**Ms. Wojtowicz entertained a motion to approve the minutes. Mr. Price moved approval of the minutes; Mr. Kirk seconded the motion. The motion passed unanimously.**

**D. CONSUMER CREDIT DIVISION:**

**1. Catalis**

Scott Conner, counsel for Department, gave an overview of the Member's statutory responsibilities as outlined in Indiana Code 24-4.5-7-404. The Members were informed that 24-4.5-7-404 requires the Members to determine whether a commercially reasonable method of verification exists and if so to monitor the effectiveness of private consumer credit reporting services in providing the verification information required by the statute. It was noted that the statutory language did not give the Members authority to approve or deny a fee increase by Catalis.

Chair Wojtowicz indicated that Catalis would give a presentation to the board limited to 20 minutes and that members of the public in attendance that wished to speak after the presentation would each be given 5 minutes. At that time, those individuals of the public that wished to speak identified themselves and their affiliation.

John Barnes and Steve Alpert, both representing Catalis, gave a presentation that provided an overview of the company, an overview of its Indiana Small Loan Transaction Database performance and metrics, and an overview of its planned price increase for Indiana small loan businesses that are required to use the database.

Mr. Barnes provided an overview of the company stating that they have 70,000 clients across the country and processed 46 million payments last year. The company has 33 divisions broken into five verticals. Mr. Barnes gave an overview of various entities they work with including Indiana DOR and INBiz, among others. Fourteen states require a small dollar database that is provided by Catalis. Catalis also provides other services in those states. It was noted that the fees charged in other states are structured differently, Catalis has a contract with some states, such as Wisconsin, and Delaware pays part of the fee.

Mr. Barnes described the Indiana small dollar database as a 24/7 real-time verification database. That means if a consumer takes a loan out it is immediately in the database to prevent future loans being issued to the same consumer. In 2024, the database prevented 215,000 illegal loans in Indiana from being processed. Mr. Barnes indicated that the database is stopping attempted transactions that don't comply with state law, and Catalis gets no transaction fee for the failed transactions that are stopped. Catalis further provides a US based live agent call center.

Mr. Barnes offered a report that the company does annually. Previously the report was not wanted but Catalis is open to providing a report if it is wanted by the Members or the governor's office. Mr. Barnes described the year-over-year decline in small loan volume in Indiana—there has been a 59% decline since 2015. Mr. Barnes believes earned wage access, offshore products, and tribal lending are cutting into the small loan market.

Mr. Barnes further described the fee increase in 2022 and the new website and other tools, including cybersecurity tools, that were built as a result of the fee increase. Mr. Barnes went on to describe the fees that are charged in other states—the lowest fee was Indiana at \$1.10. The next lowest was two states at \$2.00, one state was at \$2.25, and three states were at the highest end at \$3.00. So Mr. Barnes proposed that the fee for Indiana users would increase to \$2.00- the fee would increase \$0.55 on August 1, 2025 and then an additional \$0.35 increase effective January 1, 2026. The \$2 fee would be locked in through 12/31/2027. This fee increase will come with enhanced support maintenance hours, will help update the website to stay compliant with federal ADA requirements, and will be used to support a real-time dashboard.

Gus Saucerman, from A1 Cash Advance, made a few comments following the Catalis presentation. Mr. Saucerman asked if there were any discussion on locally owned databases. He also indicated that the number of store fronts have dramatically decreased in the last 20 years and that small loan companies are competing against tribal lending, off-shore lending, and earned wage access. Mr. Saucerman also wondered if there would be any willingness to allow companies to pass the fee onto consumers or to have the DFI pay some of the database fee.

Chair Wojtowicz indicated that passing fees onto consumer or having the DFI pay a portion of the fee are outside the purview of the Members and would require legislative action. Chair Wojtowicz also indicated there could be other vendors that provide database services in Indiana and that the Members would take a look if one was brought to the Board.

