Indiana Department of Homeland Security

Subject: Fiscal Agent/Administrative Coordinator Guidance

Background
The questions/answers in this letter are based on the fact that a Local Unit of Government serving as Fiscal Agent will be using U.S. Department of Homeland Security, Federal Emergency Management Agency State Homeland Security Program funding to pay for the District Interim Administrator position. This funding is being provided to the Fiscal Agent though a sub-grant agreement between the Local Unit of Government and the Indiana Department of Homeland Security. As the Sub-grantee, the Fiscal Agent is required to comply with all of the terms and conditions of the sub-grant agreement, including any federal or state laws, regulations or other requirements referenced by or incorporated into the sub-grant agreement. If U.S. DHS or the State of Indiana determine that expenditures have been made that are not in compliance with the terms and conditions of this Sub-grant agreement, the Fiscal Agent could be required to reimburse the State or Federal government for these non-compliant expenditures.

Q1 What category does the IAC Position fall under? The District Interim Administrator would absolutely not be a state employee, a state contractor, a federal employee, or a federal contractor. The District Interim Administrator could be an independent contractor or an employee of the Local Unit of Government that is a party to the Sub grant agreement.

Q2.a. Who should the IAC report to? This decision is up to the Local Unit of Government.
Q2.b. Who is accountable for the IAC actions? This decision is up to the Local Unit of Government. However, the Local Unit of Government is accountable to the State and to FEMA for the use of all the federal grant funds provided by to the Local Unit of Government that is a party to the Sub grant agreement.

Q3. If the IAC has to report to the Fiscal Agent, can the Fiscal Agent require the IAC to work from the Fiscal Agent office? This decision is up to the Local Unit of Government that is a party to the Sub grant agreement.

Q4. Should the IAC contract be a “continuing” contract renewable yearly? We are not certain
exactly what is meant by the term “continuing” contract. The Local Unit of Government could include a renewal provision in their contract which allows them to renew the contract with the District Interim Administrator and if they are provided additional State Homeland Security Program funding to pay for a District Interim Administrator for a future year, and the sub-grant agreement through which these grant funds were being provided allowed this to occur, the Local Unit of Government could use these funds to renew the contract with the District Interim Administrator, however, the Local Unit of Government would first have to perform the cost analysis required under 44 CFR 13.36(f). Just to note, the Local Unit of Government is required to include a termination for convenience provision in every contract in excess of $10,000 which is funded using these federal funds, which would allow the Local Unit of Government to terminate the contract for its convenience at any time.

Q5. **If this is a “continuing” contract please specify the guidelines for such.** See above

Q6. **What is the state procurement policy to hire or rehire an IAC?** The Local Unit of Government is required to comply with the terms and conditions of the Sub-grant Agreement which provides the funds being used by the Local Unit of Government. Currently, many of these requirements are from the Federal regulations under 44 CFR 13.36, which establishes certain procurement and contracting requirements that must be followed when these federal funds are being used. A brief summary of some of these procurement and contracting requirements are incorporated into each Sub-grant Agreement. See Attachment 1, which is the procurement/contract summary that is incorporated into grant agreements providing 2011 State Homeland Security Program Funds (the federal regulations at 44 CFR 13.36 contain much more detail regarding these procurement requirements and it is important that at least one person involved in procurement and contracting for the Local Unit of Government be familiar with all of the federal procurement requirements.) Some important elements from these requirements are as follows:

i. The Local Unit of Government is required to use a competitive bidding process for every procurement using these federal funds, including the award of a contract for services (there are limited exceptions to this requirement for competitive bidding, but they would not be applicable in this situation).

ii. Geographical preferences in evaluation of bids are prohibited.

iii. Contracts must be monitored by the Local Unit of Government to assure compliance with terms, conditions and specifications of contracts or purchase orders.

iv. The Local Unit of Government must maintain a written code of standards governing award and administration of contracts (conflicts of interest, selection and award, etc.) and the Local Unit of Government must comply with the applicable federal conflict of interest requirements established in 44 CFR 13.36(b)(3).

v. Supporting documents must be maintained and include - rationale for method of procurement, selection of contract type, contractor selection or rejection and basis for contract price

Q7. **What is required to be included in the IAC Contract?** All contracts using these federal funds are required to contain certain terms and conditions, and the Local Unit of Government is required by its Sub-grant Agreement to include these terms and conditions in each such contract. See Attachment 2 (this Attachment is not all-inclusive and does not cover all situations). The IAC specific requirements from IDHS were described in Information Bulletin 11-003 which can be found at: [http://www.in.gov/dhs/files/DPIB11-03.pdf](http://www.in.gov/dhs/files/DPIB11-03.pdf).
Q8. Is the SHSP grant allotment of $50,000 a firm salary for the IAC position? No, Director Wainscott has specified that $50,000 must be used to support the district administrator position. Any amount not used for these salaries should go to the district task force project allocation (this was with regard to the 2011 SHSP funding).

