RE: Supplemental Environmental Impact
Statement (SEIS)
Louisville – Southern Indiana Ohio
River Bridges Project (Project)

Dear Sir:

This letter responds to your comments of June 29, 2011 that were prepared after your review of the scoping information packet for the referenced Project. You had requested a revision to the Environmental Analysis Methodology by the addition and use of the *Eastern Mountains and Piedmont Region (Kentucky) Regional Supplement* for the performance of jurisdictional wetland delineations in Kentucky. This requested addition to the Environmental Analysis Methodology will be incorporated and used in the ensuing development of the SEIS, as requested.

We will continue to coordinate with your agency as a Cooperating Agency as the SEIS is developed. The *Alternatives Evaluation Document* was submitted by separate letter to you for review on August 10, 2011. We wish to thank you for your continuing effort in the development of this Project.

Very truly yours,

Janice Osadczuk
Engineering Services Team Leader
Federal Highway Administration
