Department of Natural Resources**

**DNR 30-DAY PUBLIC NOTICE**

The Department of Natural Resources serves the DNR 30-Day Public Notice in order to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3.

The DNR 30-Day Public Notice is published weekly to serve notice of the latest permit applications received at the DNR, Division of Water. This Notice can be viewed on the web at <http://www.in.gov/dnr/water/> and can be provided by email upon written request. To receive the DNR 30-Day Public Notice as a weekly email attachment, email your full name and a valid email address to [DNRPublicNoticeRecipient@dnr.IN.gov](mailto:DNRPublicNoticeRecipient@dnr.IN.gov).

The permit applications and supporting documentation is available for public viewing on-line at <https://dowunity.dnr.in.gov/#>. For questions concerning a permit application, contact the Division of Water, Technical Services Section, at (317) 232-4160 or toll free at 1-877-928-3755 and select 1 during the recorded menu narrative.

---

**Petition for Public Hearing**

A pre-action public hearing on an application may be requested by filing a written petition. For a petition to be considered valid it must:

1. contain the typed or legibly printed name and complete mailing address of each petitioner;
2. be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. affirm that each signatory to the petition satisfies the requirements of item 2; and
4. identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted. To request a pre-action public hearing, send the petition by email to [water\\_inquiry@dnr.in.gov](mailto:water_inquiry@dnr.in.gov) or by mail to:

IDNR, Division of Water  
Technical Services Section  
402 West Washington Street, Room W264  
Indianapolis, Indiana 46204-2641

**Notification of Department Action**

A person may request that the Department notify them when a Department Action is issued. To be notified of a Department Action, send a request that includes the permit application number or the applicant name, project description and county to email address [water\\_inquiry@dnr.in.gov](mailto:water_inquiry@dnr.in.gov) or by mail to the address above.

Permit Application Numbers with a prefix of:

FW are being reviewed under the Flood Control Act, IC 14-28-1 and the Flood Plain Management Rule, 312 IAC 10

PL are being reviewed under the Lake Preservation Act, IC 14-26-2 and the Public Freshwater Lake Rule, 312 IAC 11

DR are being reviewed under the Lowering of the Ten Acre Lake Act, IC 14-26-5

NW are being reviewed under the Navigable Waterways Act, IC 14-29-1

LM are being reviewed under the Navigable Waterways Act, IC 14-29-1 related to Lake Michigan

SG are being reviewed under the Sand and Gravel Permits Act, IC 14-29-3

AC are being reviewed under the Construction of Channels Act, IC14-29-4

**DNR 30-DAY PUBLIC NOTICE**

Date: 4/17/2024

**Application #: FW-32551-0**

Received Date: 1/8/2024

Waterbody: Clear Creek

County: Monroe

Applicant: May's Greenhouse, Nate Pennington, 6280 South Old State Road 37, Bloomington, IN, 47401

Project Description: A commercial facility was developed along the southeast bank of Clear Creek to provide storage and interior space for landscaping materials. Multiple buildings of various sizes have been constructed.

Project Location: 6280 South Old State Road 37 near Bloomington

**Application #: FW-32593-0**

Received Date: 2/7/2024

Waterbody: Stansbury Ditch

County: Hancock

Applicant: Beazer Homes, , 9465 Counselors Row, Suite 125, Indianapolis, IN, 46240

Project Description: An area measuring approximately 4' by 75' will be have 15-20 cubic yards of material excavated and removed from the floodway. An existing weir will be lowered by approximately 4'.

Project Location: Beginning directly south of the crossing of West 700 North over Stansbury Ditch near McCordsville

**Application #: FW-32623-0**

Received Date: 2/23/2024

Waterbody: White Branch

County: Whitley

Applicant: Lavern Bontrager, 8115 West 200 South, Topeka, IN, 46571

Project Description: Two culvert crossings will be installed in the White Branch floodway. The southern culvert will be 27' long, have an 8' diameter, and 12" sump. The northern culvert will be 30' long, have an 8' diameter, and 12" sump. The culverts will be made of 12 gauge steel. The crossing overtop of each culvert will be a minimum of 2' thick and consist of clay.

