Dear Adoptive Family:

Bringing children into your home through adoption, kinship care or guardianship is an exciting, rewarding, amazing and sometimes challenging process. Your being there to support, care for and love a special needs child is valued beyond words. Like any family, however, there are challenges, which can at times require help from others. Given the complexity of medical, educational, and human services systems, the search for information and services can be daunting. The Post-Adoption Services Resource Directory was created in order to make your access to information and support not only easier, but also more informed.

This directory was produced through the collaborative efforts of the Indiana Department of Child Services (DCS) and Specialized Alternatives for Families and Youth (SAFY), the agency providing Post-Adoption Services for Regions 1-7 in Indiana. There are a wide variety of services available to adoptive families in Indiana but it is often challenging for adoptive families to find services that meet the individualized needs of their children. We hope that this directory will assist you in loving and parenting children who often have such diverse special needs.

Thank you for opening your home to love children and giving them hope and a future. We know that adoptive families need support and information. We trust that this Resource Directory will be one source to access this support and information.

Resource for families with children with special needs:  
First Steps

Indiana’s First Steps System provides early intervention services for families who have infants and toddlers with developmental delays or who show signs of being at-risk to have certain delays in the future. Services are coordinated to give qualifying children the widest possible array of early intervention resources.

Who is eligible for First Steps early intervention services?
A child (birth to third birthday) is eligible for First Steps services if he/she demonstrates a 20% delay or -1.5 standard deviation in function in two areas of development (called domains) or a 25% delay or -2.0 standard deviation in function in one area of development.

The developmental domains are cognitive, physical (fine motor, gross motor, hearing, vision), communication, social and adaptive. A child may also be eligible because of a high probability of developmental delay. Conditions that would indicate such a risk include chromosomal abnormalities or genetic disorders, neurological disorders, congenital malformations, low birth weight or severe toxic exposure, sensory impairments and neurological abnormality in the newborn period.

What services are available?
- Services children may receive through Indiana’s First Steps System include:
  - Physical Therapy Nutrition Services
  - Transportation Social Work Services
  - Family Education Vision Services
  - Assistive Technology Services Health Services
  - Nursing Services Audiology Services
  - Psychological Services Medical Services for diagnostic purposes
  - Occupational Therapy Service Coordination
  - Developmental Therapy Other Services
  - Speech Language Pathology

Starting First Steps Services
Parents with concerns about their child’s development may call the First Steps System Point of Entry office in their area of the state, explain their concerns and ask to have their child evaluated. A map of First Steps areas – called clusters – with contact numbers is on the back of this sheet. Parents may also call 1-800-441-STEP (1-800-441-7837) to learn more about First Steps in their area. A child’s physician may also refer the child to First Steps. Once a referral is made, a First Steps Intake Coordinator will contact the family to begin the child’s evaluation process.
Chronic Health Conditions/Physical Disabilities

Chronic Health Condition:

DEFINITION - A chronic health condition can be described as one that:

1. Lasts longer than 3 - 6 months
2. Is biologically based
3. Has a significant impact on the life of a person, and
4. Requires more than usual access to healthcare services for support.

In children, chronic health conditions cover the full spectrum of medical knowledge and endeavour. There are different ways of describing chronic health conditions (or sometimes "diseases") that affect children, and they may be classified as:

- **Congenital** - meaning a child is born with the conditions (e.g. Down syndrome; hypothyroidism)
- **Acquired** - meaning a child develops the condition at some time after birth (e.g. Type 1 Diabetes; epilepsy)
- **Preventable** - meaning the child could possibly not have acquired the disease if a specific action had been taken to stop it (e.g. HIV; traumatic injuries)
- **Non-Preventable** - meaning there is nothing that could have been done (that we yet know of) to stop the child from having the condition (e.g. Autism; Congenital Adrenal Hyperplasia)
- **Communicable** - the chronic disease is somehow infectious (e.g. HIV, TB)
- **Non-Communicable** - the chronic condition is not infectious in any way (e.g. Asthma and epilepsy)

Physical Disability:

A physical disability is any impairment, which limits the physical function of one or more limbs or fine or gross motor ability. Other physical disabilities include impairments, which limit other facets of daily living, such as respiratory disorders and epilepsy.

