Re: Clarifications to the Final 1-Hour Sulfur
Dioxide (SO₂) Attainment
Demonstration and Technical Support
Document for Central, West Central,
and Southwest Indiana Nonattainment
Areas

Dear Mr. Aburano:

On October 2, 2015, the Indiana Department of Environmental Management (IDEM) submitted the final *1-Hour Sulfur Dioxide Attainment Demonstration and Technical Support Document for Central, West Central, and Southwest Indiana Nonattainment Areas* for approval as an amendment to Indiana's State Implementation Plan (SIP). A number of questions regarding information provided in the submittal were discussed in recent conferences with the United States Environmental Protection Agency (U.S. EPA), Region 5, Attainment Planning and Maintenance Section. In response to U.S. EPA's inquiries, IDEM submits this clarification letter on behalf of the State of Indiana to resolve questions related the issues discussed.

- 1.) A more detailed description of how Indiana's emission inventories were determined and aggregated is needed.

Clarifying response: The following information further explains how Indiana's emission inventories were determined and aggregated. This information is provided in addition to the two paragraphs already contained in Section 2.3 Emission Inventories (Section 172(c)(3)).

IDEM has prepared a comprehensive emissions inventory for Daviess, Pike, Marion, Morgan, and Vigo Counties in Indiana, organized by anthropogenic source categories: electric-generating units (EGUs), non-EGUs, non-point (area), non-road, and on-road sources for SO₂ nonattainment areas for base year 2011.

IDEM's Office of Air Quality collects data, calculates, and stores emissions for point sources (i.e. EGU and non-EGUs) on an annual basis in the Emission

Inventory Tracking System (EMITS). These point source emissions are uploaded to the National Emissions Inventory (NEI) each year.^[1] U.S. EPA has also added other sources such as airport operations, which are now handled as point source emissions. Airport activities fall outside of the required reporting under Indiana Administrative Code 326 IAC 2-6 so therefore the airport operations emissions are obtained through the NEI.

For the 2011 base year inventory, emissions from point sources (i.e. EGU and non-EGUs) represent actual reported emissions. Airport, area, non-road, and on-road emissions were projected as described below.

Airport, area, non-road, and on-road emissions were compiled from the data available on U.S. EPA's Emissions Modeling Clearinghouse website.^[2] Using SO₂ NAAQS Emissions Modeling platform (2007/2008v5), data were obtained for the 2008 NEI year and the 2018 U.S. EPA projected inventory years. Using those data, airport, area, non-road, and on-road emissions for intervening years, including the 2011 base year, were interpolated between 2008 and 2014 and then between 2014 and 2020 for 2018. Biogenic emissions are not included in these summaries.

The data posted at the U.S. EPA's Air Emissions Inventories website include only the latest version of the 2011 NEI. This webpage should not be used as a reference for past versions of the NEI at a given point in time because the data posted on this site is often updated and may not necessarily be the same as the data shown for the same year posted at a different point in time.

- 2.) The Daviess and Pike counties nonattainment area is shown in two separate columns with separate results for each county in Table 5.2., 1-Hour SO₂ Nonattainment Area Attainment Demonstrations. This implies that there are two separate nonattainment areas instead of one.

Clarifying response: Since the Daviess/Pike nonattainment area includes both counties, the two separate columns for Daviess and Pike counties were combined into one column in the table below and show the combined result for this nonattainment area.

