

APPLICATION FOR COAL BED METHANE WELL PERMIT

State Form 54785 (R / 8-12) / Form A15
Approved by State Board of Accounts, 2012

INDIANA DEPARTMENT OF NATURAL RESOURCES

DIVISION OF OIL AND GAS

402 W. Washington St., Rm. 293

Indianapolis, IN 46204

Telephone number: (317) 232-4055

Fax number: (317) 232-1550

<http://www.in.gov/dnr/dnroi>

FOR STATE USE ONLY

Application number 050948 Permit number 56150 Date received (month, day, year) 6/22/22

Date approved (month, day, year) Approved by

IGS identification number 168363 IGS samples Yes No IGS pool name Princeton West

PART I

GENERAL INFORMATION

Name of operator Pioneer Oil Company, Inc. Telephone number (812) 494-2800 Fax number (812) 494-2508

Address of operator (number and street or PO Box) (Check here if this is a new address)

400 Main Street P.O. Box 237

City Vincennes State Indiana ZIP code 47591-

Send permit to (Enter name and address) Brandi Stennett- Pioneer Oil Company, Inc. Telephone number (812) 494-2809 Fax number () -

Check here if you would like to have the permit sent via FAX or email. Email address: bstennett@pioneeroil.net

Applicant is (Check one only) Individual Partnership Public corporation
 Limited liability company Corporation Limited partnership

NOTE: Corporations, limited partnerships and limited liability companies must register with the Secretary of State. For further information about registration, contact the Corporations Division, Secretary of State at (317) 232-6576

Type of bond (Check one only)

Surety bond Check
 Blanket bond Personal surety bond (Valid for Non-commercial gas wells only)
 Certificate of deposit Bond not required per IC 14-37-6-1

NOTES: A bond must accompany this application unless the operator has a valid blanket bond on file with the division or is exempt from bonding under IC 14-37-6-1. All bonds must be originals and an original Verification of Certificate of Deposit form must accompany CD's. Checks must be certified. The bond amount for individual wells is \$2,500 and for blanket bonds is \$45,000.

Well type (Check one only)

Coal Bed Methane - Check the boxes below beside items that are attached to the application:
 Non-Commercial Coal Bed Methane - Check the boxes below beside items that are attached to the application:
 Form A12 – Coal Owner's and Coal Lessee's Consent Forms (Coal is leased),
 Form A14 – Coal Owner's Consent Form (Coal is not leased),
 Notices of Intent to Apply for a CBM permit and Affidavit of No Waste of Coal Resources or Miner Endangerment with

Proof of Service to Coal Owner and Coal Lessee if no Consent Forms are attached (See Application Reminders).

Notice of Intent to Survey with Proof of Service to Surface Owner (Required for every application),

Well Stimulation Plan; OR Well will not be stimulated,

Horizontal Drilling Plan (If applicable),

Plugging Plan for Horizontal Well (If applicable).

Statement of Protection of Coal for Future Underground Mining (Required for every application)

Received

JUN 22 2022

Application type (Check no more than two)

New well Change of operator (Complete PARTS I, II, VI and VII indicating lease lines and drilling unit boundaries, only unless another application type is also checked)
 Old well workover Permit renewal (Complete PARTS I, II and VI only unless another application type is also checked)
 Old well deepening
 Horizontal well sidetracking
 Conversion
 Change of location
Note: A \$250 permit fee is required.

