Air Content	
Air Content Range	
Thickness	
Smoothness	
Quality Assurance Adjustment.....	10-13
Flexural Strength, Air Content, Air Content Range	
Thickness	
Smoothness	
Total Quality Assurance Adjustment	
Failed Materials.....	10-16
Appeals.....	10-16
Flexural Strength Appeal for Sublot	
Air Content Appeal for Sublot
