Mr. Paul Boone
Project Manager
Indiana Department of Transportation
Seymour District/Falls City Sub-District
5701 Highway US 31
Clarksville, IN 47129

RE: Louisville – Southern Indiana
Ohio River Bridges Project (Project)

Dear Mr. Paul Boone:

In September 2003, a Memorandum of Agreement (MOA) was prepared by the Federal Highway Administration (FHWA) to mitigate the adverse effects of the referenced Project on historic properties in accordance with Section 106 of the National Historic Preservation Act (NHPA). During this process, your organization participated as a consulting party in the identification of resources, assessment of effects and development of the mitigation in the MOA. Since execution of the MOA, the FHWA, Indiana Department of Transportation (INDOT) and the Kentucky Transportation Cabinet (KYTC) have worked to satisfy various stipulations of the MOA.

The original Environmental Impact Statement (EIS) for the project was prepared between 1998 and 2003, and resulted in the issuance of a Final EIS on April 8, 2003 and a Record of Decision (ROD) on September 6, 2003. The project sponsors now propose to evaluate the environmental impacts of revising several elements of the Selected Alternative. A Notice of Intent to prepare a Supplemental Environmental Impact Statement (SEIS) was published in the *Federal Register* on February 15, 2011 by the FHWA. The SEIS will discuss the social, economic and environmental impacts associated with changes in the project area since the publication of the ROD in September 2003 and proposed modifications to the selected alternative (modified selected alternative). Additionally, federal-aid highway funds would be requested for the construction of the highway, bridges and approaches as toll facilities.

In association with preparation of the SEIS, we are reinitiating the Section 106 process for the project at this time. In our continuing effort to effectively incorporate consulting parties into the process in accordance with 36 CFR 800.2(c), you are hereby invited to join the Section 106 consultation as a consulting party. This process would involve efforts to identify any additional historic properties potentially affected by the undertaking and any modifications to existing historical properties, assess effects and seek ways to avoid, minimize or mitigate any additional adverse effects on historic properties. While FHWA, INDOT and KYTC are not proposing at this time to reopen the entire MOA for revision, the MOA may be amended to accommodate those changes that may occur due to the modified alternative or other changed circumstances resulting from the passage of time.

As the FHWA, INDOT and KYTC have worked to satisfy the stipulations of the MOA, some historic properties have undergone change or have been reevaluated. The Section 106 consultation will evaluate the area of potential effects to identify any additions or changes to the historic properties in this area. Consulting parties will be given an opportunity to submit information and provide comments on this assessment as part of the Section 106 consultation process.

If you want to participate in the Section 106 consultation process, please fill out the attached tri-fold mailer indicating your acceptance of being a consulting party. If you are aware of any historic properties beyond those already reviewed in the original EIS within the original area of potential effect that should be considered, please identify them in your reply.

An initial meeting of the Section 106 Consulting Parties will be held at 9:00 AM on June 1, 2011 in the Community Room at McCauley – Nicolas Center, 702 North Shore Drive in Jeffersonville, Indiana.

We hope that you will join the process as consulting party. If you have any questions, or if we can be of further assistance, please do not hesitate to contact this office. Your cooperation is appreciated.

Very truly yours,

Janice Osadcuk

Section 106 Consulting Party Members

RE: Louisville – Southern Indiana Ohio
River Bridges Project (Project)
Supplemental Environmental Impact
Statement (SEIS)

Dear Section 106 Consulting Party Members:

We contacted you by letter on April 18, 2011 with a request to join the referenced Project as a consulting party. To date, we have not yet heard from you. As such, this is a second request. Please review and return the enclosed mailer and check if you “do” or “do not” wish to be a consulting party. If you indicate on the mailer that you do not desire to be a consulting party, or if you do not return the mailer at all, you will not be included on the list of consulting parties for this Project. You are asked to return a reply within thirty (30) days of receipt of this letter. Thank you for your assistance.

Very truly yours,

Janice Osadczuk
Engineering Services Team Leader
Federal Highway Administration

SECTION 106 CONSULTING PARTIES LISTING

NAME	AGENCY	STREET ADDRESS	CITY, STATE AND ZIP	TELEPHONE	E-MAIL

Subject: RE: consulting party list, Ohio River Bridges

John,

I have received Janice Osadczyk's April 21 invitation to the June 1 initial consulting parties meeting for the LSIORB Project Section 106 reinitiation.