Fee Payment Method: Check Credit Card (Attach credit card information on separate page or provide contact number: () -

Former operator (If applicable) Former Permit number (If applicable)

PART II

SURFACE LOCATION AND LEASE INFORMATION

Name of lease Marvel						Well number 2	Elevation (G.L.) 400' 402 as per plat	8/16/22 AMR
Township 1 S	Range 11 W	Land type Section Land number: 33	<input checked="" type="checkbox"/> 1/4	<input type="checkbox"/> 1/4	<input type="checkbox"/> 1/4 SE	Footages: 149 ft. from <input checked="" type="checkbox"/> N, <input type="checkbox"/> S, <input type="checkbox"/> NW, <input type="checkbox"/> SE line 1724 ft. from <input type="checkbox"/> E, <input checked="" type="checkbox"/> W, <input type="checkbox"/> NE, <input type="checkbox"/> SW line		
County Gibson		Distance to the nearest well capable of production from the same zone in which this well will be completed: >990 feet 955 as per operator 8/15/22 AMR						
Drilling unit acreage (Check one only) <input type="checkbox"/> 40 acres <input checked="" type="checkbox"/> Other <u>Not Applicable</u> acres (Attach unit exception or petition for exception and supporting documentation)						<input type="checkbox"/> Check here if acreage is communized (pooled) NOTE: Attach a copy of the unit agreement or declaration of pooling. If previously submitted identify the permit number under which it was submitted: Permit No.		
Lease acreage <u>447.1135</u> Acres	Does operator own or control the rights to drill and produce coal bed methane in and under all land(s) within the drilling unit boundary and the lease acreage herein indicated and shown on the attached Survey? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No, explain the basis upon which the operator claims the right to drill and produce coal bed methane under this permit. Describe the documents that convey the rights by type and date of execution.							
<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Does this application include a Notice of Intent to Survey and proof of delivery to the surface owner?							

PART III

PROPOSED WELL CONSTRUCTION

 Check here and go to PART IV if the well presently exists and the construction will not change

Enter casing strings from largest to smallest and enter the cement information on successive rows for a casing string that will be set using multi cement stages.

Casing Information					Cementing Information			
Casing Size (OD)	Casing Type	Casing Bottom	Casing Top	Hole Size	Cement Type	Cement Volume	Volume Type	Cement Yield

PART VI**AFFIRMATION**

I affirm under penalty of perjury that the information provided in this application is true to the best of my knowledge and belief.

Typed or printed name of operator or authorized agent

Branch Stennett

Signature of operator or authorized agent

Branch Stennett

Date signed (month, day, year)

6/3/2022

SPECIAL REQUIREMENTS

1. Incomplete applications will be returned to the operator **without** being processed.
2. **Only** those individuals whose signatures appear in PARTS V and VI of the Organizational Report may sign this form.
3. The name of the operator on this application and the name of the principal on the bond **must** be identical.
4. If you are applying for a Change of Operator permit you are certifying that you have conducted a good faith search for the current operator and said operator could not be located.
5. If you are applying for a new well permit, do not forget to include the **Notice of Intent to Survey** and proof of service required under IC 32-23-7-6.5 that must be sent to the surface owner at least five (5) days prior to entering onto the property for the purpose of surveying the well location. An example of the notice is available on the division's website under Publications/Notices and Examples.

Received

APPLICATION REMINDERS

JUN 22 2022

Division of Oil & Gas**PART I:**

- Enter the name of the operator exactly as it appears on the Organizational Report.
- If you want to have a copy of the permit certificate faxed to you please check the appropriate box.
- Don't forget to register with the Indiana Secretary of State if you will operate as a Corporation, Limited Liability Company or Limited Partnership.
- Don't forget to attach the \$250 permit fee.
- If a Certificate of Deposit is selected as the Bond Type, don't forget to attach the original CD and original Verification of Certificate form.
- Check **all** of the appropriate boxes under Well Type to indicate which attachments are being submitted with this application. Required attachments **MUST** be included with the application or it will not be processed.
- If no Coal Owner and Coal Lessee (if coal is leased) consent forms are attached and if there is no copy of a written agreement that specifies other terms of notification of the operator's intent to drill a well for coal bed methane, the operator must send a **Notice of Intent to Apply for a CBM Permit** to the Coal Owner and Coal Lessee and submit a copy of the notice along with proof of service and an Affidavit of No Waste of Coal Resources or Miner Endangerment must accompany the application. An example of the Notice of Intent is available on the division's website under Publications/Notices and Examples.
- The Horizontal Drilling Plan and Plugging Plan for Horizontal Well must be submitted only if the proposed well declination is horizontal.
- If the proposed well will be stimulated, a Well Stimulation Plan must be submitted. Otherwise, check the box indicating that the well will not be stimulated.
- The Statement of Protection of Coal for Future Underground Mining must demonstrate that commercially minable coal outside of the coal bed methane production area is adequately protected for future underground mining.
- Examples of the required notices and affidavits may be found on the division's website under Publications – Notices and Examples.

