</table>
I. Service Description

This preparation is to assist the local Department of Child Services (DCS) in assessing the adoption readiness of children in the custody of the State of Indiana. Upon assessment, the contractor will work to prepare the child(ren) for adoption. The child should be counseled about what adoption will mean to them, and make it clear that an adoptive family is a permanent family. This explanation also necessitates the painful realization that the biological family ties may be severed prior to the adoption.

Preparation of children or adolescents for adoptive placement may include but is not limited to the following areas:

1) reconstruction and interpretation of child’s history
2) weaving together the child’s background so s/he understands their own unique life experience
3) grief and loss issues with biological and foster families (and others)
4) loyalty issues
5) what adoption means
6) listening to an adoptive child speak of their experience and feelings
7) sharing of feelings
8) knowing the difference between adoption and foster care

Supportive Services

Offering supportive services to the child and current care takers to help the child transition from a foster home to an adoptive placement. These services can be done in the foster home, in individual sessions or in group sessions.

Every child referred for child preparation services will begin a Lifebook or continue working on an existing Lifebook. The Lifebook is a means of documenting the child’s life to date and is created for and with the child with the assistance of the child’s case manager, therapist, foster parent, CASA, and/or other individuals in the child’s life. It is designed to capture memories and
provide a chance to recall people and events in the child’s life to allow a sense of continuity. The LiFobook also serves as a focal point to explore painful issues with the child that need to be resolved.

II. Target Population

1) Children who are free for adoption.
2) Children who have a permanency plan of adoption.
3) Children who have termination of parental rights initiated with an expected plan of adoption.

III. Goals and Outcome Measures

Goal #1
Ensure that children in Indiana’s custody are adequately prepared for adoption.

Outcome Measures

1) 100% of children referred for child preparation will complete an initial assessment which is to include a service plan within 30 days of the referral.
2) 100% of children will have initiated a Lifebook within 60 days of the referral.
3) 100% of the local DCS offices referring a child for adoption preparation will receive written monthly reports and a discharge report within 15 days of the completion of the service.

Goal #2
Increase the child’s understanding of adoption.

Outcome Measures

1. 90% of the children prepared over the age of 4 will verbalize their understanding and acceptance of the adoption process.
2. 95% of the children prepared ages 4 to 10 will be able to draw a version of an adopted family.
3. 95% of the children prepared over the age 10 will describe their ideal adoptive family.
4. 100% of the children prepared will have a Lifebook completed with their input.

Goal #3
Successful transition for the child and family to increase the probability of a successful adoption.

Outcome Measures
1. 90% of the children prepared will move into an adoptive home
2. 95% of adoptions will be finalized within one year of placement.

Goal #4
DCS and child satisfaction with services
Outcome Measure

1. 95% of children over the age of 10 will indicate comfort with the adoption process to the county through a satisfaction survey.
2. DCS satisfaction will be rated 4 and above on the Service Satisfaction Report.

IV. Minimum Qualifications

Direct Worker:
Bachelor’s degree in social work, psychology, sociology, or a directly related human service field.

Supervisor:
Master’s degree in social work, psychology, or directly related human services field.

Supervision/consultation is to include not less than one (1) hour of face to face supervision/consultation per 20 hours of direct client services provided, nor occur less than every two (2) weeks.

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral valued culturally competent manner.

In addition the worker must have:

• Knowledge of family of origin/intergenerational issues and child development.
• Knowledge of separation and loss issues
• Knowledge of child abuse/neglect and trauma and how these impact behavior and development.
• Knowledge of community resources, especially adoption friendly services in the communities’ families reside.
• Staff must respect confidentiality. Failure to maintain confidentiality may result in immediate termination of the service agreement.
• Services must demonstrate respect for socio-cultural values, personal goals, lifestyle choices, and complex family interactions and be delivered in a culturally competent fashion.

V. Billable Units

Hourly rate up to 24 hours (additional hours must be approved by the referring DCS):
The hourly rate includes face to face contact with the identified client, collateral contacts; report writing, travel time, professional time involved preparing the assessment report. This also includes support on behalf of the child which includes review of the child’s case file; preparation for contacts; preparation of life book; transporting the child to various places of interest related to the child’s past and time in foster care while in the provision of services; taking pictures as important to the child to reconstruct a timeline related to placements, people, pets, place of birth, etc.

Translation or sign language
Services include translation for families who are non-English language speakers or hearing- impaired and must be provided by a non-family member of the client. (Actual Cost).

Group
Services include group goal directed work with clients. To be billed per group hour.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes  do not bill      0.00 hour
- 8 to 22 minutes 1 fifteen minute unit  0.25 hour
- 23 to 37 minutes 2 fifteen minute units  0.50 hour
- 38 to 52 minutes 3 fifteen minute units  0.75 hour
- 53 to 60 minutes 4 fifteen minute units  1.00 hour

Court: The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written or email request or subpoena from DCS to appear in court, and can be
billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

VI. Case Record Documentation

1) A completed, dated, signed DCS referral form authorizing service
2) Documentation of contacts with the child and activities related to the preparation with the child.
3) Written reports no less than monthly or more frequently as prescribed by DCS/Probation. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

VII. Service Access

All services must be accessed and pre-approved through a referral form from the referring DCS staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS. Providers must initiate a re-authorization for services to continue beyond the approved period.

VIII. Adherence to the DCS Practice Model

Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
FAMILY PREPARATION/HOME STUDY
(Revised 2/1/12-Effective 3/1/12)

I. Service Description

Preparation of the foster/adoptive/kinship home study for prospective families should follow the outline provided by the referring DCS, from the State Child Welfare Policies. Providers should collect information, evaluate the family and home, then make a recommendation as to the ability of the prospective foster/adoptive/kinship parent(s) to meet the needs of children in Indiana’s custody as a result of abuse or neglect. The assessment criteria must include but not be limited to the following areas:

1) Home study should address specific children if the following applies: a child has been identified to be placed or has already been placed in the home, such as in the case for foster to adopt and kinship adoption
2) Child Behavior Challenges Checklist
3) Reference forms completed by four (4) of which one (1) may be a relative
4) Financial profile
5) Medical Report for Foster Care/Adoption
6) Application for Foster Family/Adoptive/Approved Relative Home
7) Background check for all persons in the household:
8) Consent to Release of Information for Foster Family Home License or Adoption
9) Outline for Adoption/Foster Family Preparation Summary

Family Assessment

The Family Assessment Process includes the initial contact with a family, the application, several home visits at convenient times for the parent(s) including evenings and weekends if necessary. The process may include but is not limited to the following:

• processing the family’s references, medical information forms, financial forms and all other necessary state forms
• creating with the family, family genograms, eco-map, etc
• preparing other members of the household who will affect the success of an adoption because of their relationship to the family, such as a live-in grandparent or a relative who is always at the home during the day
• using the challenges checklist as a learning tool to review common challenges the children have with the family and to gauge the families degree of acceptance of the child’s needs/challenges and to help the family self-evaluate to determine how such needs/challenges will impact the family now and in the future as well as if special needs adoption is for them
• assists the family with pre-placement family support services and
• serving as advocate for the family throughout the adoption process
The Family Preparation should include the family’s feelings about adoption and experiences with parenting as well as pertinent issues specific to adoption. Preparation should also prepare adoptive parents in understanding the commitment they are making to provide a permanent home for the child or children they will be including in their family whether young children, adolescents, or sibling groups. The contractor will engage in a dialogue with family members, providing information on all aspects of child abuse and neglect, typical resulting behaviors, common characteristics of children in the system and assist the family in planning and foreseeing what is needed for their own specific successful parenting of these children. The contractor will explore with the family the types of children that they feel able to parent and the specific special needs with which they can work.

The contractor will also make a recommendation about the family’s ability to meet the needs of children in Indiana’s custody. The assessment criteria must include but not be limited to specific children to be placed in the home, if a child has already been identified for the home.

**Foster and Kinship Care Families**

When the family preparation is complete, the contractor will provide a copy of the family preparation to the Department of Child Services (DCS) in the family’s county of residence and/or the DCS with custody of child(ren) to be placed with the newly prepared family.

**Foster/Adopt Families and Pre-Adoptive Families**

When the family preparation is complete, the contractor will share with the family a copy of the proposed summary and add the family’s comments to the summary document and submit the entire case file to the referring DCS worker. The contractor will also provide a copy to the Regional Special Needs Adoption Program (SNAP) Specialist for the county of residence. The contractor will then present the family preparation at the adoption team meeting. The SNAP council team will recommend if the family is appropriate for consideration to adopt a special needs child. Families will be added to a database of approved families and their information will be shared with the other SNAP Specialists.

The contractor may accompany the selected family to interview(s) for a specific child(ren) to offer support and feedback on the appropriateness of that particular child’s placement in their family.

- Family assessment services must be completed within 60 days of receipt of the referral or within a time frame specified by the DCS at the time of referral.
- Staff must respect confidentiality. Failure to maintain confidentiality may result in immediate termination of the service agreement.
• Services must demonstrate respect for socio-cultural values, personal goals, lifestyle, choices, and complex family interactions and be delivered in a culturally competent fashion.
• Services will be arranged at the convenience of the family and to meet the specific needs of the family.

II. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. **DCS will only pay for reports when DCS is not paying for these services.** If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

III. Target Population

1) Families who are willing to parent a child or a sibling group of children, in Indiana’s custody.
2) Families for whom adoptive home study update has been requested by the DCS.
3) ICPC requests for studies of Indiana families as potential placement for relative children from other states.

IV. Goals and Outcome measures

Goal #1
Provide adoption home studies for families interested in adopting special needs children in a timely manner.
Outcome Measures

1) 95% of families referred will have their home study completed within 60 days of the referral.
2) 95% of families, who are approved by the SNAP Council, will not need additional work done or will have the recommended additions or changes completed within 30 days as recommended by the Council.

Goal #2
Ensure that the local SNAP Specialist are aware of each prepared and waiting family
Outcome Measures

1) 95% of families with completed home studies will be sent to SNAP Council Team for approval within 30 days of the completion of the home study.
2) 100% of prepared adoptive families, who are in need of recruitment, will be presented at SNAP Council Team for approval.

Goal #3
Increase the number of adoptions of children.
Outcome Measures

1) 95% of families prepared for adoption will have an understanding of the special needs of a child(ren) that is being blended into their family through adoptive placement.

Goal #4
DCS and family awareness of available services
Outcome Measure

1) 95% of families will report an understanding of the adoption process to the SNAP Specialist.
2) 100% of families will be made aware of post adoptive services available to them.
3) DCS satisfaction will be rated level 4 and above on the Service Satisfaction Report.

V. Minimum Qualifications

Direct Worker:
Bachelor's degree in social work, psychology, sociology, or a directly related human service field and three years experience in adoption.

Supervisor:
Master's degree in social work, psychology, or directly related human services field.

Supervision/consultation is to include not less than one (1) hour of face to face supervision/consultation per 20 hours of direct client services provided, nor occur less than every two (2) weeks.

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral valued culturally competent manner.
In addition to:

- Knowledge of family of origin/intergenerational issues
- Separation and loss issues
- Knowledge of adoption specific issues and the needed characteristics for families to parent these children differently
- Knowledge of child abuse/child neglect and how these impact behavior and development.
- Knowledge of community resources, especially adoption friendly services in the communities where families reside.

V. VI. Billable Units

Hourly rate up to 12 hours (additional hours must be approved by the referring DCS or SNAP):

The hourly rate includes face to face contact with the identified client/family members and professional time involved preparing the assessment report. Includes collateral contacts, case conferencing, follow up with the family, SNAP Team presentation at Statewide Council; and travel.

Hourly rate (up to 4 hours for adoptive home study updates and additional hours must be approved by the referring DCS or SNAP):

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes  do not bill  0.00 hour
- 8 to 22 minutes  1 fifteen minute unit  0.25 hour
- 23 to 37 minutes  2 fifteen minute units  0.50 hour
- 38 to 52 minutes  3 fifteen minute units  0.75 hour
- 53 to 60 minutes  4 fifteen minute units  1.00 hour

Translation or sign language

Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. (Actual Cost)

Court: The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance.
Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

**Reports:** If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

**VII. Case Record Documentation**
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/Probation referral form authorizing services.
2) Documentation of contacts regarding foster parent interest in adopting children in their care or other children available. OR Documentation of all contacts with potential adoptive family and a record of services provided with goals and objectives of the services and dates of service.
3) Documentation includes a copy of the written home studies for all prospective families following the outline in the Child Welfare Policies.

**VIII. Service Access**
All services must be accessed and pre-approved through a referral form from the referring DCS. In the event a service provider receives verbal or email authorization to provide services from DCS an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS. Providers must initiate a re-authorization for services to continue beyond the approved period.

**IX. Adherence to the DCS Practice Model**
Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
I. Services Description
Provision of home-based casework services for families involved with DCS/Probation.
Home-based casework is also available for pre-adoption and post-adoption services for
adoptive families at risk or in crisis. These in-home services should be high quality,
family centered, and culturally competent. They should be effective in reducing
maltreatment, improving caretaking and coping skills, enhancing family resilience,
supporting healthy and nurturing relationships, and children’s physical, mental, emotional
and educational well-being. Home-Based Casework Services should help to safely
maintain children in their homes (or foster home); prevent children’s initial placement or
reentry into foster care; preserve, support, and stabilize families; and promote the well-
being of children, youth, and families. Home-based Caseworker Services (HCS) provides
any combination of the following kinds of services to the families as approved by
DCS/Probation:

- Home visits
- Participation in DCS Case planning
- Supervised visitation **
- Coordination of services
- Conflict management
- Emergency/crisis services
- Child development education
- Domestic violence education
- Parenting education/training
- Family communication
- Facilitate transportation*
- Participation in Child and Family Team meetings
- Family reunification/preservation
- Reactive Attachment Disorder (RAD) support
- Foster family support
- Advocacy
- Family assessment
- Community referrals and follow-up
- Develop structure/time management
- Behavior modification
- Budgeting/money management
- Meal planning/preparation
- Parent training with children present
- Monitor progress of parenting skills
- Community services information
- Develop long and short-term goals
* HCS transport limited to client goal-directed, face-to-face as approved/specified as part of the case plan or goals/objectives identified at the Child and Family Team Meeting. (e.g. housing/apartment search, etc.)

**Supervised Visits will be billed separately from other services within this standard. The “Visitation Monthly Progress Report” form must be used to report the supervised visitation portion of the services provided. The “Monthly Progress Report” will be used for the remainder.

II. Service Delivery
1) Service provision must occur with face-to-face contact with the family within 48 hours of referral.
2) Services must include 24 hour crisis intake, intervention, and consultation seven days a week and must be provided primarily in the family’s home. Limited services may also be provided at a community site.
3) Services must include ongoing risk assessment and monitoring family/parental progress.
4) The family will be the focus of service, and services will focus on the strengths of the family and build upon these strengths. Members of the client family, which may include foster parents, are to be defined in consultation with the family and approved by DCS/Probation. This may include persons not legally defined as part of the family. Approved family members will be documented as those listed on the authorizing DCS/Probation referral and subsequent written documents.
5) Services will be time-limited and focused on limited objectives derived directly from the established DCS/Probation case plan or Informal Adjustment.
6) Services must include development of short and long-term family goals with measurable outcomes that are consistent with the DCS case plan.
7) Services must be family centered and child focused.
8) Services may include intensive in-home skill building and must include after-care linkage.
9) Services include providing monthly progress reports; requested supportive documentation such as case notes, social summaries, etc.; and requested testimony and/or court appearances including hearings and/or appeals; case conferences/staffing. Monthly reports are due by the 10th of each month following the month of service.
10) Staff must respect confidentiality. Failure to maintain confidentiality may result in immediate termination of the service agreement.
11) Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life style choices, and complex family interactions and be delivered in a neutral-valued culturally-competent manner.
12) The caseload of the HCS will include no more than 12 active families at any one time.
13) Services will be provided within the context of the DCS practice model or Probation plan with involvement in Child and Family Team (CFT) meetings if invited. A treatment plan will be developed based on assessment by the provider and agreements reached in the Child and Family Team meetings and/or documented in the authorizing referral.
14) Each family receives comprehensive services through a single HCS acting within a team, with team back up and agency availability 24 hours a day, 7 days a week.
15) DCS may choose to select a standardized tool for evaluating family functioning. Services will include administration of this tool at the initiation of services as well as periodically during service provision.

III. Medicaid
For those families and children not eligible for Medicaid Rehabilitation Option, this service will be paid by DCS. For eligible families and children, some services may be provided through Medicaid Rehabilitation Option (MRO) with the remaining services paid by DCS. While the primary focus of these services is on the needs of the family, it is expected that some of these services will be deemed medically necessary to meet the behavioral health care needs of the MRO eligible client, and therefore may be billable to MRO. The service standard is not a Medicaid standard and includes services that are not billable to Medicaid. It is the responsibility of the contracted service provider to be knowledgeable about the Medicaid billing requirements and comply with them, including provider qualifications and any pre-authorization requirements and further, to appropriately bill those services in particular cases where they may be reimbursed by Medicaid. The Services not eligible for MRO may be billed to DCS.

IV. Crisis Service
“Safely Home Families First” is the Indiana Department of Child Services (DCS) Initiative for 2011. Our goal is to keep as many children “Safely Home” with their caretakers when possible. When removal of a child is necessary, then placement should be with “Families First.” Placing children with relatives is the next healthiest action to take, regarding meeting a child’s safety needs as well as their emotional needs. Crisis services may be necessary to prevent the removal of the child(ren). The family centered practice of the home based services is the best avenue to provide crisis services.

These crisis services are for families who have children at imminent risk of removal. Imminent risk is defined as: Immediate threat of injury or harm to a child when no interventions have occurred to protect the child. Goal is to resolve the immediate crisis, prevent removal of the child, and to transition and/or link the family to needed services.

Criteria for service:

- The crisis intervention provider must be available for contact 24/7.
- The provider must have a crisis intervention telephone number.
- The FCM will notify the Provider of a crisis situation and require a 1 hour response on the part of the provider.
- One (1) hour response time required. (No more than 1 hour from phone call to provider to a face to face contact with the family by the provider.)
• Referrals would be for families who are not currently receiving home based services (Home Based Casework, Home Based Therapy, Homemaker, or Homebuilders). Crisis Intervention services to existing clients in Home Based Services are already included as part of the service standards.

• Crisis Intervention includes, but is not limited to, crisis assessment, planning and counseling specific to the crisis. Most interventions are expected to be in the home.

• Crisis payment is for the “incident only”. The “incident” for payment purposes for the provider will start at the time of a face to face contact with the client and end when that face to face contact ends.

• A Crisis Report shall be electronically sent to the FCM within 24 hours. This report should document the start time and end time of the intervention. It shall report the assessment of the situation and recommendations for services, if any.

• The referral for this service will be after the incident and will include ongoing services if deemed necessary.

V. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. **DCS will only pay for reports when DCS is not paying for these services.** If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

VI. Target Population

Services must be restricted to the following eligibility categories:

1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.

2) Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.

3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.

4) All adopted children and adoptive families.

Services billable to MRO are for Medicaid eligible clients with a qualifying diagnosis and level of need.
VII. Goals and Outcomes

Goal #1
Maintain timely intervention with the family and regular and timely communication with referring worker.

Objectives:
1) HCS or back-up is available for consultation to the family 24-7 by phone or in person.

  Fidelity Measures:
  1) 95% of all families that are referred will have face-to-face contact with the client within 48 hours of receipt of the referral or inform the current Family Case Manager/Probation Officer if the client does not respond to requests to meet.
  2) 95% of families will have a written treatment plan prepared and sent to the current Family Case Manager/Probation Officer following receipt of the referral within 30 days of contact with the client.
  3) 100% of all families will have monthly written summary reports prepared and sent to the current Family Case Manager/Probation Officer by the 10th of the month following the services.

Goal #2 Clients will achieve improved family functioning.

Objectives:
1) Goal setting, and service planning are mutually established with the client and Home Based Caseworker within 30 days of the initial face-to-face intake and a written report signed by the Home Based Caseworker and the client is submitted to the current FCM/Probation Officer.

  Client Outcome Measures:
  1) 67% of the families that have a child in substitute care prior to the initiation of service will be reunited by closure of the service provision period.
  2) 90% of the individuals/families will not be the subjects of a new investigation resulting in the assignment of a status of “substantiated” abuse or neglect throughout the service provision period. (To be measured/evaluated by DCS/Probation staff)
  3) 90% of the individuals/families that were intact prior to the initiation of service will remain intact throughout the service provision period.
  4) If DCS elects to implement a standardized tool for evaluating family functioning, a related outcome measure will be added.

Goal #3 DCS/Probation and clients will report satisfaction with services.

Outcome Measures:
1) DCS/Probation satisfaction will be rated 4 and above on the Service Satisfaction Report.
2) 90% of clients will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless one is distributed by DCS/Probation to providers for their use with clients. Providers are to survey a minimum of 12 clients or
20% of their caseload (whichever results in a larger number) randomly selected from each county served.

VIII. Minimum Qualifications

Direct Worker:
Bachelor's degree in social work, psychology, sociology, or a directly-related human service field from an accredited college. Other Bachelor’s degrees will be accepted in combination with a minimum of five years experience working directly with families in the child welfare system. Must possess a valid driver’s license and the ability to use private car to transport self and others, and must comply with the state policy concerning minimum car insurance coverage. In addition to the above:

- Knowledge of child abuse and neglect, and child and adult development
- Knowledge of community resources and ability to work as a team member
- Belief in helping clients change their circumstances, not just adapt to them
- Belief in adoption as a viable means to build families
- Understanding regarding issues that are specific and unique to adoptions such as loss, mismatched expectations and flexibility, loss of familiar surroundings, customs and traditions of the child’s culture, entitlement, gratification delaying, flexible parental roles and humor

Supervisor:
Master’s or Doctorate degree in social work, psychology, or directly-related human services field from an accredited college.

Services provided will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral-valued culturally-competent manner.

Providers are to respond to the on-going individual needs of staff by providing them with the appropriate combination of training and supervision. The frequency and intensity of training and supervision are to be consistent with “best practices” and comply with the requirements of each provider’s accreditation body. Supervision should include individual, group, and direct observation modalities and can utilize teleconference technologies. Under no circumstances is supervision/consultation to be less than one (1) hour of supervision/consultation per 25 hours of face-to-face direct client services provided, nor occur less than every two (2) weeks.

IX. Billable Unit
Medicaid: Services through the Medicaid Rehab Option (MRO) may be Case Management and/or Skills Training & Development. Medicaid shall be billed when appropriate.
• Medically necessary behavioral health care Skills Training and Development services for the MRO will be paid per 15 minute unit for Individual and Family per 15 minute unit for group.

• Medically necessary behavioral health care Case Management for the MRO child will be paid per 15 minute unit. Case Management services should not exceed those included in the MRO package.

DCS holds overall Case Management responsibility. In order to assist DCS with the coordination of medically necessary behavioral health care needs of the MRO client, CMHC’s may provide case management services with this specific focus.

DCS Funding: Those services not deemed medically necessary for the Medicaid eligible client, including services to other referred members of the family that are not related to the behavior health care needs of the eligible client, will be billed to DCS per face-to-face hour as outlined below. These billable units will also be utilized for services to referred clients who are not Medicaid eligible and for those providers who are unable to bill Medicaid.

Face to face time with the client: (Note: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include persons not legally defined as part of the family)
• Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
• Includes Child and Family Team Meetings or case conferences initiated or approved by the DCS for the purposes of goal directed communication regarding the services to be provided to the client/family.
• Includes in-vehicle (or in-transport) time with client provided it is identified as goal-directed, face-to-face, and approved/specifed as part of the client’s intervention plan (e.g. housing/apartment search, etc.).
• Includes crisis intervention and other goal-directed interventions via telephone with the identified client family.
• Includes time spent completing any DCS approved standardized tool to assess family functioning.

Reminder: Not included are routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately.

Supervised Visit:
** Time spent supervising visits will be billed separately from other services within this standard. The rate will be the same as the face-to-face rate, but will include only time spent face-to-face supervising the visit. Any other billable time as defined in the face-to-face rate, should be billed under the face-to-face rate.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes do not bill 0.00 hour
- 8 to 22 minutes 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour

Translation or sign language
Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. (Actual Cost).

Court
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per
day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

Reports
If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

Crisis Intervention/Response
Crisis Intervention includes, but is not limited to, crisis assessment, planning and counseling specific to the crisis. Most interventions are expected to be in the home. Crisis payment is for the “incident only”. The “incident for payment purposes for the provider will start at the time of a face to face contact with the client and end when that face to face contact ends. An hourly rate will be paid.

X. Case Record Documentation
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written reports no less than monthly or more frequently as prescribed by DCS/Probation. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

XI. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

XII. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
I. Service Description
This service standard applies to services provided to families and children involved with the Department of Child Services and/or Probation. These in-home services should be high quality, family centered, and culturally competent.

Provision of structured, goal-oriented, time-limited therapy in the natural environment of families who need assistance recovering from physical, sexual, emotional abuse, and neglect. Other issues, including substance abuse, mental illness, personality/behavior disorder, developmental disability, dysfunctional family of origin, and current family dysfunction, may be addressed in the course of treating the abuse/neglect.

Professional staff will provide family and/or individual therapy including one or more of the following areas:

- Family of origin/intergenerational issues
- Family organization (internal boundaries, relationships, roles)
- Stress management
- Self-esteem
- Communication skills
- Conflict resolution
- Behavior modification
- Parenting skills/Training
- Substance abuse
- Crisis intervention
- Strengths based perspective
- Adoption issues
- Participation in Child and Family Team meetings
- Sex abuse
- Goal setting
- Family structure (external boundaries, relationships, socio-cultural history)
- Problem solving
- Support systems
- Interpersonal relationships
• Therapeutic supervised visitation**
• Family processes (adaptation, power authority, communications, META rules)
• Cognitive behavioral strategies
• Brief therapy
• Family reunification/preservation
• Grief and loss
• Domestic violence education
• Reactive Attachment Disorder (RAD) support**

Supervised Visits will be billed separately from other services within this standard. The “Visitation Monthly Progress Report” form must be used to report the supervised visitation portion of the services provided. The “Monthly Progress Report” will be used for the remainder.

II. Service Delivery

1) Services must include 24 hour crisis intake, intervention, and consultation seven days a week and must be provided primarily in the family’s home. Limited services may also be provided at a community site.

2) Services must include ongoing risk assessment and monitoring family/parental progress.

3) The family will be the focus of service and services will focus on the strengths of the family and build upon these strengths. Members of the client family, which may include foster parents, are to be defined in consultation with the family and approved by DCS/Probation. This may include persons not legally defined as part of the family. Approved family members will be documented as those listed on the authorizing DCS/Probation referral and subsequent written documents.

4) Services will be time-limited and focused on limited objectives derived directly from the established DCS/Probation case plan or Informal Adjustment.

5) Services must include development of short and long-term family goals with measurable outcomes.

6) Services must include family focused and child centered.

7) Services may include intensive in-home skill building and must include after-care linkage.

8) Services include providing monthly progress reports; requested supportive documentation such as case notes, social summaries, etc.; and requested testimony and/or court appearances including hearings and/or appeals; case conferences/staffing.

9) Staff must respect confidentiality. Failure to maintain confidentiality may result in immediate termination of the service agreement.

10) Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life style choices, and complex family interactions and be delivered in a neutral-valued culturally-competent manner.

11) The caseload of the Home-Based Family Centered Therapist (HBFCT) will include no more than 12 active families at any one time.

12) Services will be provided within the context of the DCS practice model or Probation plan with involvement in Child and Family Team (CFT) meetings if invited. A treatment plan will be developed based on agreements reached in the Child and Family Team meetings and/or documented in the authorizing referral.
14) Each family receives comprehensive services through a single HBFCCT acting within a team, with team back up and agency availability 24 hours a day, 7 days a week.
15) DCS may choose to select a standardized tool for evaluating family functioning. Services will include administration of this tool at the initiation of services as well as periodically during service provision.

III. Medicaid
For those families and children not eligible for Medicaid Rehabilitation Option, this service will be paid by DCS. For eligible families and children, some services may be provided through Medicaid Rehabilitation Option (MRO) with the remaining services paid by DCS. While the primary focus of these services is on the needs of the family, it is expected that some of these services will be deemed medically necessary to meet the behavioral health care needs of the MRO eligible client, and therefore may be billable to MRO. The service standard is not a Medicaid standard and includes services that are not billable to Medicaid. It is the responsibility of the contracted service provider to be knowledgeable about the Medicaid billing requirements and comply with them, including provider qualifications and any pre-authorization requirements and further, to appropriately bill those services in particular cases where they may be reimbursed by Medicaid. The Services not eligible for MRO may be billed to DCS.

IV. Crisis Service
Safely Home Families First” is the Indiana Department of Child Services (DCS) Initiative for 2011. Our goal is to keep as many children “Safely Home” with their caretakers when possible. When removal of a child is necessary, then placement should be with “Families First.” Placing children with relatives is the next healthiest action to take, regarding meeting a child’s safety needs as well as their emotional needs. Crisis services may be necessary to prevent the removal of the child(ren). The family centered practice of the home based services is the best avenue to provide crisis services.

These crisis services are for families who have children at imminent risk of removal. Imminent risk is defined as: Immediate threat of injury or harm to a child when no interventions have occurred to protect the child. Goal is to resolve the immediate crisis, prevent removal of the child, and to transition and/or link the family to needed services.

Criteria for service:

- The crisis intervention provider must be available for contact 24/7.
- The provider must have a crisis intervention telephone number.
- The FCM will notify the Provider of a crisis situation and require a 1 hour response on the part of the provider.
- One (1) hour response time required. (No more than 1 hour from phone call to provider to a face to face contact with the family by the provider.)
• Referrals would be for families who are not currently receiving home based services (Home Based Casework, Home Based Therapy, Homemaker, or Homebuilders). Crisis Intervention services to existing clients in Home Based Services are already included as part of the service standards.
• Crisis Intervention includes, but is not limited to, crisis assessment, planning and counseling specific to the crisis. Most interventions are expected to be in the home.
• Crisis payment is for the “incident only”. The “incident” for payment purposes for the provider will start at the time of a face to face contact with the client and end when that face to face contact ends.
• A Crisis Report shall be electronically sent to the FCM within 24 hours. This report should document the start time and end time of the intervention. It shall report the assessment of the situation and recommendations for services, if any.
• The referral for this service will be after the incident and will include ongoing services if deemed necessary.

V. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. **DCS will only pay for reports when DCS is not paying for these services.** If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

VI. Target Population
Services must be restricted to the following eligibility categories:

1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with Informal Adjustment (IA) or CHINS status.
2) Children and their families which have an IA or the children have the status of CHINS or JD/JS.
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.
4) Any child who has been adopted and adoptive families.

Services billable to MRO are for Medicaid eligible clients with a qualifying diagnosis and level of need.

VII. Goals and Outcomes
Goal #1 Maintain timely intervention with the family and regular timely communication with referring worker.

Objectives:
1) HCS or back-up is available for consultation to the family 24-7 by phone or in person.

Fidelity Measures:
1) 95% of all families that are referred will have face-to-face contact with the client within 48 hours of receipt of the referral or inform the current Family Case Manager/Probation Officer if the client does not respond to requests to meet.
2) 95% of families will have a written treatment plan prepared and sent to the current Family Case Manager/Probation Officer following receipt of the referral within 30 days of contact with the client.
3) 95% of all families will have monthly written summary reports prepared and sent to the current Family Case Manager/Probation Officer by the 10th of the month following the services.

Goal #2 Clients will achieve improved family functioning.

Objectives:
1) Goal setting, and service planning are mutually established with the client and Home Based Therapist within 30 days of the initial face-to-face intake and a written report signed by the Home Based Therapist and the client is submitted to the current FCM/Probation Officer.

Client Outcome Measures:
1) 67% of the families that have a child in substitute care prior to the initiation of service will be reunited by closure of the service provision period
2) 90% of the individuals/families will not be the subjects of a new investigation resulting in the assignment of a status of “substantiated” abuse or neglect throughout the service provision period. (To be measured/evaluated by DCS/Probation staff)
3) 90% of the individuals/families that were intact prior to the initiation of service will remain intact throughout the service provision period
4) If DCS elects to implement a standardized tool for evaluating family functioning, a related outcome measure will be added.

Goal #3 DCS/Probation and clients will report satisfaction with services.

