TO: Assessing Officials

FROM: Barry Wood, Assessment Division Director

RE: Assessment Rate of Classified Forests, Windbreaks, & Filter Strips

DATE: December 27, 2021

The assessment rate per acre of land classified as native forest land, a forest plantation, or wildlands under Ind. Code § 6-1.1-6-14; as a windbreak under Ind. Code § 6-1.1-6.2-9; or as a filter strip under Ind. Code § 6-1.1-6.7-9 is determined by multiplying the assessment rate for the preceding assessment year by one (1) plus the annual percentage change in the Consumer Price Index for All Urban Consumers published by the federal Bureau of Labor Statistics for the calendar year preceding the calendar year before the assessment date.

For the assessment date of January 1, 2022, the assessment rate for classified lands is calculated as follows:

Rate for the preceding assessment year (1-1-2021)	\$14.43
Times the sum of one (1) plus the Consumer Price Index for All Urban Consumers for calendar year 2020 ($1 + .014 = 1.014$)	<u>x 1.014</u>
Assessment rate for classified lands for the assessment date of January 1, 2022	\$14.63

The Department of Local Government Finance will publish subsequent rates annually.