Project Location: Two sites along White Branch, the southern culvert is located approximately 2,065' upstream of the North Elder Road stream crossing following the centerline of White Branch. The northern culvert is located approximately 3,800' upstream of the southern culvert following the stream centerline. near Larwill

**Application #: FW-32627-0**

Received Date: 2/26/2024

Waterbody: Unnamed Tributary Turkey Creek

County: Elkhart

Applicant: North Trace RV Resort LLC, Steve Showalter, 23571 County Road 38, , Goshen, IN, 46526

Project Description: A new culvert crossing will be placed in an unnamed tributary to Turkey Creek to carry traffic across the ditch. The new crossing will consist of 2, parallel 2' by 2' by 40' HDPE culverts set in concrete headwalls. They will have upstream and downstream inverts of 859.2', NGVD and 859.1', NGVD, respectively. The inlet ends of the culverts will be flush. Both the culverts and headwalls will be aligned with streamflow. The approach roads will be constructed on fill placed to a maximum height of 3.8' over the existing elevations. The crown of the roadway over the culverts will be at 862.97', NGVD. The crossing will carry a driveway leading to an office building located outside the floodway. Excavation will occur for two detention basins, and all fill placed in the development will be sourced from the excavated material on site.

Project Location: Approximately 475' downstream from the County Road 29 stream crossing near Syracuse

**Application #: FW-32633-0**

Waterbody: Tippecanoe River

Applicant: Ryan Cohn, 18140 14B Road, , , Culver, IN, 46511

Received Date: 2/28/2024

County: White

Project Description: A concrete slab and driveway will be installed on a residential property within the Tippecanoe River floodway. The concrete slab will measure 24' by 25' and be raised 8". The drive way will consist of compacted gravel 40' long and 16' wide.

Project Location: Beginning approximately 64' northwest from 9645 Valley Court near Monticello

**Application #: FW-32643-0**

Waterbody: Blue River

Applicant: Gary Robbins, 2748 North Trueblood Road, Salem, IN, 47167

Received Date: 3/7/2024

County: Washington

Project Description: An approximately 140' long by 12' wide by 8' high streambank will be restored to pre-eroded conditions. The bank will be restored by adding approximately 10 square feet of stone and dirt along the 140' area at a 45 degree slope. The fill will then be covered by topsoil and grass seed.

Project Location: Approximately 1250' west of the Blue River crossing under Salem Bypass near Salem

**Application #: FW-32653-0**

Waterbody: Greens Fork

Applicant: Indiana Department of Transportation, Jennifer Curry, 100 North Senate Avenue, Room N758-ES, , , Indianapolis, IN, 46204

Indiana Department of Transportation, Aidan Geissler, 100 North Senate Avenue, N758 ES, Indianapolis, IN, 46204

Received Date: 3/12/2024

County: Wayne

Project Description: The existing 284' long by 42' wide 5-span bridge (Des No. 2002432 & 2002433) will be widened to three lanes (Des. No. 2002424). The proposed structure will extend both the end bents and piers towards to median on each bridge resulting in an out-to-out width of approximately 65.5'. Piers 2, 3, 4, and 5 will each be extended to approximately 83' long by 2' wide, by 10.5', 14.5', 12', and 9' deep, respectively. Class 2 riprap will be placed around the piers for added scour protection totaling approximately 152' long by 15' wide by 3' deep.

A 10' wildlife crossing will be maintained along the existing bank just west of Pier 2, and the existing 10' nature passage east of Pier 5 will also be maintained with a clearance of over 8' high. Permanent impacts to the floodway total 0.602 acres. Approximately 0.038 acres of temporary impacts are proposed for the use of cofferdams. Approximately 0.262 acres of tree clearing and 0.086 acres of wetland impacts are proposed and will be mitigated upon construction completion. This project is federally funded.

Project Location: The bridge carrying I-70 over Greens Fork Creek near Greens Fork

**Application #: FW-32662-0**

Waterbody: Ohio River

Applicant: Mulzer Crushed Stone, Inc., Wenona Fosselman, 534 Mozart Street, , , Tell City, IN, 47586

Received Date: 3/19/2024

County: Warrick

Project Description: Maintenance dredging will occur along approximately 1,375' of the Ohio River along a path measuring approximately 75' wide and with a 3:1 slope. Approximately 2,206 cubic yards of sediment will be removed from below the ordinary high-water mark by using mechanical and/ or hydraulic dredging. The material will be transported by barge and disposed of landward of the floodway at Ohio River marker 746.2 and at a secondary site in the incised quarry pits landward of the floodway at the Mulzer Cape Sandy Quarry at Ohio River Marker 673.8. A temporary floating turbidity curtain will be used during the dredging process.

