This worksheet is being provided by the Department as a tool to assist units in calculating their Estimated December Property Tax Collections. This amount will be entered on line 16 of the Current Year Financial Worksheet and pulled into line 2 of the Form 4B. To use this worksheet, please follow the instructions below:

1. Populate the fund's June 2022 property tax distribution.
2. Subtract the June 2022 property tax distribution from the Starting Levy for Line 2 amount in order to arrive at the Estimated Line 2 for 2022.

This worksheet should not be used by schools that have completed the protected taxes waiver or taxing units that have reallocated their property tax cap credits. These units should rely upon the workbook previously provided for the calculation of Line 2.

Abstract Levy has been computed by multiplying the abstract tax rate by the abstract assessed value and then subtracting total property tax cap credits from this amount.

Starting Levy for Line 2 will be the lesser of Certified Levy or Abstract Levy except for conservancy district levies or debt service fund levies. In these situations, Starting Levy for Line 2 will be Certified Levy.