Outcome Measures:
1) DCS/Probation satisfaction will be rated 4 and above on the Service Satisfaction Report.
2) 90% of clients will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless one is distributed by DCS/Probation to providers for their use with clients Providers are to survey a minimum of 12 clients or
20% of their caseload (whichever results in a larger number) randomly selected from each county served.

VIII. Minimum Qualifications

MRO:
Providers must meet the either of the following qualifications:
  o Licensed professional, except for a licensed clinical addiction counselor
  o Qualified Behavioral Health Professional (QBHP)

DCS Direct Worker:

Master’s degree in social work, psychology, marriage and family therapy, or related human service field, and 2 years related clinical experience or a masters degree with a clinical license issued by the Indiana Social Worker, Marriage and Family Therapist, or Mental Health Counselor Board, as one of the following: 1) Clinical Social Worker, 2) Marriage and Family Therapist, 3) Mental Health Counselor.

Must possess a valid driver’s license and the ability to use a private car to transport self and others, and must comply with the state policy concerning minimum car insurance coverage. In addition to the above:
  • Knowledge of family of origin/intergenerational issues
  • Knowledge of child abuse/neglect
  • Knowledge of child and adult development
  • Knowledge of community resources
  • Ability to work as a team member
  • Belief in helping clients change, to increase the level of functioning, and knowledge of strength-based initiatives to bring about change
  • Belief in the family preservation philosophy
  • Knowledge of motivational interviewing
  • Skillful in the use of Cognitive Behavioral Therapy
  • Skillful in the use of evidence-based strategies

Supervisor:

Master’s or Doctorate degree in social work, psychology, marriage and family, or related human service field, with a current license issued by the Indiana Social Worker, Marriage and Family Direct Worker, or Mental Health Counselor Board as one of the following: 1) Clinical Social Worker, 2) Marriage and Family Direct Worker, 3) Mental Health Counselor.

Services provided will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral-valued culturally-competent manner.
Providers are to respond to the on-going individual needs of staff by providing them with the appropriate combination of training and supervision. The frequency and intensity of training and supervision are to be consistent with “best practices” and comply with the requirements of each provider’s accreditation body. Supervision should include individual, group, and direct observation modalities and can utilize teleconference technologies. Under no circumstances is supervision/consultation to be less than one (1) hour of supervision/consultation per 25 hours of face-to-face direct client services provided, nor occur less than every two (2) weeks.

IX. Billable Units

Medicaid: Services through the Medicaid Rehab Option (MRO) may be Behavioral Health Counseling and Therapy. Medicaid shall be billed when appropriate.

- Medically necessary behavioral health care services for MRO will be paid per 15 minute unit for Individual and Family per 15 minute unit for group.

DCS Funding: Those services not deemed medically necessary for the Medicaid eligible client, including services to other referred members of the family that are not related to the behavior health care needs of the eligible client, will be billed to DCS per face-to-face hour as outlined below. These billable units will also be utilized for services to referred clients who are not MRO eligible and for those providers who are unable to bill Medicaid.

Face to face time with the client:
(Note: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include persons not legally defined as part of the family)

- Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
- Includes crisis intervention and other goal-directed interventions via telephone with the identified client family.
- Includes Child and Family Team Meetings or case conferences initiated or approved by the DCS for the purposes of goal-directed communication regarding the services to be provided to the client/family.
- Includes in-vehicle (or in-transport) time with client provided it is identified as goal-directed, face-to-face, and approved/specifed as part of the client’s intervention plan (e.g. housing/apartment search, etc.).
- Includes time spent completing any DCS approved standardized tool to assess family functioning.

Reminder: Not included are routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately.

Therapeutic Supervised Visit:
** Time spent supervising visits will be billed separately from other services within this standard. The rate will be the same as the face-to-face rate, but will include only time spent face-to-face supervising the visit. Any other billable time as defined in the face-to-face rate, should be billed under the face-to-face rate.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes do not bill 0.00 hour
- 8 to 22 minutes 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour

Translation or sign language
Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. (Actual Cost)

Court
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.
Reports
If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

Crisis Intervention/Response
Crisis Intervention includes, but is not limited to, crisis assessment, planning and counseling specific to the crisis. Most interventions are expected to be in the home. Crisis payment is for the “incident only”. The “incident for payment purposes for the provider will start at the time of a face to face contact with the client and end when that face to face contact ends. An hourly rate will be paid.

X. Case Record Documentation
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written progress reports no less than monthly or more frequently as prescribed by DCS/Probation and requested supportive documentation such as case notes, social summaries, etc. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

XI. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

XII. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
HOMEMAKER / PARENT AID
(Revised 2/1/12-Effective 3/1/12)

I. Service Description
Homemaker/parent aid provides assistance and support for parents who are unable to appropriately fulfill parenting and/or homemaking functions. Paraprofessional staff assists the family through advocating, teaching, demonstrating, monitoring, and/or role modeling new, appropriate skills for coping with the following areas in an effort to build self-sufficiency:

- Time management
- Care of children (Life Skills Training not the provision of Child Care)
- Child development
- Health care
- Community resources (referrals)
- Transportation *
- Supervise visitation with child(ren)**
- Identify support systems
- Problem solving
- Family reunification/preservation

- Resource management/Budgeting
- Child safety
- Child nutrition
- Home management
- Parenting skills
- Housing
- Self esteem
- Crisis resolution
- Parent/child interaction
- Supervision
*Homemaker transportation limited to client goal-directed, face-to-face as approved/specifed as part of the case plan or goals/objectives identified at the Child and Family Team Meeting. (e.g. housing/apartment search, etc)

**Supervised Visits will be billed separately from other services within this standard. The “Visitation Monthly Progress Report” form must be used to report the supervised visitation portion of the services provided. The “Monthly Progress Report” will be used for all other services outlined in this standard.

II. Service Delivery
Services will be provided in the family’s home, a community site, or in the office (if approved by DCS/Probation), and in the course of assisting with transportation, accompanying the parent(s) during errands, job search, etc.

1) Services must be compatible with the established DCS/Probation case plan and authorized by the DCS/Probation referral.

2) Transportation can be provided in the course of assisting the client to fulfill the case plan or informal adjustment program, or as part of learning a particular task as specified in the service components, such as visitation, medical appointments, grocery shopping, house/apartment hunting, etc.

3) Staff must respect confidentiality. Failure to maintain confidentiality may result in immediate termination of the service agreement.

4) Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral-valued culturally-competent manner.

5) Services will include any requested testimony, for court appearances (to include hearings or appeals), or when requested participate in Child and Family Team (CFT) meetings. (To ensure provider participation, DCS/Probation will give the service provider at least two working days notice in advance of CFT meeting.)

6) Services to provide monthly reports outlining progress toward treatment goals. Reports should utilize the DCS approved monthly report form and provided to the Family Case Manager or Probation officer by the 10th day of the month following the month the service was provided.

7) Services to families will be available 24 hours per day, 7 days per week.

8) Services will focus on the strengths of families and build upon those strengths. Members of the client family, which may include foster parents, are to be defined in consultation with the family and approved by DCS/Probation. This may include persons not legally defined as part of the family and should be listed as part of the referral document or subsequent written documents from the referral source.

9) One (1) full-time homemaker/parent aid can have a caseload of no more than 12 active families at any one time.
10) DCS may choose to select a standardized tool for evaluating family functioning. Services will include administration of this tool at the initiation of services as well as periodically during service provision.

III. Crisis Service

Safely Home Families First” is the Indiana Department of Child Services (DCS) Initiative for 2011. Our goal is to keep as many children “Safely Home” with their caretakers when possible. When removal of a child is necessary, then placement should be with “Families First.” Placing children with relatives is the next healthiest action to take, regarding meeting a child’s safety needs as well as their emotional needs. Crisis services may be necessary to prevent the removal of the child(ren). The family centered practice of the home based services is the best avenue to provide crisis services.

These crisis services are for families who have children at imminent risk of removal. Imminent risk is defined as: Immediate threat of injury or harm to a child when no interventions have occurred to protect the child. Goal is to resolve the immediate crisis, prevent removal of the child, and to transition and/or link the family to needed services.

Criteria for service:

- The crisis intervention provider must be available for contact 24/7.
- The provider must have a crisis intervention telephone number.
- The FCM will notify the Provider of a crisis situation and require a 1 hour response on the part of the provider.
- One (1) hour response time required. (No more than 1 hour from phone call to provider to a face to face contact with the family by the provider.)
- Referrals would be for families who are not currently receiving home based services (Home Based Casework, Home Based Therapy, Homemaker, or Homebuilders). Crisis Intervention services to existing clients in Home Based Services are already included as part of the service standards.
- Crisis Intervention includes, but is not limited to, crisis assessment, planning and counseling specific to the crisis. Most interventions are expected to be in the home.
- Crisis payment is for the “incident only”. The “incident” for payment purposes for the provider will start at the time of a face to face contact with the client and end when that face to face contact ends.
- A Crisis Report shall be electronically sent to the FCM within 24 hours. This report should document the start time and end time of the intervention. It shall report the assessment of the situation and recommendations for services, if any.
- The referral for this service will be after the incident and will include ongoing services if deemed necessary.
IV. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. **DCS will only pay for reports when DCS is not paying for these services.** If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

V. Target Population

Services must be restricted to the following eligibility categories:
1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
2) Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.
4) All adopted children and adoptive families.

VI. Goals and Outcome Measures

**Goal #1** Maintain timely intervention with family regularly, and timely communication with DCS/Probation worker.

Objective:
1) Homemaker/Parent Aid or backup is available for consultation to the family 24/7 by phone or in person.

**Outcome Measure/Fidelity Measure:**
1) 95% of all families that are referred will have face-to-face contact with the client within 5 days of the receipt of the referral. Provider will inform the current/referring Family Case Manager/Probation Officer if the client does not respond to requests to meet within that time period.
2) 95% of families will have a written plan prepared regarding expectations of the family and homemaker/parent aid and sent to the current Family Case Manager/Probation Officer following receipt of the referral within 30 days of contact with the client.
3) 100% of all families will have monthly written summary reports prepared and sent to the current Family Case Manager or Probation Officer.
Goal #2  Improved family functioning including development of positive means of managing crisis.
Objective:
1) Service delivery is grounded in best practice strategies and building skills based on a strength perspective to increase family functioning.

Outcome Measure/Fidelity Outcome:
1) 67% of the families that have a child in substitute care prior to the initiation of service will be reunited by the closure of the service provision period.
2) 90% of the individuals/families will not be the subjects of a new investigation resulting in the assignment of a status of “substantiated” abuse or neglect through the service provision period.
3) 90% of the individuals/families that were intact prior to the initiation of service will remain intact throughout the service provision period.
4) Scores will be improved on the state approved, standardized needs and strengths assessment instruments used by the referring DCS or Probation.
5. If DCS elects to implement a standardized tool for evaluating family functioning, a related outcome measure will be added.

Goal #3  Maintain satisfactory services to the children and family
Objective
1) DCS/Probation and clients will report satisfaction with services.
Outcome Measure/Fidelity Measure:
1) DCS/Probation satisfaction with services will be rated 4 and above on the Service Satisfaction Report.
2) 90% of clients will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless one is distributed by DCS/Probation to providers for their use with clients Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

VII. Minimum Qualifications
Homemaker/Parent Aid:
A high School diploma or GED and is at least 21 years of age. Must possess a valid driver's license and the ability to use private car to transport self and others, and must comply with state policy concerning minimum car insurance coverage.

Qualities:
Ability to work as a team member
Ability to work independently
Patience
Nonjudgmental
Emotional maturity
Knowledge of child development
Knowledge of community resources
Belief that change is possible
Strong organizational skills
Exercise sound judgment
Belief in family preservation philosophy
Knowledge of child abuse and neglect
Thorough and empathetic communication skills

Supervisor:
Bachelor’s Degree in social work, psychology, sociology, or a directly related human service field from an accredited college.

Providers are to respond to the on-going individual needs of staff by providing them with the appropriate combination of training and supervision. The frequency and intensity of training and supervision are to be consistent with “best practices” and comply with the requirements of each provider’s accreditation body. Supervision should include individual, group, and direct observation modalities and can utilize teleconference technologies. Under no circumstances is supervision/consultation to be less than one (1) hour of supervision/consultation per 25 hours of face-to-face direct client services provided, nor occur less than every two (2) weeks.

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral-valued culturally-competent manner.

VIII. Billable Units
Face-to-face time with the client
(Note: Members of the client family are to be defined in consultation with the family and approved by the DCS/Probation. This may include persons not legally defined as part of the family.)

○ Includes client-specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
○ Includes crisis intervention and other goal-directed interventions via telephone with the identified client family.
○ Includes scheduled Child and Family Team meetings or case conferences (including crisis case conferences via telephone) initiated or approved by the DCS/Probation for the purposes of goal-directed communication regarding the services to be provided to the client/family. All cases conferences billed, including those via telephone, must be documented in the case notes.
Includes in-vehicle (or in-transport) time with client provided it is identified as goal-directed, face-to-face, and approved/specified as part of the client’s intervention plan (e.g. housing/apartment search, etc.).

Includes time spent completing any DCS approved standardized tool to assess family functioning.

Reminder: Not included are routine report writing and scheduling of appointments, collateral contacts unless ordered by DCS/Probation, travel time, and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately.

Supervised Visit:
Time spent supervising visits will be billed separately from other services within this standard. The rate will be the same as the face-to-face rate, but will include only time spent face-to-face supervising the visit. Any other billable time as defined in the face-to-face rate, should be billed under the face-to-face rate.

Hourly services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes  do not bill  0.00 hour
- 8 to 22 minutes  1 fifteen minute unit  0.25 hour
- 23 to 37 minutes  2 fifteen minute units  0.50 hour
- 38 to 52 minutes  3 fifteen minute units  0.75 hour
- 53 to 60 minutes  4 fifteen minute units  1.00 hour

Translation or sign language
Services include translation for families who are non-English language speakers or hearing impaired and must be provided by a non-family member of the client. (Actual Cost)

Court
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

Reports
If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

Department of Child Services
Regional Document for Child Welfare Services
Term 7/1/11-6/30/13
July 16, 2012
Crisis Intervention/Response
Crisis Intervention includes, but is not limited to, crisis assessment, planning and counseling specific to the crisis. Most interventions are expected to be in the home. Crisis payment is for the “incident only”. The “incident for payment purposes for the provider will start at the time of a face to face contact with the client and end when that face to face contact ends. An hourly rate will be paid.

IX. Case Record Documentation
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written reports no less than monthly or more frequently as prescribed by DCS/Probation. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation.
5) A copy of treatment plan to include short/long term goals with measurable outcomes consistent with case plan/agreements in the CFTM. Goals to be updated with each new referral.

X. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

XI. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
RESOURCE FAMILY SUPPORT SERVICES

I. Service Description

Home Based Services
Face-to-face home-based caseworker services to preserve, support, and stabilize foster family home placements, and to promote the well-being of children, youth, and families.

Home-based caseworker will provide any combination of the following kinds of services to the families as approved by DCS/Probation:

- Home visits
- Coordination of services
- Conflict management
- Emergency/crisis services
- Child development education
- Developmental/behavioral effects of trauma education
- Parenting education/training
- Parent training with children present
- Monitor progress of parenting skills
- Family communication
- Foster family support
- Community services information
- Community referrals and follow-up
- Develop structure/time management
- Reactive Attachment Disorder (RAD) support
**Target Population**

Licensed resource families supervised by DCS.

DCS intends to develop specialized services targeting relative caregivers. Until such time, licensed and unlicensed relative caregivers may be referred to this service.

**II. Goals and Outcome Measures**

**Goal #1** – Timely and on-going intervention with family

**Outcome Measures**
- 95% of all families that are referred will have face to face contact with the family within five (5) days of the referral
- 95% of all families will have monthly written summary reports prepared and sent to the referring worker

**Goal #2** - Minimize the number of disrupted foster care placements (foster, pre-adoptive)

**Outcome Measures**
- 95% of foster parents will participate in supportive services that are recommended and available
- 95% of foster families and foster children requiring supportive services will maintain their placements

**Goal #3** – DCS and foster family satisfaction with services

**Outcome Measures**
- DCS satisfaction will be rated 4 and above on the Service Satisfaction Report.
- 95% of families will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless one is distributed by DCS/Probation to providers for their use with clients. Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

**III. Minimum Qualifications**

**Direct Worker:**
Bachelor's degree in social work, psychology, sociology, or a directly-related human service field from an accredited college. Must possess a valid driver’s license and the ability to use

Department of Child Services
Regional Document for Child Welfare Services
Term 7/1/11-6/30/13
July 16, 2012
private car to transport self and others, and must comply with the state policy concerning minimum car insurance coverage.

In addition to the above:

- Knowledge of child abuse and neglect, and child and adult development
- Knowledge of community resources and ability to work as a team member
- Belief in helping clients change their circumstances, not just adapt to them
- Belief in adoption as a viable means to build families
- Understanding regarding issues that are specific and unique to adoptions such as loss, mismatched expectations and flexibility, loss of familiar surroundings, customs and traditions of the child’s culture, entitlement, gratification delaying, flexible parental roles and humor

**Supervisor:**

Master's or Doctorate degree in social work, psychology, or directly-related human services field from an accredited college.

Services provided will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral-valued culturally-competent manner.

Providers are to respond to the on-going individual needs of staff by providing them with the appropriate combination of training and supervision. The frequency and intensity of training and supervision are to be consistent with “best practices” and comply with the requirements of each provider’s accreditation body. Supervision should include individual, group, and direct observation modalities and can utilize teleconference technologies. Under no circumstances is supervision/consultation to be less than one (1) hour of supervision/consultation per 25 hours of face-to-face direct client services provided, nor occur less than every two (2) weeks.

**IV. Billable Units Face to Face Time With the Client**

**Face-to-Face time with the client**

*(Note: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include person not legally defined as part of the family.)*

- Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed
- Includes crisis intervention and other goal directed interventions via telephone with the identified client family
- Includes Child and Family Team Meetings or case conferences initiated or approved by the DCS for the purposes of goal directed communication regarding the services to be provided to the client/family
Reminder: Not included is routine report writing and scheduling of appointment, collateral contacts, court time, travel time and no shows. These costs are built into the cost of the face to face rate and shall not be billed separately.

Translation or Sign Language
Services include translation for families who are non-English speakers of hearing impaired and must be provided by a non-family member of the client. (Actual Cost)

V. Case Record Documentation
Necessary case record documentation for service eligibility must include:
- A completed, dated, signed DCS referral form authorizing service
- Documentation of on-going contact with the referred foster families/children and referring agency
- Monthly written reports, or more frequently if requested, regarding the progress of the family/children provided to the referring agency

VI. Service Access
Services must be accessed through a Referral for Child Welfare Services Form. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS. Providers must initiate a reauthorization for services to continue beyond the approved time period.

Note: All services must be pre-approved through a Referral for Child Welfare Services Form from the referring DCS. In emergency situations, services may begin with a verbal approval but must be followed by a written referral within five (5) days. It is the responsibility of the service provider to obtain the written referral.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
SUPPORT GROUP SERVICES FOR RESOURCE FAMILIES
(Revised 7/16/12-Effective 8/1/12)

I. Service Description
The Support Group Coordinator will provide face-to-face support group services to local resource parents. Support group services should be provided no less than quarterly, but may be provided as frequently as monthly. Monthly phone or email contact should be made with resource parents for the purposes of coordinating services and identifying pertinent support group topics. The Coordinator will record the topic(s) of discussion and keep a sign-in sheet for each support group meeting. Child care should be provided if requested by families attending support group meetings. Anyone providing childcare must pass criminal history and CPS checks.

Support group services will be designed to assist resource families in strengthening their relationships with foster children placed in their homes, as well as to promote positive relationships between foster families and the local DCS Family Case Managers and Regional Foster Care Specialists. Support group services will also focus on enhancing placement stability, and promoting foster families’ willingness and ability to foster special needs children and older youth that come into care. The Coordinator will collaborate with the Regional Foster Care Specialist(s) to invite prospective foster parents to the monthly support group meeting, in order for them to gain insight and information regarding the foster care program.

II. Target Population
1) All foster and kinship parents licensed by the referring county DCS office.
2) Court ordered substitute caregivers and adoptive parents.

III. Goals and Outcome Measures
Goal #1
Retention of the current number of foster parents that are licensed
Outcome Measures
1) 90% retention of currently licensed foster families that continue to reside in the county.
2) 70% of licensed foster families participate in support meetings at least one time per year.

Goal #2
Develop an environment where foster families believe they are being heard and respected for the work they do.
Outcome Measures
1) 100% of foster families can report their belief that the DCS respects the work they do.
2) 10% increase in the number of foster families willing to accept special needs children and older youth based on the support received.

Goal #3
DCS and foster family satisfaction with services

Outcome Measures
1) DCS satisfaction will be rated 4 and above on the Service Satisfaction Report.
2) 94% of the families who have participated in Foster Family Support Services will rate the services “satisfactory” or above.

IV. Minimum Qualifications

Coordinator:
Bachelor’s degree in social work, psychology, sociology, or a directly related human service field or hold an active foster home license.

The Coordinator must:
• Possess clear oral and written communication skills
• Possess the ability to play the role of a mediator when necessary
• Possess the ability to confront in a positive manner and provide constructive criticism when necessary
• Demonstrate insight into human behavior
• Demonstrate emotional maturity and exercise sound judgment
• Be nonjudgmental
• Be a self starter
• Exhibit the ability to work independently
• Exhibit the ability to work as a team member
• Have strong organizational skills
• Must respect confidentiality. Failure to maintain confidentiality may result in immediate termination of the service agreement.
• Demonstrate respect for socio-cultural values, personal goals, life style choices, and complex family interactions and be delivered in a culturally competent fashion.

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral valued culturally competent manner.
V. Billing Units

Support Group
Per support group. A minimum of 3 foster parents must be in attendance in order to bill for this service.

Translation or sign language
Services include translation for families who are non-English language speakers or hearing impaired and must be provided by a non-family member of the client. (Actual Cost).

VI. Case Record Documentation
1) Support group sign in sheets including date and time of the group meeting
2) Meeting room documentation

VII. Service Access
Service can only be accessed by licensed foster families, prospective foster families, or adoptive families as identified by DCS either verbally or in written form.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
FOSTER HOME STUDIES / UPDATES / RE-LICENSING STUDIES
(Revised 2/1/2012-Effective 3/1/2012)

I. Service Definition
This is an information-gathering and evaluation of the family and home environment and making recommendations to DCS, provide foster home licensing studies, and or updates/re-licensing studies. Collects information and evaluates the family and home in some combination of the following areas:

- Income/expense records
- Expectations
- Family history
- Education
- Concerns
- Discipline methods
- Employment history
- References
- History of arrests
- Attitude of family
- Marital relationships
- Adoption/fostering preparation
- Parent/child relationships
- Attitude of community toward foster care
- Religious/spiritual orientation
- Areas of tension/conflict
- Adoption/fostering
- Extended family
- Sibling relationships
- Support systems
- Reasons for applying
- Interests/activities/hobbies
- Applicants knowledge/experience with type of child
- Adequacy of home
- Compliance with law/regulation/policy
- Family health
- Case record requirement
- Children’s school performance
- Children’s behavior

II. Service Delivery
1) Services will be provided in the family's home or combination office/home.
2) Services must be completed within 60 days of receipt of the referral or by a time frame specified by DCS at the time of referral.
3) Services will be provided at the convenience of the family.
4) For Interstate Compact (ICPC) requests, the final approval of the home is the responsibility of DCS.
5) Staff must respect confidentiality. Failure to maintain confidentiality may result in immediate termination of the service agreement.
6) Services must demonstrate respect for socio-cultural values, personal goals, life
III. Target Population
1) Families for who foster home licensing/updates/re-licensing studies have been requested by the DCS.
2) ICPC requests for studies of Indiana families as potential placement for relative children from other states.

IV. Goals and Outcome Measures
Goal#1
Provide that foster care home studies/updates/re-licensing studies are completed timely.

Outcome Measures
1) 98% of studies will be completed by DCS deadline within 60 days or unless otherwise specified.
2) 100% of studies will be completed by DCS instructions and accepted by them.

Goal #2
DCS and foster family satisfaction with services

Outcome Measures
1) DCS satisfaction will be rated 4 and above on the Service Satisfaction Report.
2) 94% of the families who have participated in Foster Family Support Services will rate the services “satisfactory” or above.

V. Minimum Qualifications

Direct Worker:
Bachelor's degree in social work, psychology, sociology, or a directly related human service field.

Supervisor:
Master's degree in social work, psychology, or directly related human services field.
Supervision/consultation is to include not less than one (1) hour of face to face supervision/consultation per 20 hours of direct client services provided, nor occur less than every two (2) weeks.
In addition to:
- Knowledge of family of origin/intergenerational issues.
- Knowledge of child abuse/neglect.
- Knowledge of child and adult development.
- Knowledge of community resources.
Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral valued culturally competent manner.

VI. Billable Units

**Hourly rate (up to 8 hours for foster home studies and 4 hours for updates and relicensing studies; additional hours must be approved by the referring DCS):**

Includes face to face contact with the identified clients during which services as defined in the service standard are performed. Collateral contacts, travel time, mileage not to exceed the State rate of $.40, scheduling of appointments, and report writing are included in this billable unit.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes do not bill 0.00 hour
- 8 to 22 minutes 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour

**Translation or sign language**

Services include translation for families who are non-English language speakers or hearing impaired and must be provided by a non-family member of the client. (Actual Cost)

**Court**

The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

**VII. Case Record Documentation**

Case record documentation for service eligibility must include:

1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written reports no less than monthly or more frequently as prescribed by DCS/Probation. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.

4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation.

5) A copy of treatment plan to include short/long term goals with measurable outcomes consistent with case plan/agreements in the CFTM. Goals to be updated with each new referral.

VIII. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

IX. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
I. Services Description

Care Network encompasses the part of the system of care that focuses on coordinating, integrating, facilitating and monitoring services for children with behavioral health needs who are in the child welfare or juvenile justice system.

This system of care is based on a comprehensive spectrum of services which are organized into a coordinated network to meet the multiple and changing needs of children with severe emotional disturbances and behavioral challenges and their families.

Services in the system of care should be comprehensive, incorporating a broad range of services and supports, individualized, provided in the least restrictive appropriate setting coordinated at the system and service delivery levels, involve youth and families as full partners and emphasize early identification and intervention. Core values of a system of care are that services are child centered and family focused community based and culturally competent.

Services include providing any requested testimony and/or court appearances including hearings or appeals.

Services include working with the FCM to ensure necessary additional referrals are made. Those services within the referral network will include but are not limited to the following:

1) Behavioral Health Services
   - Behavior Management Services
   - Crisis Intervention
   - Day Treatment
   - Evaluation / Testing Services
   - Family Assessment
   - Family Therapy
   - Group Therapy
   - Individual Therapy
   - Parenting/ Family Skills Training Groups
   - Special Therapy
   - Substance Abuse Therapy- Group
   - Substance Abuse Therapy- Individual
   - Family Preservation – home based services

2) Mentor Services- hourly
• Case Management  
• Clinical Mentor  
• Educational Mentor  
• Life Coach/ Independent Living Skills Mentor  
• Parent and Family Mentor  
• Recreational/Social Mentor  
• Supported Work Environment  
• Tutor  

3) Other Services  
• Consultation with Other Professionals  
• Team Meetings  
• Transportation  

4) Psychiatric Services- hourly  
• Assessments Outpatient  
• Medication Follow-up/ Psychiatric Review  

5) Respite Services  
• Crisis Respite  
• Planned Respite  
• Respite-Residential or Hospital 23 Hour  

6) Supervision Services  
• Community Supervision  
• Intensive Supervision  

7) Services to meet the needs of children with complex medical needs or developmental delays.  

II. Specific Responsibilities  
1) The Care Network Facilitator conducts the following activities for the system of care:  
• Evaluates and interprets referral packet application;  
• Schedules and facilitates in coordination with the DCS Family Case Manager (FCM) family/child specific team meetings;  
• Address need for and develop, revise and monitor a crisis plan with family and team members;  
• Monitor progress by communicating with the family and child, as well other team members through no less than monthly team meetings;  
• Maintains comprehensive reports based on services and assessments while providing information to FCM and team members every 30 days; 
• Makes recommendations to team members based on monthly assessments and service reports;
• Assist the family and child with gaining access to services and assuring that families are aware of available community-based services and other resources such as Medicaid State Plan services, Vocational Rehabilitation programs, educational, and public assistance programs; mental health and addiction services as indicated;
• Monitor use of service and engage in activities that enhance access to care, improve efficiency and continuity of services, and prevent inappropriate use of services;
• Monitor health and welfare of the child/youth;
• May provide crisis intervention.

2) Providing agency receives referrals 24 hours a day, 7 days a week. There is a verbal determination between DCS or Probation, the family and the agency that services are warranted, and there is agency availability for the service before the referral is sent.

3) The face-to-face intake must occur no later than the end of the day following the referral or as requested by the referring worker.

4) Assessments including the goal setting and service plan are mutually established between the client, care facilitator and FCM with a written report signed by the family and care facilitator, submitted to the DCS or Probation referring worker within 7 days of the initial face-to-face intake and every 30 days thereafter. Communication between the care facilitator and DCS or Probation is constant and documented as arranged between the two.

5) Each family receives access to services through a single care facilitator acting within a team, with availability 24 hours a day 7 days a week.

6) Family functioning assessments, assessments of caretaker’s needs, the family’s response, presenting problems according to DCS or Probation referral are factors included in the goal setting. Goals are behaviorally specific, measured and attainable.

7) Safety is of paramount importance. If there are indications about safety concerns within the home there is an obligation for the care facilitator and DCS or Probation to communicate to address all safety concerns, and document safety steps taken to resolve the issues. If new incidences occur, the care facilitator is to notify DCS or Probation immediately of the situation.

8) Confidentiality must be maintained. Failure to maintain confidentiality may result in termination of the service agreement. Appropriate release forms will be requested and signed by family members and DCS or Probation before information is shared with team members or others.

III. Medicaid
For those families and children not eligible for Medicaid Rehabilitation Option, this service will be paid by DCS. For eligible families and children, some services may be provided through

Department of Child Services
Regional Document for Child Welfare Services
Term 7/1/11-6/30/13
July 16, 2012
Medicaid Rehabilitation Option (MRO) with the remaining services paid by DCS. While the primary focus of these services is on the needs of the family, it is expected that some of these services will be deemed medically necessary to meet the behavioral health care needs of the MRO eligible client, and therefore may be billable to MRO. The service standard is not a Medicaid standard and includes services that are not billable to Medicaid. It is the responsibility of the contracted service provider to be knowledgeable about the Medicaid billing requirements and comply with them, including provider qualifications and any pre-authorization requirements and further, to appropriately bill those services in particular cases where they may be reimbursed by Medicaid. The Services not eligible for MRO may be billed to DCS.

IV. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. **DCS will only pay for reports when DCS is not paying for these services.** If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

V. Target Population

Services must be restricted to cases where severe emotional disturbances and/or behavioral problems have been documented within the following eligibility categories:

1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
2) Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.
4) All adopted children and adoptive families.

Services billable to MRO are for Medicaid eligible clients with a qualifying diagnosis and level of need.

VI. Goals and Outcomes

Goal #1 Provide high quality care which results in improved outcomes for the child and family.

Objectives:
1) Improved school functioning from case opening to closure
   • An increase in scores as found on grade reports in 85% of cases
   • Decrease in absenteeism/truancy as reflected by attendance reports in 85% of cases
   • A decrease amount in behavior reports in 85% of cases
   • A decrease in suspension/expulsion reports in 85% of cases

2) Progress in service coordination plan
   • Measured by monthly team report and Care Facilitator plan of care

3) Fewer days in out of home placement (the provider will track and report as a part of evaluation the number of continuous days in placement for each child).
   • Information submitted will be evaluated by DCS or Probation against DCS data.

4) 50% of the children and families will have statistically significant improvement in any life domain on the CANS (functioning, behavioral health systems, risks, caretaker needs and strengths, child strengths)

Goal #2 Improved family functioning including development of positive means of managing crisis.
Objectives:
1) Service delivery is grounded in best practice strategies, using such approaches as cognitive behavioral strategies, motivational interviewing, change processes, and building skills based on a strength perspective to increase family functioning.