PART II

- For this proposed coal bed methane well, be sure to indicate the distance to the nearest well capable of production from the same formation for which this permit is to be issued and make sure you check the rule requirements on well spacing to avoid placing the well an insufficient distance from an existing well.
- If you check the communized box you must attach a copy of the pooling agreement or specify the permit number for the well under which the pooling agreement was previously submitted.
- If you check the Other box under the Drilling Unit section make sure to attach a copy of the exception.
- You must indicate that you own or control all of the coal bed methane within the proposed drilling unit before a permit can be issued. If you do not own or control all of the coal bed methane within the proposed drilling unit you must describe the basis upon which you claim the right to drill and operate a well for coal bed methane production.

PART III

- This part is used by the division to determine if your proposed well construction will meet the rule requirements. Please be sure to enter all information about the proposed construction so that it can be evaluated accurately.

PART IV

- For all wells, be sure to specify the proposed total vertical depth, name of the deepest formation to be drilled, lowest coal seam to be targeted and the pool name.
- For horizontal wells, be sure to specify the proposed measured length.
- Include the names and addresses of the surface owner, coal owner(s) and coal lessee(s).

PART V

- The well diagram must be completed for all Coal Bed Methane well applications.
- Indicate the proposed depths of all centralizers. Proof of cement should be submitted with the completion report and Form R12—Verification of Coal Seam Protection Report in the form of cement tickets or a cement bond log.

PART VI

- Applications that do not contain an original signature cannot be processed.
- The signature must match a signature shown in Parts VI or VII of the operator's Organizational Report.
- If this application is for a Change of Operator your signature in PART VI certifies that you could not obtain this permit through the permit transfer process ONLY because the former operator could not be located.

PART VII

- If a coal bed methane well is intended to be hydraulically fractured, on either the well survey plat or a separate map, plot the location of the proposed coal bed methane well, labeling the distances to the closest quarter-quarter section (or other land type) lines. Draw a 500 foot (or the estimated half length of the proposed hydraulic fracture plane) radius circle around the well location. Inside the circle, plot all known water wells and all oil or gas wells that are deep enough to intersect the coal seams and label the oil and gas wells with the assigned permit number.

Important: A permit issued as a result of this application is a license to conduct an activity and does not convey any property rights to the permittee. Consequently, the permittee is solely responsible for acquiring any and all property rights necessary to use the permit for its stated purpose.

PART VII

SURVEY

General Instructions

Use a 1"=1000' scale

Surveyor must complete the following:

- Clearly indicate the section township, and range on the survey, spot the well and show the footages from the lines.
- Use the surveyor's notes to explain deviations from a standard location such as topography and irregular sections.

Operator or authorized agent must complete the following:

- For oil or gas wells, separately outline the boundary of both of the following using different colors or line styles:
 - the leased or communized area; AND
 - the drilling unit allotment.
- For all Directional and Horizontal wells show the surface location, kickoff point, AND termination point of the well.
- For all Horizontal wells identify the points where each horizontal drainhole enters and departs the target zone.
- For Enhanced Recovery and Saltwater Disposal wells, draw a 1/4 mile radius circle around the proposed well, spot all other wells (plugged or unplugged) that intersect the proposed injection zone(s), and put the permit number of each well over the spot.

