CERT IN INDIANA
CERT IN INDIANA

• Indiana CERT began in 2001
• Community Emergency Response Teams in Indiana: 42
• Individuals who have completed CERT basic training: 4,000+
NON-EMERGENCY ROLES

• CERTs are not limited to emergency response. They can provide many other valuable services to communities:
  • Traffic control
  • Distributing and installing smoke alarms
  • Promote community awareness of potential hazards and preparedness measures;
  • Supplement staffing at special events, such as parades.
• 501c3 is one of the most favorable:
  • In some communities, CERT organizations have filed for 501(C)3 (non-profit organization) status, allowing them to perform fund raising.
    • Putnam County CERT (David Costin)
    • Montgomery County CERT (Shari Harrington)
  • In previous years, grants were also made available by the federal government to assist communities in their CERT programs.
TYPES OF CERT TRAINING

• Traditional
  • CERT Basic: In-person 21-hour classroom training that provides critical skills in emergency preparedness and response which includes:
    • Identify and participate in hazards, reduce fire hazards in the home and workplace, extinguish small fires, assist emergency responders, conduct light search and rescue, set up medical treatment areas, apply basic first aid and help reduce survivor stress.
• Hybrid Training
  Online CERT has been developed to provide CERT curriculum to learners across the United States, meeting the lecture portion of the CERT training requirements. Once completed, follow up with the local CERT program to complete the hands-on.
  • Students access the training on their mobile device or computer.
  • Students complete it at their pace and at their convenience. Course progress can be saved at any time and resumed later.
  • Multimedia learning experience: videos, virtual reality simulations, audio voice over, interactive knowledge checks, live IT and more.
  • Online Course Time = 12 hours
  • In-Person Practical Training = 16 hours
