

# **ADDENDUM NO. 2**

## **JULY 24, 2015**

PREPARED BY SCHMIDT ASSOCIATES FOR:  
**WILLOW SLOUGH SHOOTING RANGE**  
**INDIANA DEPARTMENT OF NATURAL RESOURCES**

### **PART 1 - CHANGES TO PRIOR ADDENDA**

#### **1.1 ADDENDUM NO. 1**

A. MODIFY the Response to the Question in Addendum No. 1 regarding certification as follows:

“Q. Do subcontractors providing more than \$150,000 of work have to be certified per state requirements prior to bidding or prior to construction?

A: Certification is required 45 days from the date of the bid or before they begin work on site; not prior to bidding.”

### **PART 2 - CHANGES TO THE PROJECT MANUAL**

Modifications described herein shall be incorporated in the Project Manual. All other Work shall remain unchanged.

This Addendum consists of 4 Addendum page(s) and the following attachments totaling 26 pages:

- General Decision Number – IN15 (Wage Determination).
- CD101/CD102.

Acknowledge receipt of this Addendum by inserting its number on the Bid Form. Failure to do so may subject the Bid to disqualification. This Addendum is part of the Contract Documents.

#### **2.1 DIVISION 00 – PROCUREMENT AND CONTRACTING REQUIREMENTS**

A. Document “WAGE DETERMINATION”

1. REPLACE the Davis Bacon Wage Rates issued in the Project Manual with the attached, revised Wage Rates.

#### **2.2 DIVISION 31 – EARTHWORK**

A. Section 313100 “SOIL TREATMENT”

1. DELETE Section 313100 "SOIL TREATMENT" in its entirety. This project will not include soil treatment work. Section 313111 "EXCAVATION, SCREENING, AND RECYCLING OF LEAD FRAGMENTS" shall remain as indicated.

### **PART 3 - CHANGES TO THE DRAWINGS**

Modifications described herein shall be incorporated in the Drawings. All other Work shall remain unchanged.

#### **3.1 C-SERIES DRAWINGS**

##### **A. Drawing Number CL101 SITE LAYOUT PLAN**

1. MODIFY Plan Note No. 1 as follows:

"Main access drive and parking areas. Base Bid: Driveway and Parking Lot – Install new stone pavement. Remove existing asphalt as required. See detail 1D/CL501. Alternate Bid: Driveway and Parking Lot – Standard Asphalt Pavement. See detail 1C/CL501".

##### **B. Drawing Sheet CL401 GENERAL NOTES**

1. Add the following to the GENERAL NOTES:

"3. Finish on precast concrete planks: The finish for the precast concrete planks shall be as cast on forms for sides and bottom and one-pass steel trowel on top surface.

4. All structural steel and connection plates, angles and bolts shall be galvanized and painted with High-Performance Coating System. All screws anchors shall be stainless-steel.

5. The finished sides of all concrete walls are to be rubbed."

##### **C. Drawing Number CD101 and CD102**

1. MODIFY Drawing CD101 and CD102 as follows:

Revise extents, depths, and required treatment for lead impacted soils in existing firing range areas. See attached drawing CD101 CD102 Add2.

#### **3.2 CS-SERIES DRAWINGS**

##### **A. Drawing Sheet CS101 – RANGE FOUNDATION PLAN**

1. Provide section mark 8/CS401 along grid line E where the earth berms against the new concrete wall.

B. Drawing Sheet CS401

1. Section 6: Length of concrete pier to be 14'-0". Revise tie spacing to read 13 @ 12" in lieu of 11 @ 12".
2. Typical C.I.P. Concrete Wall Expansion Joint (E.J.) Detail: Revise note to read that joint spacing can be maximum 90' o.c.

**3.3 A-SERIES DRAWINGS**

A. Drawing Number A-310 WALL SECTIONS

1. ADD Note to the Accessory Schedule as follows:  
ELECTRIC HAND DRYER – WALL MOUNTED; BASIS-OF-DESIGN "BRADLEY AERIX MODEL 2902-287300"

**3.4 I-SERIES DRAWINGS**

A. Drawing Number 1A/I-101 INTERIOR PLANS

1. ADD Note to Sales Room A101 as follows:  
"Wall: P-2, Floor: VCT, BASE: VWB"

B. Drawing Number 1D/I-101 INTERIOR PLANS

1. ADD Note to Sales Room A101 as follows:  
"Wall: P-2, Floor: VCT, BASE: VWB"

**3.5 E-SERIES DRAWINGS**

A. Drawing Number ES-101

1. Receptacles mounted on steel columns: Refer to Detail 2/CS401. Furnish and install 20 amp duplex, GFI receptacle with in-use weatherproof cover on inside web of flange, 18 inches above grade.