To obtain support for educational services for children with chronic health and/or physical disabilities contact:

**INSOURCE:** Indiana Resource Center for Families with Special Needs
170 South Ironwood Drive; South Bend, IN 46613;
(574) 234-7101 or 800-332-4433

To find a physician:
**Medicaid:** [http://www.in.gov/fssa/ompp](http://www.in.gov/fssa/ompp)
**Riley Hospital:** [http://iuhealth.org/riley/psychiatry/](http://iuhealth.org/riley/psychiatry/)
**St. Vincent’s Hospital:** [http://www.stvincent.org/](http://www.stvincent.org/)
Developmental Evaluation Programs

**Developmental Evaluation:** A way to learn about a child’s growth and learning. It measures the areas of thinking, talking, hearing, seeing, moving, taking care of basic needs, and responding to others.

Developmental evaluations can be obtained through the local public schools, physicians, occupational therapists, physical therapists, speech therapists, psychologists and mental health providers.

**First Steps**  
http://www.firststeps.IN.gov

**Paths to Quality (Child Care Providers)**  
http://www.in.gov/fssa/carefinder/2554.htm

**Medicaid**  
http://www.in.gov/fssa/ompp

Diagnostic Evaluations

A comprehensive diagnostic evaluation is the first step toward determining the nature and significance of a problem. A diagnostic assessment is a set of evaluation procedures administered and interpreted to obtain information about the person’s development, learning, memory, academics, behaviour and mental health. Different assessment procedures, or combination of procedures, are used, depending upon the clinical questions, presenting problems along with careful consideration of cultural differences and possible impairments in speech/language, hearing, vision and motor development. Also, current status of basic health care, hearing and vision need to be established.

A diagnostic evaluation can be obtained through a physician, psychologist, mental health provider or school special education program. Physicians, psychologist and mental health providers can be located on the Medicaid Website. Special education evaluations can be requested through the local public school program.

Early and Periodic Screening, Diagnosis, and Treatment (EPSDT)

The Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) Program, referred to as Health Watch and/or EPSDT in Indiana, is a preventive healthcare program designed to improve the overall health of eligible infants, children, and adolescents. Special emphasis is given to **early detection** and treatment of health
issues because these efforts can reduce the risk of more costly treatment or hospitalization that can result when detection is delayed. HealthWatch/EPSDT services are available to Indiana Health Coverage Programs (IHCP) members from birth to 21 years old (subject to the limitations of each benefit package). Individuals enrolled in Hoosier Healthwise Package C are eligible for these services; however, treatment may be subject to benefit limitations. EPSDT is a required component of care for all Medicaid recipients in this age range (birth to 21 years).

General Health and “Well-Child” Resources

The following are resources for general health and well-child information:

http://www.webmd.com/
http://www.babycenter.com/
http://www.preventchildabuse.org/
http://www.pcain.org/ (Prevent Child Abuse Indiana)
http://www.parenting.com/

Health and Medical Resources

**Children’s Special Health Care Services (CSHCS) / Indiana**
Indiana Children’s Special Health Care Services provides supplemental medical coverage to help families of children who have serious, chronic medical conditions, age birth to 21 years of age, who meet the program's financial and medical criteria, pay for treatment related to their child's condition.

**Healthy Indiana Plan**
The Healthy Indiana Plan (HIP) is an affordable health insurance program for uninsured adult Hoosiers, created by Governor Daniels and the Indiana General Assembly in 2007. The program is sponsored by the State and only requires minimal monthly contributions from the participant. HIP is for uninsured Hoosiers between the ages of 19-64. It offers full health benefits including hospital services, mental health care, physician services, prescriptions and diagnostic exams.

