*Refer BRAND NEW WITO attendees and get entered for a \$100 drawing for you and attendee! "Brand new" means the attendee has NEVER been to our event. Each new attendee you refer increases your chances. Please list the full names and locations of the ladies you are referring.

NAME

CITY/STATE

The NWTF's Women in the Outdoors program is dedicated to providing outdoor opportunities for ladies through hands-on activities conducted throughout the U.S.

These are one-or two-day events designed to fit our busy schedules and hosted at some of the most beautiful outdoor education sites in the country. Ladies 12 and older can participate.

Your paid registration includes a light breakfast, lunch, four classes of your choice, a one-year Women in the Outdoors membership, magazine subscription, t-shirt (see details) and materials needed for classes.

Bring a poncho, insect repellent and sun block. Event is held rain or shine.

SILENT AUCTION! RAFFLES!
AUCTION DONATIONS WELCOME!

WOMEN IN THE OUTDOORS

JUNE 12
7:30 a.m. – 5:30 p.m.

Izaak Walton League
17100 Griffin Road
Huntertown, IN 46748

Courses Offered

Forms received by May 29 will receive class confirmations by mail. Check-in starts right at 7:30 a.m. on event day. SILENT AUCTION AND RAFFLES AVAILABLE; BRING CASH OR A CREDIT CARD. "Like" our Facebook page: facebook.com/threeriverswto.

ADVANCED HANDGUNS-HOLSTER USE: *Prerequisite: Previous handgun class or training. Learn proper use of the handgun holster. We will teach proper safe and efficient presentation of the handgun from the belt holster (please wear a sturdy belt) and safe re-holstering of the firearms. There will also be some range time.

ARCHERY: Learn the basics of archery — terminology, proper shooting stance, and safety while shooting at targets.

AUTO SITUATIONS 101: This class will teach and give you hands-on training and tips and tricks on how to help yourself out of most car emergencies, especially those that could happen in remote locations.

BASIC FISHING: Acquire a basic knowledge of casting, equipment used, and the skills it takes to land fish.

BASIC HANDGUNS: An introduction to handgun shooting featuring instruction on proper grip, stance, sight picture, sight alignment and more.

BONSAI TREES: Learn how to style and care for bonsai trees with some basic knowledge. This will be a hands-on class and you'll even be able to take your new tree home.

BOW FISHING: *Prerequisite: Previous archery class or archery experience. Learn how to fish using archery equipment! This class will teach you the steps and the equipment needed to start bow fishing, for a fun time out on the water.

CANDLE MAKING BASICS: Learn the basics of working with soy and paraffin waxes to make a variety of candles with customizable scents and colors you create and blend yourself.

FIREARMS SAFETY: This class will introduce you to the safety aspects of various types of firearms and the most important rules to remember when handling them. *NOTE: Required class in order to participate in any gun class, unless this class or a hunter education class was taken previously. Please note on form if taken previously.

GUNPOWDER and LEAD WREATHS: Learn how to make a shotgun shell wreath using spent shotgun shells. A great way to recycle/reuse after a day of shooting!

INTRO to HUNTING: This class covers all types of hunting in our state, the rules, seasons and gear needed to get you started into hunting. Will also discuss conservation and how hunting is beneficial.

KNOT TYING: This class will teach you some of the most important knots for emergency situations, as well as for casual outdoor encounters such as some used for camping purposes.

MAP and COMPASS: Learn basic compass skills that will help you navigate during your outdoor adventure. Students will learn how to use a simple compass and apply the lesson to a practical navigation course.

NATURE'S HIDDEN SIGNS: This class will teach you how to sharpen your observation skills in order to read and decipher different signs out in nature such as certain plants and animal signs.

NESTING BOXES: Learn about proper maintenance and building/installing tips for nest boxes of popular species like bats, bluebirds, and wood ducks. Afterwards, build and create a pollinator box to take home where you can learn about the benefits of pollinators.

ORGANIC GARDENING/COMPOSTING: You will learn some easy and healthy ways to grow an "organic" garden. Topics covered will be planting, simple garden maintenance and organic weed and pest control, and how sheet mulching — adding nutrients to your garden while at the same time suppressing unwanted weeds—works. Also explore the basics of composting and its essential relationships to gardening, conservation, and healing land use.

OUTDOOR COOKING: Learn about different equipment, methods, and recipes for cooking while at camp, whether it's with Dutch ovens, pie makers, or even foil cooking over open fire.

PIONEER SKILLS: At one time living off the land was just called living. Finding what you need from the wild world is still relevant! This session will include making fire and light, finding string and rope, handling tools, and flavors and spices.

RIFLE MARKSMANSHIP: Learn how to safely load and fire different types of rifles. Participants will get to practice their new skills on the shooting range.

SELF-DEFENSE: This class will focus on situational awareness and avoidance skills — the first and most important steps in self defense — and some introductory self-defense tactics will be taught. The class will also include demonstrations of self defense products and how and when to use them.

SHOTGUNNING: Learn and practice basic shotgun techniques. Participants will enhance skills while shooting at flying clay targets.

TRAILER BACKING: Learn and practice the mechanics on handling a trailer — from the initial hookup to backing in a trailer safely and accurately, minus the stress. *Must possess a valid driver's license.

WILDERNESS SURVIVAL and FIRST AID: This class will help you prepare for the unexpected. This hands-on training is designed to meet the needs of trip leaders, camp staff, and outdoor enthusiasts, who may need to care for someone who has been injured or ill while being far from medical care.
