Department Budget Division Timeline

DLGF Budget Division Timeline

- The Department plans to release a formal budget calendar in February.
- Like previous versions, the Department's Budget Calendar will contain a listing of some of the key deadlines and application launch dates for the upcoming year.
- The Budget Calendar will help local governments create their own unit specific timeline for the year.

DLGF Budget Division Timeline

- The Department's Budget Division timeline has three distinct sections based on the primary responsibility that must be accomplished during that time period.

DLGF Budget Season	Estimated Time Table
Budget Preseason	January 15 – July 15
Budget (Summer) Workshop Season	July 15 – August 30
Budget Certification Season	September 1 – January 15

Budget Timeline: Workshops

- July 15 – August 30
- Annually, one of the most important services that the Department provides are the Summer budget workshops.
- While not mandatory, attendance at workshops continues to be extremely high across the State:
 - In 2021, the Department held virtual workshops with 2,110 units or about 86% of all units in the State.

Budget Timeline: Workshops

- During the workshops for civil units, the Department will:
 - Collect financial information that will be used to certify the budget.
 - Discuss process and procedural changes for the budget cycle.
 - Direct units to the Department's newest guidance on statutory changes.
 - Perform preliminary statutory compliance review of proposed public hearing and adoption meeting dates.

Budget Timeline: Workshops

- Upon request from the unit, the Department may:
 - Perform an upload of the Form 3, Form 2, Current Year Financial Worksheet, and a portion of the Form 4B into Gateway.
 - In 2021, the Department performed uploads 1,244 local officials.

Budget Timeline: Workshops

- Workshops generally last 45 minutes.
- With the amount of information that needs to be shared and collected at the workshops, there is very little additional time to discuss every facet of the budget certification process.

Budget Timeline: Certification

- September 1 – January 15
- The Department will begin working budgets the with the information available on September 1.
- The budget certification timeline for an individual unit will vary based on when they adopt and submit their information.

Budget Timeline: Certification

- For certification, the Department will:
 - Perform a primary review of the financial information, public hearing and adoption meeting dates, and all other related documents provided through Gateway.
 - As necessary, the Department may follow up with units to either request additional information or clarification.
 - Perform a secondary review of the information, calculations, adjustments, budgets, levies, and rates.

Budget Timeline: Certification

- For certification, the Department will:
 - Release a 1782 Report that contains the budgets, levies, and rates along with all supporting information necessary to make those calculations.
 - Statutorily, the unit will have 10 days to review their 1782 Report, to follow up with any questions, concerns, requested changes, corrections, and/or additional documentation before the values are finalized.

Budget Timeline: Certification

- While the Department will make every attempt to discuss and explain our processes, as with the workshop season, during the Budget Certification Season, there isn't a lot of time for extended conversations about the process.

Budget Timeline: Preseason