For other HIP information or waitlist details, please call 1-877-GET-HIP9
**Hoosier Assurance Plan (HAP)**
The Hoosier Assurance Plan (HAP) is the primary funding system used by the Indiana Family and Social Services Administration's Division of Mental Health and Addiction (DMHA) to pay for mental health and addiction services. DMHA contracts with managed care providers who provide an array of care for individuals who meet diagnostic, functioning level and income criteria. The managed care providers provide a year's care at the most appropriate levels to all enrollees.

**Indiana Care Select**
Care Select is a health care program that is designed to serve Medicaid recipients who may have special health needs or benefit from specialized attention. In Care Select, you pick a primary doctor and a health plan by choosing one of the Care Management Organizations (CMOs) contracted with the state to coordinate your health care needs. The CMO will assist you in coordinating your health care benefits and tailor them to your individual needs, circumstances and preferences.

**Indiana Comprehensive Health Insurance Association (ICHIA)**
The Indiana Comprehensive Health Insurance Association (ICHIA) was created by the Indiana General Assembly in 1981 as a not for profit association to provide health insurance for Indiana citizens who were unable to obtain medical coverage in the open commercial market. The ICHIA program operates as a safety net for our State’s uninsurable by providing health insurance to all designated as eligible under the law. ICHIA (317) 614-2133

**Medicaid Disability**
Medicaid Disability is a Medicaid aid category designed to serve individuals who are living with a disability. In general, to qualify for Medicaid under this category, individuals must meet three qualification criteria: income and resource limits, and Indiana’s definition of disability. It is important to understand that when an individual qualifies for SSA disability they do not automatically qualify for Indiana Disability. Indiana has additional requirements to establish disability in order to qualify for Medicaid Services.

Community-Based Organizations

2-1-1 Centers

IN211 Centers are the heart and soul of Indiana 211 Partnership, Inc. Each IN211 Center is independent and unique, having emerged at the local level to respond to needs in its respective community. Together, IN211 Centers seek to build a system of linked 2-1-1 Centers.

As of April 2010, fourteen IN211 Centers provide 2-1-1 access to information and referral service in 79 counties for about 95% of the state's population.

Indiana 2-1-1 Centers in Regions 1 - 7 include:

- United Way of Howard County
- Lafayette Crisis Center
- LifeStream 211
- Northwest Indiana Community Action
- United Way of St. Joseph County 211

Medicaid Waiver Information

Medicaid Waiver Program
Waivers provide funding for children and adults with disabilities to receive support and services in the home and community rather than in an institutional setting. Persons served by waivers receive Medicaid coverage for medical expenses as well as additional supports and services. Indiana has two types of waiver programs, medical and developmental. The program for children and adults whose needs are primarily medical in nature is called the Nursing Facility Level of Care Waiver and includes two waivers - the Aged and Disabled (A&D) Waiver and the Traumatic Brain Injury (TBI) Waiver.

Applying for a Waiver
When should I apply?
It is helpful to apply as soon as you identify a need for waiver services. Applications can also help the state government and service systems plan for and be ready to meet needs in years to come. If you have been denied Medicaid eligibility in the past, you should re-apply when waiver services are or become available.

Where Do I Apply?
Go to the local Bureau of Developmental Disabilities Services (BDDS) District Office. See chart below.

Is there a waiting list for services?
Yes. There is currently a waiting list.

What do I need to do to stay on the waiting list?
You will need to update the BDDS and/or AAA office whenever your contact information, including phone or address, changes.

