It's not uncommon to hear the phrase "in like a lion, out like a lamb" during the spring season. As emergency management professionals, we all know Indiana's severe spring weather is never that simple to predict.

With that being said, I want to remind everyone to remain vigilant and continue maintaining severe weather preparedness in your communities. Although Indiana has made excellent progress in its fight against COVID-19, it's still important to consider how this pandemic can interrupt normal response operations during severe weather.

In what ways can COVID-19 impact your community's severe weather preparedness?

NIMS Alert Updates

12-21

FEMA recently released Improving Public Messaging for Evacuation and Shelter-in-Place, which includes research findings and recommendations emergency managers can use to help their communities understand risks and increase compliance with recommended evacuation or shelter-in-place protective actions.

13-21

FEMA released an updated second edition version of the NIMS Implementation Objectives for Federal Departments and Agencies. The updates reflect the feedback provided by community stakeholders in 2020 and ensure the objectives are consistent with the third edition of the National Incident Management System.
