Formstack Submission For: **4202**

Submitted at 07/31/20 2:56 PM

Name:	Ron Ritchey
Email:	ritchey@nfsa.org
Phone:	(765) 412-6707
Address:	3311 Dover Court Lafayette, IN 47909
Indiana Code You Are Commenting On:	EMERGENCY RULE - LSA Document #19-333(E) - SECTION 5. APPLICATION (c) (5)
Comment or	<p>19-333 (E) Section 5 (c) 5</p> <p>add the following words after "(5) A specific description of the rooms, equipment, items, and location affected by the variance request"</p> <p>ADD ", and include the following: (A) Physical dimensions recorded in feet and inches for all rooms, areas, and portions thereof including square feet. (B) Total physical dimensions recorded in square feet of each floor, story, or entire building or structure."</p>

Proposal:**REASON :**

Having closely monitored variance application submittals this important information concerning physical dimensions (including total square feet) is often not provided. This information is critical in assessing many important safety features including occupant loads, fire sprinkler installation thresholds, over allowable height and area considerations, and more. This required information will ensure these details are known and considered.

SECTION 5. APPLICATION (SPECIFIC DESCRIPTION AMENDMENT)

(c) A complete application for a variance must contain the following information:

(1) The name and address of the following:

(A) The applicant.

(B) The person submitting the application if not submitted by the applicant.

(2) The address and county of the premises or equipment for which the variance is being sought.

(3) If the variance request involves a project for which plans and specifications have been filed for a design release under 675 IAC 12-6, the project number for the design release.

(4) Identification (by specific citation) of the rule of the commission from which the applicant requests a variance.

(5) A specific description of the rooms, equipment, items, and location affected by the variance request, and include the following:

(A) Physical dimensions recorded in feet and inches for all rooms, areas, and portions thereof including square feet.

(B) Total physical dimensions recorded in square feet of each floor, story, or entire building or structure.

REASON: Having closely monitored variance application submittals this important information concerning physical dimensions (including total square feet) is often not provided. This information is critical in assessing many important safety features including occupant loads, fire sprinkler installation thresholds, over allowable height and area considerations, and more. This required information will ensure these details are known and considered.