What is available while I am waiting?
Families waiting for an ICF/MR level of care waiver are eligible to receive a small amount of Care Giver Support Services (i.e. Respite) each year. Your local BDDS office can provide information and a listing of providers for this service. Contact them directly to find out how to access Care Giver Support funding while waiting to be targeted for a waiver slot. If you should have an EMERGENCY (serious illness or incapacitation of a primary care giver) while your loved one is waiting for an ICF/MR waiver you may be able to receive Emergency Support Services. This is not a waiver but rather an individualized package of supports created to address the needs of an individual when a primary caregiver is not able and no other supports exist. If you are in need of this type of assistance contact your local BDDS office and ask about Emergency Support Services.

EARLY CHILDHOOD INTERVENTION PROGRAMS

First Steps

Indiana’s First Steps System provides early intervention services for families who have infants and toddlers with developmental delays or who show signs of being at-risk to have certain delays in the future. Services are coordinated to give qualifying children the widest possible array of early intervention resources.

Who is eligible for First Steps early intervention services?
A child (birth to third birthday) is eligible for First Steps services if he/she demonstrates a 20% delay or -1.5 standard deviation in function in two areas of development (called domains) or a 25% delay or -2.0 standard deviation in function in one area of development.

The developmental domains are cognitive, physical (fine motor, gross motor, hearing, vision), communication, social and adaptive. A child may also be eligible because of a high probability of developmental delay. Conditions that would indicate such a risk include chromosomal abnormalities or genetic disorders, neurological disorders, congenital malformations, low birth weight or severe toxic exposure, sensory impairments and neurological abnormality in the newborn period.

What services are available?
- Services children may receive through Indiana’s First Steps System include:
  - Physical Therapy
  - Nutrition Services
  - Transportation
  - Social Work Services
  - Family Education
  - Vision Services
  - Assistive Technology Services
  - Health Services
  - Nursing Services
  - Audiology Services
  - Psychological Services
  - Medical Services for diagnostic purposes
  - Occupational Therapy Service Coordination
  - Developmental Therapy
  - Other Services
  - Speech Language Pathology

Starting First Steps Services
Parents with concerns about their child’s development may call the First Steps System Point of Entry office in their area of the state, explain their concerns and ask to have their child evaluated. A map of First Steps areas – called clusters – with contact numbers is on the back of this sheet. Parents may also call 1-800-441-STEP (1-800-441-7837) to learn more about First Steps in their area. A child’s physician may also refer the child to First Steps. Once a referral is made, a First Steps Intake Coordinator will contact the family to begin the child’s evaluation process.
Educational Resources

**IN*SOURCE**
Indiana Resource Center for Families with Special Needs

Indiana Resource Center for Families with Special Needs or IN*SOURCE provides services to Indiana’s families of infants, toddlers, children, youth and young adults with disabilities.

IN*SOURCE is a parent organization. IN*SOURCE utilizes a proven parent to parent model and provides quality assistance and support services and educational resources to the community of individuals and organizations that serve and support persons with disabilities.

**IN*SOURCE: Indiana Resource Center for Families with Special Needs**

Post-Secondary Education Tuition Assistance

Links to resources:
http://www.childwelfare.gov/adoption/adopt_parenting/financial/

John H. Chafee Foster Care Independence Program (CFCIP)
The Educational and Training Vouchers Program (ETV) for Youths Aging out of Foster Care was added to the CFCIP in 2002. ETV provides resources specifically to meet the education and training needs of young people aging out of foster care. In addition to the existing authorization of $140 million for the CFCIP program, the law authorizes $60 million for payments to States and Tribes for post-secondary educational and training vouchers for young people likely to experience difficulty as they transition to adulthood after the age of 18. This program makes available vouchers of up to $5,000 per year per young person for post-secondary education and training for eligible young people.

www.acf.hhs.gov/programs/cb/programs fund/state_tribal/jh_chafee

Orphan Foundation of America (OFA)
OFA is the largest national nonprofit organization dedicated entirely to helping young people formerly in foster care obtain the academic and technical skills and competencies needed to thrive in today’s economy. OFA provides scholarship and grant money to former foster students in colleges and specialized training programs across the country.

