(1992)**
- 2. Guide to Indiana's Lakes**
- 3. Lake Listings by County**

DISCLAIMER

This document contains selected excerpts from the Indiana Lakes Guide published by the IDNR Division of Water in 1993. Its purpose when printed was to serve as a simple reference for lakes and reservoirs for which general information was available. It is not a complete listing of every lake, pond, or reservoir in the state and should not be considered an exhaustive listing. It can be useful in determining geographic locations of various lakes, their approximate size and availability of access facilities – whether privately or publicly operated.

Inclusion of a lake in the list is not an indicator of the lake's ownership.

This document is not to be confused with any list of “public freshwater lakes” that may be adopted by the Indiana Natural Resources Commission, and should therefore not be considered the authoritative listing on whether any permit may be required for activities involving the lake.

For more information on permits regarding Indiana lakes, please refer to the website of the IDNR Division of Water: <http://www.in.gov/dnr/water/9412.htm>
