Department of Natural Resources**

**DNR 30-DAY PUBLIC NOTICE**

The Department of Natural Resources serves the DNR 30-Day Public Notice in order to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3.

The DNR 30-Day Public Notice is published weekly to serve notice of the latest permit applications received at the DNR, Division of Water. This Notice can be viewed on the web at <http://www.in.gov/dnr/water/> and can be provided by email upon written request. To receive the DNR 30-Day Public Notice as a weekly email attachment, email your full name and a valid email address to [DNRPublicNoticeRecipient@dnr.IN.gov](mailto:DNRPublicNoticeRecipient@dnr.IN.gov).

The permit applications and supporting documentation is available for public viewing on-line at <https://dowunity.dnr.in.gov/#>. For questions concerning a permit application, contact the Division of Water, Technical Services Section, at (317) 232-4160 or toll free at 1-877-928-3755 and select 1 during the recorded menu narrative.

**Petition for Public Hearing**

A pre-action public hearing on an application may be requested by filing a written petition. For a petition to be considered valid it must:

1. contain the typed or legibly printed name and complete mailing address of each petitioner;
2. be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. affirm that each signatory to the petition satisfies the requirements of item 2; and
4. identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted. To request a pre-action public hearing, send the petition by email to [water\\_inquiry@dnr.in.gov](mailto:water_inquiry@dnr.in.gov) or by mail to:

IDNR, Division of Water  
Technical Services Section  
402 West Washington Street, Room W264  
Indianapolis, Indiana 46204-2641

**Notification of Department Action**

A person may request that the Department notify them when a Department Action is issued. To be notified of a Department Action, send a request that includes the permit application number or the applicant name, project description and county to email address [water\\_inquiry@dnr.in.gov](mailto:water_inquiry@dnr.in.gov) or by mail to the address above.

Permit Application Numbers with a prefix of:

FW are being reviewed under the Flood Control Act, IC 14-28-1 and the Flood Plain Management Rule, 312 IAC 10

PL are being reviewed under the Lake Preservation Act, IC 14-26-2 and the Public Freshwater Lake Rule, 312 IAC 11

DR are being reviewed under the Lowering of the Ten Acre Lake Act, IC 14-26-5

NW are being reviewed under the Navigable Waterways Act, IC 14-29-1

LM are being reviewed under the Navigable Waterways Act, IC 14-29-1 related to Lake Michigan

SG are being reviewed under the Sand and Gravel Permits Act, IC 14-29-3

AC are being reviewed under the Construction of Channels Act, IC14-29-4

**DNR 30-DAY PUBLIC NOTICE**

Date: 9/28/2022

**Application #: FW-31760-0**

Received Date: 8/5/2022

Waterbody: Mud Creek

County: Hamilton

Applicant: Citizens Energy Group, Ryan Taylor, 2150 Dr. Martin Luther King Jr. Street, Indianapolis, IN, 46202

Project Description: A 0.18 acre area will be excavated in the floodway to provide compensatory storage. The total length of the basin will be 75', the maximum depth will be approximately 1.7', and approximately 1,527 cubic yards will be excavated. 6" by 6" wooden bollards will be spaced 5' apart, for a total of 16 bollards installed. There will be two urban trees removed and the impacts will be mitigated by planting 10 trees at least 2" DBH.

Project Location: Approximately 150' southwest of the intersection of East 106th Street and Cumberland Road at Fishers

**Application #: FW-31763-0**

Received Date: 8/8/2022

Waterbody: Fall Creek

County: Marion

Applicant: Citizens Energy Group, Paul Johnson, 2150 Dr. Martin Luther King Jr. Street, Indianapolis, IN, 46202

Project Description: Citizens Energy Group will construct a new drinking water production well and water main within the Riverside Wellfield. The wellhead will be constructed on a 14' by 12' elevated platform enclosure, above the 100-year flood elevation (692' NAVD88). A 12" diameter water main will be constructed to carry water from the well to the treatment plant and it will extend approximately 763' in total length. That pipe will connect to a 16" diameter water main, which will extend a total of 237' in length. In addition, an access drive will also be constructed from the well to the existing drive located east of the well location. It will be approximately 62' in length and 6" above grade.

