

FSSA Approved Portable Media Devices

Version 4.0

FSSA Privacy & Security Compliance Office

Approved Portable Media

The use of any portable media device that stores or transmits PHI or PII must be encrypted and validated under FIPS 140-3 or any subsequent approved version.

Portable media devices include, but are not limited to, USB thumb drives, CD/DVDs, smartphones, tablets and any other device capable of storing transferred data.

Any portable media device requires approval from the FSSA Privacy and Security Office. Questions regarding the use secure devices can be sent to the FSSA.PrivacyOffice@fssa.in.gov inbox.