Q9. Does this salary include all expenses? As indicated above, the $50,000 is being provided to support the District Administrator position. If the Local Unit of Government wanted to use the entire $50,000 for the salary and use its own funding to pay for expenses of the District Administrator that would be allowable. Alternatively, the Local Unit of Government could decide to pay a salary of less than $50,000 and use some of the remaining funds to pay the expenses incurred by the Interim District Administrator in the course of their duties.

Q10. Can the IAC turn in hotel, meal, travel and office supply expenses to be reimbursed by grant funds other than SHSP grant allotted for IAC salary? The use of grant funds must comply with the terms and conditions of the Sub-grant Agreement which provided those funds. As such it is not possible to answer this question without more information. However, if the Interim District Administrator is a Local Unit of Government employee or Local Unit of Government Contractor, the Local Unit of Government could prohibit this from occurring either through its employment relationship or its Contract with the Interim District Administrator.

Q11. Can an IAC be paid from the SHSP grant and be paid by a contractor from another grant at the same time? This question cannot be answered generally; it is a case-specific situation which would require much more information before it could be answered. However, if the Interim District Administrator is a Local Unit of Government employee or Local Unit of Government Contractor, the Local Unit of Government could prohibit this from occurring either through its employment relationship or its Contract with the Interim District Administrator. One requirement that would need to be considered in evaluating this issue are the ethics requirements established under 44 CFR 13.36(b)(3) which govern the use of these funds. This provision is included in its entirety as Attachment 3 of this letter.

Q12. If the requirements of the IAC contract are broken by either party, what is necessary to terminate the contract? The contract should contain language that addresses this issue. The Local Unit of Government is required to include both a termination for convenience provision and a termination for default provision in every contract in excess of $10,000 which is funded using these federal funds, which will allow the Local Unit of Government to terminate the contract for its convenience at any time or allow the Local Unit of Government to terminate the Contract for default by the Contractor.

Q13. If the Fiscal Agent is required to change the past process which the IAC contract was renewed, will someone at the state level back up the Fiscal Agent in the change to become compliant? The Local Unit of Government is required to comply with the terms and conditions of its sub-grant agreements and the Indiana Department of Homeland Security will back-up the Local Unit of Government if it needs such assistance to so comply.
MAKING PURCHASES USING FEDERAL GRANT FUNDS

Federal Procurement and Contracting Requirements: A Sub-grantee is required to follow its own procurement procedures as long as those procedures meet or exceed the federal procurement standards established in 44 CFR 13.36. A brief summary of some of these federal requirements is as follows:

A. Procurement Methods (44 CFR 13.36(d))
   i. Small Purchase Procedure (44 CFR 13.36(d)(1))
      To purchase services and supplies of $100,000 or less
         - Relatively simple and informal method
         - Cannot exceed simplified acquisition threshold of $100,000
         - Must obtain price or rate quotation from adequate number of qualified sources (usually 3)
         - Awarded based on lowest documented price quote
   ii. Sealed Bids (Formal Advertising) (44 CFR 13.36(d)(2))
      - For sealed bidding to be feasible, all of the following conditions should be present (generally used for construction and debris removal contracts):
         - A complete, adequate and realistic specification or description of project is available.
         - Two or more responsible bidders are willing and able to compete effectively.
         - Bids publicly solicited and advertised and a firm-fixed-price contract (lump sum or unit price) awarded
         - The procurement lends itself to a firm fixed price contract.
      - If the sealed bid procurement method is used, the following requirements are applicable:
         - The invitation for bids will be publicly advertised and bids shall be solicited from an adequate number of known suppliers, providing them sufficient time prior to the date set for opening the bids.
         - The invitation for bids, which will include any specifications and pertinent attachments, shall define the items or services in order for the bidder to properly respond.
         - All bids will be publicly opened at the time and place prescribed in the invitation for bids.
         - A firm fixed-price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of
         - Any or all bids may be rejected if there is a sound documented reason
      - Contract awarded to the responsible bidder whose bid conforms with invitation for bid and whose bid is lowest in price
   iii. Competitive Proposals (44 CFR 13.36(d)(3))
      Generally used to purchase Architectural, engineering or professional and personal services when conditions are not appropriate for the use of sealed bids.
      - Requests for proposals will be publicized and identify all evaluation factors and their relative importance.
      - Any response to publicized requests for proposals shall be honored to the maximum extent practical.
Proposals will be solicited from an adequate number of qualified sources.

The Sub-grantee must have a method for conducting technical evaluations of the proposals received and for selecting awardees.

Awards will be made to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

The Sub-grantee may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

iv. Noncompetitive (Sole Source) proposals (44 CFR 13.36(d)(4))

The following conditions are applicable to all sole source or noncompetitive procurements:

1. **Competitive Procurement must be infeasible:** A noncompetitive procurement can only be used when the award of a contract is infeasible under small purchase order procedures, sealed bids or competitive proposals and one (1) of the following circumstances apply:
   
   (A) The item is available only from a single source;
   
   (B) The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;
   
   (C) The awarding agency (IDHS) authorizes noncompetitive proposals; or
   
   (D) After solicitation of a number of sources, competition is determined inadequate.

2. **Cost analysis required:** Cost analysis, i.e., verifying the proposed cost data, the projections of the data, and the evaluation of the specific elements of costs and profits, is required.