1-Hour SO₂ Nonattainment Area Attainment Demonstrations

County	Daviess/Pike	Marion	Morgan	Vigo
Modeled Concentration (µg/m ³)	170.0	168.6	11.3	167.0
Background Concentration (µg/m ³)	25.9	22.5	24.6	23.0
Total Concentration (µg/m³)	195.9	191.1	35.9	189.9
1-Hour SO₂ NAAQS (µg/m³) *	196.2	196.2	196.2	196.2
Models Below Standard?	Yes	Yes	Yes	Yes

*1-Hour SO₂ NAAQS of 75 ppb equates to 196.2 µg/m³ for modeling purposes

^[1] <https://www.epa.gov/air-emissions-inventories>

^[2] <https://www.epa.gov/air-emissions-modeling/2007-version-50-technical-support-document>

- 3.) sgSolutions modeling discussion in Section 5.8.3, 1-Hour SO₂ Attainment Demonstration for Nonattainment Area in Morgan County states that "sgSolutions will not model attainment at the allowable SO₂ emission limits." This sentence is incomplete because it does not specify that the model run was conducted for 8,760 operating hours. This should have been specified and is an especially important fact given that the next sentence goes on to discuss the process flare's historical data which indicates that it typically operates below 500 operating hours annually and was modeled with a 500 operating hour annual limit.

Clarifying response: The sentence "sgSolutions will not model attainment at the allowable SO₂ emission limits." should have included "for 8,760 operating hours" at the end for clarity and read as follows, "sgSolutions will not model attainment at the allowable SO₂ emission limits for 8,760 operating hours."

- 4.) Section 6, Contingency Measures, gives the impression that there are two contingency measures options.

Clarifying response: The paragraph below summarizes all paragraphs following the first paragraph in Section 6, Contingency Measures by providing the specific citation for Indiana's comprehensive program that identifies violating sources with compliance and enforcement follow-up.

Indiana has an aggressive compliance and enforcement program that would identify any potential sources of future NAAQS violations and would resolve such violations expeditiously. Indiana's enforcement program can be found in the Indiana Code (IC), Title 13, Articles 14 and 15, (IC 13-14 and IC 13-15). Therefore, Indiana's plan appropriately addresses contingency measure requirements.

- 5.) Provide documentation demonstrating that the Indianapolis Power and Light Company (IPL) intends to comply with the 30-day rolling average SO₂ emission limits proposed in the final *1-Hour Sulfur Dioxide Attainment Demonstration and Technical Support Document for Central, West Central, and Southwest Indiana Nonattainment Areas* for its Petersburg Power Generating Station.

Clarifying response: The Title V Operating Permit application for IPL's Petersburg Power Generating Station is attached to this letter in Attachment A. It describes the operational changes IPL intends to make at this facility to comply with the 30-day rolling average SO₂ emission limits.

- 6.) The protocol for sgSolutions' 30-day rolling average evaluation was not included in the final *1-Hour Sulfur Dioxide Attainment Demonstration and Technical Support Document for Central, West Central, and Southwest Indiana Nonattainment Areas* submittal.

Clarifying response: The 30-day rolling average protocol for establishing sgSolutions' 30-day rolling average SO₂ emission limits is the same protocol IPL used for establishing the Petersburg Power Generating Station's 30-day rolling average SO₂ emission limits.

- 7.) Spreadsheets with the data used for developing IPL Petersburg Power Generating Station's 30-day rolling average SO₂ emission limits and sgSolutions' 30-day rolling average SO₂ emission limits were submitted in pdf format. Commenters request the files in excel format so they can recreate and verify the results.

Clarifying response: Excel spreadsheets containing the data used for both facilities will be submitted with the hard copy and electronic version of this submittal. Units for the numbers in the table were added to the column headings in the sgSolutions table and the word "monitored" in the summary table shown on the right side of the table (columns AQ-AW) was changed to "modeled" for clarity.

- 8.) The October 2, 2015 submittal letter asks the U.S. EPA to approve and repeal 326 IAC 7-4-2, 326 IAC 7-4-3, and 326 IAC 7-4-11. Due to the timing of this action, it doesn't make sense to approve rules that the State has already repealed.

Clarifying response: Since the time the SIP revision request was submitted, the effective date of the repeal has passed. Therefore, IDEM is asking that U.S. EPA approve the repeal of 326 IAC 7-4-2, 326 IAC 7-4-3, and 326 IAC 7-4-11. It is no longer necessary to approve the revisions to 326 IAC 7-4-2, 326 IAC 7-4-3, and 326 IAC 7-4-11, as they are no longer effective.