B. Drawing Number E-601

1. ADD to Light Fixture Schedule as follows:
  - a. "Light Fixture Type K1: Provide surface-mounted option kit that mounts to underside of structure.
2. Panelboard Schedule: Panelboard 12A1: Add 3 pole, 30 amp circuit breaker. Install surge suppression device adjacent to panelboard 12A1. Tie into 3 pole, 30 amp circuit breaker.

**END OF ADDENDUM 1**

**AVAILABLE PROJECT INFORMATION**

The following information is being made available to Bidders for informational purposes only and is not a part of the Addendum.

Attached Addendum No. 2 Bidders Questions and Answers.

General Decision Number: IN150005 07/10/2015 IN5

Superseded General Decision Number: IN20140005

State: Indiana

Construction Type: Building

Counties: Elkhart, Jasper, Kosciusko, Lagrange, Marshall, Newton, Pulaski and Starke Counties in Indiana.

LAGRANGE COUNTY

BUILDING CONSTRUCTION PROJECTS (does not include single family homes and apartments up to and including 4 stories).

Note: Executive Order (EO) 13658 establishes an hourly minimum wage of \$10.10 for 2015 that applies to all contracts subject to the Davis-Bacon Act for which the solicitation is issued on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.10 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at [www.dol.gov/whd/govcontracts](http://www.dol.gov/whd/govcontracts).

TRUCK DRIVER CLASSIFICATIONS

GROUP 1: Single Axle Trucks seven (7) cu.yds. or less than ten and one-half (10 1/2/) tons, dumpsters, scoop-mobiles five (5) cu.yds. and under or less than seven and one-half (7 1/2) tons, mixer trucks three (3) cu.yds. and under, air compressors and welding machines, including those pulled by separate units, batch trucks-wet or dry-2 "34-E" batches or less, truck driver helpers, warehousemen, mechanic's helpers, greasers and tiremen, all pick-up trucks and other vehicles. Drivers on dumpsters or similar dumpsters, mounted on four (4) wheel truck rated two (2) cu.yds. or less, and small pallet type fork-lift operator and drivers on pallet jacks or similar type equipment.

GROUP 2: Drivers on tandem axle eighteen (18) cu.yds. or twenty-four (24) tons gross, six (6) wheel trucks, Koehring or similar dumpsters, tract rucks, Euclids, hug bottom dumps, tournapulls, tournatrailers, trouarnarockers, or similar equipment when used for transportation purposes

under nine (9) cu.yds. or less than thirteen and one-half (13 1/2) tons, tandems and semi-trailer service trucks, mixer trucks over three (3) cu.yds., fork lift, four (4) wheel A-frame trucks when used for transportation purposes, four (4) wheel winch trucks, pavement breakers, batch trucks-wet or dry-over 2 up to and including 4 - "34-E" batches two (2) men oil distributors, fork-lift under four (4) ton and vacuum trucks.

GROUP 3: Koehring or similar dumpsters, tract trucks, semi-trailer water trucks, Euclids, hug bottom dumps, tournapulls, tournatrailers, tournarockers, tractor-trailers, tandems Q-frame winch trucks, hydrolift trucks or similar equipment when used for transportation purposes, mixer trucks over six and one-half (6 1/2) cu.yds. batch trucks wet or dry over 4 - "34-E" batches single axle low boy trailers, and Contractor's mechanics when working on equipment operated by employees within this Bargaining Unit. Six (6) wheel pole trailers and one (1) man oil distributors, fork-lift over four (4) ton and mobile mixers.

GROUP 4: Drivers on heavy equipment over sixteen (16) cu.yds. or twenty-four ton, such as Koehring or similar dumpsters, tract trucks, Euclids, hug bottom dumps, trounapulls, tournarockers or similar equipment when used for transportation purposes, pole trailers over six (6) wheels, water pulls, low-boy trailers, tandem axles, quad axle or more no-weight limitation, diseal and/or heavy equipment mechanics when working on equipment operated by employees with this Bargaining unit.

