

	INDIANA DEPARTMENT OF CHILD SERVICES TITLE IV-D POLICY MANUAL	
	Chapter 2: Funding	Effective Date: 09/08/2020
	Section 4: Program Income	Version: 3 Revision Date: 09/01/2020

BACKGROUND

The following are sources of program income for Indiana’s Title IV-D program:

1. Interest earned on incentive fund balances;¹ and
2. Proceeds from the sale of equipment that was purchased with Title IV-D funds including equipment transferred to other departments.²

Program income is deducted from expenditures on the federal OCSE 396A Report and thus reduces the amount that is available for reimbursement on a dollar for dollar basis. Program income is also deducted from the Monthly Expense Claim (MEC) form for the month the program income occurred. While gains from the sale/disposal of equipment is not technically program income, it is treated in much the same way. A reduction of current expenditures claimed on the MEC is still required.

POLICY

Revenues resulting from Title IV-D case activity shall be considered program income.³ Program income comes from the above sources and 66% of all program income is reported to the federal government.
