SECTION E

ENVIRONMENTAL IMPROVEMENT INITIATIVE RESULTS

Why do we need this information?

Facilities need to share the results of the environmental improvement initiative that was pursued during the reporting period. IDEM needs to report cumulative program reduction results.

What do you need to do?

Reference Section F for "Category" and "Indicator" options to complete this section. Summarize your facility's progress on achieving the initiative you identified in the application or last year's APR. For assistance, please call (800) 988-7901 or email esp@idem.IN.gov.

Briefly describe how you achieved improvements for this environmental initiative or, if relevant, any circumstances that delayed progress.

Site is pursuing an ISO 50001 Certification and began the work of implementing the management system. Site participated in holiday machinery and office unplugged challenges for Thanksgiving and Christmas holidays. Site has increased communication around energy and has an energy team that strives to improve our energy performance.

Initiative #2

Category 2: Non-Haz Waste Landfilled Indicator 2: Pounds (lbs)	Baseline (indicate measurement unit)	Current (indicate measurement unit)	Cost Savings
Calendar year	2013	2015	
Actual quantity (per year)	578,120 lbs	183,740 lbs	
Production unit (select one)	Earned Labor Hours x Production units Production lbs. Other -- specify (e.g. Gallons, length, etc.)		
Production Quantity	2,332,441 hrs	2,792,549 hrs	NA
Normalization factor (Current year production ÷ Baseline year production)		1.197	
Normalized quantity (Actual Current year quantity ÷ Normalizing factor)		153,500 lbs	

Briefly describe *how* you achieved improvements for this environmental initiative or, if relevant, any circumstances that delayed progress.

All general refuse trash now goes to Covanta for incineration for energy recovery. Site is utilize ways to improve process derived land filled waste such as laundered absorbents instead of disposable.

Initiative #3

Category 3: Water Indicator 3: Gallons	Baseline (indicate measurement unit)	Current (indicate measurement unit)	Cost Savings
Calendar year	2013	2015	
Actual quantity (per year)	23,714,742	25,230,000	
Production unit (select one)	Earned Labor Hours x Production units Production lbs. Other -- specify (e.g. Gallons, length, etc.)		
Production Quantity	2,332,441 hrs	2,792,549 hrs	NA
Normalization factor (Current year production ÷ Baseline year production)		1.197	
Normalized quantity (Actual Current year quantity ÷ Normalizing factor)		21,077,694 Gallons	

Briefly describe *how* you achieved improvements for this environmental initiative or, if relevant, any circumstances that delayed progress.

Site participated in an environmental month celebration in which an entire week was dedicated to water conservation and awareness.

1. Briefly describe the *impacts or wastes* eliminated resulting from the environmental initiative(s). If multiple initiatives, please indicate which specifically.

An entire was stream was eliminated from going to the landfill (general refuse) in 2015, by compacting the trash and sending it to Covanta in Indianapolis. Also the old air compressor system was demolished and a new integrated efficient air compressor system was brought online to better utilize our compressed air production.

2. Are there other best management practices (BMPs) you can share correlating to your initiative(s)?

The site actively involves cross functional groups in initiatives such as energy. This allows for a wide span of experience and ideas to be brought to the table when investigating improvements and performance.

3. If the objectives and targets associated with the environmental improvement initiative(s) were not attained, please verify continued progress toward the environmental initiative(s). If multiple initiatives, please indicate which specifically.

Site has experienced difficulty in eliminating all waste to go to the landfill due to the unique process of our facility. This makes finding suitable recycling or reuse options for some process waste rather difficult. Site will be implementing an "ECO team" similar to the energy team which will work on environmental performance and improvement opportunities in the areas of energy, waste, and water.

4. Please provide a narrative summary of progress made toward *qualitative, significant* EMS objectives and targets, if any.

FSP/GOB has established a foundation for ISO 50001 management system and is actively working to achieve SEP certification by EOY 2017. This management system will be integrated with the existing HSEMS system and in the process updates to the HSEMS policies and procedures are happening at the same time to overall create an improved site wide HSEMS.

5. Please list any state, U.S. EPA, or other partnership programs to which you are reporting this data (e.g., Energy Star, Project XL).

None.

6. Is your entity willing to share the environmental improvement initiative(s) and its best management practices (BMPs) at the ESP Annual Meeting and/or a Partners for Pollution Prevention quarterly meeting or conference? ☐ Yes ☒ No
