

Ratio Study Narrative 2025

General Information	
County Name	Franklin County

Person Performing Ratio Study			
Name	Phone Number	Email	Vendor Name (if applicable)
Lana Boswell	317-753-0011	Lana@nexustax.com	Nexus Group Inc.

Sales Window	1/1/2024	to	12/31/2024
If more than one year of sales were used, was a time adjustment applied?			
<input checked="" type="checkbox"/> No	Explain, why not: Given the nature of the current real estate market, it was not appropriate to expand the sales window to include sales that were part of the great expansion of the real estate market of the past few years.		
<input type="checkbox"/> Yes	Explain the method used to calculate the adjustment:		

Groupings
Please provide a list of townships and/or major class groupings (if any). Additionally, please provide information detailing how the townships and/or major classes are similar in the market.

****Please note that groupings made for the sole purpose of combining due to a lack of sales with no similarities will not be accepted by the Department****

Brookville Township and Ray Township were each grouped separately. Both are the most urban townships in Franklin County. Brookville Township includes the county seat (Brookville), while Ray Township includes the incorporated towns of Batesville and Oldenburg and enjoys particular proximity to Interstate 74 that makes it unique in market from other Franklin County townships. The remaining rural townships were grouped together, resulting in an East and a West grouping. The East grouping includes Fairfield, Bath, Springfield, Highland, and Whitewater Townships, while the West grouping is comprised of Posey, Laurel, Blooming Grove, Salt Creek, Metamora, and Butler Townships. The East grouping was based upon proximity to more populated areas just across the state line, such as Cincinnati and Hamilton, Ohio. The West grouping was based on the rural nature of these townships and improvement similarities in the area.

Cyclical Reassessment

Please explain which townships were reviewed as part of the current phase of the cyclical reassessment. Also, list any townships where the number of parcels reviewed were more than the formally approved reassessment plan. Note: All parcels reviewed should meet the 25% requirement with the 2% tolerance threshold (23-27%)

**Posey Township
Fairfield Township
Whitewater Township
Salt Creek Township**

Land Order

The land order used for the January 1, 2025, assessment along with the Narrative (optional) will be published on DLGF's website. Please provide the following information:

Date the land order was submitted to PTABOA. TBD	Click or tap to enter a date.	
Action taken by the PTABOA.	Approved	<input type="checkbox"/> Denied
Effective date of the land order.	Click or tap to enter a date.	
Was the land order updated as part of the 2024 cyclical reassessment?	Yes	<input type="checkbox"/> No
Any other changes or issues?	<p>Notes: The 2025 Land Order will be submitted to the First PTABOA hearing in 2025.</p> <p>Also, PTABOA has the record reflect the Land Order has been submitted to them after they review. There is no motion to Approve or Deny.</p>	

Comments
<p>In this space, please provide any additional information you would like to provide the Department in order to help facilitate the approval of the ratio study. Such items could be standard operating procedures for certain assessment practices (e.g. effective age changes), a timeline of changes made by the assessor's office, or any other information deemed pertinent.</p>

Per the DLGF, Cost table, depreciation, location cost multipliers (if applicable) were implemented. A preliminary ratio study was then conducted for all properties where sufficient sales data were available. This study dictated which property classes required further analysis, stratification, reassessment, or calculation of a new neighborhood factor.
