LODGING

The Corps of Engineers has developed a partnership in the management of the public land at Salamonie Lake. Under a lease agreement, the Indiana Department of Natural Resources operates and maintains the recreation facilities and wildlife areas at the lake, except the areas noted on the map.

PARTNERSHIPS

As the second largest reservoir of the Upper Wabash Reservoirs, the U.S. Army Corps of Engineers regulates the water level and operates the dam for flood control. The DNR manages the multiple-use recreation and wildlife areas. This reservoir, along with Mississinewa to the west, and J. Edward Roush to the east, serves to reduce flood stages downstream. The three dams have saved millions of dollars in flood damages.

PURPOSE

Salamonie Lake and Salamonie River State Forest are located in Huntington and Wabash counties in northeastern Indiana on the Salamonie River. Accessible from the following routes: State Road 524 on the west, U.S. 24 on the north, Interstate 69 on the east, and S.R. 124 on the south. S.R. 9 and S.R. 105 also cross the property north/south.

LOCATION

DNR Indiana Department of Natural Resources

Salamonie Lake comprises a total of 12,554 acres, including the 2,665 acre reservoir. The property is operated and maintained by the Indiana Department of Natural Resources, under a lease agreement with the U.S. Army Corps of Engineers. At summer pool the water forms a 2,665-acre lake. The property also boasts 40 ponds, marshes, and wetlands. Surrounded by the rich countryside of north-central Indiana, Salamonie Lake and the surrounding area have a lot to offer those seeking information on Indiana's pioneer history. Learn about towns under water, Indiana legends and more. Explore Kokiwanee and Hanging Rock nature preserves. Roam the Salamonie River State Forest, the largest state forest in northern Indiana. Visit the historic towns of Huntington and Wabash, which are only a short drive from Salamonie.