3. **Awarding agency review may be required:** A Sub-grantee is required to submit the proposed procurement to IDHS for pre-award review (in accordance with 44 CFR 13.36(g)).

B. **General Federal Procurement Standards (44 CFR 13.36(b)):**

- Contracts must be monitored by the Sub-grantee to assure compliance with terms, conditions and specifications of contracts or purchase orders.
- The Sub-grantee must maintain written code of standards governing award and administration of contracts (conflicts of interest, selection and award, etc.) and the Sub-grantee must comply with the applicable federal conflict of interest requirements established in 44 CFR 13.36(b)(3).
- The Sub-grantee will review proposed procurements to avoid unnecessary or duplicate purchases.
- Intergovernmental agreements for procurement are encouraged.
- Use of excess and surplus property is suggested when feasible.
- Use of value engineering clauses in construction contracts of sufficient size is encouraged.
- Contracts will be awarded only to responsible contractors possessing ability to perform.
- Supporting documents must be maintained and include - rationale for method of procurement, selection of contract type, contractor selection or rejection and basis for contract price.
- Use of time and material contracts is limited to situations where 1) no other contract is feasible, and 2) includes a ceiling price. (This must be documented)
- The Sub-grantee will have responsibility for settlement of all contractual and administrative issues arising out of procurements.
- The Sub-grantee must have protest procedures to handle and resolve disputes relating to procurements.

C. **Competition (44 CFR 13.36(c)):**
• All procurement transactions will provide full and open competition. Examples of restrictive competition include:
  a. Unreasonable requirements on firms in order for them to qualify
  b. Requiring unnecessary experience or excessive bonding
  c. Noncompetitive awards to consultants on retainer
  d. Organizational conflicts of interest
  e. Specifying only brand name products
  f. Any arbitrary action in the procurement process
• Geographical preferences in evaluation of bids is prohibited
• Written selection procedures must be in place for all procurements identifying all requirements firms must fulfill
• Ensure all pre-qualified lists of persons, firms or products are current and include enough qualified sources to ensure maximum open and free competition

D. Affirmative Action (44 CFR 13.36(e)):
• The Subgrantee will take all necessary affirmative action steps to ensure that minority firms, women’s business enterprises, and labor surplus area firms are used when possible

E. Contract Cost and Price: (44 CFR 13.36(f))
• The Sub-grantee must perform cost or price analysis in connection with every procurement action
• The Sub-grantee must negotiate profit as a separate element of the price for each contract in which there is no price competition and in all cases where cost analysis is performed.
• Costs and prices based on estimated costs will be allowable only to the extent that they are consistent with Federal cost principles.
• Cost plus a percentage of cost and percentage of construction cost methods of contracting shall not be used.

F. State Review: (44 CFR 13.36(f))
• The Sub-grantee must make available to the State technical specifications on proposed procurements and, on request, make pre award documents available i.e. requests for proposals or invitations for bids, independent cost estimates.
• Review is required in all cases when a Sub-grantee’s procurement procedure fails to comply with standards, procurement exceeds simple acquisition threshold and is awarded without competition or only one bid or offer is received, or is awarded to other than low bidder or brand name is specified.
• The Sub-grantee may request that its procurement system be reviewed to determine whether its system meets these standards, or the Sub-grantee may self-certify its procurement system

G. Bonding Requirements: (44 CFR 13.36(h))
For construction or facility improvement contracts exceeding $100,000, the State may accept the Sub-grantee’s bonding policy and requirements. If such a determination has not been made, the following are minimum bonding requirements
• A bid guarantee from each bidder equivalent to five (5) percent of bid price
• A performance bond from contractor for 100% of contract price
• Payment bond of the part of the contractor for 100% of the contract price.

H. Types of Contracts
Lump sum: Contract for work within a prescribed boundary with a clearly defined scope and total price
Unit price  Contract for work done on an item-by-item basis with cost determined on a unit basis
Cost + fixed fee  Either a lump sum or unit price contract with a fixed contractor fee added into price

44 CFR 13.36(b)(3)

(3) Grantees and subgrantees will maintain a written code of standards of conduct governing the performance of their employees engaged in the award and administration of contracts. No employee, officer or agent of the grantee or subgrantee shall participate in selection, or in the award or administration of a contract supported by Federal funds if a conflict of interest, real or apparent, would be involved. Such a conflict would arise when:

(i) The employee, officer or agent,

(ii) Any member of his immediate family,

(iii) His or her partner, or

(iv) An organization which employs, or is about to employ, any of the above, has a financial or other interest in the firm selected for award. The grantee's or subgrantee's officers, employees or agents will neither solicit nor accept gratuities, favors or anything of monetary value from contractors, potential contractors, or parties to subagreements. Grantee and subgrantees may set minimum rules where the financial interest is not substantial or the gift is an unsolicited item of nominal intrinsic value. To the extent permitted by State or local law or regulations, such standards or conduct will provide for penalties, sanctions, or other disciplinary actions for violations of such standards by the grantee's and subgrantee's officers, employees, or agents, or by contractors or their agents. The awarding agency may in regulation provide additional prohibitions relative to real, apparent, or potential conflicts of interest.