Project Location: Ohio River Mile 779.2 approximately 1.35 miles upstream of the Vanderburgh Warrick County Line near Newburgh

**Application #: FW-32670-0**

Waterbody: Little Eagle Creek

Applicant: Sam Bullard, 3680 Willow Road, , , Zionsville, IN, 46077

Received Date: 3/22/2024

County: Boone

Project Description: A irregular shaped paver patio will be constructed to connect to an existing concrete patio and pool deck. Other features included are a 13 x 19 aluminum pergola structure with concrete footings, a custom grill island, new 11.5" concrete landing and 5.5" step, five (5) 6' tall by 8' wide vinyl screens, fire pit, landscaping lighting and plantings, five (5) large posts and four (4) small posts.

Project Location: 3680 Willow Road at Zionsville

**Application #: FW-32707-0**

Waterbody: Eagle Creek

Applicant: Indiana Department of Transportation, Crystal Rehder, 100 North Senate Avenue, Room 758-ES, , , Indianapolis, IN, 46204

Received Date: 4/11/2024

County: Vanderburgh

Project Description: As a part of the I-69 expansion across the Ohio River in Vanderburgh County, Section 3, the embankments to the east-north ramp, north-west ramp, and east-south ramp (bridge 5) will be constructed. Portions of bridge 3 (I-69 south) and bridge 5 (includes the east-south ramp) within the Eagle Creek floodway will also be constructed. Revetment riprap splash pads will also be installed under the future bridge deck drain locations and will have approximate dimensions of 10' long by 10' wide by 2.5' deep.

Additionally, temporary haul roads for the construction of the east-south ramp (bridge 5) and bridge 3 (I-69 south) will be constructed. There will be approximately 1,795' (1.88 acres) of haul roads installed and will have approximate dimensions of 50' wide by 13' tall. Two stream crossings over Eagle Creek will also be constructed utilizing a combination of concrete, steel, and timber to construct bridges with dimensions of 56' long by 18' wide by 6' deep across Eagle Creek.

One stream, UNT-1 to Eagle Creek, will be extended and relocated southward from the existing culvert approximately 27' and then will turn southeast and be relocated a total of 190' along the toe-of-slope of the east/south ramp embankment. A total of 53' of the original channel will be filled with soil and revetment riprap. Along this unnamed tributary, two temporary cofferdams and dewatering equipment will be installed, which will be required during the embankment construction and the stream relocation.

Permanent impacts will total 148,573 cubic yards over 3.906 acres (18,397 cubic yards of excavation and 130,176 cubic yards of various types of fill).

Project Location: Beginning approximately 4,300' east of the Highway 41 and I-69 Interchange in Evansville and continuing southeast approximately 1,200' and east approximately 1.5 miles along I-69 near Evansville

**Application #: PL-24983-0**

Waterbody: Lake James

Applicant: David McKeeman, 12133 Chesterbrook Court, Fort Wayne, IN, 46845

Received Date: 3/21/2024

County: Steuben

Project Description: An existing concrete seawall will be refaced with concrete across 62' of the shoreline. The reface layer will have a maximum thickness of 12" and will be sloped on the lakeward side. The lakeward face of the refaced seawall will be located along the lake's legal shoreline.

Project Location: 60 Lane 280 Lake James near Angola

**Application #: PL-24984-0**

Waterbody: Lake James

Applicant: Dan Borrer, 10524 Traders Pass, Fort Wayne, IN, 46845

Received Date: 3/21/2024

County: Steuben

Project Description: An existing concrete seawall will be refaced with concrete across 31' of the shoreline. The reface layer will have a maximum thickness of 12" and will be sloped on the lakeward side. The lakeward face of the refaced seawall will be located along the lake's legal shoreline.

Project Location: 80 Lane 280 Lake James near Angola

**Application #: PL-24987-0**

Received Date: 3/25/2024

Waterbody: Lake Wawasee

County: Kosciusko

Applicant: William Roeder, 50661 Elk Trail, , , Granger, IN, 46530

Project Description: An existing concrete seawall will be refaced across 100' of the shoreline. The reface layer will consist of 10' vinyl sheet piling which will be driven and anchored to deadman anchors extending 12' landward into the property. The reface layer will have a maximum thickness of 6". The vinyl sheets will have 5' exposure above the lake bed. The area behind the wall will backfilled with clean pea gravel (100' by 2' by 5').
