

## **DNR 30-DAY PUBLIC NOTICE**

The Department of Natural Resources serves the DNR 30-Day Public Notice in order to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3.

The DNR 30-Day Public Notice is published weekly to serve notice of the latest permit applications received at the DNR, Division of Water. This Notice can be viewed on the web at <http://www.in.gov/dnr/water/> and can be provided by email upon written request. To receive the DNR 30-Day Public Notice as a weekly email attachment, email your full name and a valid email address to [DNRPublicNoticeRecipient@dnr.IN.gov](mailto:DNRPublicNoticeRecipient@dnr.IN.gov).

The permit applications and supporting documentation is available for public viewing on-line at <https://downunity.dnr.in.gov/#>. For questions concerning a permit application, contact the Division of Water, Technical Services Section, at (317) 232-4160 or toll free at 1-877-928-3755 and select 1 during the recorded menu narrative.

---

### Petition for Public Hearing

A pre-action public hearing on an application may be requested by filing a written petition. For a petition to be considered valid it must:

1. contain the typed or legibly printed name and complete mailing address of each petitioner;
2. be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. affirm that each signatory to the petition satisfies the requirements of item 2; and
4. identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted. To request a pre-action public hearing, send the petition by email to [water\\_inquiry@dnr.in.gov](mailto:water_inquiry@dnr.in.gov) or by mail to:

IDNR, Division of Water  
Technical Services Section  
402 West Washington Street, Room W264  
Indianapolis, Indiana 46204-2641

### Notification of Department Action

A person may request that the Department notify them when a Department Action is issued. To be notified of a Department Action, send a request that includes the permit application number or the applicant name, project description and county to email address [water\\_inquiry@dnr.in.gov](mailto:water_inquiry@dnr.in.gov) or by mail to the address above.

Permit Application Numbers with a prefix of:

FW are being reviewed under the Flood Control Act, IC 14-28-1 and the Flood Plain Management Rule, 312 IAC 10

PL are being reviewed under the Lake Preservation Act, IC 14-26-2 and the Public Freshwater Lake Rule, 312 IAC 11

DR are being reviewed under the Lowering of the Ten Acre Lake Act, IC 14-26-5

NW are being reviewed under the Navigable Waterways Act, IC 14-29-1

LM are being reviewed under the Navigable Waterways Act, IC 14-29-1 related to Lake Michigan

SG are being reviewed under the Sand and Gravel Permits Act, IC 14-29-3

AC are being reviewed under the Construction of Channels Act, IC14-29-4

**DNR 30-DAY PUBLIC NOTICE**

Date: 3/13/2024

**Application #: FW-32537-0**

Waterbody: West Fork White Lick Creek

Applicant: Sharon Hodson, 88 Torrey Pine Drive, , , Brownsburg, IN, 46112

Received Date: 12/19/2023

County: Hendricks

**Project Description:** An approximate 25' x 30' area along the stream bank was stabilized with class 1 riprap to protect the bank from further erosion. The riprap was keyed into the streambed at its base and conforms to the existing bank at the project limits. It has a maximum height of 30', a maximum streamward projection of 2' beyond the existing bank, and 1:1 sideslopes.

**Project Location:** In rear of property at 88 Torrey Pine Drive at Brownsburg

**Application #: FW-32578-0**

Waterbody: Eagle Creek

Applicant: Indiana Department of Transportation, Crystal Rehder, 100 North Senate Avenue, Room 758-ES, , , Indianapolis, IN, 46204

Received Date: 1/25/2024

County: Boone

**Project Description:** The existing bridge carrying US 421 over Eagle Creek will be rehabilitated. The project will include resurfacing of the bridge deck, replacing and updating guardrails, and adding riprap around piers for scour protection. The current structure is 165' long and 46.5' wide on a 30-degree skew. Class 1A riprap will be installed around Pier 2 and Pier 3. The riprap for each pier will measure approximately 66' long, 12' wide, and 3' deep. The riprap installed on the side slopes will measure 68' long, 20.5' wide, and 2' and will create a wildlife crossing. In total, riprap placed below the base flood elevation will cover approximately 0.112 acres and will consist of 422 cubic yards of material. Temporary impacts will result from construction of access roads and installation of cofferdams and erosion control measures. The cofferdams and erosion control will cover approximately 0.446 acres and will consist of 822 cubic yards of material. Tree trimming and some tree removal will take place, impacting less than 0.09 acres. No mitigation is anticipated. Des. # 2002084.

**Project Location:** At the crossing of US 421 over Eagle Creek near Whitestown

**Application #: FW-32604-0**

Waterbody: Williams Creek

Applicant: City of Carmel, Chris Ogg, One Civic Square, Carmel, IN, 46032

Received Date: 2/12/2024

County: Hamilton

**Project Description:** As part of the 141st Street Trail project, two (2) twin 54.5' long by 6' wide CMP pipes will be extended by 10' each and lined with a cured-in-place pipe liner. Structure 100 is 54.4' long by 6' wide and Structure 101 is 54.3' long by 6' wide. A new headwall, wingwalls and riprap will also be placed at the inlet for scour protection. The crossings connect the concrete multi-use path along the north and south side of West 141st Street. Temporary cofferdams and filter socks will be needed to complete the project and is estimated to be in place for approximately six (6) months. Once the project is completed, the cofferdams and filter socks will be removed and disturbed areas will be seeded. Mitigation will be done for the tree clearing that will occur.

**Project Location:** At the West 141st Street crossing at Carmel

**Application #: PL-24960-0**

Received Date: 2/9/2024

Waterbody: Clear Lake

County: Steuben

Applicant: Dr Amy Culler, 3827 Brookside Road, Ottawa Hills, OH, 43606

Project Description: An existing glacial stone seawall will be removed and replaced with a concrete seawall along 57'-6" of the shoreline. Fill will be to an eroded area behind the seawall. The lakeward face of the wall will be along the lake's legal shoreline.

Project Location: 940 Clear Lake Drive near Fremont

**Application #: PL-24961-0**

Received Date: 2/12/2024

Waterbody: Lake James

County: Steuben

Applicant: Carole Seavers, 2200 Lane 200 Lake James, Angola, IN, 46703

Project Description: An approximately 10' section of the existing concrete seawall along the western portion of the property will be removed. A sand beach will be installed approximately 10' along the western edge of the property shoreline extending landward. An underwater pea gravel beach will also be installed approximately 10' along the western edge of the property extending 30' lakeward.

Project Location: 2200 Lane 200 Lake James near Angola

**Application #: PL-24971-0**

Received Date: 3/4/2024

Waterbody: Lake Manitou

County: Fulton

Applicant: Will Nestel, 917 Arthur Street, Rochester, IN, 46975

Project Description: An existing 150' by 50' underwater beach will be replenished across 150' of the 700' frontage by placing a uniform 6" layer of pea gravel on the lakebed.

Project Location: At Lakeside Park Rochester
