Code You Are Commenting On Building Codes

Section Within the Code You Are Commenting On Sec 1106

Comment or Proposal Sec 1106.1 Where public or common use parking is provided, accessible parking spaces shall be provided in compliance with IC 5-16-9 and this section. Where more than one (1) parking facility is provided on a site, the number of parking spaces required to be accessible shall be calculated separately for each parking facility.

Deleting 1106.1, Table 1106.1, 1106.2, 1106.3, 1106.4

Reason Statement and Fiscal Impact Statement This section was deleted in 2014, and 2008 IBC's, and reference/copied in the 2003 Indiana Accessibility Code, however because there is a IC Statue that governs Building Code Requirements creates conflicts, confusion of what applies to what, and some "missed" concepts that are in the building Code. A discussion needs to be had to point the reader to the IC Statue, and at the same time provide guidance where confusion and lack of requirements remain.
