

Chief Inspector
Code Enforcement
Division of Fire & Building Safety
Indiana Department of Homeland Security
302 West Washington Street, Room E208
Indianapolis, IN 46204

I am applying on behalf of UL Solutions as an Authorized Inspection Agency for Industrialized Building Systems and Mobile Structures.

Trusted the world over, UL's building inspection service leverages UL's more than a century of experience in testing, certifying, and inspecting fire and life safety, security, electrical, mechanical, welding, structural, and plumbing systems regulations. UL's in-depth knowledge of state codes is designed to meet the increasing need among building owners, developers, and facility managers for building inspections that ensure a safe built environment that enables business continuity. Our Building Inspection program leverages our experts who participate in the International Code Council (ICC) and National Fire Protection Association (NFPA) code development process to ensure our teams are up to date on the most recent codes and standards and local or state amendments that impact our plan review services or inspections.

For more information on UL's Critical Infrastructure Services – Building Inspections, visit us at: <http://services.ul.com/service/building-inspections/>

Please find all required documentation enclosed. Please feel free to contact our office if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads 'Coraya Siwy'.

Coraya Siwy
Senior Building Inspector

4.0 Statement of Independence: UL operates as an independent company without the control or jurisdiction of any client (manufacturers or suppliers) related to the projects for which we provide services.

5.0 Statement of Compliance: UL certifies that all individuals performing services shall comply with all applicable rules, including TITLE 675 Fire Prevention and Building Safety Commission ARTICLE 15 INDUSTRIALIZED BUILDING SYSTEMS.

6.0 Current Clients and Agency Experience:

UL currently has many clients; however, obtaining agency licensing is essential before we can provide services to new clients. At present, none of our existing clients are producing factory-built buildings under state programs monitored by UL. Once the licensing process is successfully completed, UL Solutions will inform the relevant state agencies about our clients.

UL Solutions is a global leader in safety science. Founded in 1894, UL has a rich history of developing and implementing rigorous safety standards for a wide range of products. Initially focused on fire safety in electrical equipment, UL has since expanded its comprehensive approach to include everything from building materials to buildings, playing a critical role in safeguarding lives and property.