www.orphan.org

Pell Grants

Pell Grants are available for youth who were in foster care as of their 13th birthday even if they were adopted after their 13th birthday. Pell Grants are a common source of funding for undergraduate students who have not yet earned their first bachelor’s degrees. According to the U.S. Department of Education, 27% of all undergraduates had been presented Pell Grants for 2007-2008, with an average grant award of $2,600. These grants are awarded based on financial need. They take into consideration the cost of attendance, year-round or partial-year attendance, and full-time or part-time status. The current cap on Pell Grants is $5,550 per academic year (July 1 – June 30), with funding available for up to 18 semesters.

Students who are interested in applying for federal grants must complete the Free Application for Federal Student Aid (FAFSA) at http://fafsa.ed.gov by March 10th of each year. To receive federal aid, each student must meet all of the following criteria:

- Be a U.S. citizen or qualified non-citizen (such as permanent residents, conditional permanent residents, students granted certain visa or refugee statuses by the Department of Homeland Security, and citizens of certain island nations)
- Possess a valid Social Security Number
- Hold a high school diploma or GED
- Be enrolled or intending to enroll at an approved higher education institution
- Register with Selective Service, if a male aged 18 to 25
- Not be in default on any federal loan or grant
- Promise to use federal grants and loans on educational and housing expenses only
- Demonstrate satisfactory academic progress while taking courses
Educational Resources

Transitioning to Adult Services

http://www.iidc.indiana.edu/index.php?pageId=3283

The Indiana Secondary Transition resource Center creates and enhances professional development activities and resources to support students with disabilities, as they transition from school to their adult lives, working and participating in their communities, jobs and/or postsecondary education.

Driven by current transition research and effective practices, the center partners with schools, families, students, and community organizations to build statewide and local capacity and to improve school and post school outcomes for these students.

About Special Kids is the place for families and professionals in Indiana to go to “ASK” questions about children with special needs and to access information and resources about a variety of topics such as health insurance, special education, community resources and medical homes. ASK is your connection to family support in the state of Indiana! One link they have is “Transitioning Services”

  Transitioning Services:  http://www.aboutspecialkids.org/Directory.aspx

Mentoring Programs
Mentoring Programs

Youth mentoring is a structured and trusting relationship that brings young people together with a caring adult who volunteers their time to offer guidance, support and encouragement aimed at developing the competence and character of the mentee. It occurs every day in a variety of settings.

Post Adoption Services Contact Information

Indiana Special Needs Adoption Program

In 1989, Indiana established a program for hard to place children who are in the custody of the state. This is a federally mandated program that Indiana legislated under IC 31-19-27. Over 7,000 Indiana special needs children have been placed with adoptive families since 1990.

The Special Needs Adoption Program (SNAP) includes an Adoption Manager, a SNAP Supervisor and seven adoption specialists serving Indiana’s 92 counties (as outlined on back). The SNAP Specialists assist in the adoptive placement of waiting children by working collaboratively with families, case managers and service providers.

Indiana Special Needs Adoption Program (SNAP) includes a permanency manager and seven adoption specialists serving Indiana’s 92 counties (as outlined on back). The SNAP Specialists assist in the adoptive placement of waiting children by working collaboratively with case managers, families and service providers.

What Your Snap Specialist Can Do For You...

- Clarify DCS policy regarding adoption
- Assist in interviewing families for waiting children
- Network and dialogue with various agencies, professionals and other states to help recruit families for waiting children
- Feature children at adoption fairs and public events to increase the pool of approved families and aid recruitment
- Help identify adoption resources available for children and families
- Provide support to waiting families
- Act as a liaison between families and the children’s case managers
- Provide training, when needed, and support staff in their adoption work
- Participate in various educational settings, such as conferences and parent trainings, to promote current adoption practices and thinking
- Meet and photograph children needing recruitment
- Participate in case conferences relating to permanency, when needed
Area Specialist Locator Map

Thank you for your interest in Indiana’s Adoption Program.