NOTE: You must show the entire 1/4 mile radius circle around proposed Class II wells**SURVEYORS' NOTES:**

PO Box 160 323 West 3rd St Mt. Carmel, IL 62863

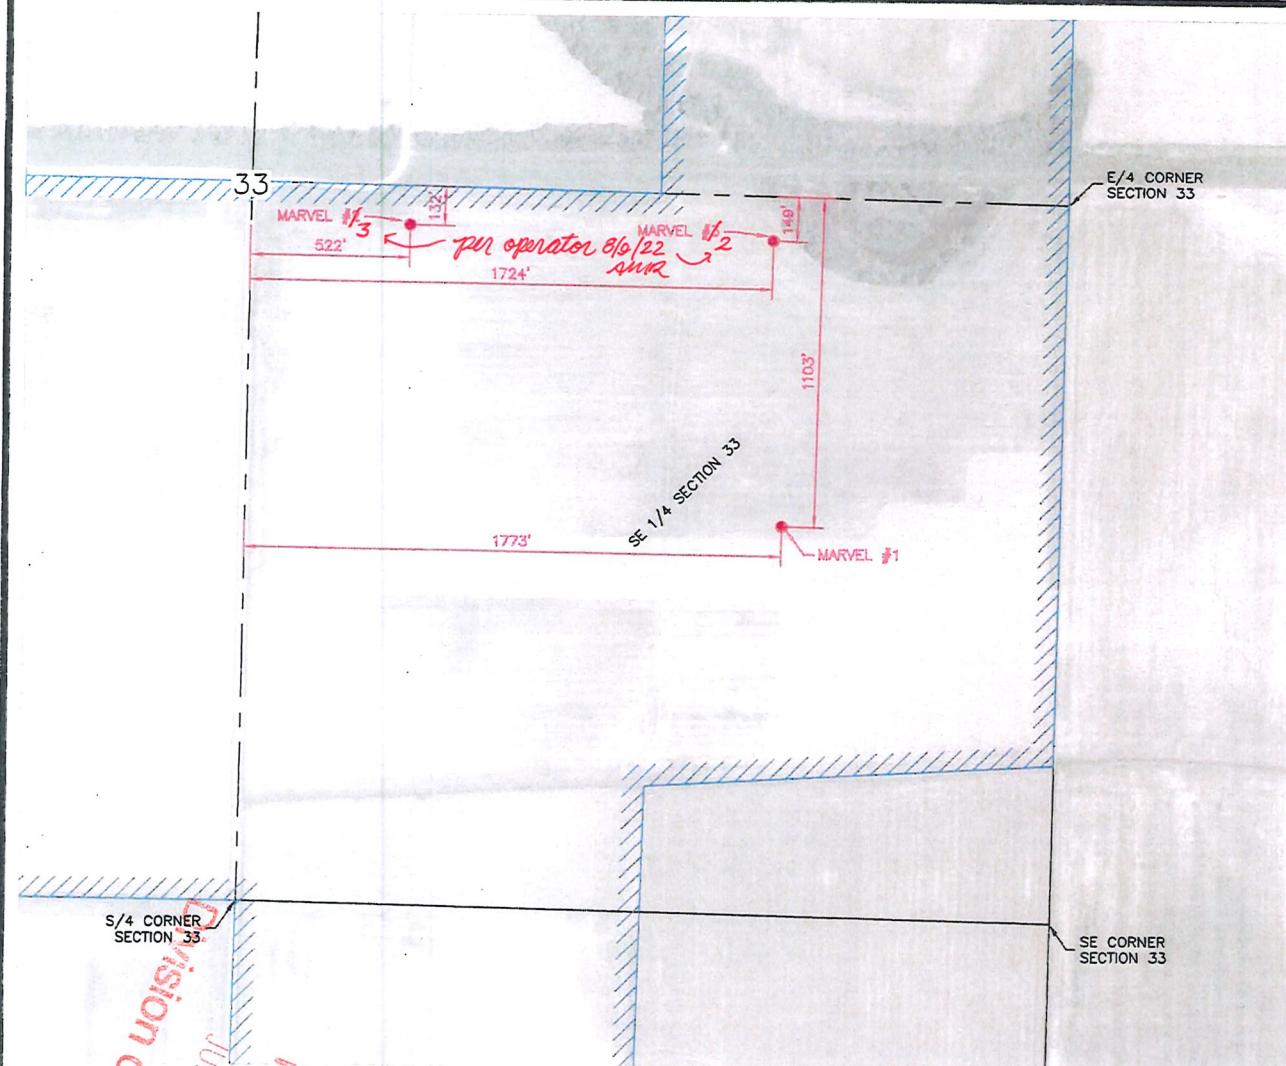

Telephone number

(618) 262 - 8651

Special PART VII Requirements

1. You should adjust the location of the center of the section on the diagram so that the entire set of information in the General Instructions shows on a single survey plat. (Example: If a horizontal well will begin in one section but terminate in another section, you should move the section center point so that portions of both sections appear on the plat.)
2. Surveyor must be registered under IC 25-21.5. This form must contain an original signature and original seal.
3. Coordinates should be based upon NAD 1983 Datum, Universal Transverse Mercator (UTM) Coordinate System, Zone 16N.

Gibson County Coal, LLC

In accordance with IC 14-37-4-8.5 (d), we the Operator, Pioneer Oil Company, Inc. are required to notify the coal lessee of our intent to drill CBM wells at the location described as: Section 33 Township 1S Range 11W in SE Quarter, in Gibson County, Indiana.

Please find a Coal Owner or Coal Lessee Consent form ST 54405 for your review and signature. If you choose to execute the consent form, please return this form to our office in the enclosed envelope.

We have also enclosed the official notices required including the Intent To Apply for a Coal Bed Methane well permit and affidavit of no waste of commercially minable coal and no endangerment of the health and safety of coal miners.

If you would like to reach us regarding concerns, you may do so at the contact information below.

PART III**AFFIRMATION AND SIGNATURE**