Project Location: Approximately 1,000' southwest of the intersection of Waterway Boulevard and Montcalm Street at Indianapolis

**Application #: FW-31777-0**

Received Date: 8/16/2022

Waterbody: West Fork White River

County: Marion

Applicant: Theodore Giesecking, 1803 Perkins Avenue, Indianapolis, IN, 46203

Project Description: The previous homesite at 2301 South Dakota Street where an existing foundation still remains will be reconstructed within the floodway of West Fork White River. The existing foundation has an area of approximately 1,800 square feet. As part of the reconstruction a heightened crawl-space will be installed, along with 6 vents in the foundation, and a sump-pump in the crawl-space if necessary.

Project Location: 2301 South Dakota Street at Indianapolis

**Application #: FW-31779-0**

Waterbody: Stony Creek

Applicant: City of Noblesville, Jonathan Mirgeaux, 197 West Washington Street, , Noblesville, IN, 46060

Received Date: 8/16/2022

County: Hamilton

Project Description: The Noblesville Lift Station Number 2 will be upgraded within the floodway of Stony Creek. Work will involve installing a new 42" interceptor pipe parallel to an existing 27" pipe. The new 42" pipe will be installed approximately 11' north of the current 27" pipe, which will remain in place. A 20' wide easement will be purchased and will result in impacts to forested wetland which is under a conservation easement established by the landowner. An additional conservation easement associated with the Stony Creek Wetland Mitigation Site will be impacted as a result of the project.

Project Location: Beginning approximately 500' south and 25' east of the intersection of Gerald Street and South 10th Street and extending approximately 1,550' east at Noblesville

**Application #: FW-31780-0**

Waterbody: Unnamed Tributary Duck Creek

Applicant: Hobart Sanitary Stormwater District, Phillip Gralik, 414 Main Street, , Hobart, IN, 46342

Received Date: 8/18/2022

County: Lake

Project Description: Approximately 1200' of the Tributary to Duck Creek will be enhanced for fish and wildlife as well as erosion control. The tributary has a top of bank width of approximately 4' and a bottom width of approximately 1'. Eighteen riffles will be installed consisting of 0.75 CYS of gravel a maximum of 6" in height, 4' wide and 10' long. A four foot wide flood bench will be excavated along the edge of the channel allowing for overbank storage during high water events. The bench will require a total of approximately 178 CYS of excavation. Associated with each riffle will be a constructed pool on the outside bends of the river. Eighteen pools will be constructed by excavating the existing silt bottom approximately 6" in depth by 10' long and excavating the inside banks back to 4:1 slopes or flatter. Each pool will require approximately 1.5 CYS of excavation for a total excavation of 27 CYS. All excavated material will be hauled off site to an upland contained disposal area. No banks will be steeper than 2:1 upon completion and all disturbed areas will be seeded with native wetland seed and protected with biodegradable erosion control blankets. Five shrubs will be planted at each pool for eventual overhead cover and additional 1200 native plant plugs will be planted along the disturbed reach.

Project Location: Beginning 800' downstream from the County Line Road creek crossing, extending approximately 1200' further downstream at Hobart

**Application #: FW-31800-0**

Waterbody: McFadden Creek

Applicant: Astrazeneca, Michael Smith, 4601 Highway 62 East, Mount Vernon, IN, 47620

Received Date: 8/29/2022

County: Posey

Project Description: An existing solar farm is being expanded. The additional solar panels will be installed north of McFadden Creek and is approximately 19 acres in size. The panel will be affixed to metal supports.

Project Location: Located in the southwest corner of the facility at 4601 East Highway 62, near McFadden Creek near Mount Vernon

**Application #: FW-31813-0**

Waterbody: Sugar Creek

Applicant: Charles F Holdaway, 11681 North Old 600 West, Fountaintown, IN, 46130

Received Date: 9/9/2022

County: Shelby

Project Description: The applicant is replacing a 900 square foot storage barn with two structures, each having an area of 400 square feet or less. Additionally a 200 square foot storage tent will be replaced with a 192 square foot building.

Project Location: 11681 North 600 West Fountaintown

**Application #: FW-31818-0**

Received Date: 9/13/2022

Waterbody: Sinking Creek

County: Monroe

Applicant: Shawn Moeller, 1100 South Curry Pike, Bloomington, IN, 47403

Project Description: The Applicant proposes to demolish the existing residential structure and add fill. The debris from the demolished structure will be hauled off site.