   Client Outcome Measures:
   1) 67% of the families that have a child in substitute care prior to the initiation of service will be reunited by closure of the service provision period.
   2) 90% of the individuals/families will not be the subjects of a new investigation resulting in the assignment of a status of “substantiated” abuse or neglect throughout the service provision period. (To be measured/evaluated by DCS/Probation staff)
   3) 90% of the individuals/families that were intact prior to the initiation of service will remain intact throughout the service provision period.

Goal #3 DCS/Probation and clients will report satisfaction with services provided.

   Outcome Measures:
   1) DCS/Probation satisfaction will be rated 4 and above on the Service Satisfaction Report.
   2) 90% of the clients will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless DCS/Probation distributes one to providers for their use with clients. Providers are to survey a minimum of 12 clients or 20% of their
caseload (whichever results in a larger number) randomly selected from each county served.

VII. Minimum Qualifications

**Supervisor**
1. Master’s Degree in Social Work, Psychology, Marriage and Family Therapy, or related Human Services field; and,
2. A current license issued by the Indiana Social Worker, Marriage and Family Therapist or Mental Health Counselor Board as one of the following:
   - Clinical Social Worker
   - Marriage and Family Therapist
   - Mental Health Counselor

**Care Network Facilitator**
1. Bachelor’s Degree in Social Work or related Human Service field; and,
2. Minimum of three years of clinical/management experience in human service field; and,
3. Demonstrated 2 or more years of clinical intervention skills; and,
4. Demonstrated skill in fiscal management activities, team building and development.

Services will be conducted with behavior and language that demonstrates respect for sociocultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral valued culturally competent manner.

The Care Network Facilitator assures care is delivered in a manner consistent with strength-based, family centered, and culturally competent values, offers consultation and education to all providers regarding the values of the model, monitors progress toward treatment goals and assures that all necessary data for evaluation is gathered and recorded.

VIII. Billable Unit

**Medicaid:** Services through the Medicaid Rehab Option (MRO) may be Case Management. Medicaid shall be billed when appropriate.

- Medically necessary behavioral health care Case Management for the MRO child will be paid per 15 minute unit. Case Management services should not exceed those included in the MRO package.

<table>

</tr>
</tbody>
</table>
DCS holds overall Case Management responsibility. In order to assist DCS with the coordination of medically necessary behavioral health care needs of the MRO client, CMHC’s may provide case management services with this specific focus.

DCS Funding: Those services not deemed medically necessary for the Medicaid eligible client, including services to other referred members of the family that are not related to the behavior health care needs of the eligible client, will be billed to DCS per face-to-face hour as outlined below. These billable units will also be utilized for services to referred clients who are not Medicaid eligible and for providers who are unable to bill Medicaid.

Face to face time with the client and collateral contacts:
(Note: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include persons not legally defined as part of the family.)

- Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
- Includes crisis intervention and other goal directed interventions via telephone with the identified client family.
- Includes Child and Family Team Meetings or case conferences initiated or approved by the DCS for the purposes of goal directed communication regarding the services to be provided to the client/family.
- Includes documented telephone and face-to-face collateral contacts while engaged in services defined in this service standard.

Reminder: Not included are routine report writing and scheduling of appointments, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes do not bill 0.00 hour
- 8 to 22 minutes 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour

Translation or sign language
Services include translation for families who are non-English language speakers or
hearing-impaired and must be provided by a non-family member of the client. Dollar-for-dollar amount.

- **Court**
  The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

- **Reports**
  If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

**IX. Case Record Documentation**
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written progress reports no less than monthly or more frequently as prescribed by DCS/Probation and requested supportive documentation such as case notes, social summaries, etc. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation.

**X. Service Access**
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

**XI. Adherence to the DCS Practice Model**
Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
I. Services Description

The CHINS Parent Support Worker (CPSW) will provide support services to parents who have children in foster care, this includes absent parents, and parents whose children were previously in foster care and remain a CHINS. The CPSW will assist families in strengthening the relationship with their children and promoting positive relationships between the families and the local DCS family case managers and others involved in their children’s case. In the case of the absent parent the CPSW may help in the location, engaging and support of the absent parent. The CPSW may be contracted to provide services on a part time or full time basis depending on the needs of the county.

The CPSW will facilitate a monthly/bi-monthly support group for parents to allow group discussion regarding concerns related to their children and assist in maintaining and strengthening the skills of participating families. Individual family support may be provided for those families who are unable to function appropriately or understand the material in the group setting. Individual support of families can be for the caretaker or the absent parent.

Family support group meetings must provide:
1) information regarding the CHINS legal process including court procedures, parental participation requirements, court ordered services, visitation with the children, reimbursement of cost for services, and other aspects related to the legal process;
2) the expectations of the family related to participation in court ordered services and visitation with the children, attendance at court, appropriate dress for court, and other aspects related to the legal process;
3) information regarding the parent’s rights and the CHINS proceedings, the length of time children may be in care prior to a permanency procedure, and termination of parental rights, family team meetings and their procedures
4) role of the Court Appointed Special Advocate or Guardian ad Litem,
5) interactive activities including pre and post tests related to the CHINS process, parental rights, parental participation, reimbursement for cost of services, permanency, termination of parental rights and other issues related to CHINS case to assist in the learning process and to ensure that learning is taking place,
6) an informal environment for parents to discuss issues that brought them to the attention of the DCS and develop suggestions that may assist in resolving these issues as a group, and;
7) educational programs using speakers recruited from the local professional community to assist and educate the families in areas such as:
   • abuse and neglect,
increasing parenting skills,
substance abuse,
anger management,
advocacy with public agencies including the children’s schools, and;
issues of interest to the parents related to their needs and the needs of their
children.

II. Target Population
Services must be restricted to the following eligibility categories:
1) Children and families who have substantiated cases of abuse and/or neglect and will likely
develop into an open case with CHINS status.
2) Children and their families which have the status of CHINS.

III. Goals and Outcomes
Goal #1  Educate parents regarding CHINS process and help them to understand the expectations
of the involved parent.

Outcome Measures
1) 90% of parents participating can increasingly verbalize their rights and expectations
related to the CHINS proceedings measured through pre/post surveys.

Goal #2  Improved family functioning including the development of positive means of managing
crisis. Develop an environment where families feel they are being heard.
Objective:

Outcome Measures
1) 67% of the families that have a child in substitute care prior to the initiative of service
will be reunited by closure of the service provision period.
2) 90% of the individuals/families will not be the subjects of “substantiated” abuse or
neglect throughout the service provision period.
3) 90% of the individuals/families that were intact prior to the initiation of service will
remain throughout the service provision period.
4) 90% of families participating will provide input and make recommendations at the
meetings.

Goal #3  DCS/Probation clients will report satisfaction with services provided.

Outcome Measures
1) DCS/Probation satisfaction will be rated 4 and above on the Service Satisfaction
Report.
2) 90% of the families who have participated in Family Support Services will rate
the services “satisfactory” or above on a satisfaction survey developed by the
service provider, unless DCS/Probation distributes one to providers for their use with clients. Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

IV. Minimum Qualifications

Direct Worker:
Bachelor's Degree in social work, psychology, sociology, or a directly related human service field.

Supervisor:
Master's degree in social work, psychology, or directly related human services field or a Bachelors degree in social work, psychology, or a directly related service field with 5 years child welfare experience.

The CPSW must:

• Possess clear oral and written communication skills
• Possess the ability to play the role of a mediator when necessary
• Possess the ability to address concerns/issues others in a positive manner and provide constructive feedback when necessary
• Demonstrate insight into human behavior
• Demonstrate emotional maturity and exercise sound judgment
• Be non-judgmental
• Be a self starter
• Have strong organizational skills
• Must respect confidentiality. (Failure to maintain confidentiality may result in immediate termination of the service agreement.)

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral valued culturally competent manner.

V. Billable Unit

Face to face time with the client:
(Note: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include persons not legally defined as part of the family)

• Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
• Includes crisis intervention and other goal directed interventions via telephone with the identified client family.
• Includes Child and Family Team Meetings or case conferences initiated or
approved by the DCS for the purposes of goal directed communication regarding the services to be provided to the client/family.

- **Group**
  Services include group goal directed work with clients. To be billed per group hour.

**Reminder:** Not included are routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes  do not bill  0.00 hour
- 8 to 22 minutes  1 fifteen minute unit  0.25 hour
- 23 to 37 minutes  2 fifteen minute units  0.50 hour
- 38 to 52 minutes  3 fifteen minute units  0.75 hour
- 53 to 60 minutes  4 fifteen minute units  1.00 hour

- **Translation or sign language**
  Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. Dollar-for-dollar amount.

- **Court**
  The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

**VI. Case Record Documentation**

Case record documentation for service eligibility must include:

1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written progress reports no less than monthly or more frequently as prescribed by DCS/Probation and requested supportive documentation such as case notes, social summaries, etc. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation
VII. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period.

VIII. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
COUNSELING
(Revised 2/1/12-Effective 3/1/12)

I. Service Description
This service standard applies to services provided to families and children involved with the
Department of Child Services and/or Probation. These services include the provision of
structured, goal-oriented therapy for families affected by physical abuse, sexual abuse, emotional
abuse, or neglect. Other issues, including substance abuse, dysfunctional families of origin, etc.,
may be addressed in the course of treating the abuse or neglect. In addition, counseling may be
provided to address family or youth issues that resulted in the involvement of juvenile probation.

Professional staff provides individual, group, and/or family counseling with emphasis on one or
more of the following areas:

- Initial Assessment
- Conflict resolution
- Behaviors modification
- Identify systems of support
- Interpersonal relationships
- Communication skills
- Substance abuse awareness/family
dynamics *
- Parenting skills
- Anger management
- Supervised therapeutic visits**
- Problem solving
- Stress management
- Goal-setting
- Domestic violence issues
- School problems
- Family of origin/inter-generational issues
- Sexual abuse – victims and caretakers of
  sexual abusers

*Substance abuse Counseling/Treatment must be done under the Service Standard “Substance
Abuse Treatment” due to the specific legal qualifications of the provider, not under this
counseling service standard.

**Supervised Visits will be billed separately from other services within this standard. The
“Visitation Monthly Progress Report” form must be used to report the supervised visitation
portion of the services provided. The “Monthly Progress Report” will be used for the remainder.

II. Service Delivery
1) Services are provided at a specified (regularly scheduled) time for a limited period of time.
2) Service Settings:
   a. For services billable to DCS, services are provided face-to-face in the counselor’s
      office or other setting.

Department of Child Services
Regional Document for Child Welfare Services
Term 7/1/11-6/30/13
July 16, 2012
b. For services billable to Medicaid Clinic Option, the service setting is either outpatient or office setting.
c. For services billable to Medicaid Rehabilitation Option, the service must be provided at the client’s home or other at other locations outside the clinic setting.

3) Services will be based on objectives derived from the family’s established DCS/Probation case plan, Informal Adjustment, taking into consideration the recommendations of the Child and Family Team (CFT) and authorized by DCS/Probation referral, and subsequent written documents.

4) The counselor will be involved in Child and Family Team Meetings (CFTM) if invited.
5) Counselor must respect confidentiality. Failure to maintain confidentiality may result in immediate termination of the service agreement.
6) Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral-valued, culturally competent manner.
7) Services include providing any requested testimony and/or court appearances, including hearings and/or appeals.
8) Services must be provided at a time convenient for the family.
9) Services will be time-limited.
10) Written reports will be submitted monthly to provide updates on progress and recommendation for continuation or discontinuation of treatment. The DCS approved “Monthly Progress Report” form will be used.

III. Medicaid
For those families and children not eligible for Medicaid Rehabilitation Option, this service will be paid by DCS. For eligible families and children, some services may be provided through Medicaid Rehabilitation Option (MRO) or Medicaid Clinic Option (MCO) with the remaining services paid by DCS. While the primary focus of these services is on the needs of the family, it is expected that some of these services will be deemed medically necessary to meet the behavioral health care needs of the MRO eligible client, and therefore may be billable to MRO. Other services for Medicaid clients may be covered under MCO. The service standard is not a Medicaid standard and includes services that are not billable to Medicaid. It is the responsibility of the contracted service provider to be knowledgeable about the Medicaid billing requirements and comply with them, including provider qualifications and any pre-authorization requirements and further, to appropriately bill those services in particular cases where they may be reimbursed by Medicaid. The Services not eligible for MRO or MCO may be billed to DCS.

IV. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. DCS will only pay
for reports when DCS is not paying for these services. If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

V. Target Population
Services must be restricted to the following eligibility categories:

1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with Informal Adjustment (IA) or CHINS status.
2) Children and their families which have an IA or the children have the with a status of CHINS, and/or JD/JS;
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.
4) All adopted children and adoptive families.

Services billable to MRO are for Medicaid eligible clients with a qualifying diagnosis and level of need. Services billable to MCO are for Medicaid eligible clients.

VI. Goals and Outcome Measures
Goal #1 Maintain timely intervention with family and regular and timely communication with current Family Case Manager or Probation Officer.
Objectives
1) Therapist or backup is available for consultation to the family 24-7 by phone or in person.

Fidelity Measures:
1) 95% of all families that are referred will have face-to-face contact with the client within 5 days of receipt of the referral or inform the current Family Case Manager or Probation Officer if the client does not respond to requests to meet.
2) 95% of families will have a written treatment plan prepared and sent to the current Family Case Manager/Probation Officer within 30 days of the receipt of the referral.
3) 100% of all families will have monthly written summary reports prepared and sent to the current Family Case Manager/Probation Officer. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.

Goal #2 Improved family functioning including development of positive means of managing crisis.

Objectives
1) Service delivery is grounded in best practice strategies, using such approaches as cognitive behavioral strategies, motivational interviewing, change processes, and building skills based on a strength perspective to increase family functioning.
Client Outcome Measures:
1) 67% of the families that have a child in substitute care prior to the initiation of service will be reunited by closure of the service provision period.
2) 90% of the individuals/families will not be the subjects of a new investigation resulting in the assignment of a status of “substantiated” abuse or neglect throughout the service provision period. (To be measured/evaluated by DCS/Probation staff)
3) 90% of the individuals/families that were intact prior to the initiation of service will remain intact throughout the service provision period.

Goal #3 DCS/Probation and clients will report satisfaction with services provided.

Outcome Measures:
1) DCS/Probation satisfaction will be rated 4 and above on the Service Satisfaction Report.
2) 90% of the clients will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless DCS/Probation distributes one to providers for their use with clients. Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

VII. Minimum Qualifications

Counselor/Direct Worker:

MCO billable:
- Medical doctor, doctor of osteopath; licensed psychologist
- Physician or HSPP-directed services provided by the following: licensed clinical social worker, licensed marital and family therapist; licensed mental health counselor; a person holding a master’s degree in social work, marital and family therapy or mental health counseling; an advanced practice nurse.

MRO billable:
Providers must meet the either of the following qualifications:
- Licensed professional, except for a licensed clinical addiction counselor
- Qualified Behavioral Health Professional (QBHP).

DCS billable:

Counselor
- Master's degree in social work, psychology, marriage and family therapy, or related human service field and 3 year’s related clinical experience or a master’s degree with a clinical license issued by the Indiana Social Worker, Marriage and Family Therapist or Mental Health Counselor Board, as one of the following: 1) Clinical Social Worker 2) Marriage and Family Therapist 3) Mental Health Counselor.

Supervision:

Master's degree in social work, psychology, or marriage and family or related human service field, with a current license issued by the Indiana Social Worker, Marriage and Family Therapist
or Mental Health Counselor Board, as one of the following: 1) Clinical Social Worker 2) Marriage and Family Therapist 3) Mental Health Counselor.

Supervision/consultation is to include not less than one (1) hour of face-to-face supervision/consultation per 20 hours of direct client services provided, nor occur less than every two (2) weeks.

Providers are to respond to the on-going individual needs of staff by providing them with the appropriate combination of training and supervision. The frequency and intensity of training and supervision are to be consistent with “best practices” and comply with the requirements of each provider’s accreditation body. Supervision should include individual, group, and direct observation modalities and can utilize teleconference technologies. Under no circumstances is supervision/consultation to be less than one (1) hour of supervision/consultation per 25 hours of face-to-face direct client services provided, nor occur less than every two (2) weeks.

In addition to the above:

- Knowledge of child abuse and neglect, and child and adult development,
- Knowledge of community resources and ability to work as a team member;
- Beliefs in helping clients change their circumstances, not just adapt to them,
- Belief in adoption as a viable means to build families.
- Understanding regarding issues that are specific and unique to adoptions, such as loss, mismatched expectations and flexibility, entitlement, gratification delaying, flexible parental roles, and humor.

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral-valued culturally-competent manner.

VIII. Billable Units

Medicaid:

It is expected that the majority of the individual, family and group counseling provided under this standard will be based in the clinic setting. Some group counseling may occur in the community. In these instances, the units may be billable through MRO. Medicaid shall be billed when appropriate.

Services through the MCO may be Outpatient Mental Health Services. Medicaid shall be billed first for eligible services under covered evaluation and management codes, including those in the 90000 range.

Services through the Medicaid Rehab Option (MRO) may be group Behavioral Health Counseling and Therapy.

**DCS funding:** Those services not deemed medically necessary for the Medicaid eligible client, including services to other referred members of the family that are not related to the behavior health care needs of the eligible client, will be billed to DCS per face-to-face hour as outlined below. These billable units will also be utilized for services to referred clients who are not Medicaid eligible and for those providers who are unable to bill Medicaid.

**Face to face time with the client (Individual and Family each have a face to face rate):** (Note: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include persons not legally defined as part of the family)

- Includes client-specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed
- Includes crisis intervention and other goal-directed interventions via telephone with the identified client family.
- Includes Child and Family Team Meetings or case conferences including those via telephone initiated or approved by the DCS/Probation for the purposes of goal-directed communication regarding the services to be provided to the client/family

**Reminder:** Not included are routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately

**Supervised Visit:**
**Time spent supervising visits will be billed separately from other services within this standard. The rate will be the same as the face-to-face rate, but will include only time spent face-to-face supervising the visit. Any other billable time as defined in the face-to-face rate, should be billed under the face-to-face rate.
Per person per group hour
Services include group goal directed work with clients. To be billed per client per hour attended.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes  do not bill  0.00 hour
- 8 to 22 minutes  1 fifteen minute unit  0.25 hour
- 23 to 37 minutes  2 fifteen minute units  0.50 hour
- 38 to 52 minutes  3 fifteen minute units  0.75 hour
- 53 to 60 minutes  4 fifteen minute units  1.00 hour

Translation or sign language
Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. Dollar-for-dollar amount.

Court
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

Reports
If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

IX. Case Record Documentation
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written progress reports no less than monthly or more frequently as prescribed by DCS/Probation and requested supportive documentation such as case notes, social summaries, etc. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation
X. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

XI. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
I. Services Description
The provision of services is for youth and families with complex needs that are involved in multiple care systems and are involved with the Department of Child Services and/or Juvenile Probation. Cross-system care coordination is designed to facilitate child and family teams comprised of youth, families, their natural support persons, local systems, agencies, and community members. These teams design individualized service and resource plans based on the needs of the youth.

Services in this system of care should be comprehensive, incorporating a broad range of services and supports, individualized, provided in the least restrictive, appropriate setting coordinated at the system and service delivery levels involve youth and families as full partners and emphasize early identification and intervention. Core values of a system of care are, that services are child centered and family driven, community based and culturally competent.

The services provided are comprehensive and will include cross-system coordination, case management, safety and crisis planning, comprehensive strength-based discovery and assessment, activities of daily living training, assistance to the FCM in the facilitation of the child and family team process, and family and child centered care.

This service is based on the belief that children and their families are remarkably resilient and capable of positive development when provided with community-centered support, truly defined by what is in the best interest of the child. It is meant to provide a single comprehensive system of care that allows children and families in the child welfare and/or juvenile probation system(s) with complex needs to receive culturally competent, coordinated, and uninterrupted care.

The services provided to the clients and covered in the per child allotment rate will include but are not limited to the following:

1) Behavioral Health Services
   • Behavior Management Services
   • Crisis Intervention
   • Day Treatment
   • Evaluation / Testing Services
   • Family Assessment
   • Family Therapy
   • Group Therapy
   • Individual Therapy
   • Parenting/ Family Skills Training Groups
• Special Therapy
• Substance Abuse Therapy- Group
• Substance Abuse Therapy- Individual
• Family Preservation – home based services

2) Mentor Services
• Case Management
• Clinical Mentor
• Educational Mentor
• Life Coach/ Independent Living Skills Mentor
• Parent and Family Mentor
• Recreational/Social Mentor
• Supported Work Environment
• Tutor

3) Other Services
• Consultation with Other Professionals
• Team Meetings
• Transportation

4) Psychiatric Services
• Assessments Outpatient
• Medication Follow-up/ Psychiatric Review

5) Respite Services
• Crisis Respite
• Planned Respite

6) Supervision Services
• Community Supervision
• Intensive Supervision

7) All Out of Home Placements

8) Services to meet the needs of children with complex medical needs or developmental delays.

II. Service Delivery
1) The Care Coordinator has the specific responsibilities for the following:
• Evaluates and interprets referral packet information and completes a strength based assessment with child and family and the Child and Adolescent Needs and Strengths Assessment (CANS).
• Collaborate with the Family Case Manager (FCM)/Probation Officer in convening the family members, service providers and other child and family team members to form a collaborative plan of care with clearly defined goals.
• Addresses need for and develops, revises and monitors crisis plan with family and team members.
• Ensures that parent and family involvement is maintained throughout the service period so that families have continual voice and choice in their care.
• Maintains ongoing dialogue with the family and providers to assure that the philosophy of care is consistent and that there is progress toward service goals. Evaluates the progress and makes adjustments as necessary.
• Maintains central file consisting of treatment summaries, payment and resource utilization records, case notes, legal documents and releases of information.
• Facilitates the closing of the case and oversees transition to any ongoing care.
• Uses resources and available flex funding to assure that services are based specifically on the needs of the child and family.
• Able to deliver strength based, family centered, culturally competent services.
• Able to interpret psychiatric, psychological and other evaluation data, and use that information in the formation of a collaborative plan of care.
• Able to complete all documentation using a computerized clinical record.
• Creativity, flexibility and optimism about the strengths of children and their families.

2) Providing agency receives referrals 24 hours a day, 7 days a week. There is a verbal determination between the referring worker and the agency that services are warranted, and there is agency availability for the service before the referral is sent.

3) The initial face-to-face contact with the family must occur no later than two (2) business days following receipt of the completed referral or as requested by the referring worker.

4) An abbreviated assessment to determine service tier is based on the needs of the youth and family and is mutually established between the referral source and care coordinator within 14 days of completed referral. Goal setting and service planning are mutually established between the youth, caregiver, care coordinator, providers and referral source based upon the comprehensive assessment within 21 days of the completed referral.

5) Each family receives access to services through a single care coordinator acting within a team, with supports available 24 hours a day 7 days a week.

6) Regular assessment of needs and strengths of the youth and family will be completed and discussed within the Child and Family team to guide decision making on services and supports for the youth and family. System-related concerns and directives are included in these team discussions as well.
7) Safety is of paramount importance. If there are concerns about safety within the home there is an obligation for the care coordinator and the current worker to communicate to address all safety concerns, and document safety steps taken to resolve the issues. If new incidences occur, the care coordinator is to notify the current worker immediately of the situation.

8) Confidentiality must be maintained. Failure to maintain confidentiality may result in termination of the service agreement.

III. Target Population
Services are restricted to cases where existence of complex needs has been documented within the following eligibility categories:

1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
2) Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.
4) All adopted children and adoptive families.

IV. Goals and Outcomes
Goal #1 Provide high quality care which results in improved outcomes for the child and family.

Improved child and family functioning
A) Improved school functioning
   • Maintain or improve CANS score for school achievement in 85% of cases.
   • Maintain or improve CANS score for school attendance in 85% of cases.
   • Maintain or improve CANS score for school behavior in 85% of cases
   • In 85% of cases where a decrease in suspension/expulsion is identified as a goal, progress will be demonstrated
   • The Care Coordinator Treatment Plan level rating decreases in severity in 85% of cases

B) Improved records with the child welfare and juvenile justice system
   • 85% of families with no further substantiated incidences of child abuse or neglect, which results in removal of the child from the home for a period of six and twelve months from dis-enrollment
   • In 85% of cases where delinquency, runaway, truancy or violations of probation are identified as an issue, children will have no further substantiated incidences which results in placement failure during enrollment
   • In 85% of cases where delinquency, runaway, truancy or violations of probation are identified as an issue, children will have no further substantiated incidences which results in placement failure for a period of six and twelve months from dis-enrollment
C) Improved CANS scores
   • 50% of the children and families will have statistically significant improvement in any
     life domain on the CANS (functioning, behavioral health systems, risks, caretaker needs
     and strengths, child’s strengths)

D) Progress in Service Coordination Plan
   • Child will show progress in goals established in the individual plan as measured by
     monthly team report and Care Coordinator Treatment Plan

Increased family autonomy
A) Assist the family to increase informal supports and reduce reliance on formal service
   providers.
   • 95% of families will increase the number of informal supports.
   • 95% of families will have a reduced need for service providers.

B) Caregiver Strain Questionnaire
   • Increase family autonomy or maintain satisfactory family autonomy as measured by the
     Caregiver Strengths and Needs Dimension of the CANS in 80% of cases.

V. Minimum Qualifications

Supervisor:
Master’s Degree in Social Work, Psychology, Marriage and Family Therapy, or related Human
Services field; and,

A current license issued by the Indiana Social Worker, Marriage and Family Therapist and
Mental Health Counselor Board as one of the following:
   • Clinical Social Worker
   • Marriage and Family Therapist
   • Mental Health Counselor

Care Coordinator:
Bachelor’s Degree in Social Work or related Human Service field; and,
Minimum of three years of clinical/management experience in human service field; and,
Demonstrated clinical intervention skills over 2 or more years; and,
Demonstrated skill in fiscal management activities, team building and development

Services will be conducted with behavior and language that demonstrates respect for socio-
cultural values, personal goals, life-style choices, as well as complex family interactions;
services will be delivered in a neutral valued culturally competent manner.
The Care Coordinator assures care is delivered in a manner consistent with strength-based, family centered, and culturally competent values, offers consultation and education to all providers regarding the values of the model, monitors progress toward treatment goals and assures that all necessary data for evaluation is gathered and recorded.

VI. Billable Units
Billable units will be based on four levels of service and are based on intensity with Level 1 being the least intense and Level 4 with the most intense. **Attach to your program narrative the definition of your levels of service of intensity and their components.** The assessment period will help determine the appropriate tier based on CANS scores, other criteria, and collateral information. Billable rates will include all costs associated with services and placement.

Due to economies of scale, the cost associated with serving each youth decreases as the number of youth served increases. As a result, the case rates vary based on the number of youth enrolled and the level of service. Rate will be defined as a monthly rate and daily rate based on the other criteria.

*Note that Medicaid MRO and MCO should be used to pay for care coordination and other services when possible.

- **Translation Services**
  Services include translation for families who are non-English language speakers or hearing impaired and must be provided by a non-family member of the client. Dollar for Dollar amount.

</table>

If the number of youths to be served and the cost associated exceed the above then a budget summary must be submitted.

VIII. Case Record Documentation
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/ Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written progress reports no less than monthly or more frequently as prescribed by DCS/Probation and requested supportive documentation such as case notes, social summaries, etc. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation.

IX. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period.

X. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
I. Services Description

Diagnostic and assessment services will be provided as requested by the referring worker for parents, other family members, and children due to the intervention of the Department of Child Services because of alleged physical, sexual, or emotional abuse or neglect, the removal of children from the care and control of their parents, and/or children alleged to be a delinquent child or adjudicated a delinquent child. When either a psychological or emotional problem is suspected to be contributing to the behavior of an adult or child or interfering with a parent’s ability to parent, they should be referred for an initial bio-psychosocial assessment by a direct worker. If a psychiatric consultation/medication evaluation or either psychological or neuropsychological testing is necessary to answer a specific question, testing may be included in the evaluation after a consultation with the Family Case Manager (FCM) about the purpose of testing. Specific tests may include instruments that assess ability and achievement, substance use/abuse, testing for personality and psychopathology, and assessments of adaptive living skills. The results of the evaluation including diagnostic impression and treatment recommendations will be forwarded to the Family Case Manager to assist the family in remedying the problems that brought the family to the attention of child protective services or probation.

II. Service Delivery

Clinical Interview and Assessment

The purpose of the Clinical Interview and Assessment is to have the following completed and summarized in a report:

- Bio-psychosocial assessment (including initial impressions of parent functioning)
- Diagnosis (if applicable)
- Summary of Recommended Services and Service Approach

1. The completed report will utilize the DCS standardized report format for Diagnostic Evaluation Services. The report should be completed with a summary to DCS within 15 calendar days of referral.
2. The service provider may recommend psychological testing, neuropsychological testing and/or psychiatric consultation/medication evaluation as a result of the bio-psychosocial assessment. If psychological testing or neuropsychological testing is recommended, the service provider should include in the report the specific issues/questions the testing should address. A new referral under this service standard will be required for these services.
3. The service provider may recommend a Parenting/Family Functioning Assessment. Justification as to why this level of assessment is necessary should be included in the report. A new referral Parenting/Family Functioning Assessment will be required for this service.

**Psychological Testing**
1. The psychologist will conduct applicable psychological testing as recommended during the Clinical Interview and Assessment and approved by the Family Case Manager.
2. The psychologist will respond with a written report within 30 days from the date of the referral.

**Neuropsychological Testing**
1. The psychologist will conduct applicable neuropsychological testing as recommended by the service provider and approved by the Family Case Manager.
2. The psychologist will respond with a written report within 45 days from the date of the referral.

**Medication Evaluation**
If psychiatric consultation/medication evaluation is recommended, the psychiatrist will see the client within 14 days from the date of referral and complete a written report within 30 days from the date of evaluation.

**Ongoing Medication Monitoring**
Ongoing medication monitoring will be provided as needed based on the results of the Medicaid Evaluation.

**Child Hearsay Evaluation**
An evaluation completed by a psychiatrist, physician, or psychologist to determine if participation in court proceedings would create a substantial likelihood of emotional or mental harm to the child. A completed report will be provided to the referring worker within 14 days of referral.

**Comprehensive Report**
Comprehensive psychological evaluations include a detailed history of the client in order to obtain symptom development and configuration, and include objective/standardized psychological testing results. Collateral data is also collected, and includes but is not limited to interviews with service providers, treatment records of inpatient and outpatient care, and information with family members.
The comprehensive report will integrate all data into a summary of the issues creating barriers to reunification, explain the psychological diagnosis, and will provide recommendations for treatment. If requested reports can make recommendations regarding parental functioning or the prognosis of the permanency options.

III. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. **DCS will only pay for reports when DCS is not paying for these services.** If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

IV. Target Population

Services must be restricted to the following eligibility categories:

1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
2) Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or ID/JS.
3) Children with the status of CHINS or ID/JS and their Foster/Kinship families with whom they are placed.
4) All adopted children and adoptive families

V. Goals and Outcomes

Goal #1
Timely receipt of evaluations.

Objective:
1) Service provider to submit written report to the referring Family Case Manager within the designated time frames of completion of evaluation.

Outcome Measure/Fidelity Measure
1) 95% of the evaluation reports will be submitted to the referring Family Case Manager within specified service delivery time frames.
Goal #2
Obtain appropriate recommendations based on information provided.
Outcome Measure
1) 100% of reports will meet information requested by the referring Family Case Manager/Probation Officer.
2) 100% of reports will include recommendations for treatment, needed services or indicate no further need for services.

Goal #3
Client satisfaction with service provided.
Outcome Measure
1) DCS and/or probation satisfaction will be rated 4 and above on the Service Satisfaction Report.
2) A random Sample of Satisfaction Surveys will be completed at the conclusion of services.

VI. Minimum Qualifications

Clinical Interview and Assessment Reimbursed by DCS:
Diagnosis and assessment may only be done independently by a Health Services Provider in Psychology (HSPP). The following providers may provide bio-psychosocial assessments under the direct supervision of a Health Service Provider in Psychology (HSPP) psychologist or psychiatrist.

- Master's degree in social work, psychology, marriage and family therapy, or related human services field.
- Masters degree with a clinical license issued by the Indiana Social Worker, Marriage and Family Therapist or Mental Health Counselor Board, as one of the following: 1) Clinical Social Worker 2) Marriage and Family Therapist 3) Mental Health Counselor.

