DNR 30-DAY PUBLIC NOTICE

The Department of Natural Resources serves the DNR 30-Day Public Notice in order to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3.

The DNR 30-Day Public Notice is published weekly to serve notice of the latest permit applications received at the DNR, Division of Water. This Notice can be viewed on the web at <http://www.in.gov/dnr/water/> and can be provided by email upon written request. To receive the DNR 30-Day Public Notice as a weekly email attachment, email your full name and a valid email address to DNRPublicNoticeRecipient@dnr.IN.gov.

The permit applications and supporting documentation is available for public viewing on-line at <https://dowunity.dnr.in.gov/#>. For questions concerning a permit application, contact the Division of Water, Technical Services Section, at (317) 232-4160 or toll free at 1-877-928-3755 and select 1 during the recorded menu narrative.

Petition for Public Hearing

A pre-action public hearing on an application may be requested by filing a written petition. For a petition to be considered valid it must:

1. contain the typed or legibly printed name and complete mailing address of each petitioner;
2. be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. affirm that each signatory to the petition satisfies the requirements of item 2; and
4. identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted. To request a pre-action public hearing, send the petition by email to water_inquiry@dnr.in.gov or by mail to:

IDNR, Division of Water
Technical Services Section
402 West Washington Street, Room W264
Indianapolis, Indiana 46204-2641

Notification of Department Action

A person may request that the Department notify them when a Department Action is issued. To be notified of a Department Action, send a request that includes the permit application number or the applicant name, project description and county to email address water_inquiry@dnr.in.gov or by mail to the address above.

Permit Application Numbers with a prefix of:

FW are being reviewed under the Flood Control Act, IC 14-28-1 and the Flood Plain Management Rule, 312 IAC 10

DNR 30-DAY PUBLIC NOTICE

Date: 7/15/2026

Application #: FW-33735-0

Received Date: 4/29/2026

Waterbody: Tippecanoe River

County: Pulaski

Applicant: Tippecanoe River State Park, Vernon Gillum, 4200 North US 35, , Winamac, IN, 46996

Project Description: The Tippecanoe River State Park property staff plan to relocate an historic WPA cabin in the area adjacent to the existing Nature Center building to provide Interpretive opportunities for visitors. This cabin will be set at a grade that will keep all non-flood resistant materials at 2' above the BFE of the area (Flood Protection Grade). This cabin will also be anchored to the concrete foundation wall and the foundation wall will have 2 FFV-1608 Freedom Flood Vents (one each on opposite sides) to permit water flow during a flood event. In addition, a new playground will be constructed approximately 50' southwest from the cabin site. The playground will be roughly 4,636 square feet including the concrete sidewalk that will surround it. It will contain 12" deep of wood fiber mulch for the play surface. The playground will feature a play set featuring slides and associated elements and a swing set.

Project Location: Immediately southeast from the existing Nature Center at Tippecanoe River State Park near Winamac

Application #: FW-33794-0

Received Date: 6/15/2026

Waterbody: Big Cedar Creek

County: Franklin

Applicant: Franklin County Highway Department, Justin Ball, 1360 Fairfield Avenue, Brookville, IN, 47012

Project Description: Approximately 272' of bank will be stabilized utilizing the installation of soil nails up to the maximum of 30' through the existing wall and underlying soil mass to restore the area to pre-eroded conditions. The maximum height of the wall will be 12'. The stabilization will also have a reinforced layer of shotcrete up to 12" thick placed over the repaired retaining wall. Portions of the existing retaining wall will be removed and replaced as needed. Material that is removed will be relocated to a county-provided disposal location. To provide structural support an installation of vertical micropiles will be placed. Repairs to the existing road will be made and will be at grade.

Project Location: 5400 Big Cedar Road near Cedar Grove

Application #: PL-25416-0

Received Date: 4/6/2026

Waterbody: Jimmerson Lake

County: Steuben

Applicant: G6 LLC, Thomas J Turnwald, 1227 Willow Ridge Lane, , , IN

Project Description: Approximately 3,190' of shoreline on Jimmerson Lake will be stabilized with bioengineered and concrete seawalls. Approximately 2700' will be stabilized with bioengineered seawall. Approximately 490' of concrete seawall will be constructed across 6 sites on the property to facilitate access to the group pier. The property will feature a group pier that feature 3 lengths of pier branching of the shoreline with (8) 60' long piers spaced 24' apart, (27) 40' piers spaced a minimum of 40' apart, and (6) 150' long piers with (4) 20' parallel fingers per side spaced 30' apart. Existing and abandoned piers will be removed via an excavator on shore.

Project Location: 3995 North 300 West near Angola

Application #: PL-25482-0

Waterbody: Lake Maxinkuckee

Applicant:

Received Date: 7/7/2026

County: Marshall

Project Description: An existing concrete seawall will be refaced on across 49.66' of shoreline on Lake Maxinkuckee. The reface will consist of 8" panels that are comprised of concrete and embedded glacial stone. The concrete paneling will sit on 12" by 12" footers and will be tied to the existing seawall using rebar, 4" by 4" wire mesh, and brackets. The 4" space between the existing seawall and the reface panel will be back filled with concrete.

Project Location: 2114 East Shore Drive near Culver
