To: Department of Local Government Finance

You will find in this workbook the 2008 sales ratio and equalization study for Clinton County. Please notify the Clinton County Assessor as soon as possible with any questions or with the certification of acceptance. They are very close to completing the process needed in order to roll their values to the Auditor, but will not do so until hearing from the DLGF.

Due to the amount of sales we grouped all of the commercials and industrial properties together, to get the best trending factor available. We are aware that the commercial improved property in Madison and Ross townships have a Median that is outside the IAAO standards. However, there was only two valid sales in Ross and 1 valid sale in Madison - and since we needed to use all the sales we could it is outside the standards - It is included in our over-all comm-ind tab which does fall within the IAAO standards. The PRD for Center Township Improved Commercial is outside the IAAO standard, however all commercial and industrial properties were trended alike, therefore the grouping does fall within the IAAO standard.

The commercial and industrial properties fall in the same neighborhood and therefore there lands are trended alike. Therefore we grouped the commercial and industrial lands together for the ratio study.

There were also quite a few townships that had little or no vacant residential sales. Where we did not have sales we trended by allocation. This allowed us to place different trending factors on the land than on the improvements and kept our land in line with increases in land where we had sales.

Please respond as soon as possible with any questions or concerns so that we can submit our values to the Auditor.

Thank You,

Dana Myers
Clinton County Assessor