Clinical Interview and Assessment Reimbursed by Medicaid:

Subject to prior authorization by the office or its designee, Medicaid will reimburse physician or HSPP directed outpatient mental health services for group, family, and individual outpatient psychotherapy when such services are provided by one (1) of the following practitioners:
(A) A licensed psychologist.
(B) A licensed independent practice school psychologist.
(C) A licensed clinical social worker.
(D) A licensed marital and family therapist.
(E) A licensed mental health counselor.
(F) A person holding a master's degree in social work, marital and family therapy, or mental health counseling.
(G) An advanced practice nurse who is a licensed, registered nurse with a master's degree in nursing with a major in psychiatric or mental health nursing from an accredited school of nursing.

The physician, psychiatrist, or HSPP is responsible for certifying the diagnosis and for supervising the plan of treatment described as follows:

(A) The physician, psychiatrist, or HSPP is responsible for seeing the recipient during the intake process or reviewing the medical information obtained by the practitioner listed above within seven (7) days of the intake process. This review by the physician, psychiatrist, or HSPP must be documented in writing.
(B) The physician, psychiatrist, or HSPP must again see the patient or review the medical information and certify medical necessity on the basis of medical information provided by the practitioner listed above at intervals not to exceed ninety (90) days. This review must be documented in writing.

**Psychological & Neuropsychological Testing Reimbursed by DCS:**

*Test Interpretation*
Diagnosis and assessment may only be done independently by a Health Services Provider in Psychology (HSPP) or physician.

*Test Administration*
The following practitioners may administer psychological testing under the direct supervision of a HSPP or physician:

(A) A licensed psychologist.
(B) A licensed independent practice school psychologist.
(C) A person holding a bachelor’s degree and one (1) of the following:
   (i) twenty (20) hours of documented specific instruction and direct supervision by a physician or HSPP psychologist at the performance site on the tests to be used including instruction on administration and scoring and practice assessments with non-patients and final approval to administer the specific instruments by a physician or HSPP psychologist at the performance site; or
   (ii) status as a psychology intern enrolled in an American Psychological Association (APA)-approved internship program.
(D) A psychology resident enrolled in an APA-approved training program or APPIC recognized internship or post-doctoral program.
(E) An individual certified by a national organization in the administration and scoring of psychological tests.
The physician and HSPP are responsible for the interpretation and reporting of the testing performed. The physician and HSPP must provide direct supervision and maintain documentation to support the education, training, and hours of experience for any practitioner providing services under their supervision. A cosignature by the physician or HSPP is required for services rendered by one of the lower level practitioners.

**Psychological & Neuropsychological Testing reimbursed by Medicaid:**

Subject to prior authorization by the office or its designee, Medicaid will reimburse for neuropsychological and psychological testing when provided by a physician or an HSPP. The services are provided by one (1) of the following practitioners:

(A) A physician.

(B) An HSPP.

(C) The following practitioners may only **administer** neuropsychological and psychological testing under the direct supervision of a physician or HSPP:

1. A licensed psychologist.
2. A licensed independent practice school psychologist.
3. A person holding a master's degree in a mental health field and one (1) of the following:
   (a) A certified specialist in psychometry (CSP).
   (b) Two thousand (2,000) hours of experience, under direct supervision of a physician or HSPP, in administering the type of test being performed.

The physician and HSPP are responsible for the interpretation and reporting of the testing performed. The physician and HSPP must provide direct supervision and maintain documentation to support the education, training, and hours of experience for any practitioner providing services under their supervision. A cosignature by the physician or HSPP is required for services rendered by one of the practitioners listed in subdivision (C).

**Medication Evaluation and Ongoing Medication Management:**

(A) Physician

(B) Advanced Practice Nurses (Nurse Practitioners or Certified Nurse Specialists) with a 1) master or doctoral degree in nursing with a major in psychiatric or mental health nursing, 2) from an accredited school of nursing.

If working as an Authorized Health Professional staff must 1) be an Advance Practice Nurse as described above, 2)and prescriptive authority, 3)must work within the scope of his/her license and 4) have a supervisory agreement with a licensed physician.

**VII. Billable Unit**

Medicaid:
It is expected that the diagnostic and assessment services provided under this standard will be based in the clinic setting. Medicaid shall be billed when appropriate. Services will be billable by utilizing the 90000 codes.

**DCS Funding:**

Those services not billable under Medicaid, may be billed to DCS as follows:

- **Clinical Interview and Assessment:** Hourly Rate-Face to Face time with a client. Plus a maximum of 1 hour may be billed for report writing.

- **Psychological Testing:** Per Hour. Includes time face to face with the client and time spent administering, scoring, and interpreting testing. Plus a maximum of 1 hour may be billed for report writing.

- **Neuropsychological Testing:** Per Hour. Includes time face to face with the client and time spent administering, scoring, and interpreting testing. Plus a maximum of 1 hour may be billed for report writing.

- **Medication Evaluation:** per hour face to face with the client. Plus a maximum of ½ hour may be billed for report writing.

- **Ongoing Medication Monitoring:** per hour face to face with the client.

- **Child Hearsay Evaluation:** per hour face to face with the client. Plus a maximum of ½ hour may be billed for report writing.

- **Comprehensive Report:** per hour. Additional hours can be billed when prior DCS approval is given. The Comprehensive Report includes extra collateral contacts and a more extensive written report.

Hourly Services may be billed in 15 minute increments, partial units are rounded to the nearest quarter using the following guidelines:

- 0 to 7 minutes do not bill 0.00 hour
- 8 to 22 minutes 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour

- **Medication:** Actual Cost
  
  The provider must access all sample medication resources and other medication sources (e.g., MAP) and pharmaceutical companies that provide free or reduced cost medications prior to billing DCS. Documentation of these efforts must be maintained in the case file.
• **Court**: The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

• **Reports**
  If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

• **Translation or sign language**:
  Services include translation for families who are non-English language speakers or hearing impaired and must be provided by a non-family member of the client. Dollar for dollar amount.

**VIII. Case Record Documentation**

Necessary case record documentation for service eligibility must include:

1) A completed, dated, signed DCS/Probation referral form authorizing service;
2) Written reports as defined in this service standard.
3) Documentation regarding efforts to secure low cost or free medications prior to billing DCS.

**IX. Service Access**

All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation, an approved DCS referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period.

**X. Adherence to the DCS Practice Model**

Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
DOMESTIC VIOLENCE BATTERERS INTERVENTION SERVICES
(Revised 2/1/12-Effective 3/1/12)

A Batterers Intervention Program (BIP), Certified by the Indiana Coalition Against Domestic Violence (ICADV), shall be utilized by DCS as a preferred contract provider of services for domestic violence offenders/batterers in keeping with I.C. 35-50-9. If a contract service provider is needed in an area in which an ICADV Certified BIP is not available, the service provider must adhere to the DCS standards listed below.

I. Service Description

Definition of Domestic Violence (Indiana Coalition Against Domestic Violence [ICADV] definition) - A pattern of assaultive or coercive behavior, including physical, sexual, or psychological attacks, as well as economic coercion, that adults or adolescents use against an intimate partner. Intimate partners include spouse, former spouse, those living or having lived as if a spouse, those having a child in common, those having a past or current sexual relationship, or a past or current dating relationship.

The batterer or offending parent may be selected for service delivery of Domestic Violence Batterers Intervention Services. Batterers’ intervention services shall not exist in isolation, as it represents only one component of a coordinated community response to domestic violence. Services shall maintain cooperative working relationships with local programs (domestic violence programs and shelters, survivor programs, law enforcement, courts, advocates, legal services, etc.). Services shall focus on victim safety, batterer accountability and community collaboration, in that order. Services should be non-abusive, support change, and hold program clients accountable for their behavior.

II. Service Delivery

Group is the only method of services for the batterer. Group sessions will be for same-gendered participants only. All service must follow the ICADV approved policies and procedures for BIP service delivery as listed below:

1) The provider and the agency operating the program will not provide couples counseling involving the batterer until after the batterer/participant has successfully completed the program, and not thereafter if facilitators and advocates have reason to be concerned about the victim or child safety.

2) As a condition of program completion, each participant must attend a minimum of 26 weekly sessions, consisting of at least 1.5 hours each. Two of these sessions can be used for the orientation/intake and for the exit/program termination interviews.

3) A minimum of 24 of the 26 sessions will be group sessions.

4) Class size should not exceed 18.
5) The provider will establish objective criteria for program completion that will be enforced uniformly.
6) All on-going batterers’ groups shall be conducted by qualified personnel.
7) The provider will have an established procedure for notification of victim/survivor/partner about expulsion and/or completions.
8) Any communication regarding program completion must include the following statement: *Program completion does not guarantee the absence of future violence or abusive behavior.*
9) The batterer may pursue other service methods after satisfactory completion of group services as determined and documented by BIP provider staff. The batterer should only be included in marital/couples or family services if the batterer has done extensive work to change violent behavior and there is proof of progress. The batterer should not be included in marital/couples or family services if there is reason to be concerned about the survivor/child’s safety or wellbeing.
10) Services must be available to participants who have limited daytime availability.
11) Provider must respect confidentiality unless otherwise specified by the client-provider contract. Failure to maintain confidentiality may result in immediate termination of the service agreement between DCS and the provider.

Provider shall conduct intake with batterer within 72 hours after referral by DCS. Intake shall include but is not limited to:

- Acknowledgment of Batterer’s past and current use of physical and sexual violence, including other abusive behaviors, within and outside of intimate relationships
- Substance abuse assessment and history
- History of mental illness, including threats or ideations of homicide

Substance abuse, addictions, and/or mental illness counseling/treatment is not an appropriate intervention for domestic violence and may not be substituted for the program. If intake indicates the need for substance abuse or mental health treatment, it shall be done separately and not in conjunction with batterer’s intervention.

Providers shall require batterers to sign a contract as outlined in the ICADV Policies and Procedures for Services to Batterers. The provider shall require batterers to sign an explicit, written waiver of confidentiality at the time of intake, which will give the provider permission to make reports, to testify, to otherwise communicate as needed, and to reveal file and other information regarding the batterer to each of the following:

1) Indiana Department of Child Services;
2) The referral source, if legally mandated;
3) The court, prosecutor, police, probation and child protective agency of the referring county;
4) The victim/partner/survivor or her/his designated advocate;

Department of Child Services
Regional Document for Child Welfare Services
Term 7/1/11-6/30/13
July 16, 2012
5) Administrative and professional personnel who need information for record-keeping, monitoring, or professional development.

6) Any entity or person to whom the provider is legally bound to report suspected abuse or neglect of a child or protected adult;

7) Any person to whom the provider must report in order to fulfill its duty to warn or protect.

The waiver may include a specified end date, but an exception must be included in the text of the waiver that extends the waiver beyond the end date where necessary in order to prevent the participant from avoiding legal consequences for criminal or violent acts or in order for the provider to respond to a court subpoena for information or testimony.

**Curriculum Content**

1) The central focus of any provider curriculum will remain on participant responsibility and accountability for their beliefs and actions. It will actively challenge all abusive behaviors or victim blaming.

2) Any provider curriculum used or developed by provider programs will be based on ICADV-approved curriculum.

3) Provider curriculum should reflect an awareness of cultural diversity.

**Therapeutic DV Batterer Intervention**

Alternative approaches (e.g., therapeutic) with special approval from DCS. Group must be facilitated by someone with a Master's degree in social work, psychology, marriage and family therapy, or related human service field with a clinical license issued by the Indiana Social Worker, Marriage and Family Therapist or Mental Health Counselor Board, as one of the following: 1) Clinical Social Worker 2) Marriage and Family Therapist 3) Mental Health Counselor.

**Program Monitoring**

Provider will establish a written working agreement with a local independent domestic violence program or advocate. The local domestic violence program or advocate will be referred to as the “monitor”. This written agreement will include all necessary elements as per ICADV Policies and Procedures.

The provider will develop guidelines for BIP participant expulsion reflecting ICADV policies so that decisions are uniform and predictable and so that discrimination does not occur against any participant based on race, class, age, physical handicap, religion, educational level, ethnicity, national origin, sexual orientation, or gender. Batterers may be re-enrolled in group on an individual basis at the provider’s discretion in consultation with the referring FCM.

**Partner Contact**
Definition: “Partner contact” refers to any mail, phone, e-mail, or face-to-face contact, direct or indirect, with any partner, victim, survivor, ex-partner/victim/survivor, or child of a program participant, before, during, or after his/her enrollment in the program. Providers shall follow guidelines established by ICADV.

The provider shall establish a written policy requiring that all staff have a duty to warn and protect victims, partners, children and others against whom the batterer has made a threat of violence. This policy will detail the criteria for determining when a duty to warn arises, and the procedures staff are expected to follow.

Batterer services must work in collaboration with local programs that serve survivors of domestic violence, law enforcement, the Indiana Coalition Against Domestic Violence and the Resource Center (ICADV) and others. Collaboration shall include: Measuring effectiveness of the services by outcome measures and being an active participant in local coordinated community response efforts.

III. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. **DCS will only pay for reports when DCS is not paying for these services.** If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

IV. Target Population

Services must be restricted to cases where domestic violence has been documented within the following eligibility categories:

1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
2) Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.

V. Goals and Outcomes
Goal #1 BIP participants will not continue to engage in assaultive or coercive behavior, including physical, sexual, or psychological attacks as well as economic coercion against an intimate partner.

Outcome Measures
1) 90% of participants will acknowledge use of power and control in their relationship.
2) 70% of program participants have no further involvement with the DCS or criminal justice system related to domestic violence for a 12 month period beginning with program enrollment.
3) 80% of referrals will complete the full 26 week group curriculum.

Fidelity Measures:

Program fidelity/abiding by “best practices” is perhaps the best predictor of successful outcomes and provides an effective indirect measure. An audit undertaken by a DCS employee or designee may be conducted to assure program accountability. Programs must clearly link daily practices to the following program fidelity issues:
1) 90% of the supportive services (shelters, law enforcement, courts, advocates, legal agencies etc.) have a cooperative working relationship with the provider.
2) 100% of the BIP provider staff focus on victim safety as evidenced by adherence to appropriate policies and procedures of the provider agency.
3) 100% of program participants have an opportunity to participate in same-gender group sessions within 30 days of the referral.
4) 75% of programs are available to participants who have limited daytime availability.
5) 100% of groups are conducted by qualified personnel (see qualification section).
6) 100% of the BIP referrals are offered a 26-week group curriculum for batterers.
7) 80% of referrals have a provider contact attempted within 72 hours of referral and outcome of contact is documented.
8) 100% of program participants sign an agreement/contract as outlined by ICADV Policies and Procedures for BIP providers.
9) 100% of BIP providers will require staff to warn and protect victims, partners, children and others when and if the batterer has made a threat of violence as evidenced by adherence to appropriate policies and procedures of the provider agency.

VI. Minimum Qualifications
A. Initial Qualifications
Individuals must meet one of the following ICADV criteria in order to be deemed a qualified service provider by DCS:
1. Co-Facilitator: To qualify to co-facilitate a class or group session with a qualified Supervisor/Trainer or Facilitator, an individual must show:
   a. Evidence of 60 hours of formal training approved by ICADV. A minimum of 40 hours of this training must be specific to domestic violence. The remaining 20 hours
shall include evidence of training in each of the following areas of group facilitation skills, cultural diversity, substance abuse, and mental health.

b. Evidence of observing a minimum of 26 different ICADV-approved sessions.

2. Facilitator: To qualify to facilitate an individual must show:
   a. Evidence of meeting all the requirements of a Co-facilitator.
   b. 100 hours of formal training approved by ICADV. A minimum of 60 hours of this training must be specific to domestic violence. The remaining 40 hours shall include evidence of training in each of the following areas of group facilitation skills, cultural diversity, substance abuse, and mental health.
   c. Evidence of co-facilitating a minimum of 26 additional sessions with a Supervisor/Trainer.

3. Supervisor: To qualify to supervise an individual must show:
   a. Evidence of meeting all the requirements of a Facilitator.
   b. 120 hours of formal training approved by ICADV. A minimum of 80 hours of this training must be specific to domestic violence. The remaining 40 hours shall include evidence of training in each of the following areas of group facilitation skills, cultural diversity, substance abuse, and mental health.
   c. Evidence of facilitating a minimum of 26 additional sessions as a Facilitator under a Supervisor/Trainer.

4. Trainer: To qualify to train staff or others related to work, an individual must show:
   a. Evidence of fulfilling the requirements of a Supervisor.
   b. Evidence of a minimum of 3 years experience as a supervisor (or the equivalent thereof).
   c. Evidence of successfully completing the “train the trainer” offered by ICADV.

VII. Billable Units

Group
Services include group goal directed work with clients. To be billed per group hour.

Per Person Per Group
Services include group goal directed work with clients. To be billed per client per hour attended.

Therapeutic Per Person Per Group
Services include group goal directed work with clients. To be billed per client per hour attended. Group must be facilitated by a licensed Master-level Social Worker.

Reminder: Not included are routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the group rate and shall not be billed separately.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:
### Child and Family Team Meetings
Includes only Child and Family Team Meetings or case conferences initiated or approved by the DCS or Probation for the purposes of goal directed communication regarding the services to be provided to the client/family.

### Translation or sign language
Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. (Actual Cost).

### Court
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS or subpoena to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

### Reports
If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

### Therapeutic DV Batterer Intervention
Alternative approaches (e.g., therapeutic) with special approval from DCS.

### VIII. Case Record Documentation
Necessary case record documentation for service eligibility must include:

1. A completed, signed, and dated DCS/Probation referral form authorizing services
2. Documentation of regular contact with the referred families/children
3. Written reports no less than monthly or more frequently as prescribed by DCS/Probation. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4. Copy of DCS/Probation case plan, informal adjustment documentation
IX. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period.

X. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
I. Service Description

Definition of Domestic Violence (Indiana Coalition Against Domestic Violence [ICADV] Definition) – A pattern of assaultive or coercive behavior, including physical, sexual, or psychological attacks, as well as economic coercion, that adults or adolescents use against an intimate partner. Intimate partners include spouse, former spouse, those living or having lived as if a spouse, those having a child in common, those having a past or current sexual relationship, or a past or current dating relationship.

The targeted population for Domestic Violence services includes both survivors and children. Services may be provided comprehensively with service delivery including the survivor and child. The provider is responsible for the reporting and coordinating of services to all populations. Domestic Violence intervention services provided by DCS/Probation are not intended to exist in isolation, but as only one component of a coordinated community response to domestic violence. Services shall maintain cooperative working relationships with local programs (domestic violence, batterers’ programs, survivor programs, shelters, law enforcement, advocates, legal services, etc.). Services shall be structured, goal-oriented, time-limited individual/group services and casework/victim advocacy services.

Services provided may include the following:

- Educational and skills-based support group for survivor and/or child
- Assistance with transportation
- Coordination of services
- Advocacy (which includes goal setting, case management, supportive services)
- Safety planning
- Crisis intervention
- Community referrals and follow up
- Family/Child assessment
- Child development education
- Domestic violence education
- Parenting education with or without children present
- Budgeting and money management
- Participation in Child and Family Team meetings
- Family reunification
- Individual and family services
- Cognitive behavioral strategies
- Family of origin/Intergenerational issues
- Family structure and organization (internal boundaries, relationships, roles,
socio-cultural history)
• Conflict resolution
• Behavior modification
• Substance abuse assessment

II. Service Delivery
1) Child safety and ending violence takes precedence over saving relationships. The service focus shall be on child safety, survivor safety, and increasing the survivor and child’s functioning, both emotionally and physically.
2) The provider must be available to respond for crisis intervention as needed.
3) Service will be provided within the context of the Department of Child Services’ practice model with involvement in Child and Family Team meetings. The provider will develop a service plan based on the provider’s assessment, and the agreements reached in the Child and Family Team meeting as convened by DCS/Probation. Service plans for survivors and children will be developed separately from service plans developed for batterers.
4) Services must be available to participants who have limited daytime availability. The provider must identify a plan to engage the participant in the process, and a plan to work with non-cooperative participants, including those who believe they have no problems to address.
5) Provider must respect confidentiality. Failure to maintain confidentiality may result in immediate termination of the agreement.
6) The provider shall establish a written policy requiring that all staff have a duty to warn and protect survivors, partners, children and others against whom the batterer has made a threat of violence.
7) Services include providing any subpoenaed/court ordered testimony and/or court appearances (to include hearings or appeals).
8) Supervision/consultation is to include not less than one (1) hour of face-to-face supervision/consultation per 20 hours of direct client services provided, nor occur less than every two (2) weeks.
9) Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral-valued culturally-competent manner.

A. Child Services
1) Provider assessment shall occur within 24 hours after initiation of services, upon receipt of DCS/Probation referral. Children will receive an initial assessment of needs when DCS/Probation indicates imminent risk/ immediate safety concerns. A full assessment shall be available to DCS/Probation no later than four (4) working days after receipt of DCS referral.
2) Assessments shall include, but are not limited to: safety and risk factors for the child; child abuse/neglect; food/shelter/clothing; the parent/child relationships; screening for other co-occurring issues (substance abuse, mental health issues, behavioral issues, social impairment, ...
3) A child safety plan shall be developed. (Note: the child must be willing and able to use the plan, and have the ability to opt out of any step in the plan if needed.) Comprehensive safety plans that are age and developmentally appropriate will be developed. Plans at a minimum will include: input from the non-abusive parent and be age appropriate; input from the child when appropriate; identification of safe places to go inside/outside of the home during violence; identification of where to meet if exiting the home is necessary; identification of how and when to use the phone for help; and identification of how to stay safe during an argument/violence.

4) The provider shall develop a comprehensive domestic violence service plan based on the assessment. Plans, at a minimum, will identify the needs of the child, set goals for the child, and establish a timeline for the accomplishment of goals in plan.

5) Advocacy and support services shall be provided as needed and as consistent with the assessment. These services shall include, but are not limited to, crisis intervention, links to community resources, Court Appointed Special Advocate (CASA)/ Guardian Ad Litem (GAL), information, and referral.

6) Services should be provided in the method consistent with the assessment and comprehensive domestic violence service plan and may include: individual or group services, play services, group play services, family services, support groups, and casework/victim advocacy services.

7) Group services for children, if provided, are to occur in weekly sessions at least one (1) hour in length. The number of weekly sessions will be determined by the provider and DCS/Probation based on the child’s individual needs. Class size shall contain a minimum of three (3) participants and is not to exceed twelve (12) participants.

8) Group curriculum will be age appropriate and shall include, but is not limited to: promoting safe discussion of experiences with violence; helping the child understand that violence is not their fault and/or the fault of the survivor; helping the child understand and cope with their emotional responses to domestic violence; helping children identify, label, and express their feelings; exploring the child’s attitudes and beliefs about families and family violence; and teaching children how to effectively manage their own anger.

B. Survivor Services
A comprehensive domestic violence safety plan will be developed based on the assessment. Survivor safety plans at a minimum will include: strategies to increase the safety of themselves and their children; a list of emergency contacts; access to critical legal, financial, and medical documents; medications; and relocation or shelter services.

Provider assessment shall occur within 24 hours after initiation of services, upon receipt of DCS/Probation referral. Survivors will receive an initial assessment of needs when DCS/Probation indicates imminent risk/immediate safety concerns. A full assessment shall be available to DCS/Probation no later than four (4) working days after receipt of DCS/Probation referral.
Assessments shall include, but are not limited to, safety and risk factors for the survivor and 
his/her child(ren), emergency medical/dental care, legal assistance, food/shelter/clothing, 
pARENTING needs and the parent/child relationship, and screening for other co-occurring issues 
(substance abuse, mental health issues, etc.).

The provider shall develop a comprehensive domestic violence service plan based on the 
assessment. Plans, at a minimum, will identify the needs of the survivor, set goals for the 
survivor, establish a timeline for the accomplishment of goals in plan, and identify and promote 
the use of informal and community supports and community resources.

Advocacy and support services shall be provided as needed and as consistent with the assessment 
and comprehensive domestic violence service plan. These services shall include, but are not 
limited to, housing assistance, emergency medical/dental, legal advocacy, job 
training/employment, safety plan, transportation, links to educational resources and community 
resources, information, and referral.

Services should be provided in the method consistent with the assessment and comprehensive 
domestic violence service plan and may include individual, group and/or family services, case 
management, and advocacy services.

Group services, if provided, are for survivors of the same gender and occur in weekly sessions at 
least one (1) hour in length. Number of weekly sessions will be determined by the provider and 
DCS based on the survivor’s individual needs. Class size shall be a minimum of three (3) and is 
not to exceed 20 participants.

Group curriculum shall include, but is not limited to, helping the survivors understand their 
attitudes and beliefs about families and family violence; helping the survivors understand that 
vioLENCE is not their fault and they have no control over the violence; helping the survivors 
understand the dynamics of domestic violence and aspects of power and control; helping the 
survivors understand the impact of family violence on their children’s development; enhancing 
survivors’ parenting skills and appropriate discipline methods; and enhancing the survivors’ 
skills in interacting with the batterer on issues dealing with the best interest of the child, in 
circumstances where face-to-face contact is necessary (visitations, school/athletic events etc.).

If clinical services are identified as a need, and the agency does not provide that service, the 
agency shall notify the FCM, who may refer for additional services. If the agency has a clinician 
on staff, the clinician must adhere to qualifications below.

III. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without 
DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from 
the provider on the progress of the family. The referral process has been set up to authorize 
reports and court components on the DCS referral form in these incidences. DCS will only pay
for reports when DCS is not paying for these services. If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

IV. Target Population
Services must be restricted to cases where domestic violence has been documented within the following eligibility categories:

1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
2) Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.

V. Goals and Outcomes
Goal #1: To Improve Safety of Survivors
Outcome Measures:
1) 100 % of survivors know how to plan for their continued safety.
2) 90 % of survivors report having an increased understanding of their legal rights.
3) 90 % of survivors report they know how to access resources that meet their needs.

Goal #2: To Enhance Skills of Children Who are Exposed to Domestic Violence
Outcome Measures:
1) 100% of children report they know that the violence is not their fault.
2) 90% of children will have identified effective coping mechanisms to deal with emotional responses to domestic violence.
3) 90% of children will have identified strategies to effectively manage their own anger.

Goal #3: Improved functioning including development of positive means of managing crisis
Objectives:
1) Service delivery is grounded in best practice strategies, using such approaches as cognitive behavioral strategies, motivational interviewing, change processes, and building skills based on a strength perspective to increase family functioning.

Client Outcome Measures:
1) 100 % of survivors report an increased knowledge and understanding of the effects of domestic violence on their children.
2) 90% of survivors report an increased understanding of parenting skills and appropriate discipline.
3) 90% of survivors report an increased knowledge on how to interact with the batterer on issues dealing with the best interest of the child.
4) 67% of the families that have a child in substitute care prior to the initiation of service will be reunited by closure of the service provision period.
5) 90% of the individuals/families will not be the subjects of a new investigation resulting in the assignment of a status of “substantiated” abuse or neglect throughout the service provision period. (To be measured/evaluated by DCS/Probation staff)
6) 90% of the individuals/families that were intact prior to the initiation of service will remain intact throughout the service provision period.
7) If DCS elects to implement a standardized tool for evaluating family functioning, a related outcome measure will be added.

Goal #4: DCS/Probation and clients will report satisfaction with services

Outcome Measures:
1) 90% of the families who have participated in Domestic Violence Services will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless DCS/Probation distributes one to providers for their use with clients. Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.
2) DCS/Probation satisfaction will be rated 4 or above on the Service Satisfaction Report.

Program Fidelity Measures
Program fidelity/abiding by best practices is the best predictor of successful outcomes and provides an effective indirect measure. An audit undertaken by a DCS employee or DCS designee may be conducted to assure program accountability. Programs must clearly link daily practices to the following program fidelity issues:

1) 90% of families receive their first contact (telephone, mail or face-to-face) no later than the end of the first day following receipt of a referral from DCS/Probation.
2) 100% of referrals that are not seen within 24 hours of referral will be reported to the referral source.
3) 90% of required written domestic violence service plans/assessments will be completed and sent to the referring worker within 10 days of face-to-face intake with the client/family.
4) 90% of the community supportive services (BIP providers, law enforcement, courts, advocates, legal agencies, etc.) have a cooperative working relationship with the provider.
5) 100% of provider staff focus on child/victim safety as evidenced by adherence to appropriate provider policies and procedures.
6) 100% of program activities are carried out by qualified staff (see Qualifications).
7) 90% of programs are available to participants who have limited daytime availability.
8) 100% of provider staff are required to warn and protect children and victims and others when
and if the batterer has made a threat of violence.
9) 100% of clients (children and victims) will have a comprehensive domestic violence service
plan developed.
10) 100% of children referred and engaged in the program will have a developmentally-
appropriate safety plan developed by provider staff.
11) 100% of clients will be able to access a provider staff in the event of an emergency, 7 days a
week, 24 hours a day.

VI. Minimum Qualifications

Direct Worker:
Services may be provided as needed by personnel with a Associates degree in social work,
psychology, sociology, or a directly related human services field and/or 2 years working with
families in a social service setting. Worker should have knowledge of current Indiana state law
and best practices regarding domestic violence.

Supervisor of Direct Worker:
Bachelor’s degree in social work, psychology, marriage and family, or a related human services
field. Minimum 4 years professional field experience in a social service setting. Or Master's
degree in social work, psychology, marriage and family, or a related human services field.
Minimum 2 years professional field experience in family violence services. Supervisor should
have knowledge of current Indiana state law and best practices regarding domestic violence.

Counselor
• Master's degree in social work, psychology, marriage and family therapy, or related
human service field and 3 year’s related clinical experience or a master’s degree with a
clinical license issued by the Indiana Social Worker, Marriage and Family Therapist or
Mental Health Counselor Board, as one of the following: 1) Clinical Social Worker 2)
Marriage and Family Therapist 3) Mental Health Counselor.

Supervisor of Counselor:
Master's degree in social work, psychology, or marriage and family or related human service
field, with a current license issued by the Indiana Social Worker, Marriage and Family Therapist
or Mental Health Counselor Board, as one of the following: 1) Clinical Social Worker 2)
Marriage and Family Therapist 3) Mental Health Counselor.

Supervision/consultation is to include not less than one (1) hour of face-to-face
supervision/consultation per 20 hours of direct client services provided, nor occur less than every
two (2) weeks.
Providers are to respond to the on-going individual needs of staff by providing them with the appropriate combination of training and supervision. The frequency and intensity of training and supervision are to be consistent with “best practices” and comply with the requirements of each provider’s accreditation body. Supervision should include individual, group, and direct observation modalities and can utilize teleconference technologies. Under no circumstances is supervision/consultation to be less than one (1) hour of supervision/consultation per 25 hours of face-to-face direct client services provided, nor occur less than every two (2) weeks.

In addition to the above:

- Knowledge of child abuse and neglect, and child and adult development,
- Knowledge of community resources and ability to work as a team member;
- Beliefs in helping clients change their circumstances, not just adapt to them,
- Belief in adoption as a viable means to build families.
- Understanding regarding issues that are specific and unique to adoptions, such as loss, mismatched expectations and flexibility, entitlement, gratification delaying, flexible parental roles, and humor.

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral-valued culturally-competent manner.

VII. Billable Units
If agency administers clinical services, there may be two face to face units: Direct Worker and Counseling.

Face to face time with the client:
(Note: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include persons not legally defined as part of the family)

- Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
- Includes Child and Family Team Meetings or case conferences initiated or approved by the DCS for the purposes of goal directed communication regarding the services to be provided to the client/family.
- Includes crisis intervention and other goal-directed interventions via telephone with the identified client family.
Reminder: Not included are routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately.

Group
Services include group goal directed work with clients. To be billed per group hour.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes do not bill 0.00 hour
- 8 to 22 minutes 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour

Translation or sign language
Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. (Actual Cost)

Court
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS or subpoena to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

Reports
If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

VIII. Case Record Documentation
Necessary case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written reports no less than monthly or more frequently as prescribed by DCS/Probation.
   Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

IX. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period.

X. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
FATHER ENGAGEMENT PROGRAMS
(Revised 8/1/12-Effective 8/1/12)

I. Service Description

The Indiana Department of Child Services (DCS) intends to contract with providers throughout the state to implement fatherhood programming to provide assistance and support to fathers whose children are involved with the Department of Child Services. Providers will work actively with DCS employees to successfully engage fathers in services that will improve safety, stability, well-being and permanency for their children. Providers will assist fathers in strengthening the relationship with their children and promoting positive relationships between the families and the local DCS family case managers and others involved in their children’s case.