Matt Bell, a lobbyist representing several small dollar loan companies, provided some comments. Mr. Bell said he appreciated the DFI's willingness to invite the industry to the meeting to hear their comments. He expressed concern about an 81% fee increase on an industry that has lost 60% of its volume. Mr. Bell further stated that he understands the statutory construct and the Board's limited purpose to prohibit fee increases. That said, Mr. Bell was concerned that Catalis could raise the fee to whatever they like, such as \$10.00, and that the industry would have no recourse. Mr. Bell indicated that he may seek to work with legislative partners to see about cost recovery options. Lastly, Mr. Bell asked whether it would be possible to get reports from Catalis because he could not find them online.

Director Fite gave a few comments surrounding the role of the Board, which is to create a forum to have industry and Catalis discuss the fee increase issue. Mr. Fite stated that the DFI's role with the legislature is to stay neutral and answer questions. Mr. Fite also relayed that the DFI would be happy to provide reports if that is what the industry wanted.

**E. DIRECTOR'S COMMENTS AND ACTIONS:**

1. Director Fite advised the Members of actions taken pursuant to Delegated Authority. Mr. Fite asked if there were any questions on the delegated authority packet and there were none.

**2. Financial Update and Fee Discussion**

Mr. Parag Pandya, Deputy Director of Administration, presented a financial update. Revenue remains constrained as the Department has not received approval to reverse what were supposed to be temporary fee cuts from two years ago. DFI leadership forced spending to stay well below the legislative appropriation this fiscal year in response to the unnecessarily constrained fee income.

The actual projected total expenditure for fiscal year 2025 is \$10,940,718. Due to a few unexpected departures and a lower than anticipated SWAPCAP fee, the agency will end the year with net income near \$276,000. This net profit will bring the Department's fund balance to \$9,480,584, or approximately 9 months of projected 2026 operating expenses. The fund balance is in the middle of the target.

Deputy Director Pandya next presented financial projections for fiscal year 2026. Revenue is projected to be \$11,535,683. Original expense projections of \$13,015,802 previously presented for Board approval would have produced a deficit of (\$1,480,119). However, this level of spending was not approved via change packages by the budget agency and the legislature. The actual appropriation amount remained flat compared with 2025 at \$12,472,649, projecting a net loss of (\$936,966). Most recently, all agencies have been directed to hold back an additional 5% reserve. This reserve results in a new appropriation amount of \$11,849,017, netting a loss of (\$313,334) and a fund balance of \$9,167,250.

Fiscal year 2027 projects revenue at \$12,308,743 with a flat appropriation amount of \$12,472,649. The projected net loss compared to our revenue against this appropriation amount will be (\$163,906). If the governor's order stays in place with a 5% reserve, this would result in an appropriation of \$11,849,017. Therefore, the Department's net profit will be \$459,726, resulting in a fund balance of \$9,626,976.

Mr. Bochnowski asked about the open positions, including staffing, training, and future needs. Director Fite discussed current vacant positions, projected positions, and strategic plan positions. Director Fite noted that a few positions were in the process of being filled, but the remainder of the long list of vacant positions will not be filled due to the 5% reserve requirement. The unfilled positions will leave the Department with a 19% employment vacancy.

Director Fite discussed Member approval of the Department's fees. Director Fite stated that the Indiana Code requires the Members to approve the Department's fees annually. General Counsel Dremonas then explained that the Members have a copy of the fees in their packets and a proposed Resolution approving such fees. Mr. Dremonas further explained that the fees remain unchanged from last year. Mr. Dremonas also reminded the Members that they adopted the same fees last year and that the fees were also promulgated in a rule approved by the Members in 2024.

The fees are in effect until 2029, unless superseded by a rule or legislation; however, the Members will acknowledge fees in June of each year as required by IC 28-11-3-5.

**Chair Wojtowicz entertained a motion to approve the fees. Mr. Schroeder moved approval of the Resolution; Mr. Price seconded the motion. The Resolution was unanimously approved 6-0.**

**OTHER BUSINESS:**

Chair Wojtowicz asked if there was other business. There being no further business, Ms. Wojtowicz took action to adjourn the meeting.
