Beth Sutor,

In regards to The Wedding Chapel/Worship House project # 379256.

When it was brought to the Mooresville Board of Zoning Appeals, nothing was ever mentioned about a Worship House. My concern is this is a way to get around a few codes. Just the word Worship/Chapel puts this project into another category.

Another concern is parking along the drive way. In the event of an emergency I am afraid this would create congested traffic. I would like to see a second access to the parking area.

My third concern is the notification, in the event of an emergency to all persons in and adjacent to The Wedding Barn.

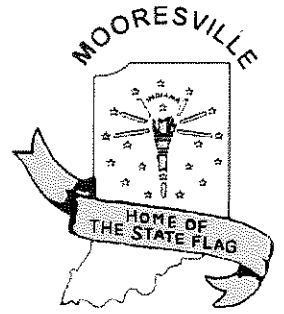

Thank you for your careful consideration in this matter.

Regards,