II. Service Delivery

• The direct worker’s home office will be located in a DCS office where most of the services outlined in this standard can be performed. The provider will secure and maintain a working relationship with the Family Case Managers and other relevant DCS staff to provide a liaison between the fathers and DCS. When Family Case Managers have exhausted all known diligent search efforts and inquiries, providers will assist in locating and engaging fathers (including those who may be incarcerated or who live out of state).

• The provider will actively engage referred fathers with the goal of increasing their involvement in the DCS case.

• The provider will conduct intake interviews, and collect demographic and other outcome data for reporting purposes. Services must include ongoing monitoring of father/parental progress.

• The provider will work collaboratively with DCS, other contracted service providers, community organizations, and individuals to develop, maintain, and provide appropriate programming for fathers whose children are involved in the child welfare system.

• The provider will possess a clear understanding of male learning styles and male help seeking behaviors and will practice effective techniques for father engagement through a non-judgmental, holistic viewpoint regarding father/child relationship, focusing on the child in the context of the family.

• Refers participants, when indicated, to community resources and other organizations.
• Promotes community awareness regarding the value of engaging fathers of children involved in the child welfare process, through presentation and written materials.

• Develop a working relationship with local child support enforcement offices and staff members in order to be of mutual assistance in helping obtain appropriate financial support of children.

• Services will be provided at times convenient for or necessary to meet the family’s need, not according to a specified work week schedule.

• Services will be provided in home, in the community environment, in the DCS office, and/or the providers’ office.

• Services will be based on the family’s established DCS Case Plan/Disposition or Informal Adjustment, while taking into consideration the recommendation of the Child and Family Team as applicable.

• Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life style choices, and complex family interactions and be delivered in a neutral, valued, culturally competent manner.

• The provider will coordinate and provide Fatherhood Programming utilizing a DCS approved educational curricula such as Bringing Back The Dads, National Partnership for Community Leadership, Bridges Out of Poverty (any other curricula must have prior approval). The Programming can be provided through the use of group or one-on-one sessions. All curricula must include child support enforcement education and financial responsibility education. In addition, the Fatherhood Programming and other individual work with the father, may provide any combination of the following kinds of services:
  ➢ information regarding the CHINS legal process including court procedures, parental participation requirements, court ordered services, visitation with the children, reimbursement of cost for services, and other aspects related to the legal process;
  ➢ the expectations of the family related to participation in court ordered services and visitation with the children, attendance at court, appropriate dress for court, and other aspects related to the legal process;
  ➢ information regarding the parent’s rights and the CHINS proceedings, the length of time children may be in care prior to a permanency procedure, and termination of parental rights, family team meetings and their procedures
  ➢ role of the Court Appointed Special Advocate or Guardian ad Litem, an informal environment for fathers to discuss issues that brought them to the attention of the DCS and develop suggestions that may assist in resolving these issues as a group, and;
educational programs using speakers recruited from the local professional community to assist and educate the fathers in areas such as:
- abuse and neglect,
- increasing parenting skills,
- substance abuse,
- anger management,
- advocacy with public agencies including the children’s schools, and;
- issues of interest to the parents related to their needs and the needs of their children.
- coaching and information to develop attitudes and social skills needed for improved family relations and personal responsibility.
- After consultation with the Family Case Manager, providers will make concerted, organized and systematic efforts to connect children with their incarcerated father (if applicable), through video conferencing, face to face contact, correspondence and by telephone, unless the court has determined that visiting would put the child in danger.
- Supports fathers and paternal relatives in court and Child and Family Team Meetings by providing transportation and/or transportation voucher when appropriate.

III. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. **DCS will only pay for reports when DCS is not paying for these services.** If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

IV. Target Population

Services must be restricted to the following eligibility categories:
- Fathers of children who have substantiated cases of abuse and/or neglect and will likely develop into an open case an IA or CHINS status.
- Fathers of children which have an Informal Adjustment (IA) or the children have the status of CHINS.

V. Goals and Outcome Measures

Goal #1
Timely initiation of services with the fathers.
Outcome Measures

1) 90% of all fathers referred with a valid contact and/or address will receive a telephone call or a drop by contact within 5 working days of referral.
2) 75% of all fathers referred will have face to face contact within 10 working days of the referral.

Goal #2
Timely receipt of electronic outcome reports.
Outcome Measures
100% of reports will be received timely.
The report will include a summary of services to each father as well as the father’s involvement with the child (ren) and father’s parental progression as evidence by visitation supervised and unsupervised with child (ren), participation in Child and Family Team Meetings, fathers involvement in the DCS case plan, established paternity and if the father is paying child support. The summary will also include engagement in fatherhood curriculum and/or successfully/unsucessful completion of referral sources will be provided to the referring FCM monthly. An approved excel spread sheet, documenting services, will be electronically forwarded to Central Office designated email address, no later then the 10th of each month. An approved monthly report, documenting services to each referred father, will be forwarded to the FCM, no later then the 10th of each month.

Goal #3
Engage fathers in services that will reduce barriers to safety, stability, well-being and permanency for their children.
Outcomes Measures

1) 60% of all fathers referred will become actively engaged in the DCS open case as evidenced by visitation with their children, participation in CFTM, and the Case Plan.
2) 60% of referred cases will have paternal relatives actively engaged.

Goal #4
Coordinate efforts between the department of corrections and/or local detention facilities, child welfare agencies, and the courts to ensure the incarcerated father is notified of court proceedings regarding the care and custody of their child (ren) when appropriate.
Outcome Measures
1) 60% of incarcerated fathers will become actively engaged in the DCS open case as evidenced by contact with their children

Goal #5
All engaged fathers will complete a service satisfaction survey. DCS will randomly evaluate services provided to ensure services provided are in accordance with contract requirements and reflective of the practice model.

Outcome Measures
1) 95% of all engaged fathers will rate services “satisfactory” or above.
2) 100% DCS satisfaction with provider services will be rated “fair” or above on the provider evaluation tool.

Goal #6
Maintain satisfactory services to the children and family

Objective
1) DCS/Probation and clients will report satisfaction with services.

Outcome Measure/Fidelity Measure:
1) DCS/Probation satisfaction with services will be rated 4 and above on the Service Satisfaction Report.
2) 90% of clients will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless one is distributed by DCS/Probation to providers for their use with clients. Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

VI. Minimum Qualifications

Direct Worker:
Bachelor's degree in social work, psychology, sociology, or a directly-related human service field from an accredited college. Other Bachelor’s degrees will be accepted in combination with a minimum of five years experience working directly with families in the child welfare system. Must possess a valid driver’s license and the ability to use private car to transport self and others, and must comply with the state policy concerning minimum car insurance coverage.

In addition to the above:
- Knowledge of child abuse and neglect, and child and adult development
- Knowledge of community resources and ability to work as a team member
- Belief in helping clients change their circumstances, not just adapt to them
- Belief in adoption as a viable means to build families
- Understanding regarding issues that are specific and unique to adoptions such as loss, mismatched expectations and flexibility, loss of familiar surroundings, customs and traditions of the child's culture, entitlement, gratification delaying, flexible parental roles and humor

Supervisor:
Master's or Doctorate degree in social work, psychology, or directly-related human services field from an accredited college.

Services provided will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral-valued culturally-competent manner.

Providers are to respond to the on-going individual needs of staff by providing them with the appropriate combination of training and supervision. The frequency and intensity of training and supervision are to be consistent with “best practices” and comply with the requirements of each provider’s accreditation body. Supervision should include individual, group, and direct observation modalities and can utilize teleconference technologies. Under no circumstances is supervision/consultation to be less than one (1) hour of supervision/consultation per 25 hours of face-to-face direct client services provided, nor occur less than every two (2) weeks.

VII. Billing Units

Face to face time with the client:
(Nota: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include persons not legally defined as part of the family)

- Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
- Includes crisis intervention and other goal directed interventions via telephone with the identified client family.
- Includes Child and Family Team Meetings or case conferences initiated or approved by the DCS for the purposes of goal directed communication regarding the services to be provided to the client/family.
- Includes no more than 5 hours of time spent locating fathers including making telephone calls, attempted face-to-face contacts, collateral contacts, or completing online searches.
- Billing for additional collateral contacts can be approved by DCS when attempting to locate and/or engage an incarcerated client or client living out of state.

Group
Services include group goal directed work with clients. To be billed per group hour

Reminder: Not included are routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:
• 0 to 7 minutes  do not bill  0.00 hour
• 8 to 22 minutes  1 fifteen minute unit  0.25 hour
• 23 to 37 minutes  2 fifteen minute units  0.50 hour
• 38 to 52 minutes  3 fifteen minute units  0.75 hour
• 53 to 60 minutes  4 fifteen minute units  1.00 hour

**Translation or sign language**
Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. Dollar-for-dollar amount.

**Court**
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

**Reports**
If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

**VIII. Case Record Documentation**
Case record documentation for service eligibility must include:
1) A approved and dated DCS referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written reports no less than monthly or more frequently as prescribed by DCS. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.

**IX. Adherence to the DCS Practice Model**
Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.

**X. Service Access**
All services must be accessed and pre-approved through a referral form from the referring DCS staff. In the event a service provider receives verbal or email authorization to provide services from DCS an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS. Providers must initiate a re-authorization for services to continue beyond the approved period.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
FUNCTIONAL FAMILY THERAPY
(Revised 2/1/2012-Effective 3/1/2012)

I. Services Description
Functional Family Therapy (FFT) is an empirically-grounded, family-based intervention program for acting-out youth between 11-18, whose problems range from conduct disorder to alcohol/substance abuse, and their families. A major goal of Functional Family Therapy is to improve family communication and supportiveness while decreasing the intense negativity. Other goals include helping family members adopt positive solutions to family problems, and developing positive behavior change and parenting strategies. Further information on FFT can be found at http://www.fftinc.com or http://www.ncjrs.org/pdffiles1/ojjdp/184743.pdf.

FFT is designed to increase efficiency, decrease costs, and enhance the ability to provide service to more youth by:

1) Targeting risk and protective factors that can change and then programmatically changing them;
2) Engaging and motivating families and youth so they participate more in the change process;
3) Entering each session and phase of intervention with a clear plan and by using proven techniques for implementation; and
4) Constantly monitoring process and outcome.

II. Service Delivery
The program is conducted by FFT trained family therapists through the flexible delivery of services by one and two person teams to clients in the home and clinic settings, and at time of re-entry from residential placement. Service providers must adhere to the principles of the FFT model. FFT requires as few as 8-12 hours of direct service time for commonly referred youth and their families, and generally no more than 26 hours of direct service time for the most severe problem situations. Sessions are spread over a 3-month period or longer if needed by the family. Therapists must engage the family (as many members as reasonably feasible) through a face to face contact within 14 days of the referral and obtain their willingness to participate. FFT emphasizes the importance of respecting all family members on their own terms as they experience the intervention process. Therapists must be relationally sensitive and focused, as well as capable of clear structuring, in order to produce significantly fewer drop-outs and lower recidivism.

Empirically grounded and well-documented, FFT has three specific intervention phases. Each phase has distinct goals and assessment objectives, addresses different risk and protective
factors, and calls for particular skills from the therapist providing treatment. The phases consist of:

- **Phase 1: Engagement and Motivation**
  During these initial phases, FFT applies reframing and related techniques to impact maladaptive perceptions, beliefs, and emotions and to emphasize within the youth and family, factors that protect youth and families from early program dropout. This produces increasing hope and expectation of change, decreasing resistance, increasing alliance and trust, reduced oppressive negativity within the family and between the family and community, increased respect for individual differences and values, and motivation for lasting change.

- **Phase 2: Behavior Change**
  This phase applies individualized and developmentally appropriate techniques such as communication training, specific tasks and technical aids, basic parenting skills, and contracting and response-cost techniques.

- **Phase 3: Generalization**
  In this phase, Family Case Management is guided by individualized family functional needs, their interaction with environmental constraints and resources, and the alliance with the therapist to ensure long-term support of changes. FFT links families with available community resources and FFT therapists intervene directly with the systems in which a family is embedded until the family is able to do so itself.

Each of these phases involves both assessment and intervention components. Family assessment focuses on characteristics of the individual family members, family relational dynamics, and the multi-systemic context in which the family operates. The family relational system is described in regard to interpersonal functions and their impact on promoting and maintaining problem behavior. Intervention is directed at accomplishing the goals of the relevant treatment phase. For example, in the engagement and motivation phase, assessment is focused on determining the degree to which the family or its members are negative and blaming. The corresponding intervention would target the reduction of negativity and blaming. In behavior change, assessment would focus on targeting the skills necessary for more adaptive family functioning. Intervention would be aimed at helping the family develop those skills in a way that matched their relational patterns. In generalization, the assessment focuses on the degree to which the family can apply the new behavior in broader contexts. Interventions would focus on helping generalize the family behavior change into such contexts.

Program certification must be obtained and maintained through utilizing Functional Family Therapy certified trainers to train a site supervisor and therapists. Program fidelity must be maintained through adherence to using a sophisticated client assessment, tracking and monitoring system and clinical supervision requirements.
III. Target Population
Services must be restricted to the following eligibility categories:
1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
2) Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.
4) All adopted children and adoptive families.

IV. Goals and Outcome Measures
Goals #1 Services are provided timely as indicated in the service description above.

Outcome Measures:
1) 100% of referred children and families are engaged in services within 14 days of referral.
2) 100% of children and families being served have an assessment completed at the beginning of each phase.
3) 100% of children and families being served have a clear plan developed immediately following the assessment.
4) Progress reports are provided to the current worker. Monthly.

Goal #2 Improved family functioning as indicated by no further incidence of the presenting problem
Objective:
1) Service delivery is grounded in best practice strategies, using such approaches as cognitive behavioral strategies, motivational interviewing, change processes, and building skills based on a strength perspective to increase family functioning.

Outcome Measures:
1) 67% of the families that have a child in substitute care prior to the initiation of service will be reunited by closure of the service provision period.
2) 90% of the children and families will not be the subjects of a new investigation resulting in the assignment of a status of “substantiated” abuse or neglect throughout the service provision period.
3) 90% of children and families that were intact prior to the initiation of service will remain intact throughout the service provision period.
4) Scores will be improved on the Risk Assessment instruments in ICWIS used by the referring DCS or Youth Level of Service Inventory (YSLI) used by referring Juvenile Probation Officer.
Goal #3 DCS/Probation and clients will report satisfaction with services provided.

Outcome Measures:
1) Probation/DCS satisfaction will be rated 4 and above on the Service Satisfaction Report.
2) 90% of clients will rate services “satisfactory” or above on satisfaction survey developed by the service provider, unless DCS/Probation distributes one to providers for their use with clients. Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

V. Minimum Qualifications

Direct Worker:
Master's degree in social work, psychology, marriage and family therapy, or related human service field and 3 years related clinical experience or a masters degree with a clinical license issued by the Indiana Social Worker, Marriage and Family Therapist or Mental Health Counselor Board, as one of the following: 1) Clinical Social Worker 2) Marriage and Family Therapist 3) Mental Health Counselor.

Supervisor:
Master's degree in social work, psychology, or marriage and family or related human service field with a current license issued by the Indiana Social Worker, Marriage and Family Therapist or Mental Health Counselor Board, as one of the following: 1) Clinical Social Worker 2) Marriage and Family Therapist 3) Mental Health Counselor.

Both Direct Worker and Supervisor must complete FFT certified training (See the links listed in the FFT Service Description.)

Supervision/consultation is to include not less than one (1) hour of face to face supervision/consultation per 20 hours of direct client services provided, nor occur less than every two (2) weeks.

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral valued culturally competent manner.

VI. Billable Unit

Face to face time with the client:
(Note: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include persons not legally defined as part of the family)
• Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
• Includes Child and Family Team Meetings or case conferences initiated or approved by the DCS for the purposes of goal directed communication regarding the services to be provided to the client/family.
• Includes crisis intervention and other goal-directed interventions via telephone with the identified client family.

Reminder: Not included are routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes do not bill 0.00 hour
- 8 to 22 minutes 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour

Translation or sign language
Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. (Actual Cost)

Court
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

VII. Case Record Documentation
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written progress reports no less than monthly or more frequently as prescribed by DCS/Probation and requested supportive documentation such as case notes, social summaries, etc. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.

4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

VIII. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

IX. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
PARENT EDUCATION
(Revised 2/1/12-Effective 3/1/12)

I. Service Description
Parenting education is the provision of structured, parenting skill development experiences. Education regarding parenting, discipline and child development is a means to provide parents whose children are "at risk" or have been abused or neglected with tools to assist them in the lifelong task of disciplining, understanding, and loving their children. Family-centered parent training programs include family skills training and family activities to help children and parents take advantage of concrete social supports. A combination of individual and group parent training is the most effective approach when building skills that emphasize social connections and parents’ ability to access social supports. However, the individual approach is most effective when serving families in need of specific or tailored services.

The following evidence-based programs are approved for use:
- Parent-Child Interaction Therapy (PCIT)
- STAR Parenting Program
- Systematic Training for Effective Parenting (STEP)
- Strengthening Families Program (SFP)
- Incredible Years; Parent-Child Interaction Therapy (PCIT)
- Parent Management Training-Oregon Model (PMTO)
- Positive Parenting Practices (Triple P)
- Parents as Teachers-Born to Learn
- Safe-Care
- Nurturing Program
- Active Parenting
- Effective Black Parenting by the Center for the Improvement of Child Caring
- 1-2-3 Magic
- Parenting with Love and Limits

Other Parent Education programs may be used but they require written approval from the DCS Central Office. Additional evidence-based programs are outlined at: The California Evidence-Based Clearinghouse at www.cebc4cw.org or the National Registry for Evidence Based Programs-SAMHSA (Substance Abuse and Mental Health Services Administration) at www.nrepp.samhsa.gov or the Office of Juvenile Justice and Delinquency Prevention at http://ojjdp.ncjrs.gov

The Child Welfare Information Gateway (www.childwelfare.gov/pubs/issue_briefs/parented) outlines key program characteristics and parent training strategies. Providers should review this issue brief incorporate these characteristics and strategies where possible. The key program characteristics include:

Department of Child Services
Regional Document for Child Welfare Services
Term 7/1/11-6/30/13
July 16, 2012
• strength-based focus
• family centered practice
• individual and group approaches
• qualified staff
• targeted service groups
• clear program goals and continuous evaluation

Parent Training Strategies include:
• Encourage Peer Support
• Involve Fathers
• Promote Positive Family Interaction
• Use Interactive Training Techniques
• Provide Opportunities to Practice New Skills

In-home assessments
When the model does not have prescribed in-home assessment procedures, the following shall be considered as a minimum standard:

An in-home assessment should be completed with the parent(s) and children before participation in the program, during program participation, as well as at program completion. These assessments should identify but are not limited to the following areas that impact the relationship of the parent/child:
• Appropriate developmental expectations-parent/child
• Empathy towards children’s needs
• Use of corporal punishment
• Use of role reversal-child/parent
• Lack of family cohesion
• Lack of family expressiveness
• Lack of family independence

Postprogram assessments should indicate that parents significantly changed their parenting behavior and child-rearing attitudes following program completion. These changes should include having more appropriate developmental expectations, increased empathy toward children’s needs, decreased use of corporal punishment, and decreased use of role reversal.

An examination of family interaction patterns should identify several significant improvements at postprogram assessment, including family cohesion, family expressiveness, and family independence, whereas family conflict significantly decreased.
II. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. **DCS will only pay for reports when DCS is not paying for these services.** If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

III. Target Population

Services must be restricted to the following eligibility categories:

- Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
- Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
- Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed
- All adopted children and adoptive families.

IV. Goals and Outcome Measures

**Goal #1** Maintain timely intervention with the family and regular timely communication with DCS/Probation

**Objectives:**
1) Direct worker or backup is available for consultation to the family 24/7 by phone or in person.

**Goal #2** Strengthen and increase the parent’s ability to provide for the emotional, physical, and safety needs of their children.

**Outcome Measures**
1) 75% of the parents referred to program will complete the services.
2) 90% of the parents completing the program will show a demonstrated increase in skills during the in home postprogram assessment.
3) 67% of the families that have a child in substitute care prior to the initiation of service will be reunited by closure of the service provision period.
4) 90% of the individuals/families will not be the subjects of a new investigation resulting in the assignment of a status of “substantiated” abuse of neglect throughout the service provision period.
5) 90% of the individuals/families that were intact prior to the initiation of service will remain intact throughout the service provision period.

Goal #3
DCS/Probation and clients will report satisfaction with services provided.

Outcome Measures:
1) DCS or Probation satisfaction will be rated 4 and above on the Service Satisfaction Report.
2) 90% of the families who have completed Parent Education services will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless DCS/Probation distributes one to providers for their use with clients. Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

V. Minimum Qualifications
Providers must meet the minimum qualifications guidelines of the chosen model. When qualifications are not prescribed in the model, the following shall be considered minimum qualifications:

Direct worker:
A high School diploma or GED and is at least 21 years of age. Must possess a valid driver’s license and the ability to use private car to transport self and others, and must comply with state policy concerning minimum car insurance coverage.

Supervisor:
Bachelor’s Degree in social work, psychology, sociology, or a directly related human service field.

Direct worker and Supervisor must have direct training in the Parent Education curriculum they are teaching.

In addition to:

- Knowledge of child abuse and neglect
- Knowledge of child and adult development and family dynamics
- Ability to work as a team member
- Strong belief that people can change their behavior given the proper environment and opportunity
Belief in helping families to change their circumstances, not just adapt to them.

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral valued culturally competent manner.

VI. Billable Units

Face to face time with the client:
(Note: Members of the client family are to be defined in consultation with the family and approved by the DCS or Probation. This may include persons not legally defined as part of the family). Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.

- Includes client-specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
- Includes crisis intervention and other goal-directed interventions via telephone with the identified client family.
- Includes scheduled Child and Family Team meetings or case conferences (including crisis case conferences via telephone) initiated or approved by the DCS/Probation for the purposes of goal-directed communication regarding the services to be provided to the client/family. All case conferences billed, including those via telephone, must be documented in the case notes.

Reminder: Not included is routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face to face rate and shall not be billed separately.

Group (Effective 3/1/2012)
Group will be defined as at least 3 clients (who are DCS or Probation referrals and are from no less than two different referred families. If there are less than 3 clients from at least two DCS/Probation referrals, the payment would be the face to face rate for each referral.

Issue:
Question: The provider has 3 DCS/Probation clients referred from 2 different families. When cost allocating it, do they charge 1/3 or ½ (by client or referral)?
Answer: By number of referrals. Therefore, ½ charged to each referral, or ½ of the cost would be allocated to each family.

Question: What if there are less than 3 clients referred?
Answer: The payment would be by the Face to Face rate for each referral. Example, if the Face to Face rate is $50, then the claim would be for $50 for each referral.
Hourly services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes  do not bill  0.00 hour
- 8 to 22 minutes  1 fifteen minute unit  0.25 hour
- 23 to 37 minutes  2 fifteen minute units  0.50 hour
- 38 to 52 minutes  3 fifteen minute units  0.75 hour
- 53 to 60 minutes  4 fifteen minute units  1.00 hour

Translation or sign language
Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. Dollar-for-dollar amount

Court
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

Reports
If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

VII. Case Record documentation
Necessary case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children. Signed attendance sheets for each group session.
3) Written reports no less than monthly or more frequently as prescribed by DCS/Probation. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation.
5) A copy of a treatment plan to include short/long term goals with measurable outcomes that is consistent with the case plan/agreements reached in the CFTM.

VIII. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation.
Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorization required by the Medicaid program.

IX. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
I. Service Description

Parenting/family functioning assessment is an in-home evaluation which includes standardized test instrument(s) to identify the strengths and needs of the family. The service is most appropriately used when the needs of the family are so complex that a traditional assessment completed by a Family Case Manager is not able to determine the services necessary to improve the family’s functioning. These families tend to have multiple caregiver ratings on the CANS of 2 or higher which indicates complex needs.

II. Service Delivery

Testing and Interviews Required

- Parenting/family functioning assessment must include an interview with the adults and children being assessed in their current home environment;
- Completion by adults of standardized test(s) to include a parenting inventory (such as Parent-Child Relationship Inventory; Adult Adolescent Parenting Inventory-2; Family Assessment Device, Version 3; Family Assessment Measure Version III (FAM-III); and/or the Child Abuse Potential Inventory and/or another Standard Risk Assessment Instrument;
- Observation of the parent(s) relationship with the child(ren); tour of the proposed home environment noting any needs or challenges.
- Review of other information sources to verify family’s reported history (e.g., previous DCS history, collateral contacts).

Parenting and family functioning assessments shall include at least two separate appointments held on different days, when possible, to be scheduled at the convenience of the client (to include evenings and weekends).

Written Report

All written reports must include the recommendations regarding services/treatment at the beginning of the report followed by information relating to specific categories. The written assessment must be prepared to include the following:

1) identifying information,
2) history of significant events, medical history, history of the children (including educational history),
3) family socio-economic situation, including income information of the parents and child(ren)
4) family composition, structure, and relationships
5) family strengths and skills
6) family motivation for change
7) description of home environment,
8) summary of any testing completed,
9) summary of collateral contacts,
10) assessment of relationship between parent(s) and child(ren), and
11) assessor’s assessment of the client’s ability to safely parent the children,
12) client’s understanding of the current situation.

If assessing parents in separate households, a separate written report must be provided on each parent. The report must also include current issues that jeopardize reunification with either parent if separate as well as a description of ongoing issues that need to be addressed even if the children remain in the home or are returned to the home.

If the provider suspects substance use, the provider should notify the Family Case Manager immediately if children are present and within 24 hours if children are not present in the home.

Services include providing any requested testimony and/or court appearances, including hearings and/or appeals.

Failure to maintain confidentiality may result in immediate termination of the service agreement.

III. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. **DCS will only pay for reports when DCS is not paying for these services.** If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.
IV. Target Population
Services must be restricted to the following eligibility categories:
1) Children and families who have substantiated cases of abuse and/or neglect, and will likely develop into an open case with Informal Adjustment (IA) or CHINS status;
2) Children and their families which have an IA or the children with a status of CHINS, and/or JD/JS;
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed;
4) Any child who has been adopted, and adoptive families

V. Goals and Outcomes
Goal #1 Timely receipt of report (service must commence within 3 working days of receipt of the referral).
Outcome Measures:
1) 90% of the evaluation reports will be submitted to the referring DCS Family Case Manager or Probation Officer within 30 days of referral.

Goal #2 Obtain appropriate recommendations based on information provided.
Outcome Measures:
1) 100% of reports will meet information requested by DCS.
2) 100% of reports will include recommendations for treatment and needed services.

Goal #3 DCS and client satisfaction with service provided.
Outcome Measures:
1) DCS satisfaction will be rated 4 and above on the Service Satisfaction Report.
2) 90% of the families who have completed Parent Education services will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless DCS/Probation distributes one to providers for their use with clients. Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

VI. Minimum Qualifications
Direct Worker:
Master's degree in social work, psychology, marriage and family therapy, or related human service field with 3 years related clinical experience or a masters degree with a clinical license issued by the Indiana Social Worker, Marriage and Family Therapist and Mental
Health Counselor Board, as one of the following: 1) Clinical Social Worker 2) Marriage and Family Therapist 3) Mental Health Counselor.

In addition to the above:

- Knowledge of child abuse and neglect, and child and adult development,
- Knowledge of community resources and ability to work as a team member;
- Beliefs in helping clients change their circumstances, not just adapt to them,
- Belief in adoption as a viable means to build families.
- Understanding regarding issues that are specific and unique to adoptions, such as loss, mismatched expectations and flexibility, entitlement, gratification delaying, flexible.

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral valued culturally competent manner.

VII. Billable Units

Parenting/Family Functioning Assessment: per hour. Includes time face to face with the client/family, time spent administering, scoring, and interpreting testing. Plus a maximum of 1 hour may be billed for writing the report.

Reminder: Not included is scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the hourly rate and shall not be billed separately.

Hourly services may be billed in 15 minute increments, partial units are rounded to the nearest quarter using the following guidelines:

- 0 to 7 minutes: do not bill 0.00 hour
- 8 to 22 minutes: 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes: 2 fifteen minute units 0.50 hour
- 38 to 52 minutes: 3 fifteen minute units 0.75 hour
- 53 to 60 minutes: 4 fifteen minute units 1.00 hour

Court: The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.
Reports
If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

Translation or sign language
Services include translation for families who are non-English language speakers or hearing impaired and must be provided by a non-family member of the client. Dollar for dollar amount.

VIII. Case Record Documentation
Necessary case record documentation for service eligibility must include:

1) A completed, dated, signed DCS/Probation referral form authorizing service;
2) Written reports as defined in this service standard.

IX. Service Access
Services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation, an approved DCS referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

X. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
I. Service Description

Quality Assurance services will be provided for DCS and Probation children currently in residential placement to assist the local DCS and Probation offices in determining if the needs of the children are being met by the current placement, and to investigate and recommend alternative placement options that more suitably meet the child’s individual needs at a lower cost if available. Children at-risk of residential placement will be evaluated to locate a placement that can meet the child’s needs at an acceptable cost.

These quality assurance services will consist of, but are not limited to:

- Specific evaluations completed with regard to the child’s educational, psychiatric, medical, and other needs to ensure each child is receiving the quality of services specified.
- Assure that each child is "matched" with a provider that can best meet the individual needs of the child.

II. Target Population

Services must be restricted to the following eligibility categories:

1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
2) Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.

III. Goals and Outcomes

Goal #1: Decrease the number of children in residential care.

Outcome Measure:

1) The number of children in residential placement will be monitored and compared to placement levels in previous years with a goal of decreasing the number of children in residential placement 25% by the end of the contract period.

Goal #2: Children will be maintained at lower levels of care.

The level of services needed by individual children and provided at their placements will be monitored through visits to the facility and communication with the FCM to assess effectiveness.
of treatment and evaluate treatment progress.

Outcome Measure:
1) 100% of the youth in the program will establish at least one community-based support that will continue to provide assistance and/or direction following completion of the program
2) 85% of youth will maintain their placement in a less restrictive setting at 6 month follow up.

**Goal #3: Maintain satisfactory services to the children and family**

Objective
DCS/Probation and clients will report satisfaction with services.

Outcome Measure/Fidelity Measure:
1) DCS/Probation satisfaction with services will be rated 4 and above on the Service Satisfaction Report.
2) 90% of clients will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless one is distributed by DCS/Probation to providers for their use with clients Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

**IV. Minimum Qualifications**
A Master’s degree in social work, psychology or marriage and family therapy and 3 (three) years of related clinical experience is required.

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral-valued culturally competent manner.

**V. Billable Unit**
Face to face time with the client and collateral contacts: (Note: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include persons not legally defined as part of the family)

- Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
- Includes Child and Family Team Meetings or case conferences initiated or approved by the DCS for the purposes of goal directed communication regarding the services to be provided to the client/family.
includes documented telephone and face-to-face collateral contacts while engaged in services defined in this service standard.

Reminder: Not included are routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes do not bill 0.00 hour
- 8 to 22 minutes 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour

Translation or sign language
Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. (Actual Cost)

Court
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

VI. Case Record Documentation
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written progress reports no less than monthly or more frequently as prescribed by DCS/Probation and requested supportive documentation such as case notes, social summaries, etc. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation
5) Copy of treatment plan to include short/long term goals consistent with DCS case plan/agreements reached upon CFT meeting.
VII. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

VIII. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
I. Service Description

This service standard applies to services provided to families and children involved with the Department of Child Services and/or Probation.

Sex offender specific treatment is designed to improve public safety by reducing the risk of reoccurring sexually based offenses. It is an intervention carried out in a specialized program containing a variety of cognitive behavioral and psycho-educational techniques that are designed to change offense supportive beliefs and attributions, improve handling of negative emotions, teach behavioral risk management, and promote pro-social behavior. Because programming will rely on a containment approach, providers shall work closely with local service and treatment agencies to enhance the community’s response to sexual offending. Along with sexual offender specific treatment, containment teams shall be established for each referral in order to ensure consistency in service delivery and decision-making and foster collaboration. Programming will provide services to children and their families who are referred by the Department of Child Services and/or the local Juvenile Probation Department.

All referred cases shall follow a continuum that provides the following:

1) Risk and needs assessment for sexual offenders: (emergency and non-emergency)
   Assessments must include the following components: Youth, family and community strengths; cognitive functioning; social/developmental history; current individual functioning; current family functioning; delinquency and conduct/behavioral issues; substance use and abuse; psychosexual assessment; mental health assessment; sexual evaluation; community risk and protective factors; awareness of victim impact; external relapse prevention systems including informed supervision amenable to treatment and treatment recommendations. It must also include an assessment of risk using the ERASOR (Estimated Risk of Adolescent Sexual Offender Recidivism).

