This page includes information and instructions for those interested in or selected to participate in an Indiana Dove Hunt Draw. It is important to note that areas participating in reserved hunts are managed by various agencies and may have unique restrictions that each hunter must follow. Please read each area's information packet carefully before pursuing a hunt.

On Sept. 3-7 hunters will be selected by an in-person drawing for choice each day at 11 a.m. CT / Noon ET.

Only hunters present at in-person draw are eligible to hunt the first 7 days of season.

Area Information:

Jasper-Pulaski Fish & Wildlife Area, located 6 miles north of Medaryville, Indiana, provides quality outdoor recreational opportunities while maintaining 8,179 acres of wetland, upland, and woodland game habitat. It provides an ideal stopover for migratory birds.

The property has several managed dove fields available and will have enough areas for about 70 hunters each day. Most of our dove fields can be accessed by a brief walk and all fields will have parking within a reasonable distance.

We leave standing corn and sorghum for hunter concealment; hunters must hunt from corn or sorghum the first seven (7) days of season. The dove fields will differ in quality and size given the many factors that may affect the outcome of sunflower plantings.

Accurate field maps will be posted to the property web-page when we can determine the success of each field. Maps will be posted approximately one month before the season opens at on.IN.gov/jasperpulaskifwa

The first few days of dove season are very popular at Jasper-Pulaski FWA. We ask that each hunter do their part to keep litter contained and showcase ethical hunting to help preserve our natural resources for generations to come.