I, the undersigned, affirm that I am either the owner or lessee (select one) of the right to the coal on the above described parcel(s) and that I have given my consent to the extraction of the coal bed methane from said coal by Pioneer Oil Company Inc. I acknowledge that the recovery of coal bed methane might result in waste of the commercially minable coal resources.

NOTICE OF INTENT TO APPLY FOR A Coal Bed Methane Well Permit

Pioneer Oil Company, Inc. 400 Main Street Vincennes, IN 47591 intends to submit to the Division of Oil and Gas an application for a permit to drill and construct a well to be used for the production of Coal Bed Methane. The well will be located 149 feet from the N line, 1724 feet from the W line, SE quarter, in Section 33, Twp. 1S, Rng. 11W, Gibson County, Indiana.

The subject well, Marvel #2, is intended to produce coal bed methane from the Springfield #5 coal seam at an approximate depth of 467 feet.

Written comments and objections to the issuance of a permit for this well based on the premise that the well will result in waste of a commercially minable coal or that the well will endanger the health and safety of miners must be submitted to the Division of Oil and Gas within thirty (30) days of the receipt of this notice and should be mailed to:

Division of Oil and Gas
Department of Natural Resources
Attn: Technical Services Section
402 W. Washington Street, Rm. W293
Indianapolis, IN 46204-2748

After the application is submitted, you may obtain a copy of or further information about the application by contacting the division at (317) 232-4055. The submitted application will be made available for review at the above address from 8 A.M. to 4:30 A.M. EST, Monday through Friday, or on the division's website at: www.in.gov/dnr/dnroi.

Optional:

I acknowledge that I have received this notice of intent to apply for a coal bed methane well permit.