2) Containment Teams for offenders Traditional supervision practices do not adequately address the unique challenges and risks that sexually maladaptive youth pose to the community. Therefore it is expected that the provider will establish a “network” of family members, friends, teachers, coaches and any other community members or professionals who are committed to the success of the youth, to provide intensive monitoring of the youth in the home, school and community. This monitoring will occur 24 hours a day while the youth receives treatment.

3) Treatment must include individual, group and family components for sex offenders including the following:
a. Case-specific treatment components through individual therapy including addressing personal history of sexual victimization and behavioral techniques designed to modify deviant sexual arousal if appropriate
b. Core treatment modules through group therapy including: psychoeducation about the consequences of abusive behavior; increasing victim empathy, identifying personal risk factors, promoting healthy sexual attitudes and beliefs; social skills training; sex education; anger management and relapse prevention as appropriate
c. Parent components including: engendering support for treatment and behavior change; encouraging supervision and monitoring; teaching recognition of risk signs and promoting guidance and support to their teenager.
d. Relapse prevention if appropriate
e. Polygraph testing if appropriate
f. Family support services
g. Compliance monitoring and reporting

II. Service Delivery

1) For DCS, services are provided face-to-face in the counselor’s office or other setting. For MCO, the service setting is either outpatient or office setting. For MRO, the service must be provided at the client’s home or other at other locations outside the clinic setting.

2) Services must include 24 hour crisis intake, intervention and consultation seven days a week.

3) Services must include ongoing risk assessment and monitoring of progress.

4) Services must provide short/long term goals with measurable outcomes based on recommendation based on risk and needs assessment for sexual offenders. Services include monthly reports, to include treatment goals; requested supportive documentation such as case notes, social summaries, etc.; and requested testimony and/or court appearances including hearings and/or appeals; case conferences/staffing; CFTM, if invited.

5) Staff must respect confidentiality. Failure to maintain confidentiality may result in immediate termination of the service agreement.

III. Medicaid

For those families and children not eligible for Medicaid Rehabilitation Option, this service will be paid by DCS. For eligible families and children, some services may be provided through Medicaid Rehabilitation Option (MRO) or Medicaid Clinic Option (MCO) with the remaining services paid by DCS. While the primary focus of these services is on the needs of the family, it is expected that some of these services will be deemed medically necessary to meet the behavioral health care needs of the MRO eligible client, and therefore may be billable to MRO. Other services for Medicaid clients may be covered under MCO. The service standard is not a Medicaid standard and includes services that are not billable to Medicaid. It is the responsibility of the contracted service provider to be knowledgeable about the Medicaid billing requirements and comply with them, including provider qualifications and any pre-authorization requirements.
and further, to appropriately bill those services in particular cases where they may be reimbursed by Medicaid.

IV. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. **DCS will only pay for reports when DCS is not paying for these services.** If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

V. Target Population

Services must be restricted to the following eligibility categories:

Youth, under the age of eighteen (18), experiencing sexually maladaptive behaviors, who are within the target populations described below:

1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
2) Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.
4) All adopted children and adoptive families.

Services billable to MRO are for Medicaid eligible clients with a qualifying diagnosis and level of need. Services billable to MCO are for Medicaid eligible clients.

VI. Goals and Outcomes

Goal #1 Maintain timely intervention with family and regular and timely communication with current Family Case Manager or Probation Officer.

Objectives:

1) Therapist or backup is available for consultation to the family 24/7 by phone or in person.

Outcome Measures:
1) 95% of all families that are referred will have face-to-face contact with the client within 5 days of receipt of the referral or inform the current Family Case Manager or probation Officer if the client does not respond to requests to meet.

2) Emergency Assessments: 95% cases will include Initial recommendations being provided to the referring worker within 48 hours of the emergency assessment with a full assessment report to the worker within 72 hours of the emergency assessment (by email).

3) 95% of full assessment reports for nonemergency assessments must be available within fourteen calendar days of the referral (by email).

4) 95% of the initial treatment plans will including measurable goals, specific steps to be taken to meet those goals and estimated timeframes for completing each goal and must be sent to the referring worker within fifteen calendar days of the first face-to-face contact with the client (by email).

5) 100% of monthly progress must be completed and sent to the referring worker by email by the 10th of each month for the previous month. Reports must contain documentation of progress made since the previous report in each goal.

Goal #2 A Containment Team shall be implemented for each family referred to services. The Team approach will allow for families to participate in the decision making process regarding their family.

Outcome Measures:
1) 100% of all children/families referred for treatment will have a fully functional network in place within 60 days of the initial face-to-face contact and will thereafter meet monthly to review the adolescent’s progress, strengths and needs. The meetings will have minutes prepared with action steps identified together with person(s) responsible for completing those steps. These minutes will be included with the monthly progress reports sent to the referring workers.

Goal #3 Youth participating in the program will have no behavioral issues and/or probation violations.

Outcome Measures:
1) 90% of youth participating in the program will not have any delinquency charges and/or probation violations during the treatment phase.

2) 75% of youth who successfully complete the program will not have any delinquency charges and/or probation violations within 12 months of completing the program.

3) 95% of youth who participate in the program will not be a perpetrator of child sexual abuse during the 12 months following program completion.
Goal #4 DCS/Probation and client will report satisfaction with services provided.

Outcome Measures:
1) DCS/Probation satisfaction will be rated 4 and above on the Service Satisfaction Report.
2) 90% of the clients will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless DCS/Probation distributes one to providers for their use with clients. Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

VII. Minimum Qualifications

Service providers will only utilize professionals who are specifically trained and are licensed practitioners. Training can occur through the University of Louisville, KY, Ohio University, OH, the Indiana Association for Juvenile Sex Offender Practitioners, or an equivalent recognized credentialed authority. Further, staff members shall be knowledgeable of the dynamics surrounding child abuse/neglect, be knowledgeable of child and adult development and family dynamics, and also knowledgeable of community resources.

MCO:
- Medical doctor, doctor of osteopath, licensed psychologist
- Physician or HSPP-directed services provided by the following: licensed clinical social worker, licensed marital and family therapist; licensed mental health counselor; a person holding a master’s degree in social work, marital and family therapy or mental health counseling; an advanced practice nurse

MRO:
- Licensed professional, except for a licensed addiction counselor
- Qualified behavioral health professional (QBHP)

DCS:
- Minimum qualifications: Master’s degree in a behavioral health science.

VIII. Billing Units

Services through the MCO may be Outpatient Mental Health Services. Medicaid shall be billed first for eligible services under covered evaluation and management codes, including those in the 90000 range.

Services through the MRO may be Behavioral Health Counseling and Therapy.

**DCS funding:** Those services not deemed medically necessary for the Medicaid eligible client, including services to other referred members of the family that are not related to the health care needs of the eligible client, will be billed to DCS per face-to-face hour as outlined below. These billable units will also be utilized for services to referred clients who are not Medicaid eligible and for those providers who are unable to bill Medicaid.

- **Face to face time with the client:**
  (Note: Members of the client family are to be defined in consultation with the family and approved by the DCS/Probation. This may include persons not legally defined as part of the family)
  - Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
  - Includes crisis intervention and other goal directed interventions via telephone with the identified client family.
  - Includes Child and Family Team Meetings or case conferences including those initiated or approved by the DCS/Probation for the purposes of goal-directed communication regarding the services to be provided to the client/family.

**Reminder:** Not included is routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face to face rate and shall not be billed separately.

Hourly Services may be billed in 15 minute increments, partial units are rounded to the nearest quarter using the following guidelines:

- 0 to 7 minutes do not bill 0.00 hour
- 8 to 22 minutes 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour

**Court:** The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with
the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

**Reports**
If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

**Translation or sign language:**
Services include translation for families who are non-English language speakers or hearing impaired and must be provided by a non-family member of the client. Dollar for dollar amount.

**Polygraphs**
Polygraphs must be purchased from a licensed provider. Polygraphs are a unit rate and the provider must tell what their rates are as part of their proposal. The intent of the polygraph is for the sex offender only.

**Per person per group hour**
Services include group goal directed work with clients. To be billed per person per group hour.

**IX. Case Record Documentation**
Necessary case record documentation for service eligibility must include:
1) A DCS/Probation referral form, Juvenile Court Order, or written referral from the Juvenile Probation Department;
2) Documentation of regular contacts with the referred families/children and referring agency;
3) Written reports regarding each assessment;
4) Written minutes regarding each containment team meeting.
5) Written reports no less than monthly

**X. Service Access**
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation, an approved DCS referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

**XI. Adherence to the DCS Practice Model**
Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
TRANSITION FROM RESTRICTIVE PLACEMENTS (TRP)
(Revised 2/1/12-Effective 3/1/12)

I. Services Description
TRP is a provision of services to assist children in a more restrictive placement to a less/least restrictive placement. The purpose of the program is to prevent a return of the youth to a more restrictive setting/placement. TRP must include the following kinds of services to the youth and family:

Therapeutic/clinical interventions to address the service needs of the youth and family. Therapeutic interventions must be based on an evidence-based model such as Functional Family Therapy (FFT), Multi-systemic Therapy (MST), Parenting with Love and Limits (PLL), or similar program.

Home-based services including but not limited to the following:
- Home assessment
- Child development education
- Educational transition services
- Vocational services
- Drug/alcohol screening & monitoring
- Conflict management
- Addiction Education
- Group Therapy
- Coordination of services, with special emphasis on education and employment services
- Emergency/crisis services
- Parenting education/training
- Family communication
- Assistance with transportation
- Family reunification
- Family assessment
- Community referrals and follow-up
- Behavior modification
- Budgeting/money management
- Other services as deemed appropriate based on the needs of the youth and family

II. Service Delivery
1) Services must include 24-hour access to crisis intervention seven days a week and may be provided in the family’s home, at a community site, or in the office.

2) Services must include ongoing risk assessment and monitoring family/parental progress.

3) Services must include development of goals with measurable outcomes.

4) Provider must complete an intake interview with the family within five calendar days after receipt of the referral or notify referral source if client does not respond to meeting requests.

5) Provider must maintain monthly contact with the youth’s referring agency during the time
the youth is in the more restrictive placement to ensure that the transition plan remains consistent between agencies.

6) Provider must participate in an initial meeting with the youth’s FCM or probation officer, youth, and family within 48 hours of release.

7) For JD/JS youth, the provider must complete the Child and Adolescent Needs and Strengths (CANS) assessment within 30 days of transition from the more restrictive placement, if not completed at the time of discharge from the more restrictive placement, and every six months thereafter. If no CANS assessment was completed prior to the youth being admitted to the more restrictive placement, the service provider is responsible for completing the assessment within 2 weeks of the placement in a less restrictive placement. (DCS will be responsible for CANS assessments for CHINS youth.)

8) Provider must conduct a minimum of two (2) face to face visits per week with the youth during the first thirty (30) days of release from the more restrictive placement. The level of supervision after that period of time will be determined by the team but will never be less than 1 face to face visit per week.

9) When appropriate and requested by the Probation Officer or Family Case Manager, the provider may require the youth to submit to at least one random drug screen within fourteen (14) days of changing from a more restrictive placement. This may be done through the local probation department or another approved vendor.

10) Provider must maintain frequent contact with the FCM/probation officer and notify the FCM/probation officer in writing of non-compliance issues. The provider must also develop a recommendation for the FCM/probation officer as to a suitable therapeutic intervention.

11) The family will be the focus of service and services will focus on the strengths of the family and build upon these strengths.

12) Services must be family focused and child centered.

13) Services must include intensive in-home skill building and after-care linkage.

14) Services include providing monthly progress reports in a format approved by the Court, participation in team meetings, and providing requested testimony and/or presence at court hearings.

15) Additionally, the provider will recommend to the referring agency any other services, such as therapy, which might be needed. Recommendations for additional services not covered in the service standard should be made, in writing, to the current FCM or probation officer. Additional services require a separate referral and should not be started until one has been received.
16) Staff must respect confidentiality. Failure to maintain confidentiality may result in immediate termination of the service agreement.

17) The caseload of the therapist/case manager will include no more than ten (10) workload units. All youth in service are weighted at 1 workload unit.

III. Target Population
Services must be restricted to the following eligibility category:

- Children with a status of CHINS and/or JD/JS who have been placed in a restrictive setting.

Note that Transition From Restrictive Placements (TRP) can be provided to CHINS or probation youth who are transitioning out of residential or group home placements. TRP services may begin while a youth is still in a residential or group home placement if that youth will be transitioning within 30 days.

For JD/JS youth who are committed to the Department of Corrections, this service may begin within 60 days of the scheduled or anticipated discharge.

IV. Goals and Outcomes
Goal #1 To improve the transition for youth back to their home by providing therapeutic services to the youth and family

Outcome Measures
1) Based on the CANS Assessment, 100% of participants will have an individualized service plan developed.
2) 90% of families will actively participate in services during the youth’s period of placement.
3) 90% of the youth will have a minimum of 2 face to face visits each week from their direct worker/therapist during the first 30 days following their placement from a more restrictive to a less restrictive placement.

Goal #2 To reduce routine barriers by providing direct assistance with transition issues

Outcome Measures
1) 90% of all participants will have a state-issued ID or driver's license by the completion of the program.
2) 90% of all participants will actively participate in an education program.
3) 100% of participants not involved in an educational program will be employed and/or participating in a formal employment assistance program.
Goal #3 To develop a system of community supports for each youth that will continue after completion of the program.

Outcome Measures
1) 100% of the youth in the program will establish at least one community-based support that will continue to provide assistance and/or direction following completion of the program.
2) 85% of youth will maintain their placement in a less restrictive setting at 6 month follow up.

Goal #4 Maintain satisfactory services to the children and family

Objective
1) DCS/Probation and clients will report satisfaction with services.

Outcome Measures
1) DCS/Probation satisfaction with services will be rated 4 and above on the Service Satisfaction Report.
2) 90% of clients will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless one is distributed by DCS/Probation to providers for their use with clients. Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

V. Minimum Qualifications
Counselor/Direct Worker:

MCO billable:
- Medical doctor, doctor of osteopath; licensed psychologist
- Physician or HSPP-directed services provided by the following: licensed clinical social worker, licensed marital and family therapist; licensed mental health counselor; a person holding a master’s degree in social work, marital and family therapy or mental health counseling; an advanced practice nurse.

MRO billable:
Providers must meet the either of the following qualifications:
- Licensed professional, except for a licensed clinical addiction counselor
- Qualified Behavioral Health Professional (QBHP).

DCS billable:
Direct Worker:
A bachelor’s degree in social work, psychology, sociology, or a directly related human service field is required.
Therapist:
A master's degree in social work, psychology, marriage and family therapy, or related human service field and 3 years related clinical experience or a masters degree with a clinical license issued by the Indiana Social Worker, Marriage and Family Therapist or Mental Health Counselor Board, as one of the following: 1) Clinical Social Worker 2) Marriage and Family Therapist 3) Addictions Counselor Mental Health Counselor is required.

Supervisor:
A master's degree in social work, psychology, or marriage and family or related human service field with a current license issued by the Indiana Social Worker, Marriage and Family Therapist or Mental Health Counselor Board, as one of the following: 1) Clinical Social Worker 2) Marriage and Family Therapist 3) Mental Health Counselor 4) Addictions Counselor is required.

Supervision/consultation is to include not less than one (1) hour of face to face supervision/consultation per 20 hours of direct client services provided, and occur every two (2) weeks or more frequently.

The staff person must possess:
- Knowledge of community resources and ability to work as a team member.
- An understanding of issues specific to youth transitioning back into the community following a stay in restrictive placement.
- Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life style choices, and complex family interactions and be delivered in a neutral valued culturally competent manner.

VI. Billable Unit

Medicaid:
It is expected that the majority of the individual, family and group counseling provided under this standard will be based in the clinic setting. In these instances, the units may be billable through MCO. Medicaid shall be billed when appropriate.

Services through the MCO may be Outpatient Mental Health Services. Medicaid shall be billed first for eligible services under covered evaluation and management codes, including those in the 90000 range.

Services through the Medicaid Rehab Option (MRO) may be group Behavioral Health Counseling and Therapy, Case Management, and Skills Training and Development.

**DCS funding:**
Those services not deemed medically necessary for the Medicaid eligible client, including services to other referred members of the family that are not related to the behavior health care needs of the eligible client, will be billed to DCS per face-to-face hour as outlined below. These billable units will also be utilized for services to referred clients who are not Medicaid eligible and for those providers who are unable to bill Medicaid.

**If agency administers clinical services, there may be two face to face units: Direct Worker and Counseling.**
Face to face time with the client:
(Note: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include persons not legally defined as part of the family)

- Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
- Includes Child and Family Team Meetings or case conferences, or probation meetings initiated or approved by the DCS or Probation for the purposes of goal directed communication regarding the services to be provided to the client/family.
- Includes crisis intervention and other goal-directed interventions via telephone with the identified client family.

**Reminder:** Not included are routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes do not bill 0.00 hour
- 8 to 22 minutes 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour

**Translation or sign language**
Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. (Actual Cost)

**Court**
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS or subpoena to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

**VII. Case Record Documentation**
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/ Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written reports no less than monthly or more frequently as prescribed by DCS/Probation. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.

4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

VIII. Service Access

All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

IX. Adherence to the DCS Practice Model

Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
TUTORING/LITERACY CLASSES
(Revised 2/1/2012-Effective 3/1/2012)

I. Services Description
Tutoring/literacy and math services will be provided to raise the academic performance of school aged youth to a level consistent with state education standards.

Services shall be provided in a manner that is age and developmentally appropriate, and consistent with the child’s academic ability and learning style, interpersonal characteristics and special needs. Children will be connected as appropriate with both formal and informal community supports, services and activities that promote their literacy skills. The child’s characteristics such as race, culture, ethnicity, language and personal history including child abuse and neglect will be considered when choosing or designing program interventions, materials and curriculum. The provider will develop an education plan to address the child’s literacy and math needs.

A variety of activities and lessons shall be available to afford choice. Activities and lessons shall promote literacy skills and academic development and should demonstrate well-planned, flexible and responsive services. Services should include regular use of external resources such as libraries, museums and community educational sites. Services may also incorporate the use of video games and computers. The use of television and videos shall be strictly limited to a minimal portion of the child’s participation. Video games, computers, television and videos should be age and developmentally appropriate, supportive of the child’s educational goals, and the child should be monitored at all times when using these resources.

The provider will develop a plan to engage the child, caregiver, and educator in the process. The plan will accommodate persons who are difficult to engage if necessary. The provider will clearly communicate and coordinate the child’s education plan goals with the caregiver and educator and will periodically and frequently give updates and review progress with them.

II. Service Delivery
Treatment Modality
Tutoring/literacy and math services shall be provided through direct one-on-one sessions or in small groups of 2 to 4 children who are matched by ability. Services should occur in locations that promote learning, are large enough to accommodate the group and teaching materials, allow the child to concentrate without being disturbed by others, and allow for meaningful and direct assistance. Services may take place after school, on weekends and/or other times when school is not in session. Services should not conclude later than normal bedtime hours.

Tutoring/literacy and math services shall incorporate evidence-based strategies that improve student achievement. Sessions shall be divided into segments, including: 1) an opening activity...
to set the stage, 2) activities based on individual learning goals, 3) opportunities to develop and practice skills, and 4) a closing activity. All sessions shall include opportunities for the child to experience success and to progress. The provider should suggest home activities as appropriate.

Assessment
The provider will ensure the child receives an initial assessment in order to determine child specific learning needs no later than 10 days after being referred. The provider will make reasonable attempts to discover previous assessments and to utilize the findings of those assessments in conjunction with the provider’s own assessment. Assessments shall include the use of standardized tools to obtain a baseline measurement and will at a minimum identify the following:

- Learning disabilities and/or impairments in cognitive functioning due to child abuse, neglect, or involvement with child welfare services
- Academic strengths, weaknesses and needs
- Level of ability compared to actual grade/age level

Assessments shall include the following:

- Learning disabilities and/or impairments in cognitive functioning due to child abuse, neglect, or involvement with child welfare services
- Academic strengths, weaknesses and needs
- Level of ability compared to actual grade/age level

Services will be provided within the context of the Department of Child Services’ practice model with participation in Child and Family team meetings if invited. An education plan will be developed and based on the agreements reached by means of the assessment and Child and Family Team Meeting (CFTM). Services will be provided in coordination with the child’s Individualized Education Plan (IEP) if present, and the provider shall participate in IEP conferences with educators.

Education Plan
Comprehensive education plans will be developed based on the assessment and will contain both long-term and short-term goals. Plans at a minimum will:

- Include input from the child, caregiver and the educator.
- Reflect underlying needs and goals.
- Be tailored to the child’s strengths, weaknesses, needs, available resources and unique circumstances.
- Build on realistic possibilities and options
- Identify strategies for lessening the effects of any disabilities and/or impairments in cognitive functioning.
- Promote reading and math achievement at a level consistent with state education standards.
- Be consistent with the child’s Individualized Education Plan (IEP), if one is present
- Support and/or build upon what the child is learning through their primary education program
- Respond flexibly to the child’s changing needs

The provider will evaluate the child’s progress toward achieving identified goals and will
regularly incorporate the use of standardized performance measurement tools to track progress and adjust tutoring/ literacy and math activities. The provider will assist the child and caregiver in realizing ways of generating and maintaining gains. The provider will document progress and participation.

Services must be available to participants who have limited daytime availability.

Services shall include providing any requested testimony and/or court appearances (to include hearing or appeals).

Provider must respect confidentiality. Failure to maintain confidentiality may result in immediate termination of the contract.

III. Target Population
Services must be restricted to the following eligibility categories:
1) Children who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
2) Children who have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
3) All adopted children.

IV. Goals and Outcomes
Goal #1 Timely provision of services for the youth and regular and timely communication with referring worker.

Outcome Measures:
1) 95% of all youth referred will have face-to-face contact with the provider within 10 days of the referral.
2) 95% of all youth will have a written education plan within 30 days of the referral.
3) 100% of all youth will have monthly written summary reports prepared and sent to the referring worker.

Goal #2
Child has improved academic and/or literacy performance

Outcome Measures:
1) 90% of children improve academic and/or literacy performance as evidenced by pre and post-testing.
2) 90% of children improve overall school performance as measured by grade point average or other standard indicators.
3) 100% of children participate actively in the goals of their education plan as
evidenced by provider documentation

Goal #3 DCS and youth satisfaction with services

Outcome Measures:
1) DCS satisfaction will be rated 4 and above on the Service Satisfaction Report.
2) 90% of the youth who have participated will rate the services “satisfactory” or above.

V. Minimum Qualifications

Direct Worker:
Tutoring services may be provided by workers with a Bachelor's degree or at least 60 hours of post secondary credit hours in education, social work, psychology, or a related field.

Supervisor:
A bachelor’s degree in education, social work, psychology, or a related field and 5 years experience tutoring children is required. Knowledge of state education standards is required.

Supervision/consultation is to include not less than one (1) hour of face to face supervision/consultation per 20 hours of direct client service hours provided. These sessions should occur no less frequently than every two (2) weeks.

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral valued culturally competent manner.

Worker Qualities:
Providers working directly with children have the competencies and support needed to:

• Engage, empower and communicate effectively, respectfully and empathetically with children and families from a wide range of backgrounds, cultures and perspectives.
• Develop plans to meet the child’s literacy and tutoring needs.
• Recognize and identify the presence of cognitive impairments
• Collaborate with workers in other disciplines and access community resources
• Advocate for the child during Child and Family Team Meetings Individualized Case Plan (IEP) conferences

Providers working directly with children should be knowledgeable about:

• Child development
• Behavior management
• Learning disabilities
• Possible effects of child abuse and neglect on cognitive functioning
• The Individualized Education Plan (IEP) and its use in education
• Educational resources within the community
• Tutoring techniques

VI. Billable Unit
Face to face time with the client:
(Note: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include persons not legally defined as part of the family)

• Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
• Includes Child and Family Team Meetings or case conferences initiated or approved by the DCS for the purposes of goal directed communication regarding the services to be provided to the client/family.
• Includes crisis intervention and other goal-directed interventions via telephone with the identified client family.

Reminder: Not included are routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately.

Group
Services include group goal directed work with clients. To be billed per group hour.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes do not bill 0.00 hour
- 8 to 22 minutes 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour

Translation or sign language
Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. Dollar-for-dollar amount.

Court
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS or subpoena to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the
court appearance, therefore additional costs associated with the appearance cannot be billed separately.

VII. Case Record Documentation
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written reports no less than monthly or more frequently as prescribed by DCS/Probation. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

VIII. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

IX. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
VISITATION FACILITATION
(Revised 2/1/2012-Effective 3/1/2012)

I. Service Description
It is the fundamental right for children to visit with their parents and siblings. The relationship developed by the child with the parent is one of bonding, dependency, and being nurtured, all of which must be protected for the emotional well being of the child. It is of extreme importance for a child not to feel abandoned in placement by either the child’s parents or by other siblings, and for a child to be reassured that no harm has befallen either parent or siblings when separation occurs.

Visit facilitation as identified by DCS/Probation will be provided between parents/children/siblings and/or others who have been separated due to a substantiated allegation of abuse or neglect or involvement with juvenile probation. Visitation allows the child an opportunity to reconnect and reestablish the parent/child/family relationship in a safe environment. It is an excellent time for parents to learn and practice new concepts of parenting and to assess their own ability to parent through interaction with the child. Supervised visitation allows the DCS/Probation to assess the relationship between the child and parent and to assist the parent in strengthening their parenting skills and developing new skills.

The role of the visitation provider is to protect the integrity of the visit and provide a positive atmosphere where parents and children may interact in a safe, structured environment. Visitation may be held in a visitation facility; neutral sites such as parks, fast food restaurant with playground, or shopping malls; child’s own home or relative’s home; foster home; or other location as deemed appropriate by the referring agency and other parties involved in the child’s case taking into consideration the child’s physical safety and emotional well being.

II. Service Delivery
Referral process
In order for positive and productive visitation to occur, specific outlined below will be provided to the visitation provider by the child’s family case manager or probation officer as part of the referral. Information may include:

1) desired/allowable location of visits (such as facility, neutral space, foster home, own home, etc.), length of visits, number of visits requested per week,
2) placement of the child and contact information,
3) who may participate in visits with contact information and relationship to child,
4) who is restricted from visits,
5) level of supervision requested (such as in-room, drop-in during visit, audio monitored, video monitored, semi-supervised, unsupervised, etc),
6) what is expected of the parents or other approved person(s) regarding prior preparation related to bottle feeding, meals and snacks, change of clothes if needed, diapers and wipes, etc.,
7) restricted activities, if any, and
8) consequences when parents do not attend visits as planned and agreed upon (this may include no showing or being consistently late or consistently leaving early);
9) circumstances under which visits may be limited or terminated (such as parent or child has head lice, parent under influence of mood altering substance, parent’s intimidating or threatening behavior, inability of parent to manage children’s behavior in structured setting, etc.); and
10) any criminal, mental health, and safety information on all children and visiting parties
11) other information pertinent to the visits.
12) ratio of direct workers and clients.

In the event that the preceding information is incomplete, it is the responsibility of the visitation provider to obtain that information from the referring worker.

Upon receiving the referral from the DCS/Probation, the agency will contact all parties to set up the visits taking into consideration the ability of the parent to attend based on work schedules and the foster parent or relative caregiver ability to ensure attendance of the child. Every attempt must be made for visitation with the child’s parent, guardian or custodian to occur within 48 hours of the child’s removal from the home. For all other visitation referrals, visitation must be scheduled within 5 days. All cancelled visits by the parent or visit facilitator must be reported within 48 hours to the referring agency indicating who cancelled and the reason for cancellation.

Visit Observation and Reporting
Professional and/or paraprofessional staff will assist the family by strengthening, teaching, demonstrating, role modeling appropriate skills and monitoring in, but not limited to the following areas:
• Establishing and/or strengthening the parent-child relationship
• Instructing parents in child care skills such as feeding, diapering, administering medication if necessary, proper hygiene
• Teaching positive affirmations, praising when appropriate
• Providing instruction about child development stages, current and future
• Teaching age-appropriate discipline
• Teaching positive parent-child interaction through conversation and play
• Providing opportunities for snack and meal
• Responding to child's questions and requests
• Teaching safety regarding age-appropriate toys, climbing, running, jumping, or other safety issues depending on the environment
• Managing needs of children of differing ages at the same time
• Helping parents gain confidence in meeting their child's needs
• Visit Planning
• Teaching age appropriate activities that encourage child development and resiliency.
• Identifying and assessing potentially stressful situations between parent and their children
• Giving parents an opportunity to demonstrate
prep with children present their willingness to complete their case plan.

**At each visit, the visitation facilitator will accurately document for the referring agency the following information:**

1) date, location, and level of supervision of visit;
2) those in attendance at the visit;
3) time of arrival and departure of all parties for the visit;
4) greeting and departure interaction between parent and child/ren;
5) positive interactions between parent and child;
6) planned activities by the parent for visit;
7) interventions required, if any and parent's response to direction provided with regard to interventions;
8) ability and willingness of parent to meet child’s needs as requested by child or facilitator;
9) tasks given to the parent to be completed prior to or at the next visit, etc.
10) pertinent information/issues/concerns regarding the child’s placement

**Additionally, the following items apply:**

1) Visitation staff must respect confidentiality. Failure to maintain confidentiality may result in immediate termination of the service agreement.
2) The current worker will be notified by phone immediately when inappropriate behavior occurs with either parent in a visit that affects the ability of the visit to continue or the safety of the child.
3) Services must demonstrate respect for sociocultural values, personal goals, life style choices, and complex family interactions and be delivered in a culturally competent fashion.
4) Attendance at case conferences may be required as well as testimony and/or court appearances at review or permanency hearings for the child.
5) Documentation of incidents in visitations which are or could be considered subjective must be followed by examples of the situation for clarification. The documentation of the visit must be provided to the current FCM/PO within 3 days of the visit. Phone calls shall be immediate for safety or recommendations for terminated visits.
6) Provider understands that documentation may be shared by DCS/Probation with the child’s parents, foster parents or other placement of the child, the child’s therapist, and other parties in the case to assist in decision making regarding decreased or increased levels of supervision and reunification.

**III. Target Population**

**Services must be restricted to the following eligibility categories:**

- Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
• Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
• Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.

IV. Goals and Outcome Measures

Goal #1
Ensure that all children removed from their parents have the opportunity to visit their parents/siblings on a regular basis.

Outcome Measures

1) 100% of the families will have the first face-to-face visit with their child(ren) within 48 hours of the child’s removal from the home.
2) 100% of the families will have visitation set up and occurring with the frequency and duration requested by DCS/Probation within 5 working days of receipt of the referral.

Goal #2
Strengthen and increase the parent’s ability to provide for the emotional and physical needs as well as the safety of their children.

Outcome Measures

1) 85% of parents served will demonstrate an increased ability to recognize and respond appropriately to their children’s cues by case closure.
2) 85% of the parents will actively reinforce positive behavior and address negative behavior.
3) 90% of parents will arrive with previously requested items by the visit facilitator for the children such as diapers, food, etc. and be prepared to provide a meal or snack if expected.

Goal #3
Provide accurate and timely information in the child’s case so that informed decisions may be made regarding reunification and permanency for the child.

Outcome Measures

1) 98% of visitation reports will be received by the DCS/Probation within 3 days of the visitation or immediately (by phone) when inappropriate behavior occurs with either parent, followed up with a monthly report form. Written reports will be completed on the DCS approved visitation report forms.

Goal #4
DCS/Probation and clients will report satisfaction with services provided

Outcome Measures

Department of Child Services
Regional Document for Child Welfare Services
Term 7/1/11-6/30/13
July 16, 2012
1) DCS or Probation satisfaction will be rated 4 and above on the Service Satisfaction Report.

2) 94% of the families who have completed visitation facilitation services will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless DCS/Probation distributes one to providers for their use with clients. Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

V. Minimum Qualifications

Direct Worker
A high school diploma and 5 years of experience in providing visitation supervision OR Bachelor's degree in social work, psychology, sociology, or a directly related human service field.

Supervisor:
Master's degree in social work, psychology, or directly related human services field or a Bachelors degree in social work, psychology, or a directly related service field with 5 years child welfare experience.

Supervision/consultation is to include not less than one (1) hour of face to face supervision/consultation per 20 hours of direct client services provided, nor occur less than every two (2) weeks.

