

Snow Goose Hunters

During the Light Goose Conservation Order, light geese may be hunted by self-service procedures on all units south of C.R. 200 S., excluding Fields B, C, and D until 3 p.m. daily at Goose Pond Fish & Wildlife Area (FWA).

This conservation order is open statewide Feb. 13 – March 31, 2023.

- Legal species include snow geese and Ross' geese (white and blue phases of both species are legal).
- You must have an Indiana hunting license and an Indiana waterfowl stamp to participate. Neither a federal waterfowl stamp nor an HIP number is required.
- You must also have a special free permit to participate. These permits will be available beginning in early January at Indiana Fish & Wildlife areas, or via the website beginning in December.
- Shooting hours are from one-half hour before sunrise to one-half hour after sunset. (Shooting hours end at 3 p.m. at Goose Pond FWA).
- It is legal to take light geese during the conservation order using electronic callers and/or shotguns capable of holding more than three shells.

Indiana Department
of Natural Resources

- The shell limit in effect during the teal, duck, and dark goose seasons does not apply during the conservation order at Goose Pond FWA.
- There is no bag or possession limit for light geese during the conservation order.
- Please report any banded geese taken. You may report these bands by calling toll-free 1-800-327-BAND, or [online](#).
