Type: _____ Sash Configuration:

COMMENTS/HISTORICAL INFORMATION:

JF 2081 is a one-story, two-bay (d/d) concrete block building topped with a flat roof and stepped parapet wall with concrete coping. The site sits on the east side of River Road and is oriented to the south. The structure is constructed from concrete block and rests on a continuous concrete block foundation. Two large bay doors are located on the façade. Above the doors is painted, "Harrods Creek Fire Dept". An internal brick chimney is present. The windows and doors on the remaining elevations are boarded over. The building is in good condition.
