Vacant
Grant Specialist
Lake Michigan Coastal Program

Coastal Zone Management Act 1972

Approved program in 2002

Program Area – Lake Michigan watershed and 45 miles of Lake Michigan shoreline

Coordinated program based on existing laws

Created a Coastal Grant Program
The mission of the Lake Michigan Coastal Program is to protect and enhance coastal resources by providing technical and financial assistance and coordination to partners.
LMCP Priorities

**NOAA**

Vision:
Through a strong federal, state, and territory partnership, the nation’s oceans and coasts are economically vibrant, resilient, and healthy for this and future generations.

**LMCP and NOAA**

- Indiana coastal communities are effectively planning and preparing for change
- Coastal ecosystems are protected, preserved, and restored for use and improved public access
