INDIANA HEALTH COVERAGE PROGRAMS

BT2020107

SEPTEMBER 29, 2020

CMS releases new federal hospice rates for fiscal year 2021

The Centers for Medicare & Medicaid Services (CMS) released new federal hospice rates for federal fiscal year 2021 (FFY 2021), effective for dates of service (DOS) from October 1, 2020, through September 30, 2021. These rates are the basis for payments to Medicaid-enrolled hospice providers. Accordingly, the Indiana Family and Social Services Administration (FSSA) is providing information regarding Indiana Health Coverage Programs (IHCP) hospice rates for the same time period.

IHCP hospice rate calculation

Reimbursement for IHCP hospice benefits is based on the methodology established by the CMS for the administration of the federal Medicare program. Additionally, IHCP rates include payment for any Medicare coinsurance amounts and are further adjusted for regional wage differences.

The total per diem amounts reimbursed to IHCP-enrolled providers are calculated according to the IHCP hospice member's level and location of service as follows:

- Routine home hospice in the private home – IHCP hospice per diem only
- Routine home hospice in the nursing home – IHCP hospice per diem plus room and board per diem
- Continuous home hospice in the private home – IHCP hospice per diem only
- Continuous home hospice in the nursing home – IHCP hospice per diem plus room and board per diem
- Inpatient respite care for the private home members or nursing facility (NF) members – IHCP hospice per diem only (*There is no additional room and board per diem for this service.*)
- General inpatient care for the private home members or NF members – IHCP hospice per diem only (*There is no additional room and board per diem for this service.*)

The service intensity add-on (SIA) payment is in addition to the routine home care per diem rate in the private home and in the NF. The SIA payment is equal to the continuous home care hourly rate multiplied by the hours of nursing or social work provided on the date of service (up to 4 hours total). The SIA payment is also adjusted for regional wage differences.

The hospice per diem rates for routine and continuous home hospice in the private home, as well as the SIA in the private home, are adjusted using the wage index for the city or county where the member resides. The hospice per diem rates for routine and continuous hospice in the NF, as well as the SIA in the NF, are adjusted using the wage index of the city or county where the hospice facility is located.

Starting FFY 2021, the hospice wage index incorporates the new Office of Management and Budget (OMB) labor market delineations as described in the September 14, 2018, [OMB Bulletin No. 18-04](#). These new delineations have resulted in new Core-Based Statistical Areas (CBSAs), urban counties that have become rural, rural counties that have become urban, and existing CBSAs that have been split apart. These changes were implemented to allow the hospice wage index to maintain an accurate and up-to-date payment system that reflects the reality of population shifts and labor market conditions. In addition to the changes in the wage index delineations, there is also a 1-year, 5 percent cap on wage index decreases for impacted counties for FFY 2021. This transition period and cap will allow the effects of the revised CBSA delineations to be phased in over 2 years. No cap will be applied to the reduction in the wage index for the second year (FFY 2022).

Section 3004 of the *Affordable Care Act (ACA)* amended the *Social Security Act* (the Act) to authorize a quality reporting program for hospice providers. *Section 1814(i)(5)(A)(i)* of the Act requires that the market basket update be reduced by 2 percentage points for any hospice provider that does not comply with the quality data reporting requirements, and that Medicaid minimum rates be reduced by the amount of any penalty assessed for non-reporting. Medicaid agencies have the flexibility to pay more than the minimum rates reduced by the penalty. At its discretion, the FSSA does not intend to implement the reduced minimum rates imposed by the ACA during FFY 2021.

Federal per diem rates for hospice claims

The Medicaid hospice payment rates for care and services provided from October 1, 2020, through September 30, 2021, are reflected in the following tables:

- [Table 1](#) – *Federal per diem rates for routine home care, continuous home care, inpatient respite care, and general inpatient care, effective from October 1, 2020, through September 30, 2021*
- [Table 2](#) – *Federal rates for SIA payments made in conjunction with routine home care, effective from October 1, 2020, through September 30, 2021*
- [Table 3](#) – *IHCP wage-adjusted rates for hospice benefits, effective for DOS from October 1, 2020, through September 30, 2021*

Note: The daily or hourly rate on each table is the sum of the amount subject to wage index (the labor portion of the rate) plus the unweighted amount (the nonlabor portion of the rate). States are required to adjust the federal daily or hourly rate to reflect local geographical differences in wage levels. The wage-adjusted rates in Table 3 are computed by multiplying the federal “component subject to wage index” amount by the hospice wage index for the applicable geographic area, and adding the result to the federal “unweighted component” amount.

The IHCP will update the claim-processing system with the new hospice rates by November 1, 2020, when providers begin billing for October service dates. It is anticipated that no mass adjustment of claims will be needed.

Table 1 – Federal per diem rates for routine home care, continuous home care, inpatient respite care, and general inpatient care, effective from October 1, 2020, through September 30, 2021

Level of service	Daily rate	Component subject to wage index	Unweighted component
Routine home care (days 1-60)	\$199.51	\$137.08	\$62.43
Routine home care (days 61+)	\$157.69	\$108.35	\$49.34
Continuous home care	\$1,432.97	\$984.59	\$448.38
Inpatient respite care	\$485.36	\$262.72	\$222.64
General inpatient care	\$1,045.66	\$669.33	\$376.33

Table 2 – Federal rates for service intensity add-on payments made in conjunction with routine home care, effective from October 1, 2020, through September 30, 2021

Level of service	Daily rate	Component subject to wage index	Unweighted component
Service intensity add-on	\$59.71	\$41.02	\$18.69

Table 3 – IHCP wage-adjusted rates for hospice benefits, effective for DOS from October 1, 2020, through September 30, 2021

¹ The Hospice Wage Index was published in the Federal Register on August 20, 2020. States adjust the wage component of the daily hospice payment rates to reflect geographical differences in the wage levels.

² The continuous home care hourly rate, as adjusted, is used to calculate the SIA payment amount.
