The Indiana State Fair Commission has submitted two variances that will affect events being held during the annual Indiana State Fair beginning on August 3rd, 2018. We understand the process for requesting variances but find ourselves prejudiced because of excessive loss of time if required to wait until the July meeting to have our variances considered. This delay will result in a forced delay in planning for these events and affect our ability to make final arrangements with contractors, vendors, and performers. Additionally, should the Commission request adjustments to our variances or deny the requests, we would have insufficient time to address these issues prior to the beginning of the State Fair on August 3rd.

By submitting this form, I swear that the information provide above is true and accurate.
