Department of Natural Resources**

DNR 30-DAY PUBLIC NOTICE

The Department of Natural Resources serves the DNR 30-Day Public Notice in order to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3.

The DNR 30-Day Public Notice is published weekly to serve notice of the latest permit applications received at the DNR, Division of Water. This Notice can be viewed on the web at <http://www.in.gov/dnr/water/> and can be provided by email upon written request. To receive the DNR 30-Day Public Notice as a weekly email attachment, email your full name and a valid email address to DNRPublicNoticeRecipient@dnr.IN.gov.

The permit applications and supporting documentation is available for public viewing on-line at <https://dowunity.dnr.in.gov/#>. For questions concerning a permit application, contact the Division of Water, Technical Services Section, at (317) 232-4160 or toll free at 1-877-928-3755 and select 1 during the recorded menu narrative.

Petition for Public Hearing

A pre-action public hearing on an application may be requested by filing a written petition. For a petition to be considered valid it must:

1. contain the typed or legibly printed name and complete mailing address of each petitioner;
2. be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. affirm that each signatory to the petition satisfies the requirements of item 2; and
4. identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted. To request a pre-action public hearing, send the petition by email to water_inquiry@dnr.in.gov or by mail to:

IDNR, Division of Water
Technical Services Section
402 West Washington Street, Room W264
Indianapolis, Indiana 46204-2641

Notification of Department Action

A person may request that the Department notify them when a Department Action is issued. To be notified of a Department Action, send a request that includes the permit application number or the applicant name, project description and county to email address water_inquiry@dnr.in.gov or by mail to the address above.

Permit Application Numbers with a prefix of:

FW are being reviewed under the Flood Control Act, IC 14-28-1 and the Flood Plain Management Rule, 312 IAC 10

PL are being reviewed under the Lake Preservation Act, IC 14-26-2 and the Public Freshwater Lake Rule, 312 IAC 11

DR are being reviewed under the Lowering of the Ten Acre Lake Act, IC 14-26-5

DNR 30-DAY PUBLIC NOTICE

Date: 8/5/2026

Application #: FW-33767-0

Waterbody: Kankakee River

Applicant: Ryan Companies, Chaz Miller, 533 South Third Street, Suite 100, , , Minneapolis, MN, 55415

Received Date: 5/27/2026

County: Jasper

Project Description: Two areas will be excavated to create compensatory storage basins. The first area will be approximately 2,342' long by 2,493' wide. The second area will be approximately 813' long by 646' wide. The two compensatory storage basins will be connected by an access road. The basins will be excavated to 658' NGVD29 and will have 4:1 side slopes. No fill is associated with the work. There will be two construction entrances that will remain throughout construction. A 25,870 linear foot silt fence will be placed along the northeast side of storage basin 1.
Project Location: Intersection of Country Road 300 East and Country Road 1450 North near Wheatfield

Application #: FW-33785-0

Waterbody: Long Branch

Applicant: BR Solar Sheriff 1 LLC, , 254 Commercial Street, Suite 101, , , Portland, ME, 04101

Received Date: 6/8/2026

County: Grant

Project Description: A temporary crossing will be placed to widen the road by 3' and raise it by 2.5'. The structures will be in place for 2.5 years. The current crossing contains a culvert that will not be changed.
Project Location: The site is located approximately 2800' southwest of intersection of Country Road 500 South and South 600 East, near 5550 East 500 South at Gas City

Application #: FW-33795-0

Waterbody: Flyblow Branch

Applicant: Timothy Cornwell, 4488 East Combs Road, Bloomfield, IN, 47424

Received Date: 6/15/2026

County: Greene

Project Description: Approximately 260' of eroded streambank will be stabilized with riprap along Flyblow Branch. The riprap will have a maximum height of 5' and a maximum streamward projection of 2' beyond the existing bank.
Project Location: 4488 East Combs Road near Bloomfield

Application #: FW-33797-0

Waterbody: Ohio River

Applicant: Indiana American Water, Mitchell Marten, 153 North Emerson Avenue, , , Greenwood, IN, 46143

Received Date: 6/16/2026

County: Warrick

Project Description: The purpose of this project is to install a permanent backup power generators on elevated platforms adjacent to each of the three (3) existing drinking water wells. In addition to the elevated generator pads, a subgrade natural gas line will be installed along the site access road south of Vanada Road. This project is necessary to provide long-term protection to very critical water supply assets. The proposed generator pads for Well #1 and Well #2 will be constructed within the existing fence lines. There is no existing fence surrounding Well #3 and no new fence will be installed as part of this project. The existing access road will be utilized as the construction entrance for all construction activities.
Project Location: Approximately 3,000' southwest of the intersection of County Road 700 South and Vanada Road near Newburgh

Application #: FW-33798-0

Waterbody: Willow Creek

Applicant: Bill Schalliol, 227 West Jefferson Boulevard, South Bend, IN, 46601

Received Date: 6/17/2026

County: St. Joseph

Project Description: A 16" diameter water line, 2" fiber optic conduit, and 1.25" fiber optic conduit will be placed beneath Willow Creek to provide utility service. The lines will be placed by the horizontal directional drill method. The crossings will have 5' of cover beneath the stream bed and 5' below the banks. The fiber optic conduits will be inside a 6" conduit for the section below the stream bed. All disturbed/excavated areas will be restored to existing grade upon completion of the construction.

Project Location: Along the west side of Bittersweet Road within the regulatory floodway near Mishawaka

Application #: NW-181-0

Waterbody: St. Joseph River

Applicant:

Received Date: 6/11/2026

County: Elkhart

Project Description: An existing steel seawall will be refaced with a new glacial stone seawall along 37' of the St. Joseph River. The glacial stone will be placed on top of geotextile fabric with washed river rock. Approximately 2" of the exposed top of the existing steel seawall will be removed. Clean fill will be brought onsite to backfill the area landward of the new seawall. The fill will be leveled with the top of the wall at the river.

Project Location: 54455 Susquehanna Road near Elkhart

Application #: PL-25465-0

Waterbody: Ball Lake

Applicant: Ray Garcia, 6324 County Road 27, Auburn, IN, 46706

Received Date: 6/8/2026

County: Steuben

Project Description: A 75' glacial stone seawall will be refaced to minimize erosion. The reface will extend 2.5' from the existing seawall.

Project Location: 160 Lane 101 A Ball Lake near Hamilton

Application #: PL-25470-0

Waterbody: Cedar Lake

Applicant: Richard Loudermilk, 8503 West 131st Street, Cedar Lake, IN, 46303

Received Date: 6/11/2026

County: Lake

Project Description: An existing concrete seawall will be refaced across 93' of the shoreline. The refacing will consist of 6' vinyl sheet piling, which will extend no further than 6" beyond the face of the existing seawall.

Project Location: 13121 Polk Street at Cedar Lake

Application #: PL-25501-0

Waterbody: Lake of the Woods

Applicant: Michael Grutsch, 11006 West Rosewood Circle, Fort Wayne, IN, 46845

Received Date: 7/27/2026

County: Lagrange

Project Description: A shoreline and seawall damaged by the uprooting of a tree during a tornado will be restored. Approximately 40 feet of the area landward of the shoreline will be restored to pre-existing grade. The existing glacial stone seawall will be re-utilized and restacked with a new geo-textile fabric placed between the landward fill and the seawall. The lakeward face of the restored seawall will extend no further lakeward than it previously did.

Project Location: 11676 East 660 South near Hudson