AFFIDAVIT

In accordance with IC 14-37-4-8.5(d), Pioneer Oil Company, Inc., hereby certifies that the proposed well - Marvel lease – located in Section 33, Twp. 1S, Rng. 11W, Gibson County, Indiana is intended to produce coal bed methane from the Springfield #5 Coal coal which has an average thickness of 7 feet at an approximate depth of 467 feet. The proposed well is located approximately 6 miles from Gibson South Coal Mine an existing underground coal mine operation. The owner of the coal, Mark Marvel, David Marvel & Sandra Bury, does not have experience in the underground mining of coal. The proposed well will be a vertical well drilled with a TD of 550 with longstring set approximately 6 feet above the top of the coal seam which may have an effect on the integrity of the coal seam.

Pioneer Oil Company, Inc. has performed the following actions to verify that the proposed activities for which a permit is being sought do not and will not result in waste of a commercially minable coal resource or the endangerment of the health and safety of coal miners:

The North Gibson mine is closed and these coal corridors are no longer viable for underground mining, therefore there are no endangerment of health and safety of coal miners and will not be a commercially minable waste of coal resources.

This affidavit accompanies the notice of intent to apply for a Coal Bed Methane Well Permit.

Subject: Correction on Gibson County Coal Notice 6-6-22

Importance: High

Mr. Henderson:

Please see the attached correction of the township and range in the cover letter and coal owner or coal lessee consent form pertaining to the Marvel #1, Marvel #2 and Marvel #3 wells. The correction is Township 1 South and Range 11 West in Gibson County, Indiana. These corrections have been made with Indiana Department of Natural Resources and will be published on the DNR website and database for public review.

Respectfully,

Brandi Stennett

Brandi,

There are no attachments or enclosures to the letter you have attached. Does this also relate to the Marvel #1, #2, and #3 applications?

Thanks.

STATEMENT OF PROTECTION OF COAL FOR FUTURE UNDERGROUND MINING

In accordance with IC 14-37-4-8(d)(4), Pioneer Oil Company, Inc. declares that commercially minable coal outside of the coal bed methane production area that contains the proposed coal bed methane well, Marvel #2, is protected for future underground mining for the following reasons:

- o No hydraulic fracturing will be performed on Springfield #5 coal that will be used for coal bed methane production
- o The proposed well is at least 500 feet (or the estimated or calculated fracture half length) inside of the outside boundary of the coal bed methane production area.
- o The proposed well is not being drilled horizontally within the coal seam.
- o Other (please specify)

Re: Marvel #1, #2 & #3; Gibson County, IN

Dear Ms. Rosales:

This letter supplements Pioneer Oil Company's Application for Coal Bed Methane Well Permit.

Our intention is to drill and complete the well as set forth in the application into the mine void and test the gas quantity and quality. The results of that testing will help inform our decisions regarding use, marketing and/or flaring of the gas encountered and prevent waste. The gas volumes and composition will help determine whether it can be sold into the pipeline, blended with our other gas to achieve pipeline quality, used in our operations, used to generate electricity, or flared. In any of these uses the mineral interest owner will be paid for the extracted gas and it is expected that monetizable credits will be earned. Thus, the current stranded gas will be commercialized, and waste prevented. We plan to configure our infrastructure near the wellhead to provide flexibility to accommodate such different uses. The separate gas streams will be monitored for rate and composition. Valves and meters will be installed to accommodate ongoing adjustment and landowner royalty and State of Indiana severance tax settlement, therefore there will be no waste of resources.

Respectfully,

Brandi Stennett
Director of Regulatory Compliance

Dear Ms. Rosales,

Please find enclosed permit applications from Pioneer Oil Company, Inc. to permit CBM wells, Marvel #1, Marvel #2, & Marvel #3 which are located over an abandoned coal mine formerly operated by Gibson County Coal, LLC. We have enclosed copies of all notices supplied to the coal lessee and the green card that was signed as they were accepted in the packet of the three applications mailed together. MSHA has classified this mine as abandoned and therefore no protection of workable coal is required and presents no hazards to coalminer safety. Pioneer Oil Company has coordinated the location and construction of this proposed well to penetrate the mine void CBM only.

Respectfully,

Brandi Stennett
Director of Regulatory Compliance
Pioneer Oil Company, Inc.
