This information will help IDEM to effectively manage the Environmental Stewardship Program.

What do you need to do?

Answer the questions as completely as possible.

1. In addition to ESP, please list environmental awards received or voluntary programs participated in during the past twelve (12) months.

SECTION E

ENVIRONMENTAL IMPROVEMENT INITIATIVE RESULTS

Why do we need this information?

Facilities need to share the results of the environmental improvement initiative that was pursued during the reporting period. IDEM needs to report cumulative program reduction results.

What do you need to do?

Reference Section F for "Category" and "Indicator" options to complete this section. Summarize your facility's progress on achieving the initiative you identified in the application or last year's APR. For assistance, please call (800) 988-7901 or email esp@idem.IN.gov.

Initiative #1

Category 1: <u>Water</u> Indicator 1: <u>Chemical Use</u>	Baseline (indicate measurement unit)	Current (indicate measurement unit)	Cost Savings
Calendar year	38,720,000 gallons of water	17,387,500 gallons of water	26,417 per month
Actual quantity (per year)	409,954	372,156	2,035 per month
Production unit (select one)	Earned Labor Hours Production units Production lbs. Other – specify (e.g. Gallons, length, etc.) <u>Trucks</u>		
Production Quantity			NA
Normalization factor (Current year production ÷ Baseline year production) <u>Production did not effect this project</u>			
Normalized quantity (Actual current year quantity - Actual baseline quantity) x Normalization factor <u>Production did not effect this project.</u>			
Briefly describe how you achieved improvements for environmental initiative #1 or, if relevant, any circumstances that delayed progress. The current process has logic in the incorrect position for the proper counter flow in Pretreat stages, therefore consistently calling for new RO water instead of previous stage makeup. This has caused increased usage of RO water, treatment of chemicals for the RO water, industrial waste, and chemicals to treat the industrial waste. We were experiencing a high usage in chemical and water so we brought in PPG experts to evaluate the situation.

Initiative #2

Category 2: _____ Indicator 2: _____	Baseline (indicate measurement unit)	Current (indicate measurement unit)	Cost Savings
Calendar year			
Actual quantity (per year)			
Production unit (select one)	Earned Labor Hours Other -- specify (e.g. Gallons, length, etc.)	Production units	Production lbs.
Production Quantity			NA
Normalization factor (Current year production ÷ Baseline year production)			
Normalized quantity (Actual current year quantity - Actual baseline quantity) × Normalization factor			
Briefly describe <i>how</i> you achieved improvements for environmental initiative #2 or, if relevant, any circumstances that delayed progress. This expert found the current process and made recommendations to change the operation, thus lowering RO water, industrial waste, and chemical usage.			

Initiative #3

Category 3: _____ Indicator 3: _____	Baseline (indicate measurement unit)	Current (indicate measurement unit)	Cost Savings
Calendar year			
Actual quantity (per year)			
Production unit (select one)	Earned Labor Hours Other -- specify (e.g. Gallons, length, etc.)	Production units	Production lbs.
Production Quantity			NA
Normalization factor (Current year production ÷ Baseline year production)			
Normalized quantity (Actual current year quantity - Actual baseline quantity) × Normalization factor			
Briefly describe <i>how</i> you achieved improvements for environmental initiative #3 or, if relevant, any circumstances that delayed progress.			

1. Briefly describe the *impacts or wastes* eliminated resulting from the environmental initiative(s). If multiple initiatives, please indicate which specifically.

2. Are there other best management practices (BMPs) you can share correlating to your initiative(s)?

3. If the objectives and targets associated with the environmental improvement initiative(s) were not attained, please verify continued progress toward the environmental initiative(s). If multiple initiatives, please indicate which specifically.

4. Please provide a narrative summary of progress made toward *qualitative, significant* EMS objectives and targets, if any.

5. Please list any state, U.S. EPA, or other partnership programs to which you are reporting this data (e.g., Energy Star, Project XL).

6. Is your entity willing to share the environmental improvement initiative(s) and its best management practices (BMPs) at the ESP Annual Meeting and/or a Partners for Pollution Prevention quarterly meeting or conference? ☐ Yes ☐ No