GROUP 5: Mechanic furnishing his own tools.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

-----

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and

the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

#### Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

---

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal

process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

## Willow Slough Firing Range Renovations Project

### Addendum No. 2 - Bidder Questions and Answers:

1. Question: Can clean fill such as concrete, stone and asphalt be left on site as well either stockpiled or under a berm or in borrow pit? **Only clean fill shall be reused on site. All demolished construction materials, such as concrete, stone, and asphalt shall be hauled off site.**
2. Question: Base bid is repair the existing asphalt drive which is in bad shape already and if the Alternate for the drive is not accepted, will the drive make it due to heavy construction traffic? We are asked in base bid to repair something that is already failing. Can we quantify the repairs or carry a base bid repair allowance? **Answer: See Addendum #2 – Layout Key Note #1 is revised to clarify base bid scope of work for entrance drive.**
3. Question: Addendum #1 Pre bid meeting Q/A says all contractor Prime and Sub must be state certified prior to bidding. Can you please verify because I called the Executive Secretary of Certification Board and she stated subcontractors holding a contract in excess of \$150,000 must be state certified 45 days from the date of the bid or before they begin work on site and not prior to bidding? **This statement is correct. Certification is required 45 days from the date of the bid or before they begin work on site; not prior to bidding. This was incorrect in Addendum No. 1 and has been corrected in Addendum No. 2.**
4. Question: The drawings doesn't show what the finishes are for room A101 Sales. (Sheet I-101) Can you please provide this information? **Answer: See Addendum #2 – Room A101 Sales shall be finish with "WALL: P-2, FLOOR: VCT, BASE: VWB".**
5. Question: K1 strobes is there a detail on how units are mounted? **Answer: Install the surface mounted option kit that mounts to the underside of structure.**
6. Question: Speakers and receptacles Is there a detail how they are mounted? **Answer: Refer to detail 2/CS401, install 20 amp duplex receptacle with in-use weatherproof cover on inside web of flange, 18" above finish grade. The intent of the speaker mounting is to use a wall mount bracket. + 8' A.F.F.**
7. Question: Hand dryers is there a spec number? **Answer: See Addendum #2 – The Specification number is 102800 TOILET, BATH, AND LAUNDRY ACCESSORIES. The Basis-of-Design for the Electric Hand Dryers on the Accessory Schedule on Drawing sheet A-311 should say "Bradley Aerix Model 2902-287300".**
8. Question: Ref dwg E601 One line, Do you want a meter? **Answer: Meter is furnished and installed by NEWTON COUNTY REMC.**
9. Question: Where will the transformer be located? **Answer: The utility transformer is shown on E601 – Electrical Service Detail, pole mounted.**
10. Question: Are the precast connections (connection hardware) to be galvanized or stainless steel, both are in the specs? There is a note on sheet/drawing 1/CS401 that all steel surfaces are to be galvanized and painted. Another note say use 6 GA 4" galvanized plate to be screwed to the precast with stainless screws 8" o.c. typical at each joint. Can the architect clarify? **Answer: All structural steel and connection plates and angles shall be galvanized and painted with a High Performance Coating System (Specification Section 099600.99). All anchors (screws and bolts) shall be stainless steel.**
11. Question: Precast finish – Grade B –as cast smooth? **Answer: As cast on form side (sides and bottom) and one-pass steel trowel on top side.**

12. Question: on CL402 the sections are not labeled, can you and I think we are missing one wall section. Answer: Wall sections on CL402 labeled 1A, 1B, 1C, 1D, 5D are in order from north to south as shown in plan on CL401. The missing wall section appears to be the short wall in the middle of the 50-yard range target area; this wall section will be the same as the western most 29 feet of wall section 1A.
13. Question: Your note on detail 8 on CS401, are you saying we pour a wall 2' wide by 2/3 high then step in and for 12" wall what about the shelf it creates no problem? Answer: Bid as shown.
14. Question: Detail 6 shows pier at 12' deep and detail one at 14' deep can you tell me which one to use on page CS401? Answer: See Addendum #2.
15. Question: Your Wall expansion joint can they be stretched to 90' for detail 1B on page CL402? Answer: See Addendum #2.
16. Question: Is it your intent for the finished side of the wall to be rubbed or just form stripped from finish. Answer: See Addendum #2.
