RE: NIPSCO 30 Day Filing Pursuant to 170 IAC 1-6-1 et seq.

Dear Ms. Becerra:

In accordance with 170 IAC 1-6-1, enclosed please find a clean and redlined version of NIPSCO's proposed revisions to the (1) Table of Contents, and (2) Rule 6 – Service Extensions and Modifications of its IURC Gas Service Tariff, Original Volume No. 7 ("Gas Tariff"). NIPSCO's proposed changes impact residential customers requesting the installation of an Excess Flow Valve. Specifically, NIPSCO is (1) updating its Table of Contents to reflect changes in pagination, and (2) adding Rule 6.5 – Excess Flow Valve ("EFV") Installation.

The addition of Rule 6.5 is being made to meet the requirements issued by the United States Department of Transportation Pipeline and Hazardous Materials Safety Administration ("PHMSA") in a Final Rule: Pipeline Safety: Expanding the Use of Excess Flow Valves in Gas Distribution Systems to Applications Other Than Single-Family Residences ("2017 EFV Rule").

Currently, EFVs are required for new or replaced gas service lines servicing single-family residences. The 2017 EFV Rule goes into effect on April 14, 2017 and expands the requirement to include new or replaced branched service lines servicing single-family residences, multifamily residences and certain small commercial entities. Additionally, the 2017 EFV Rule requires operations like NIPSCO to notify customers of their right to request the installation of EFVs.

Because PHMSA does not have jurisdiction over the costs incurred due to the installation of an optional EFV at the customer's request, in this filing, NIPSCO requests authority to charge the cost to install an EFV to all customers who request to have an

optional EFV installed on their service line, as per the 2017 EFV Rule established by PHMSA.

170 IAC 1-6-3(3) states that changes to rules and regulations are an allowable type of filing and the proposed revision is a change to the operating rules of the Gas Tariff. Thus, this filing is an allowable filing under the 30-day filing procedures. This filing does not require confidential treatment nor does it seek any other relief identified in 170 IAC 1-6-4, so it is not prohibited under the Commission's Rule.

In accordance with 170 IAC 1-6-5(2), contact information for the utility regarding this filing is:

In accordance with 170 IAC 1-6-5(3), the proposed tariff sheets are attached. There are no work papers necessary to support this filing in compliance with 170 IAC 1-6-5(4).

In accordance with 170 IAC 1-6-5(5), I have verified this letter as to these representations in compliance with 170 IAC 1-6-5(5). A copy of this filing is being provided via electronic mail to the Indiana Office of Utility Consumer Counselor ("OUCC"). NIPSCO shared a draft of the proposed tariff changes with the OUCC prior to filing.

In accordance with 170 IAC 1-6-6, NIPSCO has posted notice of this change in its local customer service office at 3229 Broadway, Gary, Indiana and has placed the notice on its website under pending tariffs (see <http://www.nipsco.com/About-us/Rates-Tariffs/30-Day-Filings.aspx>). A copy of the notice to be published in a newspaper of general circulation that has a circulation encompassing the highest number of NIPSCO customers affected by this filing is attached hereto. A copy of the proof of publication will be provided immediately upon its receipt.
