**SECTION E ENVIRONMENTAL IMPROVEMENT INITIATIVE RESULTS**

**Why do we need this information?**

Facilities need to share the results of the environmental improvement initiative that was pursued during the reporting period. IDEM needs to report cumulative program reduction results.

**What do you need to do?**

Reference Section F for "Category" and "Indicator" options to complete this section. Summarize your facility's progress on achieving the initiative you identified in the application or last year's APR. For assistance, please call (800) 988-7901 or email [esp@idem.IN.gov](mailto:esp@idem.IN.gov).

Normalized quantity (Actual current year quantity - Actual baseline quantity) x Normalization factor Production did not effect this project

Briefly describe how you achieved improvements for this environmental initiative or, if relevant, any circumstances that delayed progress.  
This project achieved energy savings by replacing T8 LED lamps with LED lamps. Not only will this save energy for years to come it will also reduce waste from avoiding T8 lamps and ballast failing over time.

Briefly describe how you achieved improvements for this environmental initiative or, if relevant, any circumstances that delayed progress. Fort Wayne Assembly has roughly 103 natural gas fired dock door heaters throughout the plant. During multiple energy walks it has been found that many dock door heater thermostats have been set above correct setpoint, usually set to 90F. This causes the dock door heaters to run all the time and not cycle on and off. This project proposes to install a temp-limiter inline with the thermostat and the heater. This temp-limiter will sense the temperature and when it reached 70F it will open an internal relay which will shutdown the heater.			
1. Briefly describe the impacts or wastes eliminated resulting from the environmental initiative(s). If multiple initiatives, please indicate which specifically.			
2. Are there other best management practices (BMPs) you can share correlating to your initiative(s)?			
3. If the objectives and targets associated with the environmental improvement initiative(s) were not attained, please verify continued progress toward the environmental initiative(s). If multiple initiatives, please indicate which specifically.			
4. Please provide a narrative summary of progress made toward qualitative, significant EMS objectives and targets, if any.			
5. Please list any state, U.S. EPA, or other partnership programs to which you are reporting this data (e.g., Energy Star, Project XL).