This map shows the Special Needs Adoption Program (SNAP) specialist who coordinates adoption information for their Team. For more information, please call the toll-free number—1-888-25-ADOPT

Indianapolis, IN 46204

(317) 233-7253
http://www.in.gov/isdh/bdcertifs/medical_history.htm

Who May Access Information
Citation: Ann. Stat. § 31-19-18-2

Effective July 1, 2009
The following persons may transmit identifying information and nonidentifying information to the State registrar for inclusion with the adoption history:

- An adoptee who is an adult
- A birth parent
- An adoptive parent
- A pre-adoptive sibling who is at least age 21
- The spouse or relative of a deceased adoptee if the relationship existed at the time of the adoptee's death
- The spouse or relative of a deceased birth parent if the relationship existed at the time of the birth parent's death
Access to Nonidentifying Information
Citation: Ann. Stat. §§ 31-19-17-3; 31-19-17-5

The person, licensed child-placing agency, or county office shall release all available social, medical, psychological, and educational records concerning the child to:

- The adoptive parent
- Upon request, the adoptee who is at least age 21

The report shall exclude information that would identify the birth parents unless the adoptive parent or adoptee who requests the information knows the identity of the birth parents.

For an adoption that was granted before 7-1-1993: Upon the request of an adoptee who is at least age 21, the licensed child-placing agency or a county office shall provide to the adoptee available information of social, medical, psychological, and educational records and reports. Information that would identify the birth parents shall be excluded from the report unless an adoptee already knows the identity of the birth parents.

Mutual Access to Identifying Information

For adoptions before 12-31-1993: Identifying information shall be released if requested by a person listed in § 31-19-18-2 if the adult adoptee and the birth parent have submitted a written consent to the State Registrar.

For adoptions after 12-31-1993: Identifying information shall be released to the adult adoptee upon written request to the State Registrar unless the birth parent has submitted a written nonrelease form that indicates the birth parent's lack of consent to release of identifying information.

An adoptee who is at least age 21 or a preadoptive sibling who is at least age 21 may submit a written request to the State Registrar stating an interest in being reunited with any preadoptive siblings and authorizing the release of their name and present location to any preadoptive siblings who make similar inquiries.

If an adoptee or a preadoptive sibling submits a written request to be reunited with a preadoptive sibling, but the preadoptive sibling has not made a similar inquiry, the State Registrar shall search the adoption records for information concerning the preadoptive sibling and if possible, contact and advise the sibling of the request unless the sibling is younger than age 21. If the sibling is at least age 21, he or she shall make the final decision as to whether to release his or her name and present location to the requesting person. If the sibling is under age
21, the sibling's parents shall make the final decision regarding release of the sibling's name and present location to the requesting person.

The adoptive parents of an adoptee who is under age 21 may submit a written request for information concerning the identity and present location of any preadoptive siblings of the child. The State Registrar shall release the name and present location of the preadoptive sibling to the adoptive parents if the preadoptive sibling submitted a written request authorizing the release of the information.

**Access to Original Birth Certificate**

Citation: Ann. Stat. § 31-19-13-2

The original birth certificate is withheld from inspection except for a child adopted by a stepparent or as provided in statutes pertaining to release of identifying information.

**Where the Information Can Be Located**

Indiana Adoption History Registry, Indiana State Department of Health, Vital Statistics
Resources

Birth Certificate Information

National Alliance for the Mentally Ill

http://www.nami.org/

NAMI, the National Alliance on Mental Illness, is the nation’s largest grassroots mental health organization dedicated to building better lives for the millions of Americans affected by mental illness. NAMI advocates for access to services, treatment, supports and research and is steadfast in its commitment to raising awareness and building a community of hope for all of those in need.