Project Location: 3998 West Gifford Road at Bloomington

**Application #: FW-31827-0**

Received Date: 9/19/2022

Waterbody: Righthand Fork Salt Creek

County: Decatur

Applicant: Lake Santee Property Owners Association, John Lecher, 13 Southwest Wrenn Parkway, , Greensburg, IN, 47240

Project Description: The applicant proposes to build three sediment retention basins upstream of Lake Santee. The material excavated from the three retention basins will create two spoil piles located within the project site. Additionally, the applicant proposes to re-grade the bank and add in-stream structures to the Righthand Fork Salt Creek channel. The proposed in-stream structures include riffle pool structures, J-hooks, and barbs.

Project Location: 1686 Taas Trail at Greensburg

**Application #: FW-31838-0**

Received Date: 9/22/2022

Waterbody: Little Raccoon Creek

County: Parke

Applicant: IWM Consulting, Chris Parks, 7428 Rockville Road, , Indianapolis, IN, 46214

Project Description: Approximately 470' (0.46 acres) along Little Raccoon Creek will be excavated/dredged to a depth varying from 0' to 3.5' to remove the existing coal ash located within the floodway. Also, coal ash will be excavated/dredged on 2.9 acres out of the floodway. An excavator will be used to do the excavation/dredging. The excavated coal ash material will be hauled off site to a landfill in Danville, Indiana where it will be properly disposed. The remaining surface area will be revegetated.

Project Location: Along the east bank of Little Raccoon Creek beginning approximately 3670' northeast (upstream) from the US 36 creek crossing and continuing southwest (downstream) for approximately 395' at Rockville

**Application #: FW-31844-0**

Received Date: 8/24/2022

Waterbody: Elkhart River

County: Noble

Applicant: Phil &amp; Tina Ball, 1111 N 750 W., , Ligonier, IN, 46767

Project Description: An existing 130' riprap seawall will be replaced with a new steel sheet piling seawall. The new wall will be approximately 4' high, as measured from the riverbed, will have the same alignment as the existing bank. The pilings will be driven approximately 4' into the riverbed and will be anchored with dead men spaced at 10' intervals. Clean fill will be brought onsite to backfill the area landward of the new seawall. The fill will be leveled with the top of the wall at the river and will be tapered back to existing ground elevations within the project site.

Project Location: 1111 Rochester Road near Ligonier

**Application #: PL-24705-0**

Received Date: 8/22/2022

Waterbody: Webster Lake

County: Kosciusko

Applicant: Webster Lake Conservation Association, Inc., Michael Wyrick, P.O. Box 79, , North Webster, IN, 46555

Project Description: A new 300' bioengineered seawall will be constructed along the shoreline of Webster Lake. The seawall will be composed of 6" to 12" diameter glacial stone jointly planted with native plants. Its lakeward face will be at the legal shoreline of the lake.

Project Location: 17 Ems W17A Lane near North Webster

**Application #: PL-24706-0**

Received Date: 8/22/2022

Waterbody: Webster Lake

County: Kosciusko

Applicant: Webster Lake Conservation Association, Inc., Michael Wyrick, P.O. Box 79, , , North Webster, IN, 46555

Project Description: A new 300' bioengineered seawall will be constructed along the shoreline of Webster Lake. The seawall will be composed of 6" to 12" diameter glacial stone jointly planted with native plants. Its lakeward face will be at the legal shoreline of the lake.

Project Location: 209 North Mulberry Street at North Webster

**Application #: PL-24711-0**

Received Date: 8/25/2022

Waterbody: Little Barbee Lake

County: Kosciusko

Applicant: Terry L Smith, 4399 East State Road 26, Hartford City, IN, 47348

Project Description: Approximately 4' of sediment will be removed from a man-made channel via mechanical dredging from a 150' by 20' area.

Project Location: 12 EMS B31 Lane near Warsaw

**Application #: PL-24718-0**

Received Date: 8/31/2022

Waterbody: Lake Wawasee

County: Kosciusko

Applicant: Jeff Mast, 8779 E Crow Rd, , , Syracuse, IN, 46567

Project Description: An existing 75' vinyl seawall will be refaced with steel sheet piling. The seawall will be composed of steel sheets driven into the lake bed and capped with steel. The lakeward face will be at install 1' lakeward of the existing vinyl seawall.

Project Location: 8779 East Crow Road near Syracuse
