DNR 30-DAY PUBLIC NOTICE

The Department of Natural Resources serves the DNR 30-Day Public Notice in order to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3.

The DNR 30-Day Public Notice is published weekly to serve notice of the latest permit applications received at the DNR, Division of Water. This Notice can be viewed on the web at <http://www.in.gov/dnr/water/> and can be provided by email upon written request. To receive the DNR 30-Day Public Notice as a weekly email attachment, email your full name and a valid email address to DNRPublicNoticeRecipient@dnr.IN.gov.

The permit applications and supporting documentation is available for public viewing on-line at <https://dowunity.dnr.in.gov/#>. For questions concerning a permit application, contact the Division of Water, Technical Services Section, at (317) 232-4160 or toll free at 1-877-928-3755 and select 1 during the recorded menu narrative.

Petition for Public Hearing

A pre-action public hearing on an application may be requested by filing a written petition. For a petition to be considered valid it must:

1. contain the typed or legibly printed name and complete mailing address of each petitioner;
2. be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. affirm that each signatory to the petition satisfies the requirements of item 2; and
4. identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted. To request a pre-action public hearing, send the petition by email to water_inquiry@dnr.in.gov or by mail to:

IDNR, Division of Water
Technical Services Section
402 West Washington Street, Room W264
Indianapolis, Indiana 46204-2641

Notification of Department Action

A person may request that the Department notify them when a Department Action is issued. To be notified of a Department Action, send a request that includes the permit application number or the applicant name, project description and county to email address water_inquiry@dnr.in.gov or by mail to the address above.

Permit Application Numbers with a prefix of:

FW are being reviewed under the Flood Control Act, IC 14-28-1 and the Flood Plain Management Rule, 312 IAC 10

PL are being reviewed under the Lake Preservation Act, IC 14-26-2 and the Public Freshwater Lake Rule, 312 IAC 11

DR are being reviewed under the Lowering of the Ten Acre Lake Act, IC 14-26-5

NW are being reviewed under the Navigable Waterways Act, IC 14-29-1

LM are being reviewed under the Navigable Waterways Act, IC 14-29-1 related to Lake Michigan

SG are being reviewed under the Sand and Gravel Permits Act, IC 14-29-3

AC are being reviewed under the Construction of Channels Act, IC14-29-4

DNR 30-DAY PUBLIC NOTICE

Date: 12/24/2025

Application #: FW-33553-0

Received Date: 11/26/2025

Waterbody: Foss Ditch

County: Lake

Applicant: Crossroads YMCA, Todd Sevenz-Coleman, 9801 Connecticut Drive Suite 150, , Crown Point, IN, 46307

Project Description: Two existing ponds will be dredged and the fill will be placed in three locations on site. The West Pond will be dredged and the pond bank will be cut. In addition, there will be two floating docks added to this pond. The East Pond will be dredged and the pond bank will be cut. In addition, there will be one floating dock added to this pond. There will be two areas within the floodway where the excavated material will be placed, and the third location will not be within the floodway. There will also be a temporary construction access that will be approximately 20' wide, 150' long, and 8" thick.

Project Location: 3838 West 141st Avenue at Crown Point

Application #: FW-33559-0

Received Date: 12/1/2025

Waterbody: St. Joseph River

County: St. Joseph

Applicant: Randy James, 125 South Lafayette Boulevard, Suite 100, , South Bend, IN, 46601

Project Description: The City of South Bend Building Department will be working to complete the Marion Street Pedestrian Bridge Project that will require 0.009 acres of impacts within the Saint Joseph River floodway for bridge placement. The project work includes the construction of a new 291.5' long x 13.75' wide x 19.67' tall double span steel truss pedestrian bridge. Total cumulative permanent impacts within the Saint Joseph River floodway include approximately 0.009 acres for the placement of 105.5 cubic yards of fill for bridge installation. Temporary impacts within the Saint Joseph River floodway are required for cofferdam installation to provide a dry work environment during construction. Total cumulative temporary impacts within the Saint Joseph River floodway include approximately 0.003 acres for the placement of 109.3 cubic yards of cofferdam. Temporary impacts are anticipated to be in place for 120 days. Disturbed slopes within the floodway will be restored to preconstruction contours then stabilized with the attached native floodplain seed mix and mulch.

Project Location: Approximately 450' east of the intersection of North St. Joseph Street and East Marion Street near South Bend

Application #: FW-33562-0

Received Date: 12/8/2025

Waterbody: Lautzenhizer Ditch

County: Fulton

Applicant: Fulton County Board of Commissioners, Seth White, 125 East 9th Street, , Rochester, IN, 46975

Project Description: The existing 55' x 4' x 4' corrugated metal pipe (CMP) culvert carrying East 125 South over Lautzenhizer Ditch will be replaced with a new culvert structure to improve the drainage structural integrity at the crossing. The new crossing will consist of a 65' x 4.5' x 4.5' long CMP culvert. Class I riprap will be placed at the outlet for scour protection. Riprap dimensions will be approximately 10' x 10' x 2'. Total permanent impacts will total approximately 0.0084 acres due to the culvert replacement and riprap placement. Temporary impacts will total approximately 0.0036 acres due to cofferdam use. No tree removal will be required.

Project Location: At the East 125 South stream crossing near Akron

Application #: FW-33564-0

Received Date: 12/8/2025

Waterbody: Brandywine Creek

County: Shelby

Applicant: Shelby County Highway Department, Ben Taylor, 25 West Polk Street, Room 206, , , Shelbyville, IN, 46176

Project Description: The bridge carrying 750 North over Brandywine Creek will be replaced (Structure No. 73-00022/NBI No. 7300022). The existing structure is a 92' long three-span concrete channel beam bridge. The new replacement structure is a 121.5' long three span, continuous haunched reinforced concrete slab bridge. The new bridge cross section will provide a clear roadway width of 24.5'. The approach roadway typical section will consist of two 10' paved travel lanes with a 2.25' shoulder on each side of the road. Total permanent impacts to Brandywine Creek will total approximately 0.121 acres due to the placement of 30" and 48" Class 2 Revetment Riprap for scour protection, and Wildlife Passages choked with 10" compacted aggregate. Permanent impact of non-wetland tree removal and early successional habitat will total approximately 0.33 acres. Total temporary impacts to Brandywine Creek will total 0.06 acres due to cofferdam and dewatering use.

Project Location: At the stream crossing of East 750 North over Brandywine Creek at Shelbyville