Throughout the development of these amendments to the existing rules and the attainment demonstration, IDEM staff worked with U.S. EPA Region 5, to ensure that any potential concerns regarding the submission were addressed. We would appreciate U.S. EPA's continued efforts to communicate regularly with us as it reviews this clarification letter submittal, which consists of one (1) hard copy of the document with two excel files on a thumb drive and an electronic version of the submittal in PDF format that is identical to the hard copy with two excel files attached.

If you have any questions or need additional information concerning this matter, please contact, Jean Boling, at (317) 232-8228.

Sincerely,

Scott Deloney, Chief
Air Programs Branch
Office of Air Quality

State of Indiana

GR Hard Delivered

Dear Mr. Stuckey:

IPL - Petersburg Generating Station (IPL), located at 6925 N. State Road 57, Petersburg, IN, is submitting this application for a Significant Permit Modification. Attachment 1 is a proposed markup of the latest version of our Title V permit (see T125-37266-00002) with proposed changes. The specific changes requested include:

- IPL is suggesting revisions related to the new SO₂ SIP requirements, consistent with the specific provisions of the revised rule which became effective on January 1, 2017. The proposed SIP limits are based on the 30-day rolling average limits in the rules. On December 27, 2016 IPL notified IDEM of its intent to comply with the 30-day rolling average limits. A true and accurate copy of the December 27, 2016 Notification has been hereto as Attachment 2. IPL has qualified for use of the 30-day rolling average limits based on its demonstrated compliance with the one-hour limits in 326 IAC 7-4-15(a) for a 30-day consecutive period.
- IPL is proposing that compliance with the 30-day rolling average limits be deemed sufficient for also demonstrating compliance with the NSPS one hour SO₂ limit of 1.2 lbs/MMBtu in Condition D.2.2 for Units 3 & 4 and the 1.2 lbs/MMBtu BACT limit in Condition D.2.3(a) for Unit 4. IPL has demonstrated as part of the SO₂ SIP rule making process that compliance with the 30-day rolling average limits of 0.29 lbs/MMBtu and 0.27 lbs/MMBtu for Units 3 & 4 respectively is equivalent to meeting one hour limits of 0.37 lbs/MMBtu and 0.35 lbs/MMBtu for Units 3 & 4 respectively and since these one-hour limits are considerably more stringent than the 1.2 lb/MMBtu limit, we believe that compliance with the 30-day rolling average limits should also be sufficient to demonstrate compliance with the respective NSPS and BACT limits.

- IPL is proposing that Conditions D.1.14, D.2.9 and D.2.16 be deleted from the permit. D.1.14 and D.2.16 are provisions which provide for use of alternative SO₂ data consistent with the requirements of 40 CFR 75 Subpart D in the event an SO₂ CEMS is down and a backup CEMS is not brought on line. Backup CEMS have been installed on all stacks and as such we do not anticipate that a backup CEMS cannot be brought on line. Similarly, Condition D.2.9 provides the alternative of using coal sampling and analysis data consistent with 40 CFR 60, Subpart D to demonstrate compliance with the SO₂ limit in Condition D.2.3(a) when a backup CEMS cannot be provided. We also do not believe that this provision is needed in the permit since backup SO₂ CEMS are now operational on Units 3 & 4 and as noted above we are requesting that compliance with the 30-day rolling average SIP limit be deemed compliant with the 1.2 lb/MMBtu limit in Condition D.2.3(a).
- IPL is requesting that the D.1.11 and D.2.14 related to requirements of an Order of the Commissioner regarding compliance with 40 CFR Part 63, Subpart UUUU (MATS rule) be removed from the permit since IPL has now fully complied with this rule and the Order.
- IPL is requesting that the reference to Hg and HCL monitoring in conditions D.1.8 and D.2.11 be removed since there are no specific provisions for Hg or HCL in these sections of the permit. Hg and HCL monitoring is required as part of the MATS rule as contained in the specific provisions in Condition E.1 of the current permit.
- We have proposed minor changes to the description of Unit 2 to remove the reference to the optional use of an ESP for particulate control since this unit uses a baghouse only. Similarly, we are proposing that the description of Unit 3 be modified to indicate that this unit uses both an ESP and a baghouse for particulate control.
- A number of conditions in Sections D.1 and D.2 of the permit indicate that those conditions would no longer apply once the installation of PM CEMS is complete. IPL has installed PM CEMS on all 4 units and as such these conditions can now be removed from the permit. The specific sections of the permit that should be deleted include:
 - D.1.2 Startup, Shutdown and Other Opacity Limits
 - D.1.6 Testing Requirements
 - D.1.9 Continuous Opacity Monitoring
 - D.1.12 Electrostatic Precipitator (ESP) Monitoring
 - D.1.13 Opacity Readings - Response Steps
 - D.2.4 Startup, Shutdown and Other Opacity Limits
 - D.2.8 Testing Requirements
 - D.2.12 Continuous Opacity Monitoring
 - D.2.15 Electrostatic Precipitator (ESP) Monitoring