The response form asks for names of individuals and organizations that should be added as consulting parties. Mary Kennedy's e-mail reply below and the request on the form reminded me that I had heard Greg Sekula—if I recall correctly—suggest several organizations at the April 13 IHPAT meeting. Mary also mentioned some of Greg's suggestions, and I assume they were captured in the notes that CTS-GEC took, but just to make sure they don't fall through the cracks, I'm repeating below what I was able to capture from the list Greg mentioned. I should also mention that I am not endorsing any of these parties, although I have no reason at this time to doubt that any of them would be appropriate, additional consulting parties.

[Town of] Clarksville Historic Preservation Commission, Jane Sarles, Chair.
Preservation Louisville, Marianne Zuikher (sp?), contact
Preservation Kentucky, Rachel Kennedy, contact
City of New Albany [and I believe New Albany, like Jeffersonville, has a historic preservation commission that operates independently of the city administration]
Owner of the former Colgate-Palmolive plant, Dr. Jay Sheff, representative of the LLC

Also, Laura Renwick is an employee of Indiana Landmarks, but, as you may recall, she is the Jeffersonville Historic Preservation Commission's alternate representative to the IHPAT.

John L. Carr

BSHCT Chairs,

As was discussed with you last week, it is intended that we will be mailing out the invitation letter to the 106 Consultation team later this week. If you have any comments on the draft letter I provided you last week, please advise. Also, I have attached the original consulting party list. If you are aware of any new organizations that should be considered or changes in the listed organizations, also please provide us with your thoughts on the list.

Thanks!

Subject: re: Louisville - Southern Indiana Ohio River Bridges Project

Hello Ms. Osadcuk,

The Delaware Nation Cultural Preservation Department recently received an information packet from for an invitation to Become a Participating Agency on the Louisville – Southern Indiana Ohio River Bridges Project.

The Cultural Preservation Director, Ms. Tamara Francis has reviewed the info provided and the Delaware Nation will be a participating party and we please ask that you send updates and relevant reports to our office.

Thank you again for taking the time and effort to properly consult with the Delaware Nation and we look forward to working with you on the projects.

Sincerely,

Jason Ross

Museum/Section 106 Assistant

Re: Invitation to become a participating agency and SAFETEA-LU Sec. 6002 draft coordination plan (April 2011) of for the Supplemental Environmental Impact Statement for the Louisville-Southern Indiana Ohio River Bridges Project (Des. Nos. 0201294, 0700798, 0201296, and 0201297; DHPA No. 1774)

Dear Ms. Osadczyk:

Pursuant to NEPA and SAFETEA-LU, the staff of the Indiana State Historic Preservation Officer ("Indiana SHPO") has reviewed the information included in and with your April 6, 2011 letter, which we received on April 7, for the aforementioned project in Clark County, Indiana.

On behalf of the Indiana SHPO, we accept your invitation to become a participating agency in the reviews related to the anticipated supplemental environmental impact statement.

We have no comments on the draft coordination plan, except to say that we anticipate commenting on documents submitted for our formal review and attending meetings and joining in any conference calls to which the participating agencies are invited. However, to the extent that such meetings or conference calls might appear to us largely to duplicate our role in the reinitiated review process under Section 106 of the National Historic Preservation Act of 1966 for this project, we may focus our time and effort on the Section 106 process. It is our understanding that the Section 106 process forms the foundation for much of the review of impacts on cultural resources under the NEPA process.

If you have questions about archaeological issues, please contact Dr. Rick Jones at (317) 233-0953 or rjones@dnr.IN.gov. Questions about buildings or structures should be directed to John Carr at (317) 233-1949 or jcarr@dnr.IN.gov. In all future correspondence regarding the Louisville-Southern Indiana Ohio River Bridges Project, please refer to DHPA No. 1774.

Very truly yours,

James A. Glass, Ph.D.
Deputy State Historic Preservation Officer

Section 106 Consulting Party Members

RE: Louisville – Southern Indiana Ohio
River Bridges Project (Project)
Supplemental Environmental Impact
Statement (SEIS)

Dear Section 106 Consulting Party Members:

We contacted you by letter on April 18, 2011 with a request to join the referenced Project as a consulting party. To date, we have not yet heard from you. As such, this is a second request. Please review and return the enclosed mailer and check if you “do” or “do not” wish to be a consulting party. If you indicate on the mailer that you do not desire to be a consulting party, or if you do not return the mailer at all, you will not be included on the list of consulting parties for this Project. You are asked to return a reply within thirty (30) days of receipt of this letter. Thank you for your assistance.

