Commission

Rockne Stadium at the University of Notre Dame, 2010 Moose Krause Dr, Notre Dame, IN, 46556 will be utilized for the COVID 19 Public Health Emergency

This soft modification at Gate D will be utilized for University COVID-19 testing through the University COVID Response Unit (please refer to the attached diagram)

This is a temporary functional use with Phase One occurring from July 13, 2020 to August 16, 2020

Relief from 675 IAC 12-4-11 (b) is requested as the proposal would not cause the structure to be unsafe particularly in regards to suitable means of egress and structural stability

Any questions please contact me

Thanks

Bruce