AIR PERMIT APPLICATION COVER SHEET
State Form 50830 (R4 / 1-10)
INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

IDEM - Office of Air Quality - Permits Branch
100 N. Senate Avenue, MC 61-63 Room 1003
Indianapolis, IN 46204-2251
Telephone: (317) 233-0178 or
Toll Free: 1-800-451-6027 x30178 (within Indiana)
Facsimile Number: (317) 232-6749

NOTES:

- The purpose of this cover sheet is to obtain the core information needed to process the air permit application. This cover sheet is required for all air permit applications submitted to IDEM, OAQ. Place this cover sheet on top of all subsequent forms and attachments that encompass your air permit application packet.
- Submit the completed air permit application packet, including all forms and attachments, to IDEM Air Permits Administration using the address in the upper right hand corner of this page.
- IDEM will send a bill to collect the filing fee and any other applicable fees.
- Detailed instructions for this form are available on the Air Permit Application Forms website.

FOR OFFICE USE ONLY

PERMIT NUMBER:

DATE APPLICATION WAS RECEIVED:

1. Tax ID Number:

PART A: Purpose of Application

Part A identifies the purpose of this air permit application. For the purposes of this form, the term "source" refers to the plant site as a whole and NOT to individual emissions units.

2. Source / Company Name: IPL - Petersburg Generating Station

3. Plant ID: 125 - 0002

4. Billing Address: 6925 N. State Road 57

City: Petersburg

State: IN

ZIP Code: 47567 -

5. Permit Level: ☐ Exemption ☐ Registration ☐ SSOA ☐ MSOP ☐ FESOP ☒ TVOP ☐ PBR

6. Application Summary: Check all that apply. Multiple permit numbers may be assigned as needed based on the choices selected below.

- | | | |
|---|---|--|
| <input type="checkbox"/> Initial Permit | <input type="checkbox"/> Renewal of Operating Permit | <input type="checkbox"/> Asphalt General Permit |
| <input type="checkbox"/> Review Request | <input type="checkbox"/> Revocation of Operating Permit | <input type="checkbox"/> Alternate Emission Factor Request |
| <input type="checkbox"/> Interim Approval | <input type="checkbox"/> Relocation of Portable Source | <input type="checkbox"/> Acid Deposition (Phase II) |
| <input type="checkbox"/> Site Closure | <input type="checkbox"/> Emission Reduction Credit Registry | |

☐ Transition (between permit levels)

From:

To:

☐ Administrative Amendment:

☐ Company Name Change

☐ Change of Responsible Official

☐ Correction to Non-Technical Information

☐ Notice Only Change

☐ Other (specify):

☒ Modification:

☐ New Emission Unit or Control Device

☐ Modified Emission Unit or Control Device

☐ New Applicable Permit Requirement

☐ Change to Applicability of a Permit Requirement

☐ Prevention of Significant Deterioration

☐ Emission Offset

☐ MACT Preconstruction Review

☐ Minor Source Modification

☐ Significant Source Modification

☐ Minor Permit Modification

☒ Significant Permit Modification

☐ Other (specify):

7. Is this an application for an initial construction and/or operating permit for a "Greenfield" Source? ☐ Yes ☒ No

8. Is this an application for construction of a new emissions unit at an Existing Source? ☐ Yes ☒ No

PART B: Pre-Application Meeting

Part B specifies whether a meeting was held or is being requested to discuss the permit application.

9. Was a meeting held between the company and IDEM prior to submitting this application to discuss the details of the project?

☐ No ☒ Yes: Date: 3-20-17

10. Would you like to schedule a meeting with IDEM management and your permit writer to discuss the details of this project?

☒ No ☐ Yes: Proposed Date for Meeting:

PART C: Confidential Business Information

Part C identifies permit applications that require special care to ensure that confidential business information is kept separate from the public file.

Claims of confidentiality must be made at the time the information is submitted to IDEM, and must follow the requirements set out in the Indiana Administrative Code (IAC). To ensure that your information remains confidential, refer to the IDEM, OAQ information regarding submittal of confidential business information. For more information on confidentiality for certain types of business information, please review IDEM's Nonrule Policy Document Air-031-NPD regarding Emission Data.

11. Is any of the information contained within this application being claimed as **Confidential Business Information**?

☒ No ☐ Yes

PART D: Certification Of Truth, Accuracy, and Completeness

Part D is the official certification that the information contained within the air permit application packet is truthful, accurate, and complete. Any air permit application packet that we receive without a signed certification will be deemed incomplete and may result in denial of the permit.

For a Part 70 Operating Permit (TVOP) or a Source Specific Operating Agreement (SSOA), a "responsible official" as defined in 326 IAC 2-7-1(34) must certify the air permit application. For all other applicants, this person is an "authorized individual" as defined in 326 IAC 2-1.1-1(1).

☒ I certify under penalty of law that, based on information and belief formed after reasonable inquiry, the statements and information contained in this application are true, accurate, and complete.

Jeffrey A. Harter

Date

3-28-2017

- While IPL has installed CEMS on the by-pass stacks on Units 1 & 2, the use of these stacks for by-pass has been significantly reduced as we cannot comply with the SO₂ SIP if we by-pass the main stacks for any significant number of hours. We have not used the by-pass stacks on Units 1 & 2 in December 2016 or January or February 2017 and expect very limited use of the by-pass stacks in the future. Since we are only using the by-pass stacks on a very limited basis, we cannot fulfill the QA/QC requirements for the CEMS on these stacks unless we actually use the bypass and this would not allow us to comply with the SO₂ limits. The "MATS" rule at 40 CFR 63.10010(a)(4)(ii) includes a provision which would only require a PM CEMS on the main stack where it is not feasible to certify and quality assure the data from a monitoring system on the bypass stack. We would request that the permit be modified to include a similar provision where it is not possible to "certify and quality assure the data" from any monitoring system on the by-pass stack.

In addition to the attached proposed language in Attachment 1 we have attached a signed copy of the cover form and a GSD-01 form in Attachment 3. A copy of this application will be sent to the Pike County Public Library. If you have any additional questions, please contact Justin Barrett of IPL Environmental Policy at 317-261-8658 or at justin.barrett@aes.com.

