STATEMENTS OF PURPOSE

The Indiana Department of Child Services (DCS) requires the DCS local office wishing to place an Indiana child in another state to submit a referral packet to the DCS Interstate Compact on the Placement of Children (ICPC) Office. Contents of the referral packet are included in the procedure section of this policy. The DCS ICPC Office will notify the local DCS office of incomplete requests, which may result in a delay in processing.

DCS will not require that prospective out of state relative placements be licensed prior to placement. If the receiving state has a requirement that incoming ICPC relative referrals be licensed or meet other requirements, DCS will abide by such requirements and require a copy of the license to be sent to the ICPC Unit. If the relative becomes licensed in the receiving state, Indiana DCS will pay a per diem according to Indiana foster care per diem policy. DCS recommends that the out of state relative placement become licensed in their state. It is not a requirement for approval of the placement.

If the type of an ICPC case changes (foster to adoption; relative care to foster care), DCS will require a new ICPC referral.

DCS will not allow an Indiana child to be placed in another state without the written approval of both the DCS ICPC Office and the receiving state’s ICPC Office. If the court orders an Indiana child be placed out of state without approval of the DCS ICPC Office and the receiving state’s ICPC Office, DCS will file an objection with the court based on the rules of the ICPC. If the court orders the placement over the objection, the local office must notify the General Counsel of DCS and the DCS ICPC office.

Note: The ICPC may not apply when the court orders a child to be placed with his or her parent from whom the child was not removed and subsequently releases wardship of the child. See ICPC Regulation No. 2 for additional information.

Note: An Indiana child may visit with a proposed placement; however, a visit with the proposed placement cannot last longer than 30 days. See Practice Guidance.

**PRACTICE GUIDANCE**

**Determining Placement Options**
Upon determination that a case is appropriate for an ICPC referral, the FCM should work with the family and CFT to determine if there is an appropriate, out-of-state relative with whom the child could be placed. First consideration should always be given to the non-custodial parent, even if they live out of state. Upon identification of an appropriate placement resource, the FCM should then work with the resource parent to ensure they have the necessary information regarding the placement.

**Visit With A Proposed Placement**
According to ICPC Regulation No. 9, a visit is considered to be a stay with the proposed placement that lasts no longer than 30 days. Any stay lasting longer than 30 days is considered a placement. The only time a stay longer than 30 days may be considered a visit is if it begins and ends within the period of a child’s vacation from school, as determined by the academic calendar of the school. A request for a home study or supervision made by the person or agency which sends or proposes to send a child on a visit and that is pending at the time that the visit is proposed will establish a rebuttable presumption that the intent of the stay or proposed stay is not a visit.
