## Dates to Know

**Nov. 15** - EMPG and HMEP closeout deadline

## Review CERT Roles by Nov. 26

FEMA is looking for feedback from the CERT community on specific definitions and qualifications on three key positions: CERT Volunteer, CERT

Section Chief and CERT Team Leader. These definitions and qualifications were established to ensure both volunteers and incident management staff are on the same page when called upon to support a disaster.

These new documents align with the FEMA National Qualification System (NQS). NQS is a collection of documents that describe the minimum criteria for responder qualifications. One benefit of incorporating CERT positions into the NQS is that it will also add them to the new OneResponder tool. OneResponder is a free, web-based system that uses a uniform terminology and approach to certify emergency personnel.

Please take the time to complete the feedback forms [online here](#).

## Help Spread the Word: *CyberStart America* Returns

*CyberStart America* returns to Indiana for the 2021 school year, and IDHS is asking for help encouraging high school students to participate.