Sincerely,
Indianapolis Power & Light Company

<input checked="" type="checkbox"/> No <input type="checkbox"/> Yes - Provide information regarding past company names in Part I, Company Name History.	
13. Portable Source Location History: Will the location of the portable source be changing in the near future?	
<input checked="" type="checkbox"/> Not Applicable <input type="checkbox"/> No <input type="checkbox"/> Yes - Complete Part J, Portable Source Location History, and Part K, Request to Change Location of Portable Source.	
14. Existing Approvals: Have any exemptions, registrations, or permits been issued to this source?	
<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes - List these permits and their corresponding emissions units in Part M, Existing Approvals.	
15. Unpermitted Emissions Units: Does this source have any unpermitted emissions units?	
<input checked="" type="checkbox"/> No <input type="checkbox"/> Yes - List all unpermitted emissions units in Part N, Unpermitted Emissions Units.	
16. New Source Review: Is this source proposing to construct or modify any emissions units?	
<input checked="" type="checkbox"/> No <input type="checkbox"/> Yes - List all proposed new construction in Part O, New or Modified Emissions Units.	
17. Risk Management Plan: Has this source submitted a Risk Management Plan?	
<input type="checkbox"/> Not Required <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes → Date submitted: 4/19/2004	

EPA Facility Identifier: 1000 - 0018 - 5729

PART C: Source Contact Information

IDEM will send the original, signed permit decision to the person identified in this section. This person MUST be an employee of the permitted source.

18. Name of Source Contact Person: Jeffrey A. Harter

19. Title (optional): Environmental Team Leader

20. Mailing Address: P.O. Box 436

City: Petersburg

State: IN

ZIP Code: 47567 -

21. Electronic Mail Address (optional):

22. Telephone Number: (812) 354 - 7222

23. Facsimile Number (optional): () -

PART D: Authorized Individual/Responsible Official Information

IDEM will send a copy of the permit decision to the person indicated in this section, if the Authorized Individual or Responsible Official is different from the Source Contact specified in Part C.

24. Name of Authorized Individual or Responsible Official: Jeffrey A. Harter

25. Title: Plant Leader

26. Mailing Address: P.O. Box 436

City: Petersburg

State: IN

ZIP Code: 47567 -

27. Telephone Number: (812) 354 - 7222

28. Facsimile Number (optional): () -

29. Request to Change the Authorized Individual or Responsible Official: Is the source officially requesting to change the person designated as the Authorized Individual or Responsible Official in the official documents issued by IDEM, OAQ? The permit may list the title of the Authorized Individual or Responsible Official in lieu of a specific name.

☒ No

☐ Yes - Change Responsible Official to:

PART E: Owner Information

30. Company Name of Owner: IPL

31. Name of Owner Contact Person: Jeffrey A. Harter

32. Mailing Address: P.O. Box 436

Mr. Phil Perry
Branch Chief
IDEM Office of Air Quality- Compliance & Enforcement
100 North Senate Avenue, IGCN 1003
Indianapolis, IN 46204

RE: IPL Petersburg (Source ID 125-00002) Notice of Compliance Option for Sulfur Dioxide ("SO₂") Emission Limitations Pursuant to 326 IAC 7-4-15(e).

To Whom It May Concern:

Indianapolis Power & Light Company—Petersburg Generating Station ("IPL Petersburg") owns and operates four coal-fired boilers located in Petersburg, Pike County Indiana. The Source identification number for IPL Petersburg is 125-00002. Pursuant to the Pike County SO₂ Emission Limitations under 326 IAC 7-4-15, subsection (e) requires that IPL Petersburg shall notify the Indiana Department of Environmental Management ("IDEM") prior to the compliance date, January 1, 2017, whether one-hour average limits or thirty-day rolling average limits will be complied with by IPL Petersburg.

Thus, pursuant to 326 IAC 7-4-15(e), IPL Petersburg hereby gives IDEM notice that its Units 1 through 4 will comply with the set of SO₂ limitations in subsection (e), which are the thirty (30) day rolling average limits.

If you have any questions regarding this notice, or need any additional information, please do not hesitate to contact Justin Barrett by email at justin.barrett@aes.com or by phone at (317) 261-8658.

Sincerely,

A handwritten signature in black ink, appearing to read "Justin D. Barrett".

Justin D. Barrett
Sr. Environmental Specialist

CC: Jeff Harter (IPL- Petersburg)