Very truly yours,

Janice Osadczuk
Engineering Services Team Leader
Federal Highway Administration

The United Keetoowah Band of Cherokee Indians
in Oklahoma has no objection to the referenced
project. However, if any remains, artifacts or other
items are inadvertently discovered, please **cease**
construction immediately and contact us at 918-458-

**PROJECT(S): Comments regarding Louisville-Southern Ohio River Bridges Project
Supplemental Environmental Impact Statement.**

The Tribal Historic Preservation Office of the Eastern Band of Cherokee Indians (EBCI THPO) is in receipt of the notification to act as a consulting party for the above-referenced project information and would like to thank you for the opportunity to comment on this proposed section 106 activity. The EBCI THPO continues to accept the invitation to act as a consulting party on the above referenced section 106 undertaking as mandated under §36 C.F.R. 800.

The project's location is within aboriginal territory of the Cherokee People. Potential cultural resources important to the Cherokee people may be threatened due to adverse effects expected from the level of ground disturbance required for this project. Please continue to keep us updated and informed on project plans for review and comment.

If we can be of further service, or if you have any comments or questions, please feel free to contact me at (828) 554-6852.

Sincerely,

Tyler B. Howe
Tribal Historical Preservation Specialist
Eastern Band of Cherokee Indians

Ms. Betsy Bennett
Conservation Chair
Cumberland Chapter – Sierra Club of Kentucky
P.O. 1368
Lexington, KY 40588-1368

RE: Louisville – Southern Indiana
Ohio River Bridges Project (Project)

Dear Ms. Bennett:

In September 2003, a Memorandum of Agreement (MOA) was prepared by the Federal Highway Administration (FHWA) to mitigate the adverse effects of the referenced Project on historic properties in accordance with Section 106 of the National Historic Preservation Act (NHPA). Since execution of the MOA, the FHWA, Indiana Department of Transportation (INDOT) and the Kentucky Transportation Cabinet (KYTC) have worked to satisfy various stipulations of the MOA.

The original Environmental Impact Statement (EIS) for the project was prepared between 1998 and 2003, and resulted in the issuance of a Final EIS on April 8, 2003 and a Record of Decision (ROD) on September 6, 2003. The project sponsors now propose to evaluate the environmental impacts of revising several elements of the Selected Alternative. A Notice of Intent to prepare a Supplemental Environmental Impact Statement (SEIS) was published in the *Federal Register* on February 15, 2011 by the FHWA. The SEIS will discuss the social, economic and environmental impacts associated with changes in the project area since the publication of the ROD in September 2003 and proposed modifications to the selected alternative (modified selected alternative). Additionally, federal-aid highway funds would be requested for the construction of the highway, bridges and approaches as toll facilities.

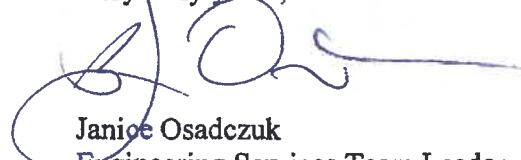

In association with preparation of the SEIS, we are reinitiating the Section 106 process for the project at this time. In our continuing effort to effectively incorporate consulting parties into the process in accordance with 36 CFR 800.2(c), you are hereby invited to join the Section 106 consultation as a consulting party. This process would involve efforts to identify any additional historic properties potentially affected by the undertaking and any modifications to existing historical properties, assess effects and seek ways to avoid, minimize or mitigate any additional adverse effects on historic properties. While FHWA, INDOT and KYTC are not proposing at this time to reopen the entire MOA for revision, the MOA may be amended to accommodate those changes that may occur due to the modified alternative or other changed circumstances resulting from the passage of time.

As the FHWA, INDOT and KYTC have worked to satisfy the stipulations of the MOA, some historic properties have undergone change or have been reevaluated. The Section 106 consultation will evaluate the area of potential effects to identify any additions or changes to the historic properties in this area. Consulting parties will be given an opportunity to submit information and provide comments on this assessment as part of the Section 106 consultation process.

If you want to participate in the Section 106 consultation process, please fill out the attached tri-fold mailer indicating your acceptance of being a consulting party. If you are aware of any historic properties beyond those already reviewed in the original EIS within the original area of potential effect that should be considered, please identify them in your reply.

We hope that you will join the process as consulting party. If you have any questions, or if we can be of further assistance, please do not hesitate to contact this office. Your cooperation is appreciated.

Very truly yours,

Janice Osadczuk
