# Introduction

## Purpose

This document serves to list the businesses with water well driller and pump installers currently licensed to provide services for water wells. The document also serves to inform and give context to the water well driller and pump installer licensing process.

## Disclaimer

The Indiana DNR Division of Water licenses the water well drillers and pump installers working for contractors on this list. The Division provides this information as a public service and does not recommend particular contractors. Driller & installer licenses, water well records, and enforcement actions are matters of public record. Please contact the Division for verification of an individual license status or for more information.

## Licensing Context

The Water Well Driller and Pump Installer (WDPI) program licenses individuals, not companies, it is important to verify that the person, or persons within a team, is licensed with the department before any work is completed or money exchanged. Licenses for the WDPI Program are issued throughout the year and collectively expire on December 31<sup>st</sup> of the year they were issued.

A person may be a licensed well driller, pump installer, or both. Individuals may only complete or actively supervise work for which they are licensed. A license is only valid if the licensed individual is on site while the work is being completed. It is recommended that a homeowner request to see proof of license to confirm the license type and status of an individual or individuals leading a team.

## How to Read

This document is not to be treated as a list of counties where businesses will service but rather a location where a home or satellite office is located. All businesses or contractors should be contacted to confirm their serviceable areas. The data used to create this list is provided from forms filled out by the Well Driller and Pump Installers during the licensing and renewal process.

Businesses are listed by county then company name. Each business has a phone number and address as well as the types of services they offer. A key is provided to indicate what types of services that the businesses provide, as this document is updated semi-annually, it is recommended that you confirm with the businesses what services they provide as these may change over the lifetime of this document. An example using the Indiana Department of Natural Resources, Division of Water, Water Rights and Use is shown below.
