POTATO CREEK STATE PARK
25601 State Road 4 • P.O. 908 • North Liberty, Indiana 46554
(574) 656-8186  •  3,840 acres  •  Established 1969

Please carry out all trash you produce in order to keep your park clean and beautiful for others to enjoy.
Drinking water should be taken only from pumps, vending or advertising without permission of the provider homes for a wide array of other wildlife and plants provide a habitat for a variety of insects, birds and other animals. In some part of their life cycle.

Native prairie also is being returned to the Potato Creek landscape through plantings. The prairie areas will be maintained with controlled burning. These meadows put on a colorful late summer flower and grass display.

Other areas of the park are being allowed to grow into wetland forest. Some of the highlights of the forests are the spring wildflower displays and a variety of wildlife, including songbirds, raccoon, fox, coyote and turkey.

Swamp Rose Nature Preserve, located in the northeastern part of the park, is a favored location for beavers.

This blend of wetlands, prairies and forests reflects the reality on June 6, 1977, when the 6-square-mile (3,840-acre) area was formally dedicated. This international mile (3,840-acre) area was formally dedicated. This international