VI. Billable Units

Face to face time with the client (Note: Members of the client family are to be defined in consultation with the family and approved by the referring agency. This may include persons not legally defined as part of the family)

- Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
- Includes crisis intervention and other goal directed interventions via telephone with the identified client family.
- Includes Child and Family Team Meetings or case conferences initiated or approved by the DCS/Probation (which can include telephone case conferences) either with or without the client, for the purposes of goal directed communication regarding the services to be provided to the client/family.
Reminder: Not included is routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face to face rate and shall not be billed separately.

Hourly services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes do not bill 0.00 hour
- 8 to 22 minutes fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour

Court
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

Translation or sign language
Services include translation for families who are non-English language speakers or hearing impaired and must be provided by a non-family member of the client. (Actual Cost).

VII. Case Record Documentation
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written progress reports no less than monthly or more frequently as prescribed by DCS/Probation and requested supportive documentation such as case notes, social summaries, etc. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent. The “Visitation Monthly Progress Report” form must be used to report the supervised visit.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

VIII. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to
provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period.

IX. Adherence to the DCS Practice Model

Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging.
I. Service Description

These services are designed for individuals who are suspected by DCS workers and Probation Officers of drug and/or alcohol use and require immediate testing. The drug test list includes Drugs of Abuse (illegal drugs), Therapeutic drugs (Prescription Drug-Painkillers, Mental Health Meds, etc.), and Designer drugs (i.e. K2, “Spice”). The vendor must provide all required supplies and courier services to transport all specimens, test results, and testing materials to and from any location within the referring county.

The FCMs may administer saliva/oral fluid (swabs) only. Probation Officers are not prohibited by DCS from the administration of drug tests.

The types of drug screens included, but are not limited to, saliva/oral fluid, hair follicle, and urine.

Services include providing any requested testimony and/or court appearances (to include hearing or appeals), including chain-of-custody and/or testing procedures/results on an as needed basis and providing certified copies of drug tests, if requested, up to 2 years after screening.

The vendor shall provide Initial Testing and Gas Chromatography/Mass Spectrometry Confirmation (GC/MS) Testing or other federally approved testing methods which may include LC/MS/MS or GC/MS/MS (when the Initial Tests indicate a positive result) for any location within the referring county.

The Vendor shall ensure proper legal chain-of-custody procedures are maintained and comply with departmental procedure, state and federal law. The vendor shall also ensure complete integrity of each specimen tested and the respective test results. Receiving, transfer and handling of all specimens by laboratory personnel shall be fully documented using the proper chain-of-custody.

Testing shall not be conducted on any specimen without a legal chain-of-custody. All specimens found to be “Adulterated” or “Contaminated” shall be treated as an Invalid Specimen. Any specimen without a valid chain-of-custody is to be destroyed. The submitting location shall be notified in writing when a specimen has been rejected due to an invalid chain-of-custody or any other integrity problem. Monthly reports shall document how many random samples were taken minus how many “Adulterated” or “Contaminated” specimens there were for the month. (Note: This does not apply to oral fluid testing.)
All sample collections drug screens will be observed sample collections screens. Minimum of substances tested should include Alcohol, Amphetamines, Barbiturates, Benzodiazepines, Cocaine, Cannabis, Opiates, Methadone, Oxycodone, Propoxyphene, and Methamphetamine and other drugs indicated by client’s history. The agency will be expected to provide reports that state the minimum level necessary to detect the presence of each substance, the level of substance detected, and the chain of custody documentation.

For urine screens, testing for creatinine levels shall be conducted on all samples. The vendor shall also insure testing for total Cannabinoids per mg of creatinine using spectrophotometer technology. The Vendor shall insure testing for specific gravity on all samples with a creatinine level below 20 mg per deciliter. The Vendor shall also insure the administration of a nitrite test on any specimen that contains no creatinine and has a specific gravity test of 1.000.

Initial screening shall be conducted utilizing an enzyme immunoassay method. Testing should occur for the following substances utilizing the cut-off levels listed below:

<table>
<thead>
<tr>
<th>DRUG</th>
<th>URINE</th>
<th>ORAL FLUID</th>
<th>HAIR LEVELS*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Amphetamines</td>
<td>1000NG/ML</td>
<td>20NG/ML</td>
<td>500PG/MG</td>
</tr>

<td>5NG/ML</td>
<td>500PG/MG</td>
</tr>
</tbody>
</table>

*Hair uses = PG/MG = weight
* For all other substances tested use recommended laboratory cutoff levels

All negative samples held by the laboratory will be retained for one week. A retention time extension may be requested based upon need.

**Confirmation Testing**

Confirmation Testing **shall** be conducted utilizing GC/MS or LC/MS/MS Technology on all samples initially testing **POSITIVE**. The following cut-off levels shall be utilized:

<table>
<thead>
<tr>
<th>DRUG</th>
<th>URINE</th>
<th>ORAL FLUID</th>

Department of Child Services
Regional Document for Child Welfare Services
Term 7/1/11-6/30/13
July 16, 2012
* For all other substances tested use recommended laboratory cutoff levels
All positive samples shall be frozen and maintained for 365 days by the laboratory. A retention time extension may be requested based upon need.

In situations where the source of the methamphetamine present in any specimen may come into question, the vendor must perform a d-l-isomer differentiation. This service is to be offered at no additional cost to the Department of Child Services and performed when requested by DCS or Probation.

Results Notification
The vendor shall notify the Department of Child Services and/or Probation of testing results via email or fax on vendor letterhead. The results will also be sent by U.S. mail to the referring agency as well. The vendor shall gain approval from DCS for any changes in the results notification system.

The referring agency will be notified of negative test results within 24 hours of the test. The specified time frame is from delivery to the testing laboratory to the time of notification. Positive test results will be provided within 72 hours of the lab receipt of the sample specimen.

For urine tests, diluted results must be reported on the result form.

Courier System
The vendor will coordinate all courier services to transport all specimens, test results, and testing materials to and from any location within the referring county. Deliveries shall be made during regular working days, normally between the hours of 8:00 am and 5:00pm unless otherwise indicated. The vendor shall be responsible for the cost of all courier services provided under the contract.

The vendor shall provide courier services that maintain the legal chain-of-custody, throughout the State of Indiana within 24 hours of request of pick up.
The vendor shall provide postage paid mailers or next day delivery services for utilization at any location that desires to use this method as an alternative to the courier services. This shall be at no additional charge to DCS.

The vendor’s courier system shall provide documented, legal chain-of-custody throughout the State of Indiana which includes same day or next day delivery throughout Indiana.

Technical Support
A toll free 800 number will be available to all DCS local offices and Probation departments, in the State of Indiana to contact for technical support. Technical support staff and laboratory technicians shall be available during normal working hours via the 800 number, to provide technical assistance at no additional cost.
Supplies
The vendor shall provide the following supplies:
1) Sample containers
2) Specimen donor labels
3) Evidence security tape
4) Evidence bags
5) Evidence chain-of-custody forms with seals
6) Swabs
7) All supplies required for mailing or next day delivery
8) Any additional supplies necessary for referring specimens to the laboratory.

Note Regarding testing of Additional Substances:
A provider and/or the referral source may identify the need for screening of additional substances outside of what is specified above. This may be identified as a need in the entire region or for a specific client being referred.

If a contracted provider is proposing to test for additional substances to the already approved list of substances the provider shall submit an updated rate list to the Regional Child Welfare Services Coordinator to be approved by the Regional Services Counsel.

In the instance that the referral source has identified the need for testing of additional substances outside of what is specified above for a referred client, the provider will be expected to provide reports that state the minimum level necessary to detect the presence of each substance, the level of substance detected, and the chain of custody documentation. All testing levels (initial and confirmation) for additional substances outside of what is specified above shall be in compliance with Substance Abuse and Mental Health Administration (SAHMSA) regulations. All rates shall be billed at actual cost.

II. Target Population
Services must be restricted to the following eligibility categories:
1) Parent(s) of children for whom a DCS assessment has been initiated
2) Children and parent(s) who have substantiated cases of abuse and/or neglect
3) Children with a status of CHINS, and/or JD/JS
4) Minor children suspected of drug use prior to adjudication

III. Goals and Outcome Measures
Goal #1 Services are provided timely as indicated in the service description above.

Outcome Measures
1) 100% of courier services will be provided within a 24 hours of a request for pick up.
2) 100% of referring agencies will be notified of negative test results within 24 hours of
laboratory receipt of sample specimen.
3) 100% of referring agencies will be notified of positive test results within 72 hours of laboratory receipt of sample specimen.

Goal #2 Services are provided as indicated in the service description above.

Outcome Measures
1) 100% of proper legal chain-of-custody procedures will be maintained and will comply with Departmental Policy, State and Federal law.
2) 100% of all specimens will be tested for illegal drugs or prescription medication if the client does not have a valid prescription. Amphetamines, Cannabinoids, Benzodiazepines, Opiates, Cocaine, and Meth utilizing the cut-off levels listed above.
3) 100% of supplies will be provided to referring counties upon request.

IV. Qualifications
A laboratory participating in DCS/Probation drug testing must comply with all applicable Federal Department of Health and Human Service, and, under these federal requirements, are subsumed Substance Abuse and Mental Health Services Administration (SAMHSA), or College of American Pathology (CAP), or Clinical Laboratory Improvement Act (CLIA) requirements.

V. Billable Units

Providers shall submit a list of rates for all billable units listed in this section with the proposals. The rate list shall include the actual cost of all screens the provider is proposing to provide.

- **Drug Tests and Supplies:**
  Actual cost of the screens.

- **Confirmation: Per test**
  The billable units will include the following:
  1) Retention of positive samples as required by other standard.
  2) Technical Support
  3) Cost of Courier System
  4) Cost of Confirmation test

  **NOTE:** The provider cannot claim for the handling of rejected specimens or those otherwise unfit for testing.

- **Court**
  The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or
subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

VI. Case Record Documentation
1) Receiving, transfer and handling of all specimens by laboratory personnel shall be fully documented using the proper chain-of-custody.
2) Documentation of notification of test results. Diluted results must be reported on the result form
3) The agency will be expected to provide reports that state the minimum level necessary to detect the presence of each substance, the level of substance detected, and the chain of custody documentation
4) All negative samples held by the laboratory will be retained for one week. A retention time extension may be requested based upon need.
5) All positive samples shall be frozen and maintained for 365 days by the laboratory. A retention time extension may be requested based upon need.

VII. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period.

VIII. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
I. Service Description
Random screens are designed for individuals who may or may not meet the criteria for substance abuse and may or may not actively participate in drug treatment services. The drug test list includes Drugs of Abuse (illegal drugs), Therapeutic drugs (Prescription Drug-Painkillers, Mental Health Meds, etc.), and Designer drugs (i.e. K2, “Spice”). Each random screen referral shall consist of no more than twenty-four (24) screens to be completed over a period not to exceed six (6) months, with a maximum of three (3) screens per week as indicated by the referral form. It is expected that the referring worker and provider agency will work together to develop a plan to determine the appropriate duration (up to 6 months) of each referral. A second referral will be required if an excess of twenty-four (24) screens per referral are necessary.

II. Service Delivery
The service provider must identify a plan to engage the client in the process, a plan to work with non-cooperative clients including those who believe they have no problems to address as well as working with special needs clients such as those who are mentally ill or developmentally delayed.

The types of drug screens include, but are not limited to, saliva drug screen/oral fluid based drug screen, hair follicle, and urine.

Initial Testing
All sample collections drug screens will be observed sample collections screens. Minimum of substances tested should include Alcohol, Amphetamines, Barbiturates, Benzodiazepines, Cocaine, Cannabis, Opiates, Methadone, Oxycodone, Propoxyphene, and Methamphetamine. Other substances not listed that the client may report a history of using may also be tested. The agency will be expected to provide reports that state the minimum level necessary to detect the presence of each substance, the level of substance detected, and the chain of custody documentation.

For urine screens, testing for creatinine levels shall be conducted on all samples. The vendor shall also insure testing for total Cannabinoids per mg of creatinine using spectrophotometer technology. The Vendor shall insure testing for specific gravity on all samples with a creatinine level below 20 mg per deciliter. The Vendor shall also insure the administration of a nitrite test on any specimen that contains no creatinine and has a specific gravity test of 1.000.

Initial screening shall be conducted utilizing an enzyme immunoassay method. Testing should occur for the following substances utilizing the cut-off levels listed below:
### Confirmation Testing

Confirmation Testing **shall** be conducted utilizing GC/MS Technology on all samples initially testing **POSITIVE**. The following cut-off levels shall be utilized:

<table>
<thead>
<tr>
<th>DRUG</th>
<th>URINE</th>
<th>ORAL FLUID</th>
<th>HAIR LEVELS*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Amphetamines</td>
<td>1000NG/ML</td>
<td>20NG/ML</td>
<td>500PG/MG</td>
</tr>
<tr>
<td>Cannabinoids</td>
<td>50NG/ML</td>
<td>1NG/ML</td>
<td>1PG/MG</td>
</tr>
<tr>
<td>Benzodiazepines</td>
<td>300NG/ML</td>
<td>10NG/ML</td>
<td>200PG/MG</td>
</tr>
<tr>
<td>Methamphetamine (including ECSTACY(MDMA), ADAM(MDA))</td>
<td>1000NG/ML</td>
<td>20NG/ML</td>
<td>500PG/MG</td>
</tr>
<tr>
<td>Opiates</td>
<td>2000NG/ML</td>
<td>10NG/ML</td>
<td>200PG/MG</td>
</tr>
<tr>
<td>Cocaine</td>
<td>300NG/ML</td>
<td>5NG/ML</td>
<td>500PG/MG</td>
</tr>
</tbody>
</table>

*Hair uses = PG/MG = weight
* For all other substances tested use recommended laboratory cutoff levels

In situations where the source of the Amphetamine present in any specimen may come into question, the vendor must insure the performance of a d-1-isomer differentiation. This service is to be offered at no additional cost to the Department of Child Services and performed when requested by DCS or Probation.

The Vendor shall ensure proper legal chain-of-custody procedures are maintained and comply with departmental procedure, state and federal law. The vendor shall also ensure complete integrity of each specimen tested and the respective test results. Receiving, transfer and handling of all specimens by personnel shall be fully documented using the proper chain-of-custody.

The vendor shall insure that all laboratories used for drug testing purposes must comply with all applicable Federal Department of Health and Human Service, and, under these federal requirements, are subsumed [Substance Abuse and Mental Health Services Administration](https://www.samhsa.gov).
(SAMSHA) or The College of American Pathology (CAP), or Clinical Laboratory Improvement Act (CLIA) requirements.

A letter to all referred clients will be required within three (3) calendar days of referral with instructions for contacting the agency immediately to begin screens. It is expected that the first screen will be collected within seven (7) calendar days of referral and each subsequent screen will be random. One or more toll free phone lines for clients to call daily to determine the day their screen is to be required. Agency must have a plan in place to modify the phone messages every day by 5 a.m., instructing clients whether to report that day for a screen or call again the next day.

Note: It is expected that the referring worker and provider agency will work together to develop a plan to administer random testing for clients who do not have access to public transportation or telephone. In addition, the referring worker may also indicate the required number of random drug screens.

The agency shall update the referring worker, by phone or email, within ten (10) calendar days of the date the referral was sent regarding the status of the referral. Agencies should inform the referring worker of the date the client completed their first screen or, if the client has not contacted the agency to complete their first screen, a consultation with the referring worker should be held to determine the next steps of services.

**Results Notification:**
The vendor shall notify the local Department of Child Services Office/Probation Officer (PO) of testing results via email or fax on vendor letterhead. The results will also be sent by U.S. mail to the referring county as well. The vendor shall gain approval from DCS or Probation for any changes in the results notification system.

The current FCM/PO (if not the referral source) will be notified of positive test results within 72 hours of sample collection. Negative test results will be provided within 24 hours of sample collections.

No-show alert forms will be provided by the contracted agency to the referring worker within 24 hours of the client’s failure to show. Failure to show may result in an administrative discharge. Any client who is administratively discharged must request a new referral from the referring worker to begin receiving services again.

The DCS/Probation shall be notified in writing if the specimen has been rejected due to an invalid chain-of-custody or any other integrity problem.

For those employing urine tests diluted results must be reported on the result form.

Testing shall not be conducted on any specimen that does not have a legal chain-of-custody. All
specimens found to be “Adulterated” shall be treated as an Invalid Specimen. Any specimen without a valid chain-of-custody is to be destroyed. The referring location shall be notified in writing when a specimen has been rejected due to an invalid chain-of-custody or any other integrity problem. Monthly reports shall document how many random samples were attempted and completed minus how many “Adulterated” specimens there were for the month.

**Note Regarding testing of Additional Substances:**
A provider and/or the referral source may identify the need for screening of additional substances outside of what is specified above. This may be identified as a need in the entire region or for a specific client being referred.

If a contracted provider is proposing to test for additional substances to the already approved list of substances the provider shall submit an updated rate list to the Regional Child Welfare Services Coordinator to be approved by the Regional Services Counsel.

In the instance that the referral source has identified the need for testing of additional substances outside of what is specified above for a referred client, the provider will be expected to provide reports that state the minimum level necessary to detect the presence of each substance, the level of substance detected, and the chain of custody documentation. All testing levels (initial and confirmation) for additional substances outside of what is specified above shall be in compliance with Substance Abuse and Mental Health Administration (SAHMSA ) regulations. All rates shall be billed at actual cost.

**III. Target Population**
Services must be restricted to the following eligibility categories:

1) Parent(s) for whom a DCS assessment has been initiated.
2) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
3) Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
4) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.
5) Minor children suspected of drug use prior to adjudication.

**IV. Goals and Outcome Measures**
Goal #1 Drug screen results will be provided to the referring worker in a timely fashion.

Outcome Measures

1) 95% of positive screens will be reported to the FCM/PO by fax or email within 72 hours of sample collection.
2) 95% of negative screens will be reported to the FCM/PO by fax or email within 24 hours of sample collection.
Goal #2 “No Show” alerts based on occurrence.

Outcome Measures
1) 100% of “No Shows” alerts will be provided to referring worker within 24 hours of the client’s failure to show.

V. Minimum Qualifications
Sample collection does not require the services of a certified drug abuse counselor. The person providing this service must be trained in sample collection and the chain of custody procedures to document the integrity and security of the specimen from time of collection until receipt by the laboratory.

VI. Billable Units
Providers shall submit a list of rates for all billable units listed in this section with the proposals. The rate list shall include the actual cost of all screens the provider is proposing to provide.

The provider cannot claim for the handling of rejected specimens or those otherwise unfit for testing. Grantees will bill monthly:
The provider is to present a list of the drug screens available with the total cost of each drug screen or set of drug screens as part of proposal. The DCS will specify which drug screen or screens they are authorizing for each client on the authorizing referral form.

Initial Drug Screens
Services include all costs from the drug screen supplies needed to do the screen to the results notification (Includes but not limited to screening supplies, collection of specimen, lab costs, etc.). The vendor shall ensure that the chain of custody procedure is followed to maintain the integrity and security of the specimen from time of collection until receipt by the laboratory.

Confirmation of Positive Test (lab processing)
The confirmation test is for those initial drug screens with a “Positive” result. The unit rate will include all cost associated with confirming the status of the Initial Drug Screen and will include results notification. The vendor shall ensure that the chain of custody procedure is followed to maintain the integrity and security of the specimen from time of collection until receipt by the laboratory.

Translation or sign language
Services include translation for families who are non-English language speakers or hearing impaired and must be provided by a non-family member of the client. Dollar for dollar amount.
**Court**

The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

**VII. Case Record Documentation**

Case record documentation for service eligibility must include:

1. A completed, signed, and dated DCS/Probation referral form authorizing services
2. Documentation of regular contact with the referred families/children
3. Documentation of screen results notification sent to DCS.
4. “No Show” alerts will be provided to referring worker within 24 hours of the client’s failure to show.
5. Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

**VIII. Service Access**

All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period.

**IX. Adherence to the DCS Practice Model**

Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
DETOXIFICATION SERVICES
(Revised 2/1/12-Effective 3/1/12)

I. Service Description

This service standard applies to families and children involved with the Department of Child Services and/or Probation. Services may be provided for clients of all ages in need of detoxification services. Detoxification is a process of treating individuals who are physically dependent on alcohol or drugs, and includes the period of time during which the body’s physiology is adjusting to the cessation of substance use.

Three immediate goals of detoxification shall be included, to provide a safe withdrawal from the alcohol/drug(s) of dependence and enable the patient to become drug free, to provide withdrawal that is humane and protects the patient’s dignity, and to prepare the patient for ongoing treatment of his or her alcohol and other drug dependence.

II. Service Delivery

The detoxification program must be state licensed and certified as well as supervised by a licensed physician. In addition, the program shall provide living accommodations in a structured environment for individuals who require twenty-four (24) hour per day supervision while withdrawing from toxic levels of consumption. Detoxification clients will be monitored by qualified, experienced staff 24 hours a day. Services will be available continuously twenty-four (24) hours a day, seven (7) days per week. Ambulatory detoxification may be provided on an outpatient basis as an alternative in limited situations. A caring staff, a supportive environment, sensitivity to cultural issues, confidentiality, and the selection of appropriate detoxification medication (if needed) are all important to providing humane withdrawal.

Clients will be accepted into the program within twenty-four (24) hours of the referral or sooner if an emergency exists. The type, length, and intensity of an individual’s detoxification are determined by the severity of the addiction. Consultation with the Family Case Manager (FCM) and a new referral must be issued if length of stay is longer than two to six days.

All sample collections drug screens will be observed sample collections screens. Minimum of substances tested should include Alcohol, Amphetamines, Barbiturates, Benzodiazepines, Cocaine, Cannabis, Opiates, Methadone, Oxycodone, Propoxyphene, and Methamphetamine and other drugs indicated by client’s history. The agency will be expected to provide reports that state the minimum level necessary to detect the presence of each substance, the level of substance detected, and the chain of custody documentation.

A laboratory participating in DCS/Probation drug testing must comply with all applicable Federal Department of Health and Human Service, and, under these federal requirements, are subsumed Substance Abuse and Mental Health Services Administration (SAMHSA), or
College of American Pathology (CAP), or Clinical Laboratory Improvement Act (CLIA) requirements.

The provider shall inform the referring worker, of the drug screen results within ten (10) calendar days of the initial test.

The provider will develop a recovery plan. The recovery plan should include client’s mental health status at transition and recommendations for the next level of recovery support services, and substance use recovery resources. The recovery plan could include any needed recommendations for psychological testing, psychiatrist consultation and/or medication evaluation. A consultation with the Family Case Manager to obtain a new referral must be completed to refer client to the next level of care.

Best practice will have client transition only when the next step of the recovery plan is available immediately or in a short time frame.

III. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. **DCS will only pay for reports when DCS is not paying for these services.** If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

IV. Target Population

Services must be restricted to the following eligibility categories:

1) Children and families who have substantiated cases of Use and/or neglect and will likely develop into an open case with Informal Adjustment (IA) or CHINS status.
2) Children and their families which have an IA or the children have the status of CHINS or JD/JS.
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.

V. Goals and Outcomes

**Goal #1: Maintain timely intervention with the family and regular and timely communication with referring worker.**

*Outcome Measures:*
1) 90% of services initiated within 24 hours of the referral.
2) 100% of recovery reports will be submitted to the Family Case Manager or Probation Officer.
3) 100% of cases will include a consultation with the Family Case Manager Probation Officer to discuss the recommended next level of care.

Goal #2: Effective treatment for individuals
Outcome Measures:

1) 90% of clients will participate in continuing care upon completion of detoxification.

Goal #3 DCS/Probation and clients will report satisfaction with services provided
Outcome Measures:

1) 90% of the families who have participated in medical detoxification will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless DCS/Probation distributes one to providers for their use with clients. Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

2) DCS/Probation satisfaction will be rated 4 and above on the Service Satisfaction Report.

VI. Qualifications
Licensed Physician:
A licensed physician by the professional licensing agency shall be identified as the program's medical director. The vendor shall be licensed and/or certified by the Indiana Division of Mental Health and Addiction according to state law.

VII. Billable Units
Medicaid:

Providers should bill Medicaid or private insurance when appropriate. For information on coverage of detoxification services and specific Medicaid Programs, please refer to the Indiana Health Coverage Programs (IHCP) Provider Manual located at www.indianamedicaid.gov.

DCS funding:

• Detoxification Services (inpatient): For those not eligible for Medicaid a Per Diem rate
will be paid for services as defined in this service standard. Detoxification Services will not be paid for services not deemed medically necessary.

- **Detoxification Services (outpatient):** For those not eligible or Medicaid, a Per Diem rate will be paid or services as defined in this service standard. Detoxification Services will not be paid for service not deemed medically necessary.

- **Court:** The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

- **Reports**
  If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

**VIII. Case Record Documentation**

Case record documentation for service eligibility must include:

1. A completed, signed, and dated DCS/Probation referral form authorizing services
2. Written reports no less than 7 days from transition to next level of care. Case documentation shall show when report is sent.
3. Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

**IX. Service Access**

All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

**X. Adherence to the DCS Practice Model**

Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
RESIDENTIAL SUBSTANCE USE TREATMENT
(Revised 2/1/2012-Effective 3/1/2012)

I. Service Description
This service standard applies to families and children involved with the Department of Child Services (DCS) and/or Probation. Services may be provided for clients of all ages with a substance-related disorder and with minimal manageable medical conditions; minimal withdrawal risk; or emotional, behavioral cognitive conditions that will not prevent the client from benefiting from this level of care. Residential treatment programs are characterized by offering 24 hour supervised living with a highly structured treatment program that includes individual, group, and family counseling. Residential treatment is most appropriate for clients who are unsuccessful in outpatient. Residential treatment is comprehensive and intensive. The focus of residential treatment is to give the client the tools to begin a substance-free lifestyle. The program must be licensed and/or certified by The Division of Mental Health and Addictions. The program shall be staffed by appropriately credentialed personnel who are trained and competent to implement residential programming.

II. Service Delivery
The minimum length of stay in the program shall be 10 days and the maximum stay 21 days.

The service provider must identify a plan to engage the client in the process, a plan to work with non-cooperative clients including those who believe they have no problems to address as well as working with special needs clients such as those who are mentally ill or developmentally delayed.

Services are planned and organized with addiction professionals and clinicians providing multiple treatment service components for the rehabilitation of alcohol and drug abuse or dependence in a group setting.

An individualized recovery plan must be developed that considers the client’s age, ethnic background, cognitive development and functioning, and clinical issues. Recovery plans should connect substance use and how it affects child safety. Attention to adverse experiences in the client in an attempt to break the cycle of child maltreatment. Recovery plans shall provide a framework for measuring success and progress. Recovery plans should also include goals and objectives. Goals shall be designed to address the issue(s) identified in the substance use assessment and include an achievable time frame. Objectives shall have an expected result. A recovery plan partially based on a functional assessment of each resident's daily living, socialization, and coping skills that is based on structured evaluation and observation of behavior.
Residential treatment services must be based on a written, cohesive, and clearly stated philosophy and treatment orientation and must include the following standards:

1. There must be evidence that the philosophy is based on literature, research, and proven practice models.
2. The services must be client centered.
3. The services must consider client preferences and choices.
4. There must be a stated commitment to quality services.
5. The residents must be provided a safe, alcohol free, and drug free environment.
6. The individual environment must be as homelike as possible.
7. The services must provide transportation or ensure access to public transportation in accordance with the recovery plan.
8. The services must provide flexible alternatives with a variety of levels of supervision, support, and treatment as follows:
9. Service flexibility must allow movement toward the least restrictive environment but allow increases in intensity during relapses or cycles of relapse.
10. The Residential services must provide continuous or reasonably incremental steps between levels.
11. An agency cannot terminate a consumer from all services because of a need for more supervision, care, or direction without the agency making a good faith effort to continue to provide adequate, safe, and continuing treatment unless the resident is transferred to another entity with continuing treatment provided to the resident by that entity.
12. The treatment services must be carried out in residences that meet all life safety requirements and are licensed or certified as appropriate.
13. Residential services shall include specific functions that shall be made available to consumers based upon the individual recovery plan. These functions include the following:
   - Crisis services, including access to more intensive services, within twenty-four (24) hours of problem identification.
   - Case management services, including access to medical services, for the duration of treatment, provided by a case manager or primary therapist.
   - A consumer of Residential treatment services must have access to psychiatric or addictions treatment as needed.

All sample collections drug screens will be observed sample collections screens. Minimum of substances tested should include Alcohol, Amphetamines, Barbiturates, Benzodiazepines, Cocaine, Cannabis, Opiates, Methadone, Oxycodone, Propoxyphene, and Methamphetamine and other drugs indicated by client’s history. The agency will be expected to provide reports that state the minimum level necessary to detect the presence of each substance, the level of substance detected, and the chain of custody documentation.

A laboratory participating in DCS/Probation drug testing must comply with all applicable Federal Department of Health and Human Service, and, under these federal requirements, are
III. Target Population

In addition, services must be restricted to the following eligibility categories:

1. Children and families who have substantiated cases of child abuse and/or neglect and will likely develop into an open case with Informal Adjustment (IA) or CHINS status

2. Children and their families which have an IA or the children have the status of CHINS, and/or JD/JS

3. Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed

IV. Goals and Outcome Measures

Goals #1 Recovery plan goals developed from the substance use assessment

Outcome Measure:

1) 100% of referred clients will have a recovery plan developed following the assessment with the recovery plan provided to the referring worker within 10 days of completion. Treatment goals will be individualized based on assessment with easy to evaluate outcomes. All goals will be developed with the expectation that the client will remain drug free.

Goal #2 Regularly modify and update the recovery plan to reflect client changes and progress

Outcome Measure:

1) 100% of Recovery plan should identify short term goals attainable at 10 to 21 days and measurable by an expected performance or behavior.

2) 100% of cases where the client successfully completes treatment will have a discharge plan submitted to the referring worker within 7 days of discharge. The discharge plan will include client’s response to treatment and the aftercare plan.

3) 100% of cases where the client does not successfully complete treatment will have a recommendation report submitted to the referring worker within 7 days of termination of services.

Goal #3 Drug screens will be provided to the referring worker in a timely fashion.

Outcome Measures:

1) 100% of positive reports will be reported verbally by phone, voice mail or email within 24 hours of receiving the results of the drug screen. Written reports of the drug screen will be mailed/faxed to the referring worker within 24 hours of receipt of laboratory results.
Goal #4 Clients will remain drug free.

Outcome Measures:
1) 95% of clients who participate in Residential treatment will remain drug free during the service provision period as indicated by routine drug screens.
2) 75% of clients who participate in Residential treatment will transition to a lower level of substance use treatment.
3) 60% of clients who participate in Residential treatment will remain drug free until DCS case closure as indicated by routine drug screens.

Goal #5 Provide No-show alert to FCM

Outcome Measures:
1) 100% of no-show alerts will be provided to referring worker immediately following each no-show.

Goal #6 DCS and client satisfaction with services

Outcome Measures:
1) DCS satisfaction will be rated 4 and above on the Service Satisfaction Report.
2) 80% of the clients who have completed substance use treatment services will rate the services “satisfactory” or above.

V. Qualifications
The program shall be staffed by appropriately credentialed personnel who are trained and competent to implement substance use treatment as outlined by state law. IC 25-23.6-10.5-9

VI. Billable Units
Medicaid Funding: Medicaid shall be billed when appropriate.

Providers should bill Medicaid or private insurance when appropriate. For information on coverage of residential services and specific Medicaid Programs, please refer to the Indiana Health Coverage Programs (IHCP) Provider Manual located at www.indianamedicaid.gov.

DCS funding:

Residential Treatment

Department of Child Services
Regional Document for Child Welfare Services
Term 7/1/11-6/30/13
July 16, 2012
Those services not deemed appropriate to bill Medicaid eligible client, will be billed to DCS per a day to day per diem rate for services as defined in this service standard.

**Court Appearance**
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

**VII. Case Record Documentation**
Case record documentation for service eligibility must include:
1) A completed, dated, signed DCS/Probation referral form authorizing service;
2) Documentation of regular contact with the referred families/children and referring agency;
3) Documentation of progress notes that provide details of clients increase in performance and/or behavior that demonstrate growth and/or regression regarding the recovery process and lifestyle changes needed for the individual to remain drug free.
4) Recovery plan documenting short term goals attainable at 14 to 21 days and measurable by an expected performance or behavior.
5) Written reports no less than monthly or more frequently as prescribed by DCS/Probation. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
6) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

**VII. Service Access**
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation, an approved DCS referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period.