Indiana Affiliate on NAMI: www.namiindiana.org

NAMI Indiana affiliates are listed below. Please click the web address for more information. If you do not see a group in your local community please contact the state organization listed above for more information.

Resources

Resource Advocacy Organizations

Hoosier Families experience a wide variety of needs for information, support and connections. Too often families struggle to connect to these important resources, so many organizations throughout the state exist to help meet those needs. The organizations listed on this fact sheet are a starting place. It is important to note that this is NOT a complete listing; families can learn more about other resources both by connecting with these organizations and by searching two statewide resources directories:

**ASK**
About Special Kids is a “Parent to Parent” organization that works throughout the state of Indiana supporting children with special needs and their families by answering questions and providing support, information and resources. This information can be searched by keyword, by county or by service specific needs.

www.aboutspecialkids.org  1(800) 964-4746

**Early Childhood Meeting Place**
In addition to an events calendar, the site provides a listing of research initiatives, early education career opportunities, news, and agency and organization profiles.

http://www.earlychildhoodmeetingplace.org

**Family to Family**
The Family to Family Initiative is a project devoted to linking Indiana families to people, information and resources within their own communities. They bring together parents of children with disabilities, developmental delays or special health care needs so that they can share their knowledge, concerns and experiences with each other.

www.inf2f.org  1(800) 964-4746

**Family Voices Indiana**
Family Voices of Indiana shares advocacy opportunities and updated information on issues that impact Indiana families of children with disabilities or special needs.

www.fvindiana.blogspot.com

**IN*SOURCE**
IN*SOURCE, the Indiana Resource Center for Families with Special Needs, provides parents, families and service providers in Indiana with the information and training necessary to help assure effective educational programs and appropriate services for children and young adults with disabilities.

www.insource.org  (800) 332-4433

**Indiana Protection and Advocacy Services**
IPAS is a congressionally mandated, legally based disability rights agency created to protect and advocate for the rights of people with disabilities. It is Indiana's federally designated Protection and Advocacy (P&A) system and client assistance program. IPAS staff includes disability rights advocates and attorneys who have the authority to pursue
appropriate legal and administrative remedies, based on a system of Priorities, on behalf of people with disabilities to ensure the enforcement of their constitutional and statutory rights. IPAS may be able to assist Hoosiers who have a disability and are being denied a right or are being discriminated against because of that disability.

www.in.gov/ipas/ 1(800) 622-4845

Disability Specific Organizations

There are several statewide organizations that focus on specific disabilities and diagnoses. These resources may help families connect to others with similar experiences and may also connect families to local groups and resources.

The Arc of Indiana
Established in 1956 by parents of children with developmental disabilities, The Arc of Indiana’s main focus is to provide a resource for families to come together and help advocate for a better life for their children. The Arc of Indiana is committed to progressive public policy to protect rights and improve services for people with developmental disabilities.

www.arcind.org  (800) 382-9100

United Cerebral Palsy Association of Greater Indiana
UCPAGI provides support and services to children and adults with cerebral palsy and their families throughout each of Indiana’s 92 counties.

www.ucpindy.org  (317) 632-3561

Down Syndrome Indiana
Down Syndrome Indiana is an organization serving the needs of individuals with Down Syndrome along with their families, caregivers, teachers and employers. Down Syndrome Indiana offers a wide variety of resources for families and medical professionals. In addition, Down Syndrome Indiana coordinates active support groups to connect families and hosts several events throughout the year.

www.indianadsf.org  (888) 989-9255

Autism Society of Indiana
The Autism Society of Indiana is the state chapter of the Autism Society of America. They serve as a first point of contact for families and people affected by autism, providing insight into therapies, referrals to doctors or support groups, or just listening.

www.inautism.org  (317) 695-0252

Indiana Federations of Families for Children’s Mental Health
IFFCMH is a network of families of children and adolescents with emotional, behavioral and mental health needs. IFFCMH connects families not only with other families, but also with professionals and other interested people and groups.
