DARREL CROSS

To: Fire Prevention and Building Safety Commission

Please consider this as my letter of introduction and attached resume to serve as the **Fire Official** on the **Building Code Update Committee**.

As you will see on my attached resume, I have a long history of code enforcement and leadership in the Noblesville Fire Department and the state of Indiana. Here are the pertinent highlights:

- Noblesville Fire Department – 22 years of service
- Fire/Building Code Enforcement – 17 years of full-time experience
- Fire Inspectors Association of Indiana – 11 years of board experience, 3 years as President
- Member of the 2012 Indiana Mechanical and Fuel Gas Code Review Committee
- Instructed numerous classes throughout Indiana for FIAI

In particular, I am one of the few remaining Fire Officials in Indiana who served during the 2012/2014 code update process in Indiana. I have a working knowledge of the process that few others do, and therefore, I believe I will be an asset to this committee.

I look forward to the opportunity to serve the State of Indiana on this committee and welcome any questions that you may have.

For a safer Indiana,

Darrel Cross
Division Chief / Fire Marshal