**IX. Adherence to the DCS Practice Model**
Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, assessing, planning and intervening to partner with families and the community to better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
SUBSTANCE USE DISORDER ASSESSMENT
(Revised 7/16/12-Effective 8/1/12)

I. Service Description

This service standard applies to families and children involved with the Department of Child Services and/or Probation. Services may be provided for clients of all ages in need of an assessment for substance use. The goal of the initial substance use assessment is to evaluate the client’s substance use, the client’s level of functioning and the appropriate entrance into substance use treatment services.

II. Service Delivery

A face-to-face clinical interview must take place with each referred individual. The provider must be able to complete the initial assessment within 72 hours of the referral if an emergency exists or sooner if the Family Case Manager suspects the client is in need of detoxification services. For emergency assessments, it is expected that a verbal report will be provided to the referring Family Case Manager within 72 hours and a written report provided within 7 days after the completion of the assessment with the client. Recommendations regarding the client’s needs must be provided on each assessment.

The following standardized assessment tools for drug/alcohol use may be administered to accurately determine if further substance use assessment is indicated: Substance Use Subtle Screening Inventory (SASSI), Addiction Severity Index (ASI) Teen Addiction Severity Index (T-ASI), ASI Lite, Addiction Society of Medicine Placement Patient Criteria Revised Version II (ASAM PPII), Drug Use Screening Test (DAST), Substance Use Relapse Assessment (SARA). Other standardized tools may be used to best assess the specific needs of the client.

A multi-axial system must be used to develop a comprehensive bio-psychosocial assessment to include a mental status examination at the time of the initial appointment.

Bio-Psychosocial Assessment must include:
A description of the presenting problem. Clinical Syndromes and/or other conditions that may be a focus of clinical attention. An in-depth drug and alcohol use history with information regarding onset, duration, frequency, and amount of use; substance(s) of use and primary drug of choice. Any associated medical, psychological and social history of the client, associated health, work, family, person, and interpersonal problems; driving record related to drinking or drug use; past participation in treatment programs. The assessment will also include client’s attitude toward treatment.
Mental health examination must include: client’s mood, affect, memory processes, hallucinations, judgment, insight, and impulse control.

Therapist Recommendations:
Following the assessment of each client, the service provider must make a recommendation which includes any necessary treatment as well as the treatment modality and length.

Services must be available to clients who have limited daytime availability. The service provider must identify a plan to work with non-cooperative clients including those who believe they have no problems to address as well as working with special needs clients such as those who are mentally ill or developmentally delayed.

No-show alert forms will be provided by the contracted agency to inform the referring worker of the client’s failure to attend the initial assessment. After three no-shows, a new referral from the referring worker must be sent to initiate new services.

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral-valued culturally-competent manner.

III. Medicaid
It is the responsibility of the contracted service provider to be knowledgeable about the Medicaid billing requirements and comply with them, including provider qualifications and any pre-authorization requirements and further, to appropriately bill those services in particular cases where they may be reimbursed by Medicaid. The Services not eligible for MEDICAID REHABILITATION OPTION (MRO) or MEDICAID CLINIC OPTION (MCO) may be billed to DCS.

IV. When DCS is not paying for services:
A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. DCS will only pay for reports when DCS is not paying for these services. If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

V. Target Population
Services must be restricted to the following eligibility categories:
• Children and families who have substantiated cases of child abuse and/or neglect and will likely develop into an open case with Informal Adjustment (IA) or CHINS status.
• Children and their families which have an IA or the children have the with a status of CHINS, and/or JD/JS;
• Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.

VI. Goals and Outcome Measures

Goal #1 Maintain timely assessment with the family.
Outcome Measures:
1) 100% of emergency referred clients will be assessed within 72 hours or sooner if a medical crisis exists.
2) 90% of non-emergency referred clients will be assessed within 10 days of the initial referral.

Goal #2 Timely receipt of report to prepare for services/court and regular and timely communication with the referring worker.
Outcome Measures:
1) For emergency assessment: 100% of the verbal reports will be received by the referring worker within 72 hours of the assessment; the written report received by the referring worker 7 calendar days after the assessment with the individual.
2) For non-emergency assessments: 100% of the written reports will be received by referring worker 10 days after the completion of the assessment with the individual.

Goal #3 Recommendations relevant and based on documentation in the body of the report.
Outcome Measures:
1) 100% of recommendations prepared as a result of the assessment are appropriate based on interviews, observations, review of other records, and completion of test instruments.
2) 100% of no-show alerts will be provided to referring worker immediately following the clients (3) third no-show.

VII. Minimum Qualifications

Medicaid

Medicaid will reimburse physician or HSPP directed outpatient mental health assessments: (1) of the following practitioners:
(A) A licensed psychologist

Department of Child Services
Regional Document for Child Welfare Services
Term 7/1/11-6/30/13
July 16, 2012
(B) A licensed independent practice school psychologist
(C) A licensed clinical social worker
(D) A license marital and family therapist
(E) A license mental health counselor
(F) A license clinical addiction counselor
(G) An advanced practice nurse who is a licensed, registered nurse with a master’s degree in nursing with a major in psychiatric or mental health nursing form an accredited school of nursing
(H) Anyone authorized by the agency

DCS

Minimum Qualifications:
1) The program shall be staffed by appropriately credentialed personnel who are trained and competent to complete Substance Use Assessments as required by state law.

VIII. Billable Units

Medicaid:

Services through the MEDICAID CLINIC OPTION may be Outpatient Mental Health Services. Medicaid shall be billed first for eligible services under covered evaluation and management codes, including those in the 90000 range.

DCS funding: Those services not deemed medically necessary for the Medicaid eligible client, including services to other referred members of the family that are not related to the behavior health care needs of the eligible client, will be billed to DCS per face-to-face hour as outlined below. These billable units will also be utilized for services to referred clients who are not Medicaid eligible and for those providers who are unable to bill Medicaid.
• **Substance Use Assessment**
  per hour. Includes time face to face with the client administering, scoring, and interpreting testing and writing of reports. Maximum of 1 hour report writing may be billed per assessment.

  **Reminder:** Not included are routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately

  Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:
  
  - 0 to 7 minutes do not bill 0.00 hour
  - 8 to 22 minutes 1 fifteen minute unit 0.25 hour
  - 23 to 37 minutes 2 fifteen minute units 0.50 hour
  - 38 to 52 minutes 3 fifteen minute units 0.75 hour
  - 53 to 60 minutes 4 fifteen minute units 1.00 hour

• **Translation or sign language**
  Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. Dollar-for-dollar amount.

• **Drug Screens**
  Actual cost of the screens.

• **Court**
  The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

• **Reports**
  If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

**IX. Case Record Documentation**
Department of Child Services 196
Regional Document for Child Welfare Services
Term 7/1/11-6/30/13
July 16, 2012
Necessary case record documentation for service eligibility must include:

1) A completed, dated, signed DCS/Probation referral form authorizing service;
2) Written reports as defined in this service standard.

X. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

XI. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
SUBSTANCE USE OUTPATIENT TREATMENT
(Revised 2/1/12-Effective 3/1/12)

I. Service Description

This service standard applies to families and children involved with the Department of Child Services and/or Probation. Services may be provided for clients of all ages with a substance-related disorder and with minimal manageable medical conditions; minimal withdrawal risk; or emotional, behavioral cognitive conditions that will not prevent the client from benefiting from this level of care. A variety of scientifically based approaches to Substance Use Recovery exists. Recovery prescribed for all clients must be evidenced based. Substance Use Recovery can include behavioral therapy (such as counseling, cognitive therapy, or psychotherapy), medications, or their combination.

Effective Recovery attends to multiple needs of the individual, not just his or her substance use. To be effective, Recovery must address the individual's substance use and any associated medical, social, psychological, vocational, and legal problems.

A face-to-face multi-axial clinical assessment must take place prior to admission to an outpatient program.

II. Service Delivery

Services must be available to clients who have limited daytime availability. The service provider must identify a plan to engage the client in the process, a plan to work with non-cooperative clients including those who believe they have no problems to address as well as working with special needs clients such as those who are mentally ill or developmentally delayed.

Services are planned and organized with addiction professionals and clinicians providing multiple Recovery service components for the rehabilitation of alcohol and drug use or dependence in a group setting.

An individualized Recovery plan must be developed that considers the client’s age, ethnic background, cognitive development and functioning, and clinical issues. Recovery plans should connect substance use and how it affects child safety. Recovery plans shall provide a framework for measuring success and progress. Recovery plans should also include goals and objectives. Goals shall be designed to address the issue(s) identified in the substance use assessment and include an achievable time frame. Objectives shall have an expected result.

All sample collections drug screens will be observed sample collections screens. Minimum of
substances tested should include Alcohol, Amphetamines, Barbiturates, Benzodiazepines, Cocaine, Cannabis, Opiates, Methadone, Oxycodone, Propoxyphene, and Methamphetamine and other drugs indicated by clients history. The agency will be expected to provide reports that state the minimum level necessary to detect the presence of each substance, the level of substance detected, and the chain of custody documentation.

A laboratory participating in DCS/Probation drug testing must comply with all applicable Federal Department of Health and Human Service, and, under these federal requirements, are subsumed Substance Abuse and Mental Health Services Administration (SAMHSA), or College of American Pathology (CAP), or Clinical Laboratory Improvement Act (CLIA) requirements.

Addictions Counseling (Individual Setting) – is designed to be a less intensive alternative to IOT.

1. The client is the focus of the service.
2. Documentation must support how Addiction Counseling benefits the client, including when the client is not present.
3. Addiction Counseling requires face-to-face contact with the client and/or family members or non professional caregivers.
4. Addiction Counseling consists of regularly scheduled sessions as needed.
5. Addiction Counseling may include the following:
   • Education on addiction disorders.
   • Skills training in communication, anger management, stress management, relapse prevention.
6. Addiction Counseling goals are rehabilitative in nature.
7. Addiction Counseling must be provided in an age appropriate setting for a client less than eighteen (18) years of age receiving services.
8. Addiction Counseling must be individualized.
9. Drug Screens as recommended per level of care or requested by Family Case Manager.
10. Case managements/referrals to available community services.

Exclusions:
   1. Clients with withdrawal risk or symptoms whose needs cannot be managed at this level of care, or who need detoxification services.
   2. Clients at imminent risk of harm to self or others.
   3. Addiction Counseling may not be provided for professional caregivers.
   4. Addiction Counseling sessions that consists of education services only will not be reimbursed.
Addiction Counseling (Group Setting) - is designed to be less intensive alternative to IOT.

1. The consumer is the focus of Addiction Counseling.
2. Documentation must support how Addiction Counseling benefits the consumer, including when services are provided in a group setting and/or the consumer is not present.
3. Addiction Counseling requires face-to-face contact with the consumer and/or family members or non professional caregivers.
4. Addiction Counseling consists of regularly scheduled sessions.
5. Addiction Counseling is intended to be a less intensive alternative to IOT.
6. Addiction Counseling may include the following:
   - Education on addiction disorders.
   - Skills training in communication, anger management, stress management, relapse prevention.
7. Addiction Counseling must demonstrate progress toward and/or achievement of consumer Recovery goals identified in the IICP.
8. Addiction Counseling goals are rehabilitative in nature.
9. A licensed professional must supervise the program and approve the content and curriculum of the program.
10. Addiction Counseling must be provided in an age appropriate setting for a consumer less than eighteen (18) years of age receiving services.
11. Addiction Counseling must be individualized.
12. Drug Screens as recommended per level of care or requested by Family Case Manager.
13. Case managements/referrals to available community services.

Exclusions:
1. Clients with withdrawal risk or symptoms whose needs cannot be managed at this level of care, or who need detoxification services.
2. Clients at imminent risk of harm to self or others.
3. Addiction Counseling may not be provided for professional caregivers.
4. Addiction Counseling sessions that consists of education services only will not be reimbursed.

Intensive Outpatient Recovery (IOT)
1. Regularly scheduled sessions, within a structured program, that are at least three (3) consecutive hours per day and at least three (3) days per week.
   1. IOT includes the following components:
      a. Referral to 12 step programs, peers and other community supports.
      b. Education on Addictions disorders.
c. Skills training in communication, anger management, stress management and relapse prevention.
d. Individual, group and family therapy (provided by a licensed professional or QBHP Only)

2. IOT must be offered as a distinct service.
3. IOT must be provided in an age appropriate setting for a client age eighteen (18) and under.
4. IOT must be individualized.
5. Access to additional support services (e.g. peer supports, case management, 12-step programs, aftercare/relapse prevention services, integrated Recovery, referral to other community supports) as needed.
6. The client is the focus of the service.
7. Documentation must support how the service benefits the client, including when the service is in a group setting.
8. Services must demonstrate progress toward or achievement of client Recovery goals identified in the IICP.
9. Service goals must be rehabilitative in nature.
10. Up to twenty (20) minutes of break time is allowed during each three consecutive hour session.
11. Drug Screens as recommended per level of care or requested by the Family Case Manager.
12. Referral to available community services is available.

**Exclusions:**
1. Clients with withdrawal risk/symptoms whose needs cannot be managed at this level of care or who need detoxification services
2. Clients at imminent risk of harm to self or others.
3. IOT will not be reimbursed for clients receiving Group Addictions Counseling on the same day.
4. IOT sessions that consist of education services only are not reimbursable.
5. Any service that is less than three hours may not be billed as IOT, but may be billed as Group Addictions Counseling (if provider qualifications and program standards are met)

**Specialized Recovery:**

Substance use Recovery can also be provided through the use of individual sessions as needed and 1 to 1.5 hours of group weekly or more than once weekly group counseling session based on assessment of individual’s needs. Services will be conducted as outlined in the counseling and group counseling section of this service standard, and can include gender specific group counseling to deal specifically with gender issues that may cause barriers to the individual’s ability to remain drug free i.e. domestic violence, traumatic events and/or childhood trauma.

Specialized Recovery can also include modalities of brief counseling therapy.

Department of Child Services
Regional Document for Child Welfare Services
Term 7/1/11-6/30/13
July 16, 2012
III. Medicaid

It is the responsibility of the contracted service provider to be knowledgeable about the Medicaid billing requirements and comply with them, including provider qualifications and any pre-authorization requirements and further, to appropriately bill those services in particular cases where they may be reimbursed by Medicaid.

IV. When DCS is not paying for services:

A billable unit of “Reports” has been developed for providers who service DCS families without DCS payment for these services (Medicaid, insurances, self-pay) but DCS wants a report from the provider on the progress of the family. The referral process has been set up to authorize reports and court components on the DCS referral form in these incidences. **DCS will only pay for reports when DCS is not paying for these services.** If the services provided are not funded by DCS, the report rate per hour will be paid for the necessary reports on a referral form issued by DCS. Court testimony will be paid per appearance if requested on a referral form issued by DCS. In order to be paid for a court appearance a subpoena or written request from DCS should be on file.

V. Target Population

In addition, services must be restricted to the following eligibility categories:
1) Children and families who have substantiated cases of use and/or neglect and will likely develop into an open case with Informal Adjustment (IA) or CHINS status
2) Children and their families which have an IA or the children have the status of CHINS, and/or JD/JS
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.

VI. Goals and Outcome Measures

**Goals #1**
Recovery plan goals developed from the substance use assessment
Outcome Measure
   1) 100% of referred clients will have a Recovery plan developed following the assessment with the Recovery plan provided to the referring worker within 10 days of completion. Recovery goals will be individualized based on assessment with easy to evaluate outcomes.

**Goal #2**
Regularly modify and update the Recovery plan to reflect client changes and progress.
Outcome Measure:
1) Recovery Plan should identify long and short term goals attainable at 2-, 4-, and 6-month’s intervals and measurable by an expected performance or behavior.
2) Vendor shall maintain progress notes that provide details of clients increase in performance and/or behavior that demonstrate growth and/or regression regarding the recovery process and lifestyle changes needed for the individual to remain drug free.
3) Upon successful completion of Recovery the provider shall submit a discharge plan to the referring worker to include client’s response to Recovery and aftercare plan.
4) Written reports with no less than monthly or more frequently as prescribed by DCS

Goal #3
Drug screens will be provided to the referring worker in a timely fashion.
Outcome Measures:
1) 100% of positive reports will be reported verbally by phone, voice mail or email within 24 hours of receiving the results of the drug screen. Written reports of the drug screen will be mailed/faxed to the referring worker within 24 hours of receipt of laboratory results.

Goal #4
Provide No-show alert to FCM.
Outcome Measures:
1) 100% of no-show alerts will be provided to referring worker immediately following each no-show.

Goal #5
DCS and client satisfaction with services
Outcome Measures:
1) DCS satisfaction will be rated 4 and above on the Service Satisfaction Report.
2) 80% of the clients who have completed substance use Recovery services will rate the services “satisfactory” or above.

VII. Minimum Qualifications

Medicaid Reimbursed
It is the responsibility of the contracted service provider to be knowledgeable about the Medicaid provider qualifications.

DCS Reimbursed
The program shall be staffed by appropriately credentialed personnel who are trained and competent to complete Substance Use Outpatient Treatment as required by state law.
VIII. Billable Units

Medicaid:
Services through the MCO may be Outpatient Mental Health Services. Medicaid shall be billed first for eligible services under covered evaluation and management codes, including those in the 90000 range.

**DCS funding:** Those services not deemed medically necessary for the Medicaid eligible client, including services to other referred members of the family that are not related to the behavior health care needs of the eligible client, will be billed to DCS per face-to-face hour as outlined below. These billable units will also be utilized for services to referred clients who are not Medicaid eligible and for those providers who are unable to bill Medicaid.

**Addictions Counseling (Individual & Family): To be billed per hour**

(Note: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include persons not legally defined as part of the family.

- Includes client specific goal directed face-to-face contact with the identified client/family during which services as defined in this Service Standard are performed.
- Includes Child and Family Team Meetings or case conferences initiated or approved by the DCS for the purposes of goal directed communication regarding the services to be provided to the client/family.

**Addictions Counseling Group**

Services include group goal directed work with clients. To be billed per person per hour.

**Intensive Outpatient Treatment**

Services include goal directed services as defined in this Service Standard. Per three hour session per person

**Reminder:** Not included is routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes do not bill 0.00 hour
- 8 to 22 minutes 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour

**Court Appearance**

The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court...
two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

**Reports**
If the services provided are not funded by DCS, the “Reports” hourly rate will be paid. A referral for “Reports” must be issued by DCS in order to bill.

**Drug Screens**
Actual cost of the screens.

**Translation or sign language**
Services include translation for families who are non-English language speakers or hearing impaired and must be provided by a non-family member of the client. Dollar for dollar amount.

**IX. Case Record Documentation**
Case record documentation for service eligibility must include:

1) A completed, dated, signed DCS/Probation referral form authorizing service;
2) Documentation of regular contact with the referred families/children and referring agency;
3) Written reports no less than monthly or more frequently as prescribed by DCS/Probation. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

**X. Service Access**
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation, an approved DCS referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period.

**XI. Adherence to the DCS Practice Model**
Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, assessing, planning and intervening to partner with families and the community to better outcomes for children.
SERVICE STANDARD
INDIANA DEPARTMENT OF CHILD SERVICES
DAY REPORTING/TREATMENT PROGRAMS

I. Service Description
Day Treatment/Day Reporting programs provide intensive supervision to children exhibiting a pattern of delinquent behavior. The primary functions of Day Treatment/Day Reporting can include intensive supervision, utilization of a cognitive behavior change approach, and be utilized to prevent the removal of the child from the home, to increase community safety, and to improve family functioning.

Day Treatment/Day Reporting programs can vary in the intensity and length of supervision and service hours the child and family receive.

The Day Treatment service is designed to provide an environment in which each child can develop the skills necessary for successful living, and to alter the previous environment of the child so that newly acquired skills are encouraged and old inappropriate behaviors are discouraged. Family involvement is highly encouraged. The service also addresses the educational needs of the individual child, based on an assessment of their academic progress.

The day reporting service provides daily supervision and structured activities for youth who require more intensive oversight, as an alternative to secure detention. This program serves pre- or post-adjudicated youth.

Day Treatment
Providing agency receives referrals from the Department of Child Services FCM or the Probation Officer.

Upon receipt of a referral, the provider will respond to the referral source within two business days. Provider will conduct an interview with the child and family within 5 business days of the referral and notify the referral source regarding acceptance into the program within 24 hours after the interview.

Service delivery can range from 1-180 days, at 4-10 hours per day. Per Diem may not be billed if there is not at least 20 hours of face to face contact per week. Service delivery may be extended beyond 180 days if approved by referral source.

Services shall include, but are not limited to: Individualized educational planning, life skills training (including work readiness if appropriate), and community service projects.

Services shall also include a minimum of 6 hours per week of cognitive based instruction in a curriculum that demonstrates best practices of model programs. The use of role playing and interaction to teach new skills may be utilized. Services can address thinking errors, anger management, substance abuse, and other mental health needs identified by the provider and...
referral source.

Pre- and post-tests for evaluation and progress must be utilized.

Provider must also include a component that requires family involvement for a minimum of one hour per week. This may be in the form of a parenting support group or parenting instruction.

Provider will communicate progress to the referral source at least once per month in the form of a written progress report and monthly attendance in program, including number of contact hours. Provider will attend all Court review hearings and provide written progress reports to the Court at each review hearing.

**Day Reporting**

Providing agency receives referrals from the Department of Child Services FCM or Probation Officer.

Upon receipt of a referral, the provider will respond to the referral source within two business days. Provider will conduct an interview with the child and family within 5 business days of referral and will notify the referral source regarding admission status within 24 hours of the interview.

Service delivery can range from 1-180 days, at 4-10 hours per day. Per Diem rate may not be billed if there are not at least 20 hours of face to face contact per week. Service delivery may be extended beyond 180 days if approved by referral source.

Services shall include, but are not limited to: Intensive supervision, educational planning assistance, and community/recreational activities.

Provider will communicate progress to the referral source and monthly attendance in program, including number of contact hours performed. Provider will submit written progress reports to the referral source prior to each court hearing.

**II. Target Population**

Services must be restricted to the following eligibility categories:

1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
2) Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.
4) All adopted children and adoptive families.

**III. Goals and Outcomes**

**Day Treatment**

Department of Child Services
Regional Document for Child Welfare Services
Term 7/1/11-6/30/13
July 16, 2012
Goal #1: Reduce the risk of repetitive delinquent behavior.
Outcome Measures
1) 100% of children in the Day Treatment program will receive a minimum of 6 hours per week of cognitive based instruction required to successfully complete the program.
2) 50% of children will successfully complete the program with a reduction of the risk to re-offend based on a validated risk assessment tool.

Goal #2: Prevent removal from home or community.
Outcome Measures
1) 70% of parents will participate in required family activities as identified by the individual program.
2) 70% of children who successfully complete the program will have exhibited improved family relationships.
3) 70% of families that were intact at the initiation of service will remain intact with no out-of-home, county paid placement for more than five days throughout the service provision period, and will have avoided out of home placement 6 months following service closure.

Goal #3: Enrollment in education programming
Outcome Measures
1) 100% of children will be enrolled in some type of educational programming during their involvement in the program.
2) 70% of children will be enrolled in an education program three months after program completion.

Goal #4: Provide opportunities for the child to make meaningful contributions to their community.
Outcome Measures
1) 100% of children will be given opportunities to participate in employment, community, and recreational activities during their involvement in the program.
2) 70% of children will be employed or involved in community activities three months after program completion.

Day Reporting
Goal #1: Provide supervision as an alternative to incarceration.
Outcome Measures
1) 75% of youth will not return to secure detention while in the program.
2) 100% of youth will receive intensive supervision and participate in other activities while in the program.

Goal #2: Provide opportunities for the child to make meaningful contributions to their community.
Outcome Measures
1) 100% of children will be given opportunities to participate in employment, community, and recreational activities during their involvement in the program.

2) 70% of children will be employed or involved in community activities three months after program completion.

Goal #3: Enrollment in educational programming.

Outcome Measures
1) 100% of children will be enrolled in some type of educational programming during their involvement in the program.
2) 70% of children will be enrolled in an educational program three months after program completion.

IV. Minimum Qualifications

Direct Worker:
Program Coordinator must hold a Bachelor’s degree in criminal justice, sociology, psychology, social work or related field.

Supervision:
Program Supervisor must hold a Master's degree in criminal justice, social work, psychology, Social Work or related field.

Overall supervision of the Day Treatment program must be provided by a person with a Master's degree in Supervision/consultation. Supervision is to include not less than one (1) hour of face to face supervision/consultation per 20 hours of direct client services provided, and must occur every two (2) weeks or more frequently.

Services will be conducted with behavior and language that demonstrates respect for socio-cultural values, personal goals, life-style choices, as well as complex family interactions; services will be delivered in a neutral valued culturally competent manner.

V. Billable Units
Per Diem cost for each client placed in the program. This per diem rate includes all costs of the program. Per Diem rate may not be billed if there are not at least 20 hours of face to face contact per week. (There are two per diem units Day Reporting and Day Treatment.)

Translation or sign language
Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. (Actual Cost)

VI. Case Record Documentation
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/ Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written reports no less than monthly or more frequently as prescribed by DCS/Probation. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.

4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

VII. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period.

VIII. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
I. Services Description
The purpose of Truancy Termination services is to provide school drop-out prevention education, job readiness skills services, parent education, and family support services to youth and their families in order to reduce recidivism of delinquent youth and truants.

Family Support Services
Family support workers are to work with family members to identify reasons for youth’s truancy and barriers to regular and positive school attendance as well as work with school personnel and Probation Officers to identify solutions and interventions necessary to ensure school attendance, increase the youth’s involvement in the school, and improve academic performance.

Accomplishing these objectives may require the support worker to attend parent/teacher conferences and attend classes with the student. The support worker shall provide services in the areas of parent education and crisis intervention, including direct services. The support worker will be present as the court directs, including, but not limited to the initial hearing, where the worker will meet with the youth and family and complete the preliminary intake. The purpose of the preliminary intake is to gather basic information and provide a brief overview of the program.

The support worker is responsible for providing weekly written reports attending court hearing to provide testimony on progress, submitting monthly written progress reports regarding each family’s circumstances, and monitoring school attendance, performance, and behavior. These reports shall reflect ongoing collaboration and cooperation among the family support workers, school social workers, and Probation Officers.

The family support workers shall conduct and complete comprehensive intake and assessment for each referral to create a Family Development Plan (FDP). The FDP will be shared with school social workers and Probation Officers. The family support worker will assist families with transportation to the program.

Training Modules
Training modules consist of six (6) weekly skills-based classes which the youth and parents are required to complete. The family support worker will assess progress of all program graduates, and identify youth and families who may benefit from additional training. Subsequent to the training an assessment of progress, including areas where additional improvement is needed should be made and any additional services recommended shared with school social workers, probation officers, and the court.
Youth Modules
The following youth modules of Skills Based programming will be taught:

- Personal Hygiene
- Truancy
- College Awareness
- Conflict Resolution
- Relationships (peer to peer and peer to parent)
- Substance Abuse
- Decision Making, Time Management, and Goal Setting

Parent Modules
The following parent modules of Skills Based programming will be taught:

- Role as a parent and self-esteem
- Understanding child growth and development/Sibling Rivalries
- Communication and listening skills/Relationships
- How to use effective discipline/Problem solving
- Anger management/Conflict resolution/Stress maintenance
- Teaching morals, values, and respect
- Financial Management

Subsequent to the completion of the training modules the family support worker shall continue to work with the school social workers, probation officers, and the court to monitor families’ well-being and monitor school attendance. The support worker will conduct monthly activities designed to connect youth and families with positive sources of ongoing encouragement (i.e. carrier fairs, family dinners, age appropriate sports and/or entertainment events, etc.).

II. Target Population
Services must be restricted to the following eligibility categories:

- Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
- Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
- Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.
- All adopted children and adoptive families.

III. Goals and Outcomes
Goal #1 Ensure youth and parents participating in the program build skills in the module areas.
Outcome Measures
1) 85% of youth and parents referred by the Juvenile Court shall complete six (6) skills-based modules.
2) 85% of those families completing the modules shall demonstrate increased knowledge resulting from participation in the skills-based modules.

Goal #2 Increase regular school attendance of youth completing the program.

Outcome Measures
1) 75% of youth completing the six week modules will have 95% attendance during the service provision period.
2) 75% of youth will have 95% attendance during the period of time that begins at program completion and ends at 6 month follow up.

Goal #3 Juvenile Court and client satisfaction with services

Outcome Measures
1) Juvenile Probation/DCS staff satisfaction will be rated 4 and above on the Services Satisfaction Report.
2) 90% of clients will rate the services “satisfactory” or above on a satisfaction survey developed by the service provider, unless one is distributed by DCS/Probation to providers for their use with clients Providers are to survey a minimum of 12 clients or 20% of their caseload (whichever results in a larger number) randomly selected from each county served.

IV. Minimum Qualifications

Training Facilitator (Paraprofessional):
A high school diploma or GED and 21 years of age. Must possess a valid driver’s license, the ability to transport self and others, and must have state minimum car insurance coverage in force at all times.

Family Support Worker:
Bachelor’s Degree in social work, psychology, sociology, or a directly related human service field.

Supervisor (Professional):
Bachelor’s Degree in social work, psychology, sociology, or directly related human service field plus three (3) years related experience.

Supervision/consultation is to include not less than one (1) hour of face-to-face supervision/consultation per twenty (20) hours of direct client services provided, nor occur
less than every two (2) weeks.

V. Billable Unit

Face to face time with the client:
(Note: Members of the client family are to be defined in consultation with the family and approved by the DCS. This may include persons not legally defined as part of the family)

- Includes client specific face-to-face contact with the identified client/family during which services as defined in the applicable Service Standard are performed.
- Includes Child and Family Team Meetings or case conferences initiated or approved by the DCS for the purposes of goal directed communication regarding the services to be provided to the client/family.
- Includes crisis intervention and other goal-directed interventions via telephone with the identified client family.

Reminder: Not included are routine report writing and scheduling of appointments, collateral contacts, travel time and no shows. These activities are built into the cost of the face-to-face rate and shall not be billed separately.

Group (Effective 3/1/2012)

Group will be defined as at least 3 clients (who are DCS or Probation referrals and are from no less than two different referred families. If there are less than 3 clients from at least two DCS/Probation referrals, the payment would be the face to face rate for each referral.

Issue:
Question: The provider has 3 DCS/Probation clients referred from 2 different families. When cost allocating it, do they charge 1/3 or ½ (by client or referral)?
Answer: By number of referrals. Therefore, ½ charged to each referral, or ½ of the cost would be allocated to each family.

Question: What if there are less than 3 clients referred?
Answer: The payment would be by the Face to Face rate for each referral. Example, if the Face to Face rate is $50, then the claim would be for $50 for each referral.

Services may be billed in 15 minute increments; partial units are rounded to the nearest quarter hour using the following guidelines:

- 0 to 7 minutes  do not bill 0.00 hour
- 8 to 22 minutes 1 fifteen minute unit 0.25 hour
- 23 to 37 minutes 2 fifteen minute units 0.50 hour
- 38 to 52 minutes 3 fifteen minute units 0.75 hour
- 53 to 60 minutes 4 fifteen minute units 1.00 hour
Translation or sign language
Services include translation for families who are non-English language speakers or hearing-impaired and must be provided by a non-family member of the client. Dollar-for-dollar amount.

Court
The provider of this service may be requested to testify in court. A Court Appearance is defined as appearing for a court hearing after receiving a written request (email or subpoena) from DCS or subpoena to appear in court, and can be billed per appearance. Therefore, if the provider appeared in court two different days, they could bill for 2 court appearances. Maximum of 1 court appearance per day. The Rate of the Court Appearance includes all cost associated with the court appearance, therefore additional costs associated with the appearance cannot be billed separately.

VI. Case Record Documentation
Case record documentation for service eligibility must include:
1) A completed, signed, and dated DCS/Probation referral form authorizing services
2) Documentation of regular contact with the referred families/children
3) Written reports no less than monthly or more frequently as prescribed by DCS/Probation. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
4) Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

VII. Service Access
All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of six (6) months unless otherwise specified by the DCS/Probation. Providers must initiate a re-authorization for services to continue beyond the approved period. A referral from DCS does not substitute for any authorizations required by the Medicaid program.

VI. Adherence to the DCS Practice Model
Services must be provided according to the Indiana Practice Model, providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
