

September 2020 EMS Training Report

NREMT pass rates are enclosed in this report. These statistics are for courses ending between August 18, 2019 and August 18, 2020. Paramedic pass rates are for two years since most course last between 18 and 24 months. The EMT courses are broken down into three separate categories. The top category represents those training institutions whose graduates' average at least 70% after the first attempt which is the standard set by the Commission: 25 programs. This is an increase in 4 programs since the last reporting period. The programs in the next category (60% -70%) are near meeting the standard set by the Commission: 27 programs. Those in the bottom category are below standard; 25 programs.

Our numbers of individuals testing have decreased greatly, but those numbers are expected to pick up since the number of practical examinations are up for the months of July, August and September. May, June and July are typically heavy testing months. In 2019 Indiana EMT graduates had 746 attempts at the NREMT exam. In 2020 the numbers fell to 325. Many programs had elected not to continue training, but others still completed training new EMS personnel. Some of the Spring semester courses are just now finishing. The NREMT developed a program where individuals who do not feel safe going to a Pearson Vue Testing Center may take the EMT and AEMT examinations online.

National Registry Pass Rates, August 18, 2019 to August 18, 2020

National or State	Level of Certification	Initial	3d Attempt	6 th Attempt	Total Attempts
National	EMT	69%	80%	80%	54,618
